Panthers look to put loss behind for Sepior Night'

By Karen A. Lewis Sports Correspondent

BARRE - For nine Quabbin Panther football players, senior night was always something that was down the road, eventually happening some-

Well, that someday is tomorrow night, as they are being celebrated alongside other homecoming celebra-

"I personally can't believe I'm a senior, never mind that it's senior night," Quabbin captain Derek Rohan said. "I don't think it will sink in until I step out on the field with my

"It does feel crazy that it's my senior night as this is only my second season as a player," Panther captain Joe Nichols said. "It's hard to comprehend that I've only got a few games left in my career since it seems just a few games ago it began."

Moving forward and focusing on new challenges is what the Panthers spent their time doing this week after a difficult Saturday night game

against Tyngsboro where they fell

"I thought we fought hard and gave them a game," remarked Nichols about the Tigers. "On another night, there's no question in my mind we could have come out on top. Mainly we struggled with turnovers, with two pretty early on in the game it was an energy killer for sure."

Quabbin head coach Dave Buchanan also agreed with Nichols.

"We had our opportunities," Buchanan said. "We lost the turnover battle and had bad penalties that put us in bad situations. We need to be more disciplined, and that's on me."

It really wasn't until the fourth quarter where Tyngsboro came on strong with 14 points. Touchdowns by the host team in the first and second quarters made it possible for a Panther comeback to happen.

"Tyngsboro puts a lot of pressure on an opponent's defense to cover the entire field," said Buchanan. "They were able to find some things that worked and we took too long to adjust. They also played with a lot

of emotion. It was their first game on their new turf and their homecoming. We struggled to match their intensity.'

However, with tomorrow being Ouabbin's homecoming and facing the winless Hudson Hawks, chances are in the Panther's favor for a potential win to improve their 1-5 overall record.

"Hudson is a solid football team that is well coached," stated Buchanan. "They won't make a lot of mistakes so we have to be disciplined and not make mistakes of our own."

Another huge factor in the Tyngsboro loss could have been the absence again of star senior Colby

"We are hoping Colby can return this week," said Buchanan. "We lost a couple of guys through the course of playing Tyngsboro - Tony Robidoux and Seth Talbot – that are difference makers for us."

One shining spot last week for the Panthers was senior Zack Coffin.

"Zack played his heart out," shared Buchanan. "He had a few big runs and really worked hard both ways."

Coffin plays both running back and kicker.

"I have kicked from when I first started playing football," Coffin said. "I feel the kicker is actually one of the hardest positions to play – seeing how you make or break a game."

Coffin is another player trying to wrap his head around senior night.

"I never realized how time actually flies by, it feels like just yesterday I was a freshman," added Coffin. "I like the brotherhood of football where everyone comes together for a common goal to win."

Buchanan hopes for good results against Hudson and something the seniors can remember.

"We have to focus on keeping football fun and making sure we are working hard," concluded Buchanan. "The kids have worked hard all season so it is frustrating to not get them a win."

Quabbin senior Panthers to be recognized tomorrow night include Austin Case, Zack Coffin, Corey Morgan, Dillon Escandon, Joe Nichols, Colby Smith, Derek Rohan, Phil Soucy and Ethan Pickens.

T-Birds get second win over Bruins at home

Thunderbirds (2-0-0-2) put together another dominant offensive performance in a 6-3 win over the Providence Bruins (1-4-0-0) on Sunday at the MassMutual Center.

In the first period, the Thunderbirds were given three chances to score on the power play, but were unable to take advantage on any of their chances. Springfield also had an early Blaine Byron taken off the scoreboard, as Paul Thompson was deemed to have interfered with Zane McIntyre. The Bruins would answer that near-deficit with a tally of their own.

Seven minutes into the second period, Zach Senyshyn scored his second goal of the season on a one-timer that beat Springfield goaltender Sam Montembeault over his right shoulder and into the net just as time expired on a 5-on-3 Bruins power play. The goal put the Bruins up 1-0. Peter Cehlarik

SPRINGFIELD - The Springfield and Urho Vaakanainen picked up assists on the goal.

> In the second period, the Thunderbirds came out with a fire in their hearts and scored three unanswered goals in the first three minutes. First, Harry Zolnierczyk picked up his second goal of the season from the left faceoff circle thanks to a feed from captain Paul Thompson at the side of the net. The goal tied the score, 1-1, at the 1:18 mark.

> 50 seconds later, Anthony Greco scored to make it 2-1 on a mini-breakaway. Montembeault outletted to Zolnierczyk at the blue line, who then saucered a feed in the middle to Greco, who beat McIntyre over the glove hand to make it 2-1.

> Just over a minute later, the Thunderbirds struck again. Byron got credit this time around, cashing in on a backhand rebound off a Jonathan Ang shot into the pads of McIntyre from

point-blank range.

Three minutes later, Colby Cave tallied his second goal of the season for Providence, making it 3-2. Mark McNeill and Connor Clifton both picked up assists on the goal.

The third period was much of the same for Springfield. After killing off two different minor penalties, including parts of a 5-on-3 disadvantage, the T-Birds pulled away on the scoreboard. Four minutes into the period, Sebastian Repo had the puck on his stick at the right faceoff circle. Repo passed it to Zolnierczyk just ahead of him, who in turn tossed it to Jacob MacDonald who wristed one over McIntyre's right shoulder and into the top left corner, netting MacDonald his first goal with the Thunderbirds and increasing Springfield's lead to 4-2.

Just a minute and a half later, Henrik Borgstrom scored his second goal of the season off a spinning feed from Jayce Hawryluk, giving the T-Birds a 5-2 lead. Fellow forward Joel Lowry picked up the secondary helper on the goal.

Just under a minute later, after the Bruins were assessed a bench penalty for too many men on the ice, MacDonald snuck his second goal of the game over the shoulder of McIntyre on a toe drag wrist shot from just beyond the left faceoff circle. MacDonald received a pass from Hawryluk, who got his second assist of the period.

Montembeault finished with 30 saves to pick up his second win in as many starts to begin his season.

Up next, Springfield travels to Laval, Quebec, for a two-game set against the Laval Rocket. The first game is scheduled for Friday, Oct.19 at 7:30 p.m., with the second one set for Saturday, Oct. 20 at 3 p.m.

ally been really good," remarked Mahoney. "I think my times this year are much better than my times last year. Running with Ben Morin and Brock Dyer was one of the best things I could have done. They inspired me."

Both Morin and Dyer, were two of the top senior runners on the team last year who helped Mahoney along as a freshman.

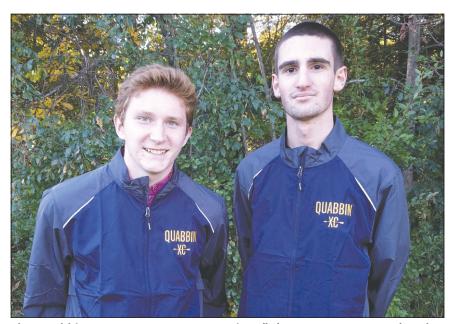

In the last few meets against Hudson, Tahanto and North Middlesex, Mahoney has won all three, with teammates Malakai Kraskouskas and Elliott Walsh earning second and third place finishes.

The team overall is leading the Mid Wach C division with a 3-0 record and doing great overall with a 5-1 standing, their only loss happening in their first meet against Narragansett 28-29 at the beginning of September.

Considering how last year the team went 8-0 and won the league, but lost the power seniors at graduation, this year was supposed to be about starting

"This is a rebuilding year that has gone well," Longtime Quabbin coach, Paul Goewey said. "They work well as a group and run as a pack."

According to Panther senior captains Ben Sacramone and Tucker Skowyra, doing so well this season has not been a big surprise, especially given how hard the team works.

The Quabbin 2018 cross country captains, (I-r) Ben Sacramone and Tucker

"We've been working on running as a pack up in the front to create better scores and we are getting better and better every week," Sacramone said, who has devoted his middle and high school years to the cross country team. 'Personally I am working on endurance. Being a sprinter and a jumper the rest of the year, I have trouble keeping my stamina for the duration of the race, but I see myself improving every meet, so that's great."

Sacramone has usually been placing in the Panther ninth or tenth spot – around 16th or 17th overall at meets.

Skowyra, another year long running and track athlete, leads by example as he also has been on the Panther cross country teams since seventh grade and usually is a solid seventh place runner for Quabbin.

"I have been working on being able to push myself during races," said Skowyra. "Last year we lost a

lot of our team, but we have multiple guys that stepped up to fill in spots."

Aside from dual meets during the week, two weeks ago Quabbin participated in the large Wachusett Invitational, involving schools from all over Central Mass and earned third place as a team in the division two varsity race.

"Owen was just a few seconds away from winning the meet," shared Sacramone. "Junior teammate Max Leroux surprised us and place second overall in the jayvee race and actually earned a spot on varsity with that race. We definitely have a shot at districts and we're hoping to make an impact in November."

Quabbin is anticipating sending their top seven runners to districts in November. Mahoney is excited for the possibilities.

The team overall has been doing absolutely amazing," said Mahoney, who credited Goewey for being a great coach. "Coach Goewey always knows what he's doing and has the best information about what to do before a race that actually works. So you know everything is going to go well if you just listen to Coach.'

The team will travel next week to Fitchburg for the League Championship on Oct. 27 and participate in Districts in Gardner on Nov.

Mentorship and Counseling - Seminar participants will be offered free, **ongoing** access to a web-based, "help-desk" facility that provides access to the knowledge and experience of professional industry consultants with expertise in Business Development, Marijuana LIcensing, Federal and State law, and Federal and State accounting. This post-seminar mentorship and counseling facility will assist and guide PTG participants by providing the following:

- Exclusive access to an online resource center that provides links to documents, state and local resources, service providers and articles that will benefit the PTG participant.
- Exclusive access to our "Ask me anything" FAQ page, where PTG participants may post questions and receive answers to Marijuana industry related issues.
- A weekly telephone conference that comprises a 60-minute check-in with PTG participants, with a Q&A session, followed by a number of, 30-minute, pre-booked individual calls that allow PTG participants to pose or discuss business sensitive or confidential questions and matters without fear of disclosure.

Positive Impact Survey - A goal and measurement of our program progress will be our Positive Impact Survey. All participants in the one-day seminar are required to complete and submit the pre-seminar baseline survey. The goal of the survey is to help identify the "capture" demographics of attendees. A second, follow-up survey will be completed and submitted at the conclusion of the one-day seminar. This will help identify our core survey group.

The goal of the program is to gather a cadre of core survey participants. This group should comprise those participants whose interest in the marijuana industry and the Green Gateway Program extends beyond the initial seminar. Participants in the core survey, while benefiting from ongoing mentorship and counseling, will through a series of in-depth questionnaires, focus groups and feedback opportunities, provide a wealth of data detailing demographics, backgrounds, challenges and advantages encountered or perceived by seminar attendees and survey participants. The qualitative and quantitative findings of our survey will be published in an annual report and will serve as documentation of the progress and success of our plan. This report will be made available to the CCC, state funding agencies, and local business development organizations. This report will help assess and measure the obstacles and routes to success for PTG participants.

Measurements:

Program Progress and Success - The success and impact of this program will be measured through the following means:

- Attendance Attendance will be counted and recorded through both the survey and attendee records. Attendance goals will be achieved if at least 25% of attendees are PTGs from any ADI.
- **Feedback** All attendees, survey participants, and survey recipients will be asked to complete feedback surveys on the content and delivery of this program. Our feedback goals will be achieved if 75% or more attendees provide feedback and that feedback rating is at least 3.5 out of 5.
- Sustainability One of our benchmarks of success will be sustained participation in our program. We
 define "sustained participation" as the continued engagement of at least 25% of attendees in our post
 seminar activities such as mentorship and counseling activities, accessing our online resource center,
 or participating in our weekly telephone conference during the 3 months following their first seminar
- Survey Data use -The success of our survey data efforts may be measured by the circulation of our annual survey data report to at least two state organizations, the governing body of the above ADI, and at least two independent regional workforce development and/or economic development organizations.
- **License Renewal:** A comprehensive annual report that shows the progress or success of this plan will be provided to the CCC prior to annual renewal of the license and each year thereafter, commencing with the date of provisional license.

Bylaws

ARTICLE I OFFICES

- Section 1. The principal office of this corporation shall be in the Commonwealth of Massachusetts.
- Section 2. The corporation may also have offices at such other places both within and without the Commonwealth of Massachusetts as the Board of Directors may from time to time determine or the business of the corporation may require.

ARTICLE II MEETINGS OF STOCKHOLDERS

- Section 1. All annual meetings of the stockholders shall be held at the registered office of the corporation or at such other place within or without the Commonwealth of Massachusetts as the directors shall determine. Special meetings of the stockholders may be held at such time and place within or without the Commonwealth as shall be stated in the notice of the meeting, or in a duly executed waiver of notice thereof.
- Section 2. Annual meetings of the stockholders, commencing with the year 2019, shall be held in May of each year as may be set by the Board of Directors from time to time, at which the stockholders shall elect by vote a Board of Directors and transact such other business as may properly be brought before the meeting. Meetings may be held by telephonic conference call provided all stockholders are present telephonically, or have expressly declined to participate.
- Section 3. Special meetings of the stockholders, for any purpose or purposes, unless otherwise prescribed by statute or by the Articles of Organization, may be called by the President or the Secretary by resolution of the Board of Directors or at the request in writing of stockholders owning a majority in amount of the entire capital stock of the corporation issued and outstanding and entitled to vote. Such request shall state the purpose of the proposed meeting.
- Section 4. Notices of meetings shall be in writing and signed by the President or the Secretary

or by such other person or persons as the directors shall designate. Such notices shall state the purpose or purposes for which the meeting is called and the time and the place, which maybe within or without the Commonwealth, where it is to be held. A copy of such notice shall be either delivered personally to or shall be mailed, postage prepaid, to each stockholder of record entitled to vote at such meeting not less than ten nor more than sixty days before such meeting. If mailed, it shall be directed to a stockholder at his address as it appears upon the records of the corporation and upon such mailing of any such notice, the service thereof shall be complete and the time of the notice shall begin to run from the date upon which such notice is deposited in the mail for transmission to such stockholder. Personal delivery of any such notice to any officer of a corporation or association, or to any member of a partnership shall constitute delivery of such notice to such corporation, association or partnership. In the event of the transfer of stock after delivery of such notice of and prior to the holding of the meeting it shall not be necessary to deliver or mail notice of the meeting to the transferee.

Section 5. Business transacted at any special meeting of stockholders shall be limited to the purposes stated in the notice.

Section 6. The holders of a majority of the stock, issued and outstanding and entitled to vote thereat, present in person or represented by proxy, shall constitute a quorum at all meetings of the stockholders for the transaction of business except as otherwise provided by statute or by the Articles of Organization. If, however, such quorum shall not be present or represented at any meeting of the stockholders, the stockholders entitled to vote thereat, present in person or represented by proxy, shall have power to adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present or represented. At such adjourned meeting at which a quorum shall be present or represented, any business may be transacted which might have been transacted at the meeting as originally notified.

Section 7. When a quorum is present or represented at any meeting, the vote of the holders of a majority of the stock having voting power present in person or represented by proxy shall be sufficient to elect directors or to decide any question brought before such meeting, unless the question is one upon which by express provision of the statutes or of the Articles of Organization, a different vote is required in which case such express provision shall govern and control the decision of such question.

Section 8. Each stockholder of record of the corporation shall be entitled at each meeting of stockholders to one vote for each share of stock standing in his name on the books of the corporation. Upon the demand of any stockholder, the vote for directors and the vote upon any question before the meeting shall be by ballot.

Section 9. At any meeting of the stockholders any stockholder may be represented and vote by a proxy or proxies appointed by an instrument in writing. In the event that any such instrument in writing shall designate two or more persons to act as proxies, a majority of such persons present at the meeting, or, if only one shall be present, then that one shall have and may exercise all of the powers conferred by such written instrument upon all of the persons so designated unless the instrument shall otherwise provide. No proxy or power of attorney to vote

shall be used to vote at a meeting of the stockholders unless it shall have been filed with the secretary of the meeting when required by the inspectors of election. All questions regarding the qualification of voters, the validity of proxies and the acceptance or rejection of votes shall be decided by the inspectors of election who shall be appointed by the Board of Directors, or if not so appointed, then by the presiding officer of the meeting.

Section 10. Any action which may be taken by the vote of the stockholders at a meeting may be taken without a meeting if authorized by the written consent of stockholders holding at least a majority of the voting power, unless the provisions of the statutes or of the Articles of Organization require a greater proportion of voting power to authorize such action in which case such greater proportion of written consents shall be required.

ARTICLE III DIRECTORS

- Section 1. The business of the corporation shall be managed by its Board of Directors which may exercise all such powers of the corporation and do all such lawful acts and things as are not by statute or by the Articles of Organization or by these Bylaws directed or required to be exercised or done by the stockholders.
- Section 2. The number of directors which shall constitute the whole board shall initially be one (1). The number of directors may from time to time be increased or decreased to not less than one nor more than seven (7) by action of the Board of Directors. Directors need not be stockholders.
- Section 3. Vacancies in the Board of Directors including those caused by an increase in the number of Directors, may be filled by a majority of the remaining directors, though less than a quorum, or by a sole remaining director, and each director so elected shall hold office until his successor is elected at an annual or a special meeting of the stockholders. The holders of a two-thirds of the outstanding shares of stock entitled to vote may at any time peremptorily terminate the term of office of all or any of the directors by vote at a meeting called for such purpose or by a written statement filed with the secretary or, in his absence, with any other officer. Such removal shall be effective immediately, even if successors are not elected simultaneously and the vacancies on the Board of Directors resulting therefrom shall be filled only by the stockholders.

A vacancy or vacancies in the Board of Directors shall be deemed to exist in case of the death, resignation or removal of any directors, or if the authorized number of directors be increased, or if the stockholders fail at any annual or special meeting of stockholders at which any director or directors are elected to elect the full authorized number of directors to be voted for at that meeting.

The stockholders may elect a director or directors at any time to fill any vacancy or

vacancies not filled by the directors. If the Board of Directors accepts the resignation of a director tendered to take effect at a future time, the Board or the stockholders shall have power to elect a successor to take office when the resignation is to become effective.

No reduction of the authorized number of directors shall have the effect of removing any director prior to the expiration of his term of office.

ARTICLE IV MEETINGS OF THE BOARD OF DIRECTORS

- Section 1. Regular meetings of the Board of Directors shall be held at any place within or without the Commonwealth or by written consent of all members of the Board. In the absence of such designation regular meetings shall be held at the registered office of the corporation. Special meetings of the Board may be held either at a place so designated or at the registered office.
- Section 2. The first meeting of each newly elected Board of Directors shall be held immediately following the adjournment of the meeting of stockholders and at the place thereof. No notice of such meeting shall be necessary to the directors in order legally to constitute the meeting, provided a quorum be present. In the event such meeting is not so held, the meeting may be held at such time and place as shall be specified in a notice given as hereinafter provided for special meetings of the Board of Directors.
- Section 3. Regular meetings of the Board of Directors may be held without call or notice at such time and at such place as shall from time to time be fixed and determined by the Board of Directors.
- Section 4. Special meetings of the board of Directors may be called by the President. Written notice of the time and place of special meetings shall be delivered personally to each director, or sent to each director by mail or by other form of written communication, charges prepaid, addressed to him at his address as it is shown upon the records or is not readily ascertainable, at the place in which the meetings of the Directors are regularly held. In case such notice is mailed or telegraphed, it shall be deposited in the United States mail at least forty-eight (48) hours prior to the time of the holding of the meeting. In case such notice is delivered as above provided, it shall be so delivered at least twenty-four (24) hours prior to the time of the holding of the meeting. Such mailing, telegraphing or delivery as above provided shall be due, legal and personal notice to such director.
- Section 5. Notice of the time and place of holding an adjourned meeting need not be given to the absent directors if the time and place be fixed at the meeting adjourned.
- Section 6. The transactions of any meeting of the Board of Directors, however called and noticed or wherever held, shall be as valid as though had at a meeting duly held after regular call and notice, if a quorum be present, and if, either before or after the meeting, each of the directors not present signs a written waiver of notice, or a consent to holding such meeting, or

an approval of the minutes thereof. All such waivers, consents or approvals shall be filed with the corporate records or made a part of the minutes of the meeting.

Section 7. A majority of the authorized number of directors shall be necessary to constitute a quorum for the transaction of business, except to adjourn as hereinafter provided. Every act or decision done or made by a majority of the directors present at a meeting duly held at which a quorum is present shall be regarded as the act of the Board of Directors, unless a greater number be required by law, or by the Articles of Organization. Any action of a majority, although not at a regularly called meeting, and the record thereof, if assented to in writing by all of the other members of the Board shall be as valid and effective in all respects as if passed by the Board in regular meeting.

Section 8. A quorum of the directors may adjourn any directors meeting to meet again at a stated day and hour; provided, however, that in the absence of a quorum, a majority of the directors present at any directors meeting, either regular or special, may adjourn from time to time until the time fixed for the next regular meeting of the Board.

ARTICLE V COMMITTEES OF DIRECTORS

Section 1. The Board of Directors may, by resolution adopted by a majority of the whole Board, designate one or more committees of the Board of Directors, each committee to consist of two or more of the directors of the corporation which, to the extent provided in the resolution, shall have and may exercise the power of the Board of Directors in the management of the business and affairs of the corporation and may have power to authorize the seal of the corporation to be affixed to all papers which may require it. Such committee or committees shall have such name or names as may be determined from time to time by the Board of Directors. The members of any such committee present at any meeting and not disqualified from voting may, whether or not they constitute a quorum, unanimously appoint another member of the Board of Directors to act at the meeting in the place of any absent or disqualified member. At meetings of such committees, a majority of the members or alternate members shall constitute a quorum for the transaction of business, and the act of a majority of the members or alternate members at any meeting at which there is a quorum shall be the act of the committee.

Section 2. The committees shall keep regular minutes of their proceedings and report the same to the Board of Directors.

Section 3. Any action required or permitted to be taken at any meeting of the Board of Directors or of any committee thereof may be taken without a meeting if a written consent thereto is signed by all members of the Board of Directors or of such committee, as the case may be, and such written consent is filed with the minutes of proceedings of the Board or committee.

ARTICLE VI COMPENSATION OF DIRECTORS

Section 1. The directors may be paid their expenses of attendance at each meeting of the Board of Directors and may be paid a fixed sum for attendance at each meeting of the Board of Directors or a stated salary as director. No such payment shall preclude any director from serving the corporation in any other capacity and receiving compensation therefor. Members of special or standing committees may be allowed like reimbursement and compensation for attending committee meetings.

ARTICLE VII NOTICES

- Section 1. Notices to directors and stockholders shall be in writing and delivered personally or mailed to the directors or stockholders at their addresses appearing on the books of the corporation. - Section 3. Whenever any notice whatever is required to be given under the provisions of the statutes, of the Articles of Organization or of these Bylaws, a waiver thereof in writing, signed by the person or persons entitled to said notice, whether before or after the time stated therein, shall be deemed equivalent thereto.

Overview: B Leaf Wellness Centre LLC (B Leaf) is a Massachusetts-registered Limited Liability Corporation, established to achieve the legal retail sale of high-quality marijuana plants and products. The retail store will serve locals and visitors to the town of Ware.

B Leaf will stand out in the market due to the uncompromising quality of its products, community engagement, and integration with local community. *B Leaf*'s core business strategy is to inspire a conscientious approach to responsible, adult-use cannabis consumption through community, retailer, and customer engagement.

Market: With the passing of new legislation, legalized marijuana is the fastest growing US Industry. According to ArcView Market Research, the US national legal marijuana market value is now assessed at \$6.7 billion, comprising all states that have active and open sales of marijuana to people legally allowed to possess it under state law. The national market is projected to grow from current levels to \$24.1 billion by 2025 according to New Frontier Data's 2017 Executive Summary. The opening and legalization of the Massachusetts adult-use marijuana market are sure to see a great many players of all sizes looking to claim their share of the market. The initial phases of this liberalization will likely witness much innovation, novelty, and social exploration. Certain constants will prevail, however. It is likely that a great many retailers will successfully apply for licenses and that these retailers will naturally need products to sell. The initial "novelty-factor" of legalized marijuana will (if legalization in

other states is anything to go by) likely lead to an initial surge in sales leading to shortages of supply, followed by a modest downward trend towards stabilization in sales on the market as a whole.

B Leaf benefits from offering a range of mature products. We intend to build market share by appealing to a broad spectrum of customer groups and demographics. We will achieve this goal by supplying select cannabis products from among the best that Massachusetts cultivators and manufacturers have to offer.

B Leaf will engage in numerous public relations and marketing strategies. These will include engagement and support of local community activities as well as consultative participation in marijuana educational seminars. These services are intended to build market awareness of the *B Leaf* brand, highlight the quality of our products, and implement community objectives encouraged by B Leaf's value system.

Competition: The Massachusetts adult-use marijuana industry is still in the emerging stages of market growth. *B Leaf* undoubtedly will see competition from other retailers. It is evident that medical marijuana growers, confronted by the projected slump of the medical niche in favor of the recreational market, will rapidly make their product available to retailers or open recreational retail stores of their own. That being said, not all cultivators, manufacturers or retailers are created equal. A great many cultivators are planning to use indoor growing techniques that consume large quantities of electricity. While these methods are entirely viable, they are likely to create significantly higher overheads. Similarly, outdoor cultivators use large-scale cultivation techniques that focus on quantity rather than quality. *B Leaf*'s competitive advantage over such players is that we are free to choose the finest products, at the most advantageous price point from preferred suppliers. This freedom and flexibility will allow us to successfully carve out an appropriate market share and aggressively establish brand and product recognition.

Risk/Opportunity: The most significant risk associated with our business model is timing. The early movers offering consistent quality and availability will have a distinct advantage and strong position within the local market. Rapid product launch will lead to the realization of a product offering that not only caters to immediate market needs, but that preemptively embraces the projected demands of the market. Implementing our strategy in a timely manner will put *B Leaf* in the best position to succeed.

Price/Profitability Projections: It's important to note a few keys to this plan and how projections have been calculated. Customer flow and sales volume has been estimated following a study of the sales patterns and trends in the states of Colorado, California, Washington, and Oregon. Since these states have a longer cannabis sales history than Massachusetts, their pricing trends over the past 2-3 years are useful and relevant to our projections. We have also considered current black-market pricing in Massachusetts along with the Cannabis Bench Mark.

• The above study suggests the following: Monday through Friday an average of 24 customers per hour. Saturdays an average of 36 customers per hour. The average purchase per customer is estimated to be \$71.00.

Capital Requirements: The capital requirements for *B Leaf* to execute this business plan are approximately **\$182,025** plus including working capital (excluding inventory) and a further **\$27,850** of permitting costs for the first year of operations.

The Company will allocate the invested capital to the following:

Construction, fit-out and operations		182,025

2.4 Legal Counsel

Richard M. Evans

Richard M. Evans has practiced law in Western Massachusetts for over 35 years, concentrating in the representation of non-profit state and regional land conservation organizations. As a Main Street practitioner, he has represented many business owners, buyers and sellers of residential and commercial real estate, litigants, estate fiduciaries and clients seeking permits or other indulgences from local and municipal boards. For nearly his entire professional career, he has participated prominently in the marijuana legalization effort. In 1981, he authored the first comprehensive regulation/taxation plan to be introduced as legislation in Massachusetts, upon which bills were modeled and introduced in other states. It was re-introduced for the 2011-12 legislative session as H1371, An Act to Tax and Regulate the Cannabis Industry. As a member of NORML's board of directors, he was the moving force behind NORML's adoption of the Principles of Responsible Cannabis Use. His numerous op-eds and other writings have helped shape and propel the counter-prohibitionist narrative. He maintains the archive, www.cantaxreg.com, a website providing resources for taxing and regulating the developing legal cannabis industry.

Michael D. Cutler

Michael D. Cutler has practiced law in Massachusetts for more than 35 years, focusing on criminal defense, civil litigation, and state and municipal administrative proceedings. He has served as a town

planning board member evaluating applications for real estate development permits; he has represented applicants seeking such permits and others, including liquor licenses. He is state-certified to represent prisoners and patients in state criminal post-conviction and mental health proceedings, to train and re-certify private lawyers who accept such appointments, and is state-certified to represent prisoners, convicted of murder at trial, in post-conviction proceedings in state and federal court. As a 20-year member of the National Legal Committee of NORML, Attorney Cutler is well connected with colleagues in states that protect medical marijuana. He has consulted for a successful cannabis dispensary licensee in a neighboring state overcoming the threat of federal interference.

3. Products

3.1 Product Description

As marijuana emerges from the shadow of prohibition it reveals itself to be a widely popular drug in the U.S., currently second only to alcohol and nicotine. *B Leaf* will offer a spectrum of Indica, Sativa, and hybrid flower cultivars to serve market demand. Many of the strains we have selected for sale are prized genetics and have become sought after at legal and medical marijuana dispensaries nationwide. *B Leaf* will carefully select only the superior current and future stars of the marijuana constellation.

B Leaf will offer the following product classes for sale at our Ware retail store:

• Flower - The curing process is a critical determinant of the final quality of marijuana. While all cultivators and manufacturers understand the importance of the process, most accept sacrificing high quality for speed and convenience of production. At the same time, while some manufacturers do take the time to produce a beautifully cured product, their offerings are often defeated by woefully inadequate dispensing methods that see the product deteriorating rapidly pre-sale. We address this problem by selecting flower buds that are correctly cured, and creating standardized weight portions pre-packaged that preserve freshness, quality, and flavor at the point of sale.

- **THC-Infused Edibles** Cannabis edibles are preferred by some consumers because ingesting cannabinoids through the GI tract provides a different and often more therapeutic effect than inhaling. *B Leaf* will offer a range of attractive, appetizing, and appealing, adult-use focused edible products.
- Topicals These are external applications of cannabis that can be used to treat body pain or skin conditions. Topicals are infused with THC, CBD, and other cannabinoid extracts. Topicals include lotions, creams, balms, and oils. As they are non-psychoactive, topicals are often chosen by individuals who need the therapeutic benefits of marijuana without the cerebral euphoria associated with other delivery methods.
- Other Products While our core products will be those listed above, *B Leaf* fully intends to offer a number of cutting-edge products and will carefully study the opportunities offered for the profitable sale of exceptional products offered by other manufacturers.

4. The Market

4.1 Market Overview

Currently, 32 states in America and the District of Columbia have legalized marijuana use in some form (medical or recreational). The majority of these states have allowed sales for medical use and nine states, including Massachusetts, have legalized recreational or adult-use. Since 60% of the population resides in states that have legalized the use of marijuana for medical use, recreational use, or both, this indicates immense possibilities for the future growth of the industry.

4.2 Target Market

On November 8, 2016, Massachusetts voters approved the adult recreational use of marijuana. In 2017, an eight-person Cannabis Control Commission (CCC) was appointed by the Massachusetts state government to write the draft regulations for the law. The final regulations were released in April 2018, and outline the requirements for cultivation, production, security, transport, and retail sale of marijuana to consumers over 21 years of age. The CCC is now accepting applications for LMEs. With 39 cities, 312 towns, and 14 counties, the local municipalities of Massachusetts have been granted the authority to govern their own recreational marijuana industry which will inevitably result in varying local by-laws on the production, manufacturing, and sale of the plant across the state.

The advent of medical marijuana legalization in 2012 has helped produce market conditions that have created a more educated and sophisticated product consumer. It is natural, therefore, that the emerging adult-use market will lead consumers to have high expectations for the quality of the products they consume.

B Leaf's high-end licensed retail store will supply quality products while building a brand that represents a culture of sophistication, quality, respect for the plant, respect for the customer's interaction with cannabis, and the safe adult-use of cannabis and cannabis products.

5. Competition

5.1 Competitive Landscape

Companies in the marijuana industry typically compete on product type, quality, volume, and reliability. As a result of the maturity of a once illicit market, price competition, while an important factor, has widely recognized norms and expectations. These conditions may superficially appear to make competing on the price a somewhat lower expectation. Nonetheless, the sheer volume of potential cultivators and retailers makes price competition a genuine possibility. We will counter this with a robust pricing strategy that ensures the Cost of Goods Sold is carefully balanced against a potentially variable sales price providing revenue stability and continued profitability.

5.2 Direct Competition

The direct competition for *B Leaf* will come, unsurprisingly, from retailers that sell similar products with the same high quality and volume. The exact nature of such competition is difficult to quantify as the state of Massachusetts is in the very early stages of issuing adult-use marijuana licenses. With that said, *B Leaf* feels that as the industry is inchoate, working collaboratively with competitors in the area will benefit the local community as well as the industry.

5.3 Competitive Advantages

- Family business with strong working capital
- Generations of retail experience
- Local knowledge
- Competitive pricing
- Proximity to complementary businesses
- Effective and collaborative management
- · Timing of entry into the marketplace

6. Strategy and Execution

6.1 Summary

B Leaf will be recognized as a marijuana retailer that offers a range of distinctive products representing excellence, quality, sophistication, mindful production practices, and community values that thoughtfully represent customer needs and shared ideals. *B Leaf* will carve a significant niche among competitors using sales, marketing and presentation methods that reflect a deeper understanding of the context for adult-use marijuana.

6.2 Marketing Strategy

Value Proposition – *B Leaf* will offer for retail sale exceptional flower and THC-infused products offering customers the convenience and pleasure of a premium marijuana experience. Our high-quality marijuana products will be supplied by cultivators and manufacturers using careful cultivation, processing and extraction methods that demonstrate respect for the needs and nature of the cannabis plant. *B Leaf* product users will, through the purchase of our products, signal their appreciation for a locally-sourced, sophisticated, flavorful product, offered for sale through a community-supportive company.

The customer will recognize *B Leaf* as a brand and retailer that offers an entirely natural product free from contaminants; where quality, consistency, and an appreciation of the recreational and healthful benefits of marijuana are held in high esteem.

B Leaf customers, together with *B Leaf*, will take an active role in supporting events and activities that matter to the community on a local or national level; and together, will take part in those endeavors through the various means outlined in the *customer engagement*, *direct advertising*, and *educational activities* sections below.

Product Differentiation - The biggest players in the market use cultivation and extraction techniques that often require the use of chemicals such as butane or methods that tend to strip the integrity and flavor of the marijuana plant, leaving a discernible aftertaste. While this approach aids product consistency and simplifies processing, it inevitably compromises the end product. These methods often result in marijuana products that seem lifeless and lack complexity with regards to both flavor and healthful attributes. In short, a product that is fine for a quick high, but which is sorely lacking for the more discerning or sophisticated demographic.

B Leaf's approach allows is to respect the fundamental needs of the marijuana plant in a manner that ensures that we source products that maintain and amplify its natural characteristics, preserving the flavor, complexity, and healthful benefits for which it is valued and appreciated. We achieve this by buying products created using methods that compete favorably with industrial cultivation techniques while producing a superior product using processes that offer excellent energy efficiency and minimal

environmental impact when compared to other approaches.

Price point - While price is rarely the most important factor affecting buying behavior, it should strive to achieve parity with the customer's perceived value of the product. All pricing will ultimately be determined by economic and marketplace conditions, not least those presented by competitors and their pricing models. Nonetheless, marijuana products enjoy – in no small degree – the benefits of commodity values. Most vendors have a good idea of the fair market price for marijuana products as do the majority of current consumers. Our target market users will seek out or be attracted to a product that offers quality and value. The financial projections take into account a potential price drop in years three and four.

Promotion - The *B Leaf* Brand and products will be promoted through the following means:

Branding through product appearance and packaging – *B Leaf* products will be attractively presented in a manner that demonstrates the high-quality marijuana experience for which they stand. Our pure flower and THC-infused product packaging will boast design attributes that make them unique, distinctive, and distinguishable from afar.

B Leaf's core flower products will consist of the standard eighth, quarter, and half ounce sizes, carefully pre-packaged to preserve quality and freshness. This will avoid the tendency of bud tenders to break large buds or colas into smaller buds which dry out and blend in with inferior product before resale and will eliminate extraneous odors.

Direct marketing through our retail outlet – While the main thrust of our marketing efforts will aim at building a brand and product relationship with end-users, the nature of retail sales requires that our marketing and sales efforts work hand in hand. We will endeavor to engage our client-base personally with marketing collateral such as product information leaflets, safe product use information, advertising posters, product displays, and community campaign literature to support our retail sales efforts. We will establish marketing partnerships through workshops, presentations, and mutually beneficial training seminars that further strengthen our brand.

State, regional, and locally focused advertising and advertorials – The Massachusetts regulations regarding marijuana advertisements through print advertising, online advertising, sponsorship and more, present many challenges. These challenges are further exacerbated by the unwillingness of players like Facebook and Google to allow paid, marijuana-related advertisements across their medium. Federal laws that currently prohibit the sale of marijuana products across state lines largely negate the need for brand-building beyond adjoining state borders in the short term. As the principal market for our immediate future lies within the state of Massachusetts and surrounding states, this is where the main thrust of the advertising opportunities lie. While there are numerous national marijuana advertising platforms – often pay-per-click models – these can be costly and are most likely to reach those who are already fully-embedded in the marijuana culture rather than the more significant part of our general target market.

B Leaf will navigate the above-mentioned state advertising regulations by a policy of indirect advertising; leveraging our educational and community outreach programs to build brand and product awareness, through advertorials and carefully "sanitized" brand message advertisements aimed exclusively at the Massachusetts market, and direct advertising through our customer database as this grows via promotional activities.

Customer engagement through community support activities – *B Leaf* embraces community outreach, engagement, and support as a central tenet of our brand ethos. We aim to support activities, events, and organizations that benefit the local community and the causes our client-base support. Through packaging, marketing collateral and advertisements, current and prospective customers will be invited to visit our website and share in our support of local charities and organizations. These efforts will demonstrate *B Leaf* customers' values to the local community while reinforcing the *B Leaf* brand.

Direct advertising – The most straightforward and unfettered means of advertising to current and prospective customers is through direct advertising in the form of e-mail, electronic newsletters, social media and the like. Using branded marketing collateral, available at our retail outlet, in product packages, on websites, and social media, current and prospective customers will be invited to participate in our program of community campaigns and events. A condition of voting in our community fund campaign or participation in our educational programs will be to share e-mail or social media contact details. This data will allow us to rapidly build our marketing database and enable us – in a manner that satisfies legislative constraints - to direct advertising and promotions at a target audience that is of legal age to consume, is pre-disposed to marijuana consumption and is likely to share our community support aspirations and values.

Educational activities – Massachusetts state regulations encourage all licensed marijuana establishments to provide relevant educational opportunities for their local communities. *B Leaf* has created a comprehensive series of courses and lectures and will leverage the legitimate advertising and promotion of these courses to strengthen and enhance our brand and its underlying ethos. Participation in these classes will require online enrollment, providing additional opportunities to gather direct advertising data. The courses include:

- Cannabis 101 An introduction to the complex world of marijuana.
- Effective Medicinal Cannabis Use to Manage Ailments
- Cannabis Use for Seniors
- The Marijuana Industry An introduction to entrepreneurship in the industry.

Community informational activities – The *B Leaf* team will engage in support of lectures, seminars, and promotional exercises at our retail outlet and community events. These activities may include educational activities, allowing *B Leaf* to partner in activities that help us qualify for the *Leadership Ratings Program*. Such events will be used to promote *B Leaf* products and the *B Leaf* brand.

Customer Service Excellence - *B Leaf* must engage their customers with superlative customer service. It is essential that each member of staff knows our products well, can speak to our brand ethos, and understands customer needs and expectations. The entire *B Leaf* team must strive to act as individual brand ambassadors at all times.

Sales and Marketing Relationship: As a retail vendor of marijuana products *B Leaf* is compelled to approach the sales and marketing challenge with firm intent. We must strive to successfully engage our target market groups in a manner that facilitates sales by creating the desire to purchase among the end-user audience. Retail customers will learn about our product range and will be enticed to select our store above others through the activities mentioned above. Our marketing strategy will allow retail customers to view *B Leaf* as a thoughtful, reliable and knowledgeable product supplier offering branded products with which its customers can readily identify. At the same time, end-users will view *B Leaf* as a responsible, mindful supplier of high-quality marijuana products that meet their consumption needs in a manner that also satisfies their ethical, environmental, health, and recreational aspirations.

Marketing Objectives

- 1. Persuade our retail customers that our brand and products represent qualities and features that they desire.
- 2. Persuade end-users that our brand and products fit well with their consumption patterns, lifestyle, and ethical self-image.
- 3. Engage end-user customers in our community supportive marketing efforts.
- 4. Satisfy and exceed customer service expectations.

Target Market - The traditional thrust of the Massachusetts marijuana market will aim to serve men in the 21-40 years age group primarily. While this is a market we fully intend to exploit, anecdotal evidence suggests that the real growth market lies elsewhere. *B Leaf* aims to direct its products, marketing, and branding at three additional groups that we see as the emerging market;

Consumers over 40 years old – Those over 40 years old are statistically the highest earners in the household. They are more likely to have mature, sophisticated tastes, more aches and pains, a greater appreciation for high-quality products, and a willingness to pay for this higher quality.

Adult female consumers – With a tendency for the industry to aim marketing at men in the 21-40 years age group, women struggle to find products with which they can readily identify. Our products will be presented and packaged in a manner that women will find attractive, and that will demonstrate that marijuana is a product for them rather than a male-dominated culture to which they must adapt.

Independent medical consumers – While medical marijuana dispensaries will undoubtedly continue to thrive in one form or another, many current medical marijuana patients are merely regular consumers leveraging medical marijuana as a means to legitimize their purchase of adult-use of marijuana. The advent of retail outlets will effectively eliminate the need for such patients to visit dispensaries to fulfill their marijuana needs. Genuine medical consumers with a good understanding of which form of marijuana offers them the benefits that they seek and new medical consumers who prefer to explore the benefits of marijuana through anecdotal advice or recommendation, will possibly do so through retail outlets rather than medical dispensaries.

Market Channels - Retail sales of marijuana are strictly limited to licensed retail outlets, medical marijuana dispensaries and, in the future, marijuana cafes and smoke clubs. The location, presence, and licensing status of these establishments are publicly available through a single online source. Regulations effectively preclude opportunities for online purchases as the transportation of marijuana products is strictly regulated. Similarly, home delivery licenses are not yet permitted. *B Leaf* will sell its products solely through our licensed retail marijuana establishment.

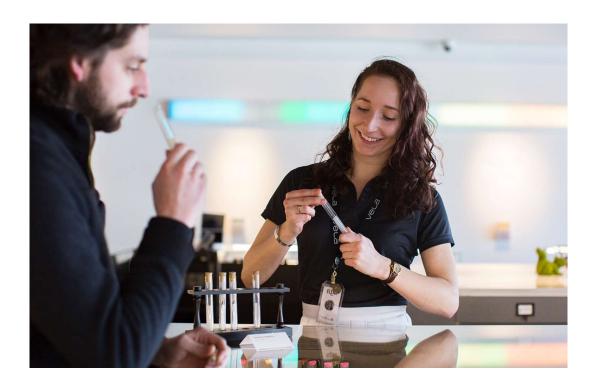

6.3 Sales Strategy

Target Sales Market

As a retail sales operation, our primary target sales market must be the current and potential adult cannabis users. It is challenging to make an exact prediction of the number of future retail outlets that will be created statewide. We can make sensible estimates, however. There are currently 20 medical marijuana outlets in the state, most of which will likely make a rapid transition to selling recreational marijuana or supplying marijuana to retail outlets.

Based on the fact that there are some 200 marijuana dispensaries awaiting licensure through the Department of Public Health, and that some of these will likely opt to apply for recreational retail licenses, it is estimated that by the end of 2018, 30 adult-use marijuana retail outlets will have

received licenses, with a further 50 outlets opening by the conclusion of 2019. Naturally, these will be spread throughout the cities and towns of the state that have not chosen to prohibit cannabis or have not imposed a moratorium.

6.4 Implementation Strategy

Capex/Opex capital

The license application process requires that applicants demonstrate and document that the capital funds required to execute their business plan successfully are available (in escrow, initially), and have been obtained from legitimate sources. The *B Leaf* business plan demonstrates a need for \$204,000 in capital expenditure for space preparation, fit-out, systems, and equipment, and a further \$27,850 to meet initial licensing needs, and the establishment of a strategic reserve totaling \$500,000 during the first twelve months of operation. These initial funds are readily available and privately funded.

License Application

The process for license application is divided into three "packets." These packets may be submitted simultaneously or sequentially. Each packet must be approved before the next will be considered. However, all packages must be submitted before any review commences. All three packages and the application fees must be fully approved before a provisional license will be granted. Once a provisional license has been granted the state will verify the approval of the relevant municipality. Subsequently, the state will perform specific inspections before issuing a full license. No retail sales may begin before a full license has been granted.

Construction, Fit-out, and Systems Acquisition

B Leaf retail shop and equipment will be constructed, installed and commissioned under the supervision of an architect.

Operations organization, Policies, and Inspection

The state of Massachusetts imposes substantial demands regarding systems and administration for marijuana establishment operators. State law provides powers to impose fines for violations of these regulations. Accordingly, it is essential we ensure that our systems, policies, and administrative routines are robust, compliant and efficient before any state inspection and the subsequent commencement of operations.

7. Management

The proper management of all aspects of the proposed project is crucial to the success of *B Leaf*. We will bring together a qualified, women-owner, family-based team that offers the experience and knowledge to achieve both our business and community goals. The two principal owners and operators will be:

Lori Sinclair - Lori has many of business experience following her 25 years as co-owner and manager of M&L equipment repair together with her ex-husband Mark Sinclair. Lori received her GED through the town of Ware's literacy program in 2016, and has recently has been employed as the office manager of M&L Equipment Repair located in Ware MA.

Megan Sinclair – Megan is a graduate of The University of Massachusetts' class of 2013. She majored in Communication with a minor in psychology. Upon graduating she worked at M&L Equipment Repair as financial comptroller. She has subsequently worked at North Brookfield Savings Bank as a Bank Teller, and has plans to attend graduate school.

7.1 Personnel plan

Making allowances for sickness, personal days, vacations, and the like, we anticipate 10 full-time employees. Our retail manager, who currently lives in Ware, will start with a \$55,000 yearly salary with bonuses up to \$70,000. Our assistant manager will start at \$45,000 annually, and retail clerks and other staff at \$15 per hour. We feel that a living wage will help build and solidify a team that is inspired to contribute to B Leaf and Ware.

The following positions will be available to fulfill needs at full operation. The hiring schedule will be timed to meet business requirements and is expected roll out in accordance with the headcount table below:

8. Financials

8.1 Financial Assumptions

The appended proforma financial statements are based upon the following financial assumptions:

Conservative sales estimates – Sales are estimated using average sales per person x average customer flow for a similarly-sized MMJ dispensary (an average of several states).

General costs are estimated to increase 5%, year-on-year. Salaries are estimated to increase 5% year-on-year.

Plan to restrict access to persons 21 years and older an extract from our Retail Store Operations Manual

1. Sales

1.1. Retail sale of cannabis

IMPORTANT NOTE

The retail sale of cannabis products is our reason for existence. We have been licensed by the state and local authorities to provide and sell inspected, quality cannabis products for adult use, and, where appropriate, to educate our clientele on any questions they might have about the safe use of these products.

Inevitably, many customers will seek out cannabis for its perceived medical benefits. We are not doctors, and consequently, cannot give medical advice. We can offer guidance and share anecdotal stories of what customers have experienced from some of the different strains and delivery methods (tincture, edibles, etc...) that we offer, but we cannot give assurances that any cannabis product will work to alleviate the customer's particular ailment or symptoms.

As a licensed retail store we are mandated to follow the state's requirements for tracking customer use, and providing educational materials. While the state does not require the tracking and recording of customer details we do so as an essential part of our company policy of rigorous compliance with all state and local legislation and by-laws, and a key component of our strategy to combat diversion. All customers must have their details, supported by valid ID, entered into the database. These details, together with their purchases, will be recorded and maintained for the benefit of state inspectors.

NO customer may enter our retail premises without first producing a valid, recognized, photo ID. Valid ID must be shown to security personnel at the entrance to the retail store and at the Point of Sale for data-entry purposes.
