Subject: Request for records of costs related to Blossom Flower, LLC's operations in Holyoke MA for annual State License Renewal

Dear Ms. Aponte:

Please accept this letter as the City of Holyoke's (the "City's") response to your public records request, on behalf of Blossom Flower, LLC for records of any costs incurred by the City related to the Company's marijuana establishment at 1 Cabot Street, in Holyoke, (the "Establishment").

Holyoke is the process of updating all renewal and impact documentation for license holders in the city.

As you know, Holyoke is reviewing and continuing to document impact costs that have been realized, and will continue to be realized including, not limited to, potential public health consequences and related requirements for educational programming, potential public use and underage user enforcement, and infrastructure costs. Accordingly, this present assessment of costs is understood to be preliminary and is likely an incomplete accounting of potential impact areas that would be reasonably related to the Blossom Flower, LLC's operations at 1 Cabot Street, Holyoke, which the City anticipates includes the following:

1. Municipal inspection costs.
2. Executive, planning, legal, and inspection staff time spent involving comprehensive business plan review, community outreach and other assistance.

3. Executive and Administrative time associated with Host Community Agreement (“HCA”) negotiations.
4. Planning staff time to facilitate permitting; other staff time related to public hearings/meetings on permits/licenses for Establishment operations.
5. Traffic studies and/or mitigation review and implementation, including the implementation of new traffic signs and signals.
6. Increased law enforcement services and public safety personnel, including overtime costs where higher congestion or crowds are anticipated and/or where criminal activity has been reported.
7. Legal fees and costs associated with drafting, negotiating, and/or reviewing the HCA, operational plans and local permitting applications; legal fees and costs associated with public hearings/meetings on permits/licenses for Establishment licensing, including costs of publishing public hearing notices.
8. Executive/administrative/staff time assisting the Establishment implement its community impact/engagement plan (including facility costs if community engagement meeting(s) held on municipal property).
9. Executive and Administrative time spent on developing re-opening rules during the COVID-19 pandemic and addressing Establishment operations during the pandemic.
10. Time spent reviewing and responding to federal subpoenas related to marijuana establishment licensing, permitting, or operations.
11. Studies or improvements to address increased impact on municipal utilities (water/electricity).
12. Time spent developing community awareness of responsible approaches to cannabis use and avoidance of substance abuse.
13. Costs associated with the increase in substance abuse, including but not limited to such items as increased demand on local health care clinics and facilities; need for increased counseling and/or intervention programs.
14. Costs related to increased fire protection services.
15. Costs related to road and other infrastructure systems and improvements.
16. Costs associated with record keeping, including but not limited to documentation of costs reasonably related to community impacts.
17. Potential public use and underage user enforcement costs.

18. Costs to address potential public health consequences of marijuana use.
19. Educational programming costs including public health classes and DARE resource costs.
20. Infrastructure studies.
21. Municipal review of future operational issues.
22. Costs of drug recognition experts and advanced roadside impairment driving enforcement training programs for local police officers.
23. Other specialized training for local law enforcement officers.
24. Executive/administrative/staff/public safety/legal time spent responding to complaints or inquiries about the Establishment or its operations.
25. Any other City costs incurred in relation to the Establishment or its operations, including impacts on real estate and commercial development.
26. Studies to determine relative increases in substance abuse problems in the community
27. Legal fees associated with agreements other than the HCA, such as parking licenses; leases, easements or sale of City property, etc.
28. Police/Fire time associated with security plan review.
29. Executive and Administrative time associated with budget development to address community impacts.
30. Time spent responding to Public Records Requests related to the Establishment or its operations.
31. School specific programming and services.
32. Increased funding/provision of public health services.
33. Impacts on businesses and activities in the vicinity of the Establishment.

Blossom Flower, LLC's impacts on the community are still emerging especially as the cannabis industry continues to grow in Holyoke and throughout the Commonwealth. They also have been further accentuated by the unusual circumstance of the coronavirus pandemic and its associated requirements and restrictions, including municipal closures and staffing shortages. It should therefore be understood that this analysis is both evolving and ongoing.

The City of Holyoke has established a process that includes an open discussion with the industry, an application to utilize impact fee funds, a Citizens Review Committee, mayoral and legal department review, and finally a City Council vote of at least 2/3 majority to approve the spending request. The City anticipates that it will be able to more fully realize and analyze the impacts related to Blossom Flower, LLC as it continues to engage in operations.

Respectfully,

Lisa A. Ball
City Solicitor
City of Holyoke

Participants must be a past or present resident of Holyoke and must also be at least 21 years of age.
3. Community outreach and engagement within the neighborhoods of Holyoke to educate residents about our Latina woman, minority, and Social Equity-owned business.

posts (including Facebook).

ENERGY COMPLIANCE PLAN

Blossom Flower LLC (“Blossom Flower”) is currently exploring potential energy-use reduction opportunities such as natural lighting and energy efficiency measures and a plan for implementation of such opportunities. Blossom Flower will update this plan as necessary and will further provide relevant documentation to the Commission during Architectural Review and during inspections processes.

Potential Energy-Use Reduction Opportunities

Blossom Flower is considering the following potential opportunities for energy-use reduction and plans for implementation of such opportunities.

1. Natural Lighting;
2. Energy efficient exterior wall construction, which may include batt insulation, continuous rigid insulation, and air and vapor barriers; and
3. Plumbing fixtures that are Water Sense rated for reduced water consumption.

As the need and opportunity for facility upgrades and maintenance arise in the future and the company becomes cash flow positive, Blossom Flower will continue to evaluate energy-use reduction opportunities.

Renewable Energy Generation Opportunities

Blossom Flower is in the process of considering opportunities for renewable energy generation (including wind and solar options). Blossom Flower’s preliminary examination of renewable energy generation has determined that the upfront costs of such options are too expensive at this time, although Blossom Flower may reconsider at a future date. Blossom Flower will also consult with its architects and engineers when designing the facility to determine the building’s capacity for renewable energy options (e.g. whether or not the roof can support the weight of solar panels). Nevertheless, our team is dedicated to consistently strive for sustainability and emissions reduction.

Strategies to Reduce Electric Demand

Blossom Flower is considering the following strategies to reduce electric demand:

1. Exterior and interior glazing on windows such that maximum natural daylight can enter the building without compromising security, reducing the reliance on artificial light during daytime hours;
2. Lighting fixtures that are energy efficient and used with Energy Star rated bulbs; and
3. Room lighting and switching will have occupancy sensors to reduce electrical consumption when rooms are unoccupied.

As the need and opportunity for facility upgrades and maintenance arise in the future and the company becomes cash flow positive, Blossom Flower will continue to evaluate strategies to reduce electric demand.

Opportunities for Engagement with Energy Efficiency Programs

Blossom Flower also plans on engaging with energy efficiency programs offered by Mass Save and the Massachusetts Clean Energy Center and will coordinate with municipal officials to

identify other potential energy saving programs and initiatives. Blossom Flower will also coordinate with its utility companies to explore any energy efficiency options available to Blossom Flower.
