Plan for Positive Impact

Our LLC intends to be an active player in the on goings of the community and in doing so positively impact the community of Fitchburg, which has been deemed an area of disproportionate impact by the Cannabis Control Commission. With our Mendon establishment, we also intend to offer opportunities to minorities in the area and residents of areas of disproportionate impact. We have developed several different strategies to achieve this and have listed the goals, strategies, and metrics for measuring their performance below.

The strategies taken to achieve our goals will adhere to requirements set forth in 935 CMR 500.105(4) relating to advertising, branding, marketing, and sponsorship practices.

The strategies taken to achieve our goals will not have a conflict with the regulations relating to limitations on ownership or control or any other applicable state laws.

Our Goals:

1. Assist in improving the quality of life of the Fitchburg community (specifically veterans) and connect with the community as a whole, not just our customers.
2. Become a leader in advancing the community and striving for improvements in the community in multiple regards.
3. Reach out to the minority community in the Mendon area and the community as a whole when job positions are available and offer free professional job training for the cannabis industry to individuals that fit the criteria of disproportionate impact categories. We shall hold at least 2 of these meetings annually.

Programs:

The following programs have been designed to achieve the goals previously laid forth.

1. Our establishment intends to allocate funds on a yearly basis to assist members of the Fitchburg community as a whole. We intend to do so in both of the following manners.
 - a. Our establishment will partner with Friends of Fitchburg Veterans to assist Fitchburg vets and their families in need throughout the year. We are devoting \$5000 to this program and will utilize the money throughout the year to veterans in Fitchburg in our partnership with Friends of Fitchburg Veterans.
 - i. We will work with Friends of Fitchburg Veterans throughout the year and may make additional contributions when requested. All documentation of any donations will be documented with receipts and attestation letters from the receiving parties.
2. Offer a program for our employees in which we will provide payment for online courses from the Trichome Institute, an accredited online cannabis learning and certifications program, to all of our employees from communities labeled as areas of disproportionate impact to offer them the opportunity to learn more about the cannabis industry and assist in becoming a cannabis industry professional with various certifications. This will provide professional training to our employees who

may not have cannabis industry experience. This accredited program, along with employment at our establishment, will greatly help them advance their career in the cannabis industry if that is their interest. **For employees that are residents of areas of disproportionate impact, all costs will be covered. For all other employees, our establishment will cover a portion of the cost.**

3. Our establishment will hold its own career fair within the Community of Mendon for members of the community to attend to learn more about the jobs we are making available to the community, what the jobs entail, and allow the attendees to sign up for an interview for a position at our establishment. We will work with 3 Pyramids Inc/North Central Massachusetts Minority Coalition to promote these career fairs. They will be able to assist us in informing the minority community in the area so they are aware of the opportunities our establishment is creating. 3 Pyramids will also be contacted whenever we have job opportunities available to allow 3 Pyramids to connect our establishment with minority members of the community that may be interested in our job opportunities. 3 Pyramids is out of Fitchburg, and we realize this location is in Mendon, and although they may not be as effective as they are in the Fitchburg area, 3 Pyramids will still be able to assist us in informing the minority community in the area of our Mendon establishment.

Monitoring Results/Accountability:

A file will be created to hold all of the gathered information listed below relating to the review of the multiple components of our Programs. The file will include a full review of each Program of our Plan for Positive Impact and will be available upon request. The reviews will be completed prior to our license being up for annual renewal.

Friends of Fitchburg Veterans Partnership

The following can be reviewed to assess and verify the partnership and its effectiveness.

- a. Verification document executed by Friends of Fitchburg Veterans & our Establishment verifying the existence of our coordination.
- b. Receipt issued by Friends of Fitchburg Veterans and signed by authorized personnel attesting to the receipt of the \$5000 donation from our establishment.
- c. Receipts or attestation letters issued by Friends of Fitchburg Veterans each time funds are used from the \$5000 donation we provided to them. These receipts will detail how the funds were used so that our establishment can confirm the funds are being used to assist citizens, families, and the community of Fitchburg as a whole.
- d. Yearly review letter provided by Friends of Fitchburg Veterans attesting to our partnership and their take-aways relating to the effectiveness of the partnership and any comments they may have for future improvements.

The above information will be obtained and reviewed prior to the renewal of our license to determine if the partnership is successfully achieving its goal. At this time, changes will be made to improve the partnership for the next year, if needed. The partnership may also be scrapped and a new program may be created if it is

determined that the partnership did not achieve its goal(s). A summary of our review will be kept on file and will be available upon request.

Cannabis Professional Training

All employees who choose to take the courses will have a document filed in our Positive Impact Plan file to track who is taking the courses. A receipt for the payment of their courses will also be kept on file.

Each year we will distribute a questionnaire to all employees that took the online courses. The questionnaire will ask them if they believe the training was beneficial to them, if they believe it benefits their interest in becoming a cannabis professional, and if they have any suggestions for how our establishment could improve the plan to offer professional training to our employees. An example of a suggestion could be that the employee knows of another program or courses they would be interested in taking. We would then consider adding that program or courses to the options we offer to our employees.

Career Fairs/3 Pyramids Partnership

The following information will be documented to allow our establishment and the CCC to review this program and its effectiveness.

- a. Verification document executed by 3 Pyramids Inc acknowledging the existence of our partnership/coordination.
- b. Documentation of the notice will be filed each time our establishment contacts 3 Pyramids Inc to inform them of a career fair or job opportunity we have available.
 - a. We will also request and file a response from 3 Pyramids Inc confirming receipt of the notice and their intended plans to promote the career fair or job opportunity to the minority community members of Fitchburg.
- c. All methods of advertising the career fairs will be filed.
- d. A sign in sheet will be present at the career fairs and will be filed away so we can keep track of the attendance of the fairs.
- e. Any employees that are hired through the career fairs or through our partnership with 3 Pyramids will have this information documented in their employee file.
 - a. These employees will also be given a questionnaire at the end of the year (prior to the renewal of our license), which will ask them questions relating to their experience during the hiring process.

All of the above information will be reviewed by our administrators and managers on a yearly basis (prior to the renewal of our license) to assess the effectiveness of the program and to determine what changes may need to be made to the program for the following year.

If a quorum shall not be present at any meeting of the Board, the Managers present at such meeting may adjourn the meeting until a quorum shall be present. Any action required or permitted to be taken at any meeting of the Board may be taken without a meeting if all Managers consent thereto in writing, and the writing or writings are filed with the minutes of proceedings of the Board.

2. Managers may participate in meetings of the Board by means of telephone conference or similar communications equipment that allows all persons participating in the meeting to hear each other, and such participation in a meeting shall constitute presence in person at the meeting. If all the participants are participating by telephone conference or similar communications equipment, the meeting shall be deemed to be held at the principle office address of the Company.

c. Compensation of Managers. The Board shall have the authority to fix the compensation of Managers. The Managers may be paid their expenses, if any, of attendance at meetings of the Board, which may be a fixed sum for attendance at each meeting of the Board or a stated salary as Manager. No such payment shall preclude any Manager from serving the Company in any other capacity and receiving compensation therefor.

d. Removal of Managers. Unless otherwise restricted by law, any Manager or the entire Board may be removed, with or without cause, by the Member, and any vacancy caused by any such removal may be filled by action of the Member.

e. Managers as Agents. property, or make any assignment for the benefit of creditors of the Company, or admit in writing the Company's inability to pay its debts generally as they become due, or, to the fullest extent permitted by law, take action in furtherance of any such action.

g. Duties of the Board. The Board and the Member shall cause the Company to do or cause to be done all things necessary to preserve and keep in full force and effect its existence, rights (charter and statutory) and franchises.

h. Prohibited Actions of the Board. Notwithstanding any other provision of this Agreement to the contrary or any provision of law that otherwise so empowers the Board, none of the Board on behalf of the Company, shall, without the unanimous approval of the Board, do any of the following:

b. Competition with the Company. The Managers shall refrain from dealing with the Company in the conduct of the Company's business as or on behalf of a party having an

interest adverse to the Company unless a majority, by individual vote, of the Board of Managers excluding the interested Manager, consents thereto. The Managers shall refrain from competing with the Company in the conduct of the Company's business unless a majority, by individual vote, of the Board of Managers excluding any interested Manager, consents thereto.

c. Duties Only to the Company. The Managers' fiduciary duties of loyalty and care are to the Company and not to the other Managers. The Managers shall owe fiduciary duties of disclosure, good faith and fair dealing to the Company and to the other Managers. A Manager who so performs their duties shall not have any liability by reason of being or having been a Manager.

Notwithstanding any other provision of this Agreement, the Bankruptcy of any Member shall not cause such Member to cease to be a Member of the Company and upon the occurrence of such an event, the business of the Company shall continue without dissolution.

Each Member waives any right that it may have to agree in writing to dissolve the Company upon the Bankruptcy of any Member or the occurrence of any event that causes any Member to cease to be a member of the Company.

The fair market value of such asset shall be determined by the Members or, if any Member objects, by an independent appraiser (any such appraiser must be recognized as an expert in valuing the type of asset involved) approved by the Members.

b. To the fullest extent permitted by applicable law, a Covered Person shall be entitled to indemnification from the Company for any loss, damage or claim incurred by such Covered Person by reason of any act or omission performed or omitted by such Covered Person in good faith on behalf of the Company and in a manner reasonably believed to be within the scope of the authority conferred on such Covered Person by this Agreement. Expenses, including legal fees, incurred by a Covered Person defending any claim, demand, action, suit or proceeding shall be paid by the Company. The Covered Person shall be liable to repay such amount if it is determined that the Covered Person is not entitled to be indemnified as authorized in this Agreement. No Covered Person shall be entitled to be indemnified in respect of any loss, damage or claim incurred by such Covered Person by reason of such Covered Person's gross negligence or willful misconduct with respect to such acts or omissions. Any indemnity under this Agreement shall be provided out of and to the extent of Company assets only.

c. A Covered Person shall be fully protected in relying in good faith upon the records of the Company and upon such information, opinions, reports or statements presented to the Company by any person as to matters the Covered Person reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Company, including information, opinions, reports or statements as to the value and amount of the assets, liabilities, or any other facts pertinent to the existence and amount of assets from which distributions to the Member might properly be paid.

d. Adult-Use Cannabis Retail

September 2019

25 Cape Rd, Mendon, MA 01756

(425) 287-6699

Opportunity

With the emergence of legislation in Massachusetts to legalize and regulate the sale of cannabis, Green Era LLC sees an opportunity to open businesses in an emerging market that topped **\$46.4 billion** in sales in 2016.

Problem

In 2016, 87% of cannabis sales in the US can be credited to the black market, which amounts to **\$40 billion** of which is currently untapped by the legal markets.

Massachusetts has one of the highest per capita rates of cannabis users in the US with 15% of their residents stating they smoke or use cannabis in some form. That percentage can be expected to grow with legalization as 27% of Americans claim the reason they do not use cannabis being due to its legality.

Solution

Legalization will open the doors in Massachusetts for our businesses to offer a service to consumers that they are already seeking through other means. This will also allow for the state to earn tax revenue from the sale of the product and allow consumers a sense of ease when purchasing product as its growth, testing, and sales

are being tightly regulated by an official state entity – in this case the *Cannabis Control Commission*.

Target Market

With our location in Mendon, we will be dealing with a market of roughly 60,000 residents in the immediate area. Our target market are men and women between the ages of 21 and 55. This area, unlike our Fitchburg locations, maintains a higher median age. Although we anticipate most of our sales to come from the 21-35 age group, data from around the country shows the older age groups are purchasing as well. Studies show that millennials account for the majority of cannabis users, but older generations follow closely behind. Our location is also positioned on a frequently traveled highway – so, we believe the demographics of the immediate area may not be a strong indicator in determining what the true demographics will be of our customer base. Due to the traffic in the area, we anticipate steady daily sales numbers with our busiest times being between 5 and 7pm when patrons are passing by on their commutes home.

Competition

In Mendon there are currently no other marijuana establishments. There are other applicants in the area, but they are far enough away that we do not foresee an issue with competition. Statistics from Washington State show that in a town of 37,000 people **two stores across the street from each other were able to sustain well over \$100,000 in revenue for the past 3 months**. We believe that this statistic shows that even with competition (and in an area with less population than our Mendon location), stores of this nature are able to operate and continue growth.

Our Advantages

With several years of business management and ownership under our belt, our team brings know-how from a multitude of industries. The signatory and sole member, Wen Bing Huang, has worked along side his son who has owned and operated a horticulture supply business that distributes growing products to Washington State producer/processors and growers in Oregon and California (and now Massachusetts) for over seven years. Through his relationship with this business, he has become accustomed to grow space design, logistics, financing, sales, purchasing, inventory management, and much more – all relating to the cannabis industry. The manager and representative for the group, Guan Yu Chiu, is a nephew to Wen Bing Huang. Mr. Chiu currently owns and operates a restaurant in Leominster, MA. Through opening and operating his restaurant, Mr. Chiu has accumulated several years of valuable business related experience that makes him very capable of assisting in this new venture. While operating his restaurants he has dealt with hiring, payroll, tax reporting, purchasing, budgeting, permitting and licensing, and much more. These two, along with their team and business connections, are very capable business professionals that will be able to successfully bring this proposal to fruition.

Mendon Retail Location

The address of the Mendon retail location is 25 Cape Rd, Mendon, MA 01756. The location consists of 1900 square feet of space, of which roughly 800 square feet will be accessible to customers. The remaining space will be utilized for back office and inventory as well as employee only accessible space. There is ample onsite parking to allow for quick and easy access. The lot will likely never fill, as there are well over 40 spaces. Customers can rest assured they will be able to find available parking within close proximity to our front door.

Ownership & Structure

Green Era LLC is a registered limited liability company in Massachusetts. Wen Bing Huang is the signatory and sole proprietor and Guan Yu Chiu is serving as a manager/representative for the business. Mr. Chiu will oversee all of the operations while residing in Massachusetts and will be tasked with hiring more staff.

Company History

Wen Bing Huang has worked extensively with his son who owns multiple businesses operating in the cannabis industry in Washington State, Oregon, and Massachusetts. The horticulture supply company he owns has distribution warehouses in Seattle, WA, Avon, MA, and Portland, OR. Through these distribution centers, Mr. Huang and his son have also created several product lines from nutrients, to hydroponic tables and irrigation attachments, and an all-in-one lighting system partnering with a well respected international brand, "Eye-Hortilux", to provide their state of the art and highly respected bulbs in the all-in-one system.

Guan Yu Chiu has owned and operated a restaurant called Jade II in Leominster for over 5 years. Through his restaurant business, Mr. Chiu has become well acquainted with the service industry and service industry management. Mr. Chiu was responsible for opening the restaurant and obtaining all the necessary permits and licenses from the City of Leominster to commence operations at his restaurant. Mr. Chiu then designed and renovated the store and was responsible for brining the store in to operation and maintaining operations for the past 5 years. Mr. Chiu brings valuable administrative experience to this new group and will be able to greatly assist in the commencement and operation of the business while utilizing his relevant past experience.

Advisors

Our business has sought legal consultation while wading through the licensing and property acquiring procedures. We have worked with McNulty and O'Malley Attorneys at Law to consult with while dealing with different licensing procedures in different cities across Massachusetts. We are also advised by Yuhong Li of YLI Law Firm in Seattle, WA from a business standpoint as well as to review commercial leases and brokerage deals.

Financial Forecast

Over the first year of sales we are predicting a **\$1.2 million** revenue and in year 2 we are expecting a **\$1.6 million** revenue. We expect that the first few months will be slow, but we will enter into the \$100,000 monthly revenue range by month 4. These numbers can be supported by the following graphs below showing 2 different cities with two stores each to represent growth of stores in cities with a similar sized population.

Product Variation

There are various types of cannabis products. You can anticipate the following product categories in our store:

- Flower – dried buds of the cannabis plant. These products range from low to moderate THC levels.
- Concentrates – Solvent based product that is a result of an extraction process of cannabis buds and other plant materials. These are your high THC products.
- Vape Cartridges – Concentrates of various solvent types filled into cartridges that can be used with vaporizer pens. This is very similar to the already popular tobacco vaporizers.
- Edibles – Edible products that have been infused with THC or CBD (2 cannabinoids, THC being psycho-active while CBD is not). *There will be regulation on these products that the product manufacturers will be required to follow in regards to the product's "look" and its potential appeal to those under 21. The most common forms of edibles will be brownies, cookies, soft drinks, and hard/soft candies, chocolates, caramels, etc.
- Topicals – These are lotions that are usually CBD dominant that can be used to apply to sore muscles for quick and natural relief. Limited to no psycho-active effects.

Preventing Diversion to Minors

On a daily basis, it will be our employee's goal to follow our protocol in relation to diversion to minors. We will enact a no-tolerance policy as a violation in relation to this policy will be ground for immediate dismissal.

- Clear signage of +21 age limit. No confusion.
- Immediate ID check upon entry of premises.
- ID check at entry completed using ID reading software – available on iPad.
- Black light to check holograms on ID
- Secondary ID check at time of purchase.
- State consequences for breach of law.

Security Summary

We plan to implement the following required security measures.

- Sufficiently lit building perimeter
- Secure Points of Entry with alarm and lock system

- Limited access areas – badge required
- Secured area for all security equipment and monitors
- 500ft Buffer from schools
- Employee Badges
- Certified alarm system and backup with ability to notify employees and local law enforcement inside state required notice period
- No blind spot security camera layout
- Yearly Audits – State Requirement

*The state has a very detailed security protocol that licensees are required to follow. Due to these regulations, retail stores should be sufficiently secured and monitored so long they stay compliant with state regulation. Upon request, we can present our security plans and designs.

Liability Insurance

We are working with Wheeler & Taylor Insurance of Pittsfield, MA to obtain a general liability & product liability policy through Cannasure insurance. We have confirmed with Wheeler & Taylor we will be able to obtain a policy that is compliant with the license requirements. We will obtain a general liability policy that will include \$1,000,000 per occurrence and \$2,000,000 in aggregate, annually, and product liability insurance coverage for no less than \$1,000,000 per occurrence and \$2,000,000 in aggregate, annually and a deductible for each policy that is no higher than \$5,000 per occurrence.

Personnel Policies & Operating Procedures

Security Procedures:

Check-in Procedure: Our main entry vestibule at the front of the building is where all patrons, non-patron visitors, and deliveries will enter through. We will follow the following protocol for each *type* of visitor.

Patron: Upon entry identification will be checked. Our marijuana agent stationed within the vestibule will immediately request ID from the patron and initiate our 3-point check procedure. First the agent confirms the picture on the ID matches the individual that presents the ID. Then, the agent will confirm the ID is authentic by using an iPad software called VeriScan. Using the VeriScan program, the agent can scan the ID's barcode with the iPads camera to confirm its authenticity. The agent will then use a black-light flashlight/lamp to check for other authenticity markers. The final check will be to check that the birthdate confirms the individual is 21 or older. Once the ID is verified the patron will be permitted to enter the establishment and waiting line to be helped by one of our marijuana agents. If the ID is not authentic or does not belong to the individual who presented it, our agent will confiscate the ID and ask the individual to leave. Local law enforcement will be given the fake ID's that we confiscate from individuals and we will work with local law enforcement to identify individuals that attempt to use fake IDs/IDs that do not belong to them to enter our establishment. Once an agent is available, the agent will answer any questions the patron may have and will guide them through our available inventory. Once the patron selects what they would like to purchase, the agent will bring them to one of our cashiers to checkout. The patron's ID will be checked by the cashier prior to initiating the transaction. Once the patron has completed their transaction, our floor manager will escort them to the exit. There will be at least 4 agents managing the entry and customer access area at all times. 2 agents to assist customers in selecting product, 1 floor manager to manage the flow and escort customers out after their transaction, and 1 agent at the front ID checkpoint.

Non-Patron Visitor: Non-patron visitors will be by appointment only. Our marijuana agent stationed in the vestibule will immediately request ID from the individual and initiate our 3-point check procedure. Our agent will have a schedule of all scheduled visits. If the individual does not have an appointment, the manager may come to the front to schedule one with for another time. If the agent confirms the individual has a scheduled meeting, the agent will initiate the ID check and check-in procedure. First the agent confirms the picture on the ID matches the individual that presents the ID. Then, the agent will confirm the ID is authentic by using an iPad software called VeriScan. Using the VeriScan program, the agent can scan the ID's barcode with the iPads camera to confirm its authenticity. The agent will then use a black-light flashlight/lamp to check for

other authenticity markers. The final check will be to check that the birthdate confirms the individual is 21 or older. Once the ID is confirmed to be authentic and they are of the legal age, they will be asked to sign in on a visitor log sheet. They will print their name, sign, record check-in time, reason for visiting, company info (if applicable), date, and list the number of their visitor badge that is given to them. The agent will present them with a visitor badge and inform the visitor that it must be worn at all times during his visit. The visitor will then wait at the ID checkpoint until one of our *marijuana establishment agents* is available to escort them through the *limited-access area*. The visitor's ID badge will be required for the duration of their visit and must be clearly visible at all times. Once the patron is ready to exit, they will be escorted back to the ID checkpoint at the front of the facility, they will record their checkout time on the visitor log sheet, return their visitor badge, and then they will exit the premises. *If the ID is not authentic or does not belong to the individual who presented it, our agent will confiscate the ID and ask the individual to leave. Local law enforcement will be given the fake ID's that we confiscate from individuals and we will work with local law enforcement to identify individuals that attempt to use fake IDs/IDs that do not belong to them to enter our establishment.

Delivery Visitor: Each day, our establishment will have a list of incoming deliveries for that day. We will also have the manifests of the delivery orders printed and ready for the arrival of the delivery. The marijuana agent making the delivery will enter through the front of our establishment and will check-in at the ID checkpoint. They will check-in similar to the procedure listed above. First the agent confirms the picture on the ID matches the individual that presents the ID. Then, the agent will confirm the ID is authentic by using an iPad software called VeriScan. Using the VeriScan program, the agent can scan the ID's barcode with the iPads camera to confirm its authenticity. The agent will then use a black-light flashlight/lamp to check for other authenticity markers. The final check will be to check that the birthdate confirms the individual is 21 or older. Once their ID is confirmed to be authentic and they are of legal age, they will also be asked to display their marijuana agent registration card. Once the card is confirmed to be authentic and confirmed to belong to the visiting driver, they will be asked to sign in on a visitor log sheet. They will print their name, sign, record check-in time, reason for visiting, company info (if applicable), date, and list the number of their visitor badge that is given to them. The agent will present them with a visitor badge and inform the visitor that it must be worn at all times during his visit. The visitor will then wait at the ID checkpoint until one of our *marijuana establishment agents* is available to escort them through the *limited-access area* where we will check-in the delivery with the previously printed manifest. The visitor's ID badge will be required for the duration of their visit and must be clearly visible at all times. Once the delivering agent is ready to exit, they will be escorted back to the ID checkpoint at the front of the facility, they will record their checkout time on the visitor log sheet, return their visitor badge, and then they will exit the premises. *If the ID is not authentic or does not belong to the individual who presented it, our agent will confiscate the ID and

ask the individual to leave. Local law enforcement will be given the fake ID's that we confiscate from individuals and we will work with local law enforcement to identify individuals that attempt to use fake IDs/IDs that do not belong to them to enter our establishment.

Limited Access Area: Outside of the customer accessible show floor, all other areas of the establishment will be considered a limited-access area and only marijuana agents wearing their badge or visitors that have signed in and received a visitors badge and are accompanied by one of our agents are permitted in this area.

Loitering Prevention: Our ID checkpoint will be occupied by one of our marijuana agents at all times during our operating hours. Along with the software and devices used for ID analysis the agent will have a monitor that shows them a view of the outside cameras. The agent will be instructed and trained to inform one of our other marijuana agents, a manager, if they suspect any suspicious, illegal, or inappropriate activity going on around our premises. In this event, our marijuana agent (manager) will be trained and instructed to inspect the situation and ask these individuals to exit the property. If the individuals refuse, they will be informed that the authorities will be called and our marijuana agent will contact local authorities.

Waste Disposal: We will follow the following procedures to store, secure, and manage our cannabis related waste.

- In the back office area (limited-access area) we will have a designated trash area with a trash bin that is shut at all as well as a recycling bin and toxic waste, a table for sorting/destroying product, and a sink.
- Whenever we have product that needs to be disposed of that is cannabis related, we will bring the product to the trash area. The product will be weighed and the weight will be recorded. This will also take place while being video recorded with two agents present.
- The weight of the cannabis will be recorded with two of our marijuana agents present. The product will then be ground up, sprayed with Seventh Generation Chlorine Free Bleach (environmentally safe, biodegradable, and will render the product unusable), and then placed into the trash bin. Concentrates will be mixed with the Seventh Generation Chlorine Free Bleach and then disposed of. Edibles will be ground up and sprayed with Seventh Generation Chlorine Free Bleach and then disposed of. Cartridges will be opened and sprayed with Seventh Generation Chlorine Free Bleach and then disposed of. Liquids will be poured down the drain in the trash area and then the container will be dipped in Seventh Generation Chlorine Free Bleach and disposed of.
- The report will be filed away along with all cannabis waste disposal reports to be maintained for at least three years.

- Any packaging that the product may have been placed in will be dipped in Seventh Generation Chlorine Free Bleach to neutralize any remaining cannabis material and then placed in a recycling bin/trash bin.
- When the trash bin is ready to be emptied, one of our marijuana agents will take the trash bin with cannabis material to a solid waste facility to be disposed of. Each disposal trip of trash containing cannabis material will be recorded and stored along with cannabis waste disposal reports.

Secured Entrances: We have one entrance and exit on the premises – one door at the front of the facility that leads into a vestibule and then an emergency exit on the side of the building. Each door will be equipped with a security alarm that will trigger the alarm if opened/tampered with while the system is armed. The front and side doors will have a qualified lock that only our administrators have a key to. The side door will only be accessible by the administrator and will be locked from the outside at all times – even during operating hours. The side door will only be used in an emergency and an alarm will sound if it is ever opened.

Secured Inventory Storage & Procedure: Our inventory will be strategically organized in our back office that is a limited-access area. The inventory will be secured in our inventory room so that it can be locked and only accessed by our administrator on duty that has a copy of the key. The room will be locked at all times and will only be unlocked to store new incoming product, store product that is being removed from the show floor, or to collect product for the show floor.

Inventory on the show-floor will have the ability to be quickly locked away. The display cases can be locked and any loose product can quickly be moved to an area where it can be secured.

At the end of the night, all inventories will be taken off the show floor and placed in the back office inventory room and locked away. This also offers the ability to do an inventory check each night. A manifest from the POS will be printed off and as product is moved from the show floor to the inventory room, it will be accounted for and compared with the manifest from the POS.

At opening, product will be brought from the back office inventory room and placed on the show floor in either the display cases or on the shelves. Only a few products will be brought out to display, the mass majority of the product will remain in the inventory room until it is needed.

Theft/Robbery: In the event of a theft or robbery, the staff will be trained/instructed to comply with the demands to ensure the safety of the staff, customers, and bystanders. Once the party has left that has committed the theft/robbery, the manager on staff is trained/required to alert local authorities and the Marijuana

Establishment administrator(s). An investigation into the event will take place and the CCC will be notified.

We will implement a switch both by the registers and at the front entrance checkpoint that will be able to alert local authorities of an emergency situation at the establishment. Employees will be trained to trigger this switch in emergency situations where they are unable to call for help due to the situation. Any false alarm triggered by our employees will be investigated internally to determine the circumstance of the false alarm. If we find carelessness or other unfavorable motives related to the trigger, the employee will be subject to termination.

Drop Safe/Till Balance: Each till will start the day with \$200 and will end the day with \$200. Throughout the day, an administrator will monitor the registers and regularly balance them back to \$200, create a report on a bank envelope, place the excess cash in the envelope, and deposit the envelope in the drop safe. The drop safe will be emptied at the end of the day by the administrator and moved to the main safe.

Secured Locks: At no time shall any equipment, like a safe, file cabinet, or security room door, shall be left unlocked and unattended. All locks may only be left unlocked while the administrator who unlocked the door is present. Once the reason for unlocking the specific lock is complete, the lock is to be relocked immediately. If there is ever a noticed issue with the capability of a lock, it must be replaced immediately.

*No keys shall be left in a lock at any time. No keys shall be left out in the open at any time. All keys should remain on the administrator's person unless it is placed in a secure location that only the administrator has access to and that can be locked away. Disciplinary actions will occur in the event of lost or misplaced keys.

*No codes shall be shared at any time with any other personnel, including other administrators. Disciplinary actions will occur in the event of shared security codes.

Internal Theft/Transaction Record Errors: In the event of a nightly audit resulting in funds found missing to cover the amount of product that was sold during that day and/or inventory discovered missing – an investigation will be initiated by administrators utilizing the stores camera systems to determine where the error or theft occurred. The CCC will be notified.

Theft/Diversion During Business Hours: In instances of theft/diversion during store hours, the store will be temporarily closed while the following occurs. In the event of emergency relating to diversion or theft all product will be moved to the back office area (limited-access area) into the inventory room where it can be secured by an administrator for further review. With the entire product secured, we can review security footage to identify the cause of the loss. At this time, a full inventory audit

will occur to identify what was lost. A report will be filed with the CCC and a copy will be sent to local law enforcement.

Actions During Live Theft/Robbery: In the event of a robbery or instance where authorities are required but unable to be notified due to circumstances, there will be distress buttons near each register and front entry checkpoint that will notify local law enforcement when pressed. We will work with local law enforcement to ensure that this button is proper working order by checking its functionality regularly.

Opening Procedure: The alarm system will be disarmed by a code entered by the administrator opening the facility. All employees will use the POS system registers to clock-in. ID badges will be worn at all times by our marijuana agents. Agents will then bring product from the inventory room out to be displayed in the display cases and on the shelving in the show room.

Closing Procedure: All products will be locked in the inventory room. Product on the show floor will be transferred to the inventory room each night before closing and at this time a manifest from the POS relating to the inventory will be printed out so a physical count of the product can be compared with the POS inventory manifest. Once all product is locked and secured, only the emergency lighting on the interior of the premises will be left on. The security system will be armed and all points on entry will be securely locked. Exterior lighting will remain on to illuminate the premises.

Emergency Procedures:

Fire: In the case of a fire, there are two exits – one at the front and one on the side of the building. An escape map will be posted on the premises and employees will be informed of the protocol upon hiring. Employees will be instructed to vacate the premises immediately upon discovery of fire if the fire is not manageable by an on site extinguisher. If manageable by an on site extinguisher, an employee will be able to attempt to extinguish the fire. No matter, once the employees are in a safe space outside of the facility (even if the fire has been extinguished) they are to contact local authorities and then the Marijuana Establishment's head administrator(s), if not present. The security system will have already contacted local authorities, however, our employees will be instructed to make a manual call themselves in case of a potential error in the security system and for safe measure.

Weather Emergency: Our policy is to follow the instruction of local officials in regards to weather emergencies. Employees are instructed to stay inside the facility until local officials advise that conditions have become more favorable. If employees choose to leave or act otherwise, it will be at their own risk. We understand some employees may have obligations to take care of in emergency situations, we understand and respect that and will allow them to do as they so wish, even if it is against what is advised. Managers on staff will be instructed to keep administrators of the establishment informed as is possible.

In the event of emergency relating to diversion, theft, or loss all product will be moved to the back office area (limited-access area) into a locked room where it can be secured by an administrator for further review. With the entire product secured, we can review security footage to identify the cause of the *loss*. At this time, a full inventory audit will occur to identify what was lost.

In the event of a robbery or instance where authorities are required but unable to be notified due to circumstances, there will be distress buttons near each register and front entry point that will notify local law enforcement when pressed. We will work with local law enforcement to ensure that this button is proper working order by checking its functionality regularly.

*Unnecessary use of the distress button will result in suspension, internal investigation, and potential dismissal.

Customer Service Policy:

It is our overall goal to give our customers a great experience while they visit our establishment. Our intention during training is to hire and develop employees that understand this goal and how to best achieve it.

Complaint Protocol: If we receive a complaint from a customer, we will initiate an internal review. The review will entail visiting with staff that was on duty during the time of the complaint. After hearing from staff, management and administration will check other references that may bring more information to light (security cameras, other customers, etc). With all the information in management and administrations hands, a determination will be made in regards to the employee that is subject of the complaint.

Please see our Security Plan for further information relating to criteria set forth in 935 CMR 500.10.

Storage of Marijuana

Storage Areas:

At all times, our cannabis products will be stored in one of the following 3 areas in our establishment. All areas are within a controlled environment where the temperate and humidity levels are being kept at specific levels.

1. Inventory Room – this is a locked room where the bulk of our inventory will be held.
 - a. Inside of the room will be several racks with labeled bins on the rack. Product will be organized in these bins. These are open bins, not closed and sealed. Packaged product will be placed in them.
 - b. Inside the room will be a separate cabinet for damaged product, compromised product, outdated product, or in any way unsellable according to 935 CMR, will be placed in this cabinet to be destroyed according to our waste and disposal procedures.
2. Display Cases – The showroom will be designed with a perimeter of display cases separating the customer from our marijuana agents. Product will be removed the display case on a nightly basis to be secured in the inventory room. The display cases will be able to be locked in the event that product needs to be secured as quickly as possible.
3. Shelving – Behind the marijuana agents on the show-floor will be shelving units with small bins to hold product. Product will be removed the shelves on a nightly basis to be secured in the inventory room.

Upkeep: The areas where cannabis products are kept will be maintained on a daily basis to ensure that we are meeting sanitary protocols and limiting the likelihood of any type of infestation of pests.

Monitoring: Security cameras will capture all activity in areas where cannabis products are being stored.

When product is being received and checked prior to stocking, this process will be recorded and records will be kept detailing the reception of the product and then signed by the marijuana agent that was in receipt and conducted the review.

Please see our Storage of Marijuana Plan for more detail information on our storage protocol.

Product Variation

We intend to carry the following types of cannabis products. We foresee that some product types may not be made available at the onset of our store opening its doors. But, we predict that we will be able to acquire and offer these product types eventually.

Flower – dried buds of the cannabis plant.

Concentrates – Solvent based product that is a result of an extraction process of cannabis buds and other plant materials.

Vape Cartridges – Concentrates of various solvent types filled into cartridges that can be used with vaporizer pens.

Edibles – Edible products that have been infused with THC or CBD. The most common forms of edibles will be brownies, cookies, soft drinks, and hard/soft candies, chocolates, caramels, etc.

Topicals – These are lotions that are usually CBD dominant that can be used to apply to sore muscles for quick and natural relief.

All products will be pre-packaged, tested, and labeled before our reception by the cultivator or product manufacture licensee that we acquire the product form.

Record Keeping

All physical documents will be kept in a secured and locked file cabinet in the back office. Only administrators will have access to this file cabinet.

Filing Procedure: Documents relating to Waste Disposal, Inventory (delivery manifests, confirmation of delivery receipt reports, audits, and destruction/disposal reports), completed login sheets (kept at the front entry point), nightly sales report, deposit reports relating to cash pick-ups, deposit reports relating to any other kind of cash deposits, and any other documentation relating to operations on the premises shall be submitted to a file box by agents and then filed away in the secure and locked file cabinet in the back office by administrators. Real time inventory will be accessible through our POS system and our printed nightly inventory audits.

**No files shall be disposed of by agents, unless they are an administrator and the file is deemed unnecessary to maintain pursuant to the requirements in 935 CMR 500, the administrator may shred the document on site.*

Digital Real Time Inventory: Inventory numbers will be reflected in real-time by our POS system and manifests will be printed each night during closing procedures to audit the inventory as it is moved to the inventory room.

Hard Drive Storage: Hard drives from computers located on the premises will be stored in a secured and locked safe in the back office. The hard drive will be

removed from the computer by an administrator and transferred to the secured safe. Hard drives will be available upon request on site.

Closing Procedure/Nightly Audit: At the end of each day, all the product that is in the display cases or the shelves on the show floor will be removed and organized in the inventory room. During this time an inventory audit will be performed to check that all inventory is accounted for and matches the inventory count of the POS system. A manifest will be printed from the POS and the agent(s) performing the closing audit will make a manual count of each product and compare it with the manifest. This report will include but not be limited to the date, a summary of the audits findings, and the names, signatures, and titles, of the agents present during the audit. The report will be filed away in the secure file cabinet.

In the event that inventory is lost, an internal review will immediately be initiated. POS data, security footage, prior inventory audits from nights past, and the physical product on hand will all be reviewed to determine where or how the product was lost. A report will be created and local law enforcement will be informed. A report will be sent to the CCC as well.

Weekly Audits: At the end of each week, we will perform an inventory audit on the entirety of the product we have on hand at that time. A manifest will be printed out showing exactly what our POS tell us is currently in stock. Our marijuana agents will then manually account for each product to compare their findings with the POS manifest.

In the event of any discrepancies relating to lost product, an internal investigation will be initiated to locate the potential accounting error or loss of product. If a resolution cannot be found as to inconsistency between the physical product on hand and the product reported to be on hand by the POS, the CCC and local law enforcement will be informed immediately as we continue to investigate the loss. The report will be filed away in the secure file cabinet.

Monthly/Yearly Audits: We will conduct our weekly audits throughout the year and once a month will issue a monthly inventory audit report that will show the amount of product that is on the premises, summary of findings, the date of the audit, names and signatures of those involved in the audit, and their titles. The report will be filed away in the secure file cabinet.

*All audit reports relating to inventory will be filed according to the filing procedure detailed above.

Further detail:

All physical and digital records will be kept on site in one of two areas.

1. Locked and secured file cabinet with multiple folders allowing the establishment to categorize documents and allow for ease in locating specific documentation when needed.
2. Locked and secured safe for sensitive materials and hard drives from POS software and another other computers at the establishment that handle sensitive information relating to the establishment, its administrators, agents, or customers.

Operating Procedures: Our operating procedure packet will be made available both on the show floor in the limited-access area and in the back office. Both will be placed in an easy to access area and all agents will be informed of their location so that they can refer to the operating procedures if they ever have an inquiry as to how a specific circumstance is to be handled. The operating procedure will also have contact information for an administrator that can be reached at any time if a specific question must be answered immediately.

Inventory Records: Records relating to delivery receptions, inventory audits, or any other documentation relating to our inventory will be filed away in the secured and locked file cabinet in the back office. The records will be available upon request at the establishment.

There will also be a record of when the waste was disposed of and a signature of the agent who conducted the disposal.

Waste Disposal

As a retail establishment, the majority of our waste will not be cannabis related. However, we will follow the following procedures to store, secure, and manage our cannabis related waste. Please reference the diagrams at the bottom of this document for the location of the waste disposal area in the premises.

- In the back office area (limited-access area) we will have a designated trash area with a trash bin as well as a recycling bin and toxic waste bin and padlock, a table for sorting/destroying product, and a sink.
- Whenever we have product that needs to be disposed of that is cannabis related, we will bring the product to the trash area. The

product will be weighed and the weight will be recorded. This will also take place while being video recorded with two agents present.

- The weight of the cannabis will be recorded with two of our marijuana agents present. The product will then be ground up, sprayed with Seventh Generation Chlorine Free Bleach (environmentally safe, biodegradable, and will render the product unusable), and then placed into the trash bin. Concentrates will be mixed with the Seventh Generation Chlorine Free Bleach and then disposed of. Edibles will be ground up and sprayed with Seventh Generation Chlorine Free Bleach and then disposed of. Cartridges will be opened and sprayed with Seventh Generation Chlorine Free Bleach and then disposed of. Liquids will be poured down the drain in the trash area and then the container will be dipped in Seventh Generation Chlorine Free Bleach and disposed of.
- The report will be filed away along with all cannabis waste disposal reports to be maintained for at least three years.
- Any packaging that the product may have been placed in will be dipped in Seventh Generation Chlorine Free Bleach to neutralize any remaining cannabis material and then placed in a recycling bin/trash bin.
- When the trash bin is ready to be emptied it will be placed in a bin to be picked up by a licensed service provider.

Quality Control

Upon reception of a delivery of product, our marijuana agent will compare the delivered product with the manifest received from the marijuana establishment the product came from. The product will be inspected and weighed by our marijuana agent to make sure there is accuracy between what is detailed on the manifest and the content of the order that we physically received. During this inspection, our marijuana agent will also inspect the packaging of each product to ensure it is adhering to the label requirements and testing requirements in 935 CMR 500.160. Any product that does not adhere to the criteria will be returned to the driver to then be returned to the marijuana establishment it came from. This procedure is to ensure all the product we are receiving is up to code and able to be sold.

During our nightly and weekly inventory audit, our marijuana agents will be paying attention to the dates on each package to make sure that the product is not out of date. If the product is out of date, it will be moved to a secured cabinet within our inventory room to ensure that it will be destroyed and disposed of according to our waste disposal protocol.

Our facility will be cleaned on a daily basis to sterilize all surface areas that receive regular contact. All areas where cannabis products are stored will also be up kept on

a daily basis to ensure a clean and unobstructed storage area as well as to mitigate the likelihood of a pest related issue.

Testing

NO product will be available for sale at our location that does not arrive at our facility with a testing result label on its packaging. The product will be returned to the delivery driver and then returned back to the marijuana establishment that it came from.

NO product that does not comply with the standards required under 935 CMR 500.160 will be available for sale at our location. The product will be returned to the delivery driver and then returned back to the marijuana establishment that is came from.

No matter, local law enforcement will be informed and the fake ID's will be turned over to them. We cannot detain the patron. We will offer our security footage to law enforcement if they wish to investigate occurrence.

Actions resulting in immediate dismissal of marijuana agents:

- Failure to check or properly verify an I.D. at any time when it is required relating to the procedures we have laid forth in training.
- Sharing of information relating to security protocols or other sensitive information relating to procedures for the movement of product or cash that could put the business, workplace, employees, and its patrons at risk.
- Failure to wear registered agent I.D. while on duty at the establishment.
- Failure to check-in and wear guest badge while visiting and entering limited access areas.

Handling & Storage of Confidential Information

All confidential information will be stored in a secure and locked file cabinet that only administrators have access too.

Employee files, which may contain confidential information, will be stored in a secured and locked file cabinet.

If an employee obtains a document they believe to be confidential information, they are instructed to pass the document off to an administrator to be immediately placed in the secure file cabinet.

Once information is no longer needed, it will be shredded on site and then disposed of. Records will be kept for the duration of what is required by the regulations set forth throughout 935 CMR 500 and may be kept longer for reasons relating to our establishment's best interest.

Information on Board Members

Until our website is up and operational and a tab can be created to allow patrons to request information relating to the board members of the establishment, our employees will be instructed to offer contact information for one of the board members via a business card that will be available next to the register. Patrons may request a list of board members and executives for the establishment using the contact information provided on the business card. The board member understands the regulations and will provide them with the information they are entitled to relating to regulations set forth in 935 CMR 500 but reserves the right to disclose other information at their own will.

Cash Handling

Till Balance/Drop Safe: Each till will have a balance level of \$200. The till will begin and end the day at \$200. Throughout the day an agent authorized to handle cash will “cash out” the till. This will happen several times a day. Our agents will be instructed to pay attention to the cash level of their till. For instance, if they receive several large transactions consecutively, the agent should inform a manager and have the till balanced after their next transaction. The agent will count the cash contents of the till and return \$200 to the till, the remaining amount will be placed in a bank envelope, a receipt will be printed from the register to represent all transactions made up to that point. The agent will write the cash total on the outside of the bank note along with the registers I.D., sign their name, and write the time and date of the deposit. The bank envelope with the cash contents inside will then be placed in the drop safe.

Transfer from Drop Safe to Primary Safe: At the end of the day, our administrator in charge of closing duties will remove the bank envelopes from the drop safe and transfer it to the main safe. The total from the bank envelopes will be added together and should total up to equal the total sales number printed from the POS system at the end of the day. If there is a difference, the administrator will be able to organize the bank envelopes from each till and compare the deposits to the receipts printed from the specific register the deposit came from. The administrator will then be able to identify the register the accounting error occurred at and investigate into the loss further. In the event the loss cannot be rectified, the administrator will create a report and the instance will be investigated to determine where the cash has gone. By using our cameras and comparing the footage to the drops, the receipts from the POS, and the total cash received, the exact amount will be determined and the missing cash should be found. If it is believed to have been stolen, the cameras will be reviewed and the agents that interacted with the till during the day of the loss will be interviewed. If an agent is found to have misplaced cash, they may be reprimanded or demoted. Misplacing of cash could also lead to their termination. If the cash is found to have been stolen, the agent will be terminated and local law enforcement will be informed. The CCC will also be informed.

Safe storage: The safe will have a running *safe storage log* that the administrator making the deposit will be required to fill out on each entry into the safe. The information to be documented will be; date, time, printed name, reason (deposit, withdraw, audit), withdraw amount, deposit amount, new total, and signature. Even if no contents are added or removed, a log of the opening of the safe and signature of the administrator that opened the safe must be recorded (this would be recorded as an “audit”). The safe will be organized so that deposits from the drop safe for each day can be organized in their own section.

**Safe storage audit: Once a month, we will audit the safe storage log by running through security footage and comparing the entries to the safe with the total contents*

log to ensure that each entry into the safe was properly logged. In the event that an entry is unlogged, the administrator will be suspended without pay while a further investigation is conducted relating to an audit of the safe and any missing funds. If no funds are found to be missing, the administrator will be dealt with internally and may be demoted from their administrator status. The failure of the administrator to log their entry could also lead to their termination if it is determined to be necessary.

Deposit Method & Frequency: All of our deposits will be made via Dunbar Armored and delivered to a local Citizen's Bank branch. We will schedule pick-ups at random times but never more than 3 days apart. If the safe reaches \$20,000, an immediate pick-up will be scheduled within the same day or immediately the next morning.

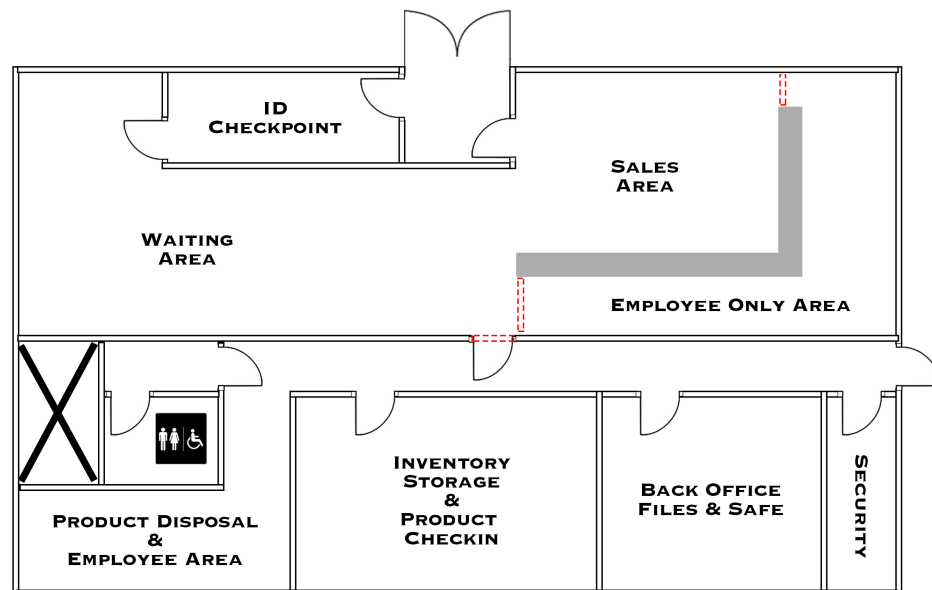

Preventing Diversion to Minors

The following protocols will be implemented to prevent the diversion of cannabis products to those under the age of 21.

- Clear signage at the immediate point of entry indicating that all who enter must be 21 or older and must present a valid form of ID.
- Secondary ID check at the point of transaction to ensure the patron is 21 or older.
- Perimeter cameras showing all vantage points outside of our facility that will be monitored at all times during operational hours by our marijuana agent at the front entry checkpoint. He/she will have a monitor to view, which will show camera angles outside of the establishment. The agents will be trained to take notice of any suspicious activity occurring on the premises.
- Signs in our parking lot stating that the area is under 24-hour surveillance.
- Signs in our parking lot stating that the transfer of cannabis to anyone under the age of 21 is a felony offense.
- Interior signs stating that diversion to anyone under the age of 21 is a felony offense.
- During training, it will be made a point of emphasis that the diversion to minors is a focus of our daily activities. Our agents will be instructed always be looking for signs where the diversion to minors may be taking place.
- In the event that one of our agents is made aware of a situation where the diversion of minors is occurring, they will be mandated to share this information with administration. In the event that one of our agents is found to of had knowledge of the diversion and did not inform administration – the agent will be suspended without pay and an investigation will be conducted to verify the suspicion. In the event the suspicion is verified, the agent will be terminated and the CCC will be notified. If necessary relating to the circumstances and the nature of the actions that lead to the termination, local law enforcement will be informed.

Energy Efficiency and Conservation Procedures

1. All interior lighting will be LED lights.
2. Lights situated near our front windows will be dimmed during the day if the natural light is sufficient. They will be turned up if natural light is not sufficient.
3. Lighting will remain on at all times to allow for ample light on our security footage. However, outside of operational hours, the lights will be dimmed to conserve energy – but not dimmed so much so that the camera footage is not clearly identifiable.
4. We are exploring options to implement solar panels on our roof, but it is not something that is addressed in our property lease, so, we are working with our landlord and neighboring tenants to explore how this could be achieved.
5. We are currently pursuing energy efficiency in our retail operation by leveraging the Mass Save incentive programs and working with local distributors to see the options we have in the Mendon area.

Financial Records

Financial records will be kept in 3 separate areas:

1. Internal and External hard drives stored on site. All hard drives will be secured within the back office.
2. 3rd party CPA - in relation to payroll and other financial documents. Duplicates of these records may also be held on site and may be stored on a hard drive that is on site.
3. All printed financial documents will be kept in an appropriate file in the back office's secured file cabinet that will be locked at all times.

Recorded Business Documents:

The following documents will be recorded and available upon request from our establishment.

1. All Assets & Liabilities
2. Monetary Transaction Ledgers
3. Books of Account, including but not limited to; ledgers, journals, supporting documents, agreements, checks, invoices, vouchers, etc
4. Sales records, including quantity sold, form, and cost
5. Salary and/or wages paid to each employee, stipend paid to each board member, and any executive compensation, bonus, benefit, or item of value paid to any individual affiliated with our establishment

Additional Protocols:

1. No software or methods will be utilized to manipulate sales data or any data on our POS software.
2. Our POS provider, Green Bits, is SOC 1 & SOC 2 compliant which certifies their ability to securely manage and monitor our POS data to ensure no manipulation or corruption is occurring. However, we will conduct our own audits to ensure our system is reporting accurately and that no outside softwares are manipulating our data.
3. On a monthly basis one of our agents will perform an audit on our POS software and equipment. This audit will be a multiple point check to ensure

that the system is calibrated correctly for best performance and that all equipment used in relation to the POS system are working properly. Test sales will be rung into the system to ensure the system is reporting and calculating the transaction properly. The state's traceability system will also be checked to ensure data is being properly reported by the POS system. A report will be created during this check, the agent performing the check will sign off on the report, and the report will be filed in the back office and will be available to the CCC upon request.

- a. If our POS software and or equipment is found to be corrupted, dysfunctional, or is being manipulated, the CCC will immediately be made aware of this discovery. We will immediately begin communicating with our POS provider to determine the best method to ensure the problem is resolved.
 - b. Our establishment will comply with any further investigation initiated by the CCC in response to the report of an error with our POS system and/or equipment.
4. Relating to all product sold that warrants a tax, such data will be preserved and maintained in permanent books of account or records (digital or hard copy), sufficiently accurate and complete to establish the amount of gross income, deductions, credits or other matters required to be shown by such person in any return of such tax or information. All data will be stored according to and in compliance with 830 CMR 62C.25.1.
5. Our POS system will be capable of storing all sales data for the period required by Massachusetts tax code. Data can also be exported from the POS onto external hard drives to ensure storage of all sales data for the amount of time required by Massachusetts law.
6. POS system records **all** transactions in a manner that will allow for verification of what was sold and whether the appropriate amount of tax was collected.
 - a. If at any point one of our agents notices a discrepancy in the totals the POS system calculates when ringing up a transaction, the agent will be instructed to inform a manager so the station can be shut down and the audit procedure mention in #3 above can be conducted on the POS terminal to ensure it is working properly prior to using the station again. If the audit results in discovery that the system is not working properly we will suspend sales until we are able to individually audit each POS station to ensure it is running properly. If none of the stations are working properly, the store may need to be closed until the problem is resolved. The store may remain open as long as one of the POS stations is able to pass the audit and continue operating. A report will be created and filed to be available upon request from the

Diversity Plan

Green Era LLC has created a Diversity Plan that includes 3 goals with programs intend to reach the goals and metrics to record and measure the effectiveness of the programs in reaching the goals.

Our plan will adhere to the requirements set forth in 935 CMR 500.105(4) relating to advertising, branding, marketing, and sponsorship practices of every marijuana Establishment.

Any actions taken, or programs instituted, through carrying out this plan will not violate the Commission's regulations with respect to limitations on ownership or control or other applicable state laws.

Our Goals:

1. Create a diverse and inclusive workplace whose make-up is 50% represented by minorities, women, or veterans.
2. Create opportunities and promote entry into the cannabis industry specifically to minorities in Massachusetts at least two times a year by working with minority centric groups to assist in reaching minority individuals and making them aware of our job opportunities.
3. Work with a diverse range of vendors with a focus on working with at least 3 vendors who are either a women run businesses or entity, veteran run businesses or entity, or minority run businesses or entity.

Programs:

The following programs have been designed to achieve the goals previously laid forth.

1. All administrators and managers involved in the hiring process will be required to take a diversity training course through DiversityEdu, which is a women run business that offers tailored online courses for diversity and inclusivity training. Upon being promoted or hired to a management position, the promoted or hired employee will be required to complete the training course. A certificate is awarded when the employee passes the training course with a result above the set minimum required to pass (ex. 80%). Prior to any hiring of agents at our establishment, the agent conducting the hiring (even if an administrator) must have passed the DiversityEdu course. The frequency of this program will be dependent on how many employees are promoted into a position where they will have a part in the hiring process – we intend to promote 2 of these employees each year and these employees will then be required to take this class to be qualified to be apart of the hiring process.

2. We will work with the local organization 3 Pyramids Inc., North Central Massachusetts Minority Coalition, to engage with minorities in our community. 3 Pyramids will assist our establishment by connecting us with local minority community members when we have job opportunities available. We intend to utilize them to raise awareness of available job opportunities at least 2 times a year. 3 Pyramids will also assist us in advertising our local career fairs. We will hold the career fairs when we have job opportunities available and 3 Pyramids will help us to notify local minority community members of these events. We will hold at least two of these career fair events annually.
3. When looking for vendors to supply product to our store for resale and other services our business requires we will prioritize working with entities whose owners or the majority of their employees fall within the disproportionate impact categories. Some examples would be purchasing product from a minority or woman owned business for resale or working with a security company that focuses on employing veterans. We will work with at least 3 companies annually who fit the above criteria and criteria mentioned in goal #3.

Monitoring Results/Accountability:

1. Demographics of our employees will be reviewable by reviewing each employees file that is currently employed at our establishment at any given time.
2. Keep on file all certificates of completion of the diversity training. All files will be kept in two places – one in a file to track all diversity plan related documents and a duplicate in the employee's file.
3. When we are hiring we will send a notice to 3 Pyramids to inform them of the opportunity. We will ask that they make an effort to inform individuals their organization is in contact with of the job opportunities we have available. 3 Pyramids will also be able to facilitate an introduction between our establishment and the individual.
 - a. We will file the email correspondence of our establishment informing 3 Pyramids of the opportunities.
 - b. We will ask 3 Pyramids to send a letter of acknowledgement attesting to their receipt of the notice of opportunity and attestation that they promoted the opportunity through means of their organization. This letter will be filed.
 - c. Any employees that are hired through this partnership will be documented and filed along with the other files above.
4. The following will be recorded to serve as a means of monitoring the career fair so its effectiveness can be assessed.
 - a. The means of advertisement will be recorded and filed to provide evidence of how the workshop was promoted.
 - b. A notice sent to 3 Pyramids to raise awareness among the minority community of the event, the notice will be filed.

- c. A receipt from 3 Pyramids attesting to their receipt of the notice mentioned in “b” as well as attestation that they promoted the workshop through means of their organization.
 - d. Sign in sheet from the workshop to record the attendees and total attendance will also be filed.
- 5. We will keep track of all the vendors and service providers we are utilizing at our establishment. If the vendor or service provider meets the criteria of being an entity that is owned by or focuses on employing individuals who fall within the disproportionate impact categories, a file will be added to the diversity plan files stating our relationship with this entity.

On an annual basis, prior to our license renewal, administrators and managers will review the documented information to assess the effectiveness of each program and determine if any changes need to be made and if the program should be kept for the following year. If any changes are made the amended plan will be submitted to the commission for review and approval. All progress and success relating to the goals and programs of this plan will be reported annually.
