Plan to Remain Compliant with Local Zoning

The purpose of this plan is to outline how Applicant will remain in compliance with local codes, ordinances, and bylaws for the physical address of our Marijuana Establishment at 15 Main St in Holyoke, which shall include, but not be limited to, the identification of any local licensing requirements for the adult use of marijuana.

Background

The City of Holyoke has an approved zoning ordinance regulating the time, place, and manner of Marijuana Establishments. This ordinance, Section 7-10 allows Recreational Marijuana Establishments, including Cultivation, Product Manufacturing, and Retail in the ("IG") General Industrial Zoning district. 15 Main St is located in the IG district and is compliant with all physical siting requirements outlined in the Ordinance. A Special Permit from the Holyoke City Council is also required. The applicant has applied for a Special Permit from the City Council. Special Permits do not expire unless a change of use occurs.

Applicant and its attorneys and consultants have reviewed this ordinance and have developed plans and strategies to comply with all requirements and special permit conditions.

Ongoing Compliance

The applicant is committed to remaining in compliance with all local codes, ordinances, and bylaws. Our attorney and compliance consultant will make periodic assessments of our operation for compliance with all applicable local, state, and federal laws and regulations, including zoning and special permit compliance.

Our Team is in regular contact with and will remain in contact with the Mayor and other applicable municipal officials to ensure that there is an open line of communication. We will remain current with all zoning ordinance changes and requirements to ensure that the Applicant remains in compliance.

Positive Impact Plan for Euphorium LLC

CCC Acknowledgments

The applicant will adhere to the requirements set forth in 935 CMR 500.105(4) which provides the permitted and prohibited advertising, branding, marketing, and sponsorship practices of every Marijuana Establishment.

No actions taken, or programs instituted by the applicant will violate the Commission's regulations with respect to limitations on ownership or control or other applicable state laws.

No donation or program to support any specifically named organizations or the furtherance of their goals have been proposed as this is a direct mentor-to-mentee program.

We acknowledge that the progress or success of our plan's goals must be documented upon license renewal, which occurs one year from provisional licensure, and each year thereafter.

We attest we will not provide any of our Positive Impact Plan program resources to Independent Testing Laboratories.

Programs:

Euphorium will engage with at least one Social Equity (SE)-owned company or entity or SE certified individual and provide them with business help, low interest loans, or funding to support the various steps, services and programs they may need to enter into the regulated industry.

Positive Impact Plans are intended to impact as the following groups:

- Past or present residents of the geographic ADI, which have been defined by the Commission and identified in its *Guidance for Identifying Areas of Disproportionate Impact*.
- Commission-designated Economic Empowerment Priority applicants;
- Commission-designated Social Equity Program participants;
- Massachusetts residents who have past drug convictions; and
- Massachusetts residents with parents or spouses who have drug convictions.
- The above persons will be referred as mentees

We will provide mentor-to-mentee business development assistance to mentees connected to Holyoke, MA, an Area of Disproportionate Impact, where we are located and where many SEs reside and are pursuing licensing, but having difficulties getting through licensing, accessing funding, etc.

The service is ongoing throughout the year and promoted in the following way.

- Continuously promoted through direct engagement and word of mouth with participants in the CCC Social Equity Applicant cohort through the close knit industry in Holyoke.

- The City of Holyoke provides public lists of applicants who have HCAs. We will directly contact mentees by using the City information.

We will provide business strategy, team development, document creation, permitting and licensing help, etc. or consulting on their cultivation, retail, processing, and delivery businesses or other licenses to help them move forward.

After hearing that some Social Equity applicants have been pursuing operations for some years, and we understand the journey is difficult, our program will mentor them, offer advice, connect them with proper professionals and guide their project so that they can open and in turn provide products for our retail store.

Employment:

We will advertise job postings when hiring, at least annually, in MassLive.com targeting Holyoke to encourage residents from ADI Holyoke to apply for jobs.

Goals:

1. Secure a SE mentee who is based or basing their cannabis business in Holyoke.
2. Business Plan Development for mentee
3. Hire 10% of employees from ADI Holyoke.

Measurements and Metrics:

1. Did we find an SE mentee willing to receive mentorship?
2. Was the mentee a resident from or seeking to open a business in Holyoke, an ADI?
3. Did we meet at least 2 Goals, above, over the year?
4. How many hours of direct consulting support (or documents) annually did we provide?
5. Did we hire 10% or more of our employees from ADI Holyoke?

Non-PDIC Attestation

I, Marco N. Aranzullo, am writing this attestation regarding Joseph McGovern, Victoria Anderson, and Richard Aranzullo's status as Persons Having Direct or Indirect Control ("PDIC") as defined by the Commission's regulations.

As the licensing process takes over a year, and a business plan changes as the market changes, I am removing Joseph McGovern, Victoria Anderson, and Richard Aranzullo from the business plan and have removed all control from the individuals. If they are to be involved with the company, they will be considered employees of the company so as not to cause any unnecessary delays in merely seeking licensing.

They do not have any direct or indirect control over any business decisions. Furthermore, they do not possess a majority equity stake in the company that would enable them to influence any business decisions or be on the application for licensure.

Therefore, I attest that Joseph McGovern, Victoria Anderson, Amanda Aranzullo, and Richard Aranzullo are not PDICs as defined by the Commission's regulations. They have been removed from the business plan.

Euphorium LLC Business Summary, UPDATED AS OF 5/8/23

Summary

Euphorium LLC will be located at 15 Main St, Holyoke, MA. To make sure the business will grow and acquire the reputation of top-notch we will structure the business around a working owner that has a hands-on approach not only to make the customers feel welcome but to lead employees by example. With this foundation we will stop loss and build a core group of employees that can be utilized as additional stores are opened (if so, permitted by the State of Massachusetts) and have a successful career in the industry by becoming a premier cannabis destination.

We will design our dispensary around a sustainable business model more easily adaptable to market changes, inventory shortages and even shutdowns as seen during the covid-19 pandemic; the low cost of the build-out and opening will allow us to put more cash flow towards stocking numerous high-quality strains and variations of cannabis and coupled with the no-stress, world-class customer service of the dispensary we will draw more customers and especially the customers who are overwhelmed by the large footprint corporate dispensaries.

Location

Euphorium's plan for the 4,900 square foot facility at 15 Main Street, Holyoke, MA, outlines a strategic and efficient approach to operating all three operations under one roof, as the industry used to do before regulations dictated that the smallest operation was to be no larger than 5000sf, far larger than 'vertical' operations which sustained the industry and consumers for years. The three licenses will coexist within the facility, each occupying designated areas and sharing common resources to maximize efficiency and minimize overhead costs to mimic a smaller, destination operation free of the bloated and unstable operations.

The facility's layout will be carefully designed to allocate adequate space for each operation, and its size, design, and operations is a business decision. The regulations do not stipulate the minimum size of operations so we will be able to operate compliantly, aligned with the industry practices that sustained the industry before regulators created arbitrary "tier sizes" for companies.

1. MRN284560 (Cultivation): The cultivation area will occupy approximately 500-1000 square feet of the facility, providing ample space for growing high-quality cannabis plants but which will only supply our retail and will not be for wholesale. Although we have a vertical operation, it mimics the size of operations that have sustained the industry for decades. We intend to include a window from the sales floor into the cultivation area to display the growing process and humanize growers instead of isolate consumers from the very human process of growing plants. THE WINDOW WILL BE COMPLIANT- not visible from the public view. The cultivation area will be compliant and physically separated from the other operations to maintain the necessary environmental conditions and ensure security.
2. MPN282263 (Processing): The processing area will encompass approximately 500-1000 square feet and will be strategically located adjacent to the cultivation area but contain no complex extraction machinery. Products will be processed into various cannabis products and made solely available in our retail environment to mimic the decades long industry that regulation has slowly crushed, forcing small operators back into the shadows and supporting large operators who tend to have little connection to the culture.
3. MCN283845 (Dispensary): The dispensary area will cover the remaining approximate 2,000-2,500 square feet of the facility and will be carefully designed to offer a comfortable, inviting, and professional retail environment for customers. The dispensary will be separated from the cultivation and processing areas by secure access points, ensuring compliance with regulations and maintaining the highest standards of security and confidentiality.

4. Storage/Common spaces: The facility will also include shared spaces and resources, such as offices, storage areas, and restrooms, which will be strategically located to support all three operations and cover approximately 1,000-1,500 square feet. The efficient allocation of space and shared resources will enable the applicant to minimize overhead costs, streamline operations, and deliver a superior customer experience. For those looking to see a precise floor plan, this will be developed after Provisional license is secured. See below for capital outlook.

Partners & Management

The owner and individual with sole control of the business is Marco N. Aranzullo, who will be on site every day running all aspects of the store from back-of-house operations to being in the sales and display area interacting with customers and hiring and training staff. Marco has spent 21-plus years running a private company as well as 5 years running a cigar & smoke shop.

Although friends and family members have been included in previous drafts of the business plan, the situation on the ground keeps evolving. Delays with licensing have caused stresses on the plan and for some investors to get skittish. Thus expediency is our top priority in securing funding. Funding usually comes after a team has made it through Provisional Licensing. Currently, Marco is the sole owner, has 100% control, and is considering hiring all employees for next stages, and seeking only institutional funding in order to remain compliant and maintain expediency.

Mission & Vision Statement

It is our mission to establish a first-class marijuana dispensary destination- a micro vertical license- that will not only sell quality adult-use marijuana as well as accessories but have outstanding customer service, act as a destination for adult-use marijuana customers and promote safe use and understanding of cannabis and sustain the culture that has kept cannabis knowledge alive for generations.

Design

The design we have created offers the best of flow, efficiency and security; and would breakdown the design to five areas, a check-in area where the customers can enter, be greeted, checked in and then proceed through locked doors to the sales and display area (the second area) where they would be able to purchase their product. The third area would be the back of house area housing storage, office(s), employee area, employee restroom etc. The fourth area would also be the inventory control room that houses all the product. The fifth area would be a security office. The design will be open design, with a warm rustic look with metal and pallet wood fixtures and design elements, complimented with limited glass cases and granite counters. The POS/CRM systems will be integrated with inventory and be similar to an IPAD register system to add to the modern feel and several kiosks' customers can access to place orders at to offer a more private setting for ordering before picking up their order at the checkout counter (security systems and procedures are included further into in this business plan).

Our cost estimates, as well as the cost of items such as build-out, security systems etc., will be lower due to the construction and security abilities of Marco and the contacts he has in the security and contracting industry to complete the work at a substantial savings.

Capital Resources

In order to ensure the success and growth of our cannabis operations at 15 Main Street, Holyoke, MA, we have reassessed our capital resources and identified a more sustainable and reliable financial foundation.

Rather than relying on personal funds and credit from individuals previously mentioned, we have decided to pursue institutional investment specifically tailored for cannabis companies. This section outlines our updated approach to securing the necessary capital resources for our business.

1. **Institutional Investment:** We are actively exploring various options, including venture capital firms, private equity investors, and financial institutions specializing in the cannabis industry, to secure the necessary funding for our operations. This approach will provide a more stable financial base and grant us access to industry-specific expertise, networking opportunities, and strategic partnerships that can help drive the success of our business.
2. **Grants and Incentives:** We will also be researching and applying for any applicable grants, incentives, and funding programs aimed at supporting the growth and development of small businesses, particularly those in the cannabis industry. These programs may offer financial assistance, resources, and support that could contribute to our overall capital resources.
3. **Business Loans:** As an additional source of funding, we will consider applying for business loans from financial institutions with a track record of supporting cannabis businesses. These loans will be evaluated based on their terms, interest rates, and repayment schedules to ensure they align with our financial projections and goals.
4. **Strategic Partnerships:** In some cases, we may explore the possibility of forming strategic partnerships with other businesses or industry stakeholders, leveraging their resources and expertise to support our operations. These partnerships may involve financial contributions, in-kind support, or collaborative efforts that provide mutual benefits and contribute to our capital resources.

As we engage with potential investors and secure funding, we will ensure that their roles and involvement in the company are clearly defined and documented. This will ensure transparency and compliance with regulatory requirements. Our updated business plan will provide a comprehensive overview of our capital resources strategy, reflecting our new approach to financing our operations and ensuring the long-term success of our cannabis venture.

Business Operational Software

We will use a CRM software system (at this time we are leaning toward utilizing Flowhub) to assist us in all day-to-day operations and functions as well as staying in compliance with the State of Massachusetts' laws and METRC. Two big CRM companies in the cannabis market are Blaze and Flow hub which have a giant head start on the cannabis CRM market. Utilizing one of these companies will not only allow us to streamline things such as inventory, tracking, customer information but also compliance, security, employees, substance abuse promotion and all aspects of a retail cannabis business. Both of these companies also offer 24/7 support and can be accessed both remotely and offsite. Using a system like this will streamline data that we need on a daily basis; we will also use QuickBooks for accounting, payroll, invoices, bills etc. allowing all business operations to run smooth and efficiently. QuickBooks will also integrate into the CRM software and add an additional layer of inventory tracking and monitoring.

Product

Product sales will be firmly grounded in a strong customer service model. While there may be some differences in product quality from one dispensary to another, Euphorium LLC will strive to carry only high-quality products bought from high quality growers within Massachusetts.

There is obviously more to cannabis than many people realize, there are different strains and variations of potency to those strains which needs to be understood. There are three strains, indica which is mostly known for the heavy limb, overly relaxed hungry feeling strain, sativa which is a head high uplifting feeling and hybrid which is a cross of the two and can be purchased heavier with indica or sativa or just balanced out (having said all that there are strains of both indica and sativa that will mimic the opposite).

Regardless of strain they all contain THC which is best described as that euphoric experience that give the “high” feeling, makes you hungry, helps with pain, insomnia, anxiety, nausea etc. THC is also not for everyone and a number of people would rather stick with CBD as it helps with symptoms such a pain, insomnia, anxiety, nausea but allows the person to stay very clear-headed. Now varying the amounts of THC will ultimately vary the effects and the price.

One of the newest trends is topicals and edibles, topicals is just as one would think; it is a cream or salve that you rub on your skin and it helps with pain and even anxiety. Edibles are again self-explanatory; it is cannabis processed into foods and snacks; but many people have described the effects as very different from smoking flowers. The general consensus is that smoking only really effects your mind whereas edibles have a tendency to be a whole-body experience in respect to effects (this can be different for everyone but generally this is how its described). Concentrates are used in different ways both in edibles and some people will even break it up and sprinkle it on the flower before smoking it but it is something that is very potent and should be used carefully. Cartridges are essentially an oil that is used like a vape pen. Pre-rolls are just pre-rolled cannabis cigarettes. There are a lot of accessories for not only smoking marijuana but storing it, grinding it, baking it etc. However, there is a difference in quality with grinders, pipes, bongs etc. and to keep customers happy quality accessories should be sold and not cheap knock offs. As with Accessories there are also different cultivators, growers and bakeries across the US and with other states dispensaries are required to buy from specifically licensed cultivators, growers and bakeries (for edibles).

Employees

The employees will be well trained on the CRM system, security procedures including but not limited to security emergencies, the theft or loss of cannabis, cannabis handling, customer handling, cash handling, emergency situations, substance abuse training, holdups/robberies etc. Their training will be ongoing and they will all have an operating handbook detailing procedures. We feel this will leave them qualified to handle the wide range of customers that we are going to be serving. When we hire employees, we would like to hire directly from the community we serve and of course be diversified in our employees. We would like to create a team that are looking to make the cannabis industry their career. We would also like to partner with an organization that helps veterans with physical disabilities and give them an opportunity at a career.

We have included descriptions for each position within the dispensary below; however, to ensure that all employees are clear about their roles and responsibilities, we have developed our SOP's and employee's handbook which will be given to each employee and reviewed with them.

To ensure that all employees and product are kept safe a thorough background check will be conducted on any potential employee or security team member by the senior management team. Being that the owner Marco N Aranzullo spent 21-plus years in private investigation and security he has the ability and means to do so in a timely and effective manner. All background checks and qualifications for hiring will also be in accordance with Massachusetts 935 CMR 500.030(1) & (2).

Security Overview

Euphorium LLC seeks to dispense cannabis and cannabis products with the highest quality products, excellent customer service, and the safety of our customers, employees and neighboring businesses & community. Every aspect of our security operations will have a strong emphasis on safety, security and preventing the theft or diversion of cannabis.

Security is a top priority and there can be no margin of error as the safety of the employees and product are a top priority and although crime stats have shown a decrease in crime around dispensary's there's always going to be at risk

All aspects and regulations relevant to security are present in this Security Plan. Euphorium LLC will work with local law enforcement to adapt to any changes necessary due to the evolution of the cannabis industry. We understand that cooperation with local and state Police Department personnel is key to maintaining integrity within the community, Euphorium LLC will make every effort to fully participate in all requested inspections or investigations relevant to the enforcement of laws and regulations. Security will be accomplished thru physical security, electronic security, compliance with state and local laws and oversight of standard operating procedures.

There will be two levels of security both in person with the use of armed security team members. For the professionalism and decision-making needed it would be heavily preferable to hire current or retired law enforcement and military personal. The second level of security will be electronic and will include but not be limited to:

Cameras w/remote access	key card access	locked doors between areas
alarms	Security lighting	Security gates and window bars
Fire alarms	panic buttons	Protective window film
Continued training	continued education	

Furthermore, the security plan of Euphorium LLC has been developed with the assistance of current and retired law enforcement officers as well as with Massachusetts law 935 CMR 500.110

Euphorium LLC will implement a proactive security strategy to ensure it can not only meet all the requirements of Massachusetts 935 CMR 500.110 but to ensure the safety of our customers, employees and neighboring businesses & community. Part of our security plan includes conspicuous camera placement, access control, ubiquitous presence of security team members, continual security training, drills and staying up to date with all new security tech and procedures.

Security team members will monitor both physically and thru cameras both the inside, outside and parking area of the dispensary. Security equipment (radios, PPE, Camera monitors etc.) will be located in the security office which will only be accessible to approved upper management and security team members (all security DVR's will be secured with accessibility by only the security manager and upper management).

The use of security team members during operating hours will prevent unfavorable situations as well as instill a sense of calm and safety for our customers and employees. Security will be visible while in the entryway/check-in area, sales floor and in the Security office.

All areas of the dispensary will be visible via security cameras which will have two sets of monitors, one in the security office and a second in the owner's office.

With our current floor plan Euphorium LLC will utilize a Vault as well as TTL-30 rated safes with a group 1R lock; this will also us plenty of secured storage and be compliant with Massachusetts law 935 CMR 500.110.

Any deliveries will be brought through the rear entrance before verification of the shipping manifest and securing into the vault. The vault will only be accessible to designated dispensary agents through entrances in the restricted access area. Additionally, the vault will be located on an exterior wall (supporting walls are generally reinforced and more structurally sound) to prevent break-ins from a shared wall of a neighboring business that is not as secure; any entry from a neighboring business would be into a open area with no cannabis product and place the intruder directly in line with motion alarms, video surveillance and audible entry alarm system.

The floor plan design clearly separates the customer areas from the back-of-house operations and vault. The sales and display area are also separated from the entrance by a controlled access door. Accessibility to limited-access areas is only through locked, reinforced doors. The Security Room

placement will enable an immediate reaction from the onsite security team to any issues that may arise within the dispensary. The use of a bud room will reduce the risk to the vault and provide an easier flow for employees.

General Market Analysis

The market trend in the retail recreational dispensary business is a “sky’s the limit market” with states such as California reporting 3.5 billion in gross sales, Oregon at 1.1 billion, Colorado at 2.2 and Connecticut which only has 9 regulated medical marijuana only locations reporting an average of 50 to 60 million in gross sales (Forbes, Cnet, Fortune and Finance online). Information from sources such as Flow hub, Linchpin and Cnet show that 12% of Americans admit to regular cannabis use and nationwide sales up 67% during 2020; the US cannabis industry is reporting 61 billion in sales. Other polls and information show that the biggest market is with the 18- to 25-year-old group which is at about 22% use some sort of cannabis. Other numbers coming in show a 50/50 split on which gender uses cannabis more and that 8.6% of Americans over the age of 26 still admit to some form of cannabis use. Today millennials make up the biggest market with a whopping 48% using cannabis followed by Gen X, Gen Z and then the Baby Boomers at around 13%. There are 14% of Americans admitting to using CBD for things such as pain, nausea, anxiety, insomnia and arthritis and like the fact they can stay clear-headed and not have any effects from the THC. Undoubtedly, the CBD industry as well as the legal recreational cannabis industry will continue to grow and become more profitable due to the aging baby-boomer generation in the United States which is projected to drive increasing demand for relief from symptoms brought on by age. Broken down by customer group the outline would look similar to the below table.

- Younger 21-25 try everything group
- Looking for symptom relief that over-the-counter meds have not helped
- Medical needs with no insurance for doctors, medicines and prescription
- Try it because its legal
- The occasional use customer who had a dealer that would deliver but now that its legal would rather buy it legally knowing its pure and with no risk.

We have established a table below using an average of 120 customers per day with an average transaction of \$75.00 and being open 350 days a year.

Advertising

In keeping with State of Massachusetts law 935CMR 500.105(4) for advertising we will be using different forms of compliant advertising and of course will insure they all meet the guidelines and laws set forth by the state before any go live, some of those will include but not be limited to; 1- using the Leafly and Weedmaps app which does require age verification, 2- a website which requires age verification, 3- Social media that would only be accessible to over 21 and does not direct market to any specific individual. We will also make sure all of our advertising includes warning including but not limited to excessive use warnings, keep out of reach of children, addiction help hotlines etc. In today’s world and with today’s technology it is very easy to keep all advertising to the over 21 age group. It is also no secret

that cannabis will essentially sell itself and as long as customers know where your located there is no real need for large advertising campaigns.

Inevitably, many customers will seek out cannabis for its perceived medical benefits. **We are not doctors, and consequently, cannot give medical advice.** We can offer guidance and share anecdotal stories of what customers have experienced from some of the different strains and delivery methods (tincture, edibles, etc...) that we offer, but **we cannot give assurances that any cannabis product will work to alleviate any particular ailment or symptom.**

As a licensed manufacturing establishment we are mandated to follow the state's requirements for tracking sales. Our license only permits wholesale sales to licensed marijuana retail establishments. The state requires that we track and record all sales transactions including customer details. This is also an essential element of our company policy of rigorous compliance with all state and local legislation and by-laws, and a key component of our strategy to combat diversion. All customers must have their details, including their verified state retail marijuana license entered into the database prior to any sale or transfer. These details, together with a record of their purchases, will be recorded and maintained for the benefit of state inspectors.
