PLAN TO POSITIVELY IMPACT AREAS OF DISPROPORTIONATE IMPACT

Overview

Metro Harvest, Inc. (“Metro Harvest”) is dedicated to serving and supporting populations falling within areas of disproportionate impact, which the Commission has identified as the following:

1. Past or present residents of the geographic “areas of disproportionate impact,” which have been defined by the Commission and identified in its Guidance for Identifying Areas of Disproportionate Impact;
2. Commission-designated Economic Empowerment Priority applicants;
3. Commission-designated Social Equity Program participants;
4. Massachusetts residents who have past drug convictions; and
5. Massachusetts residents with parents or spouses who have drug convictions are classified as areas of disproportionate impact.

To support such populations, Metro Harvest has created the following Plan to Positively Impact Areas of Disproportionate Impact (the “Plan”) and has identified and created goals/programs to positively impact past or present residents of these areas and Massachusetts residents who have past drug convictions.

Goals

In order for Metro Harvest to positively impact past or present residents of disproportionate areas and Massachusetts residents who have past drug convictions, Metro Harvest has established the following goals:

1. Hiring employees from disproportionately impacted areas and Massachusetts residents who have past drug convictions. More specifically, Metro Harvest will hire employees from New Bedford and Fall River. In addition, Metro Harvest will post online advertisements and host job fairs that clearly indicate our interest in hiring Massachusetts residents with past drug convictions.

Programs

Metro Harvest has developed specific programs to effectuate its stated goals to positively impact past or present residents of disproportionate areas and Massachusetts residents who have past drug convictions. Such programs will include the following:

1. Participating in job fairs, hosted by Metro Harvest, in disproportionate areas at least twice annually to better identify qualified residents for open positions; and
2. Advertising open positions and job fairs through channels that reach residents of disproportionate areas, including The Standard Times (New Bedford) and The Herald News (Fall River); such advertisements will also encourage Massachusetts residents who have past drug convictions to apply. Advertisements will run at least 2-3 times per year with additional if necessary, to fulfill hiring requirements.

Measurements

The HR Director will administer the Plan and will be responsible for developing measurable outcomes to ensure Metro Harvest continues to meet its commitments. Such measurable outcomes, in accordance with Metro Harvest’ goals and programs described above, include:

- 10 employees hired and retained for a period of no less than six months who are residents of disproportionate areas;
- 5 employees hired and retained for a period of no less than six months who are Massachusetts residents with past drug convictions;
- The number of job fairs held in disproportionate areas, as well as the number of candidates identified through such job fairs who are residents of those areas or are Massachusetts residents with past drug convictions; and
- The number of open positions and job fairs advertised through channels that reach residents in disproportionate areas, including information regarding the types of positions advertised and the applicants received as a result of such advertisements.

Beginning upon the Commission's approval of this amended Plan, Metro Harvest will utilize the proposed measurements to assess its Plan and will account for demonstrating proof of success or progress of the Plan upon the yearly renewal of the license. The HR Director will review and evaluate Metro Harvest' measurable outcomes no less than twice annually to ensure that Metro Harvest is meeting its commitments. Metro Harvest is mindful that demonstration of the Plan's progress and success will be submitted to the Commission upon renewal. Metro Harvest intends to implement this plan to start hiring upon receipt of a Provisional License.

Acknowledgements

- Metro Harvest will adhere to the requirements set forth in 935 CMR 500.105(4) which provides the permitted and prohibited advertising, branding, marketing, and sponsorship practices of every Marijuana Establishment.
- Any actions taken, or programs instituted, by Metro Harvest will not violate the Commission's regulations with respect to limitations on ownership or control or other applicable state laws.

BY-LAWS OF METRO HARVEST, INC.

ARTICLE 1 - Stockholders

1.1 Place of Meetings. All meetings of stockholders shall be held within the Commonwealth of Massachusetts unless the Articles of Organization permit the holding of stockholders' meetings outside Massachusetts, in which event such meetings may be held elsewhere in the United States. Meetings of stockholders shall be held at the principal office of the corporation unless a different place is fixed by the Board of Directors or the President and stated in the notice of the meeting.

1.2 Annual Meeting. The annual meeting of stockholders shall be held on the 2nd day of January in each year (or if that be a legal holiday in the place where the meeting is to be held, on the next succeeding full business day) at 10:00 A.M., unless a different hour is fixed by the Directors or the President and stated in the notice of the meeting. The purposes for which the annual meeting is to be held, in addition to those prescribed by law, by the Articles of Organization or by these By-Laws, may be specified by the Board of Directors or the President. If no annual meeting is held in accordance with the foregoing provisions, a special meeting may be held in lieu of the annual meeting, and any action taken at that special meeting shall have the same effect as if it had been taken at the annual meeting, and in such case all references in these By-Laws to the annual meeting of stockholders shall be deemed to refer to such special meeting.

1.3 Special Meetings. Special meetings of stockholders may be called by the President or by the Board of Directors. Upon written application of one or more stockholders who are entitled to vote and who hold at least ten percent of the capital stock entitled to vote at the meeting, special meetings shall be called by the Clerk, or in the case of the death, absence, incapacity or refusal of the Clerk, by any other officer.

1.4 Notice of Meetings. A written notice of each meeting of stockholders, stating the place, date and hour thereof, and the purposes for which the meeting is to be held, shall be given by the Clerk, Assistant Clerk or other person calling the meeting at least seven days before the meeting to each stockholder entitled to vote at the meeting and to each stockholder who by law, by the Articles of Organization or by these By-Laws is entitled to such notice, by leaving such notice with him or at his residence or usual place of business, or by mailing it postage prepaid and addressed to such stockholder at his address as it appears in the records of the corporation. Whenever any notice is required to be given to a stockholder by law, by the Articles of Organization or by these By-Laws, no such notice need be given if a written waiver of notice, executed before or after the meeting by the stockholder or his authorized attorney, is filed with the records of the meeting.

1.5 Quorum. Unless the Articles of Organization otherwise provide, the holders of a majority of the number of shares of the stock issued, outstanding and entitled to vote on any matter shall constitute a quorum with respect to that matter, except that if two or more classes of stock are outstanding and entitled to vote as separate classes, then in the case of each such class a quorum shall consist of the holders of a majority of the number of shares of the stock of that class issued,

outstanding and entitled to vote. Shares owned directly or indirectly by the corporation shall not be counted in determining the total number of shares outstanding for this purpose.

1.6 Adjournments. Any meeting of stockholders may be adjourned to any other time and to any other place at which a meeting of stockholders may be held under these By-Laws by the stockholders present or represented at the meeting, although less than a quorum, or by any officer entitled to preside or to act as clerk of such meeting, if no stockholder is present. It shall not be necessary to notify any stockholder of any adjournment. Any business which could have been transacted at any meeting of the stockholders as originally called may be transacted at any adjournment of the meeting.

1.7 Voting and Proxies. Each stockholder shall have one vote for each share of stock entitled to vote held of record by such stockholder and a proportionate vote for each fractional share so held, unless otherwise provided by the Articles of Organization. Stockholders may vote either in person or by written proxy dated not more than six months before the meeting named in the proxy. Proxies shall be filed with the clerk of the meeting, or of any adjourned meeting, before being voted. Except as otherwise limited by their terms, a proxy shall entitle the persons named in the proxy to vote at any adjournment of such meeting but shall not be valid after final adjournment of such meeting. A proxy with respect to stock held in the name of two or more persons shall be valid if executed by any one of them, unless at or prior to exercise of the proxy the corporation receives a specific written notice to the contrary from any one of them. A proxy purported to be executed by or on behalf of a stockholder shall be deemed valid unless challenged at or prior to its exercise.

1.8 Action at Meeting. When a quorum is present at any meeting, the holders of a majority of the stock present or represented and voting on a matter (or if there are two or more classes of stock entitled to vote as separate classes, then in the case of each such class, the holders of a majority of the stock of that class present or represented and voting on a matter), shall decide any matter to be voted on by the stockholders, except when a larger vote is required by law, the Articles of Organization or these By-Laws. Any election by stockholders shall be determined by a plurality of the votes cast by the stockholders entitled to vote at the election. No ballot shall be required for such election unless requested by a stockholder present or represented at the meeting and entitled to vote in the election. The corporation shall not directly or indirectly vote any share of its own stock.

1.9 Action without Meeting. Any action required or permitted to be taken at any meeting of the stockholders may be taken without a meeting if all stockholders entitled to vote on the matter consent to the action in writing and the written consents are filed with the records of the meetings of stockholders. Each such consent shall be treated for all purposes as a vote at a meeting.

ARTICLE 2 - Directors

2.1 Powers. The business of the corporation shall be managed by a Board of Directors, who may exercise all the powers of the corporation except as otherwise provided by law, by the Articles of Organization or by these By-Laws. In the event of a vacancy in the Board of Directors, the

remaining Directors, except as otherwise provided by law, may exercise the powers of the full Board until the vacancy is filled.

2.2 Number, Election and Qualification. The number of Directors which shall constitute the whole Board of Directors shall be determined by vote of the stockholders or the Board of Directors but shall consist of not less than one Director. The number of Directors may be decreased at any time and from time to time either by the stockholders or by a majority of the Directors then in office, but only to eliminate vacancies existing by reason of the death, resignation, removal or expiration of the term of one or more Directors. The Directors shall be elected at the annual meeting of stockholders by such stockholders as have the right to vote on such election. No Director need be a stockholder of the corporation.

2.3 Enlargement of the Board. The number of Directors may be increased at any time and from time to time by the stockholders or by a majority of the Directors then in office.

2.4 Tenure. Each Director shall hold office until the next annual meeting of stockholders and until his successor is elected and qualified, or until his earlier death, resignation or removal.

2.5 Vacancies. Unless and until filled by the stockholders, any vacancy in the Board of Directors, however occurring, including a vacancy resulting from an enlargement of the Board, may be filled by vote of a majority of the Directors present at any meeting of Directors at which a quorum is present. Each such successor shall hold office for the unexpired term of his predecessor and until his successor is chosen and qualified or until his earlier death, resignation or removal.

2.6 Resignation. Any Director may resign by delivering his written resignation to the corporation at its principal office or to the President or Clerk. Such resignation shall be effective upon receipt unless it is specified to be effective at some other time or upon the happening of some other event.

2.7 Removal. A Director may be removed from office with or without cause by vote of the holders of a majority of the shares entitled to vote in the election of Directors. However, the Director selected by the holders of a particular class or series of stock may be removed from office with or without cause only by vote of the holders of a majority of the outstanding shares of such class or series. In addition, a Director may be removed from office for cause by vote of a majority of the Directors then in office. A Director may be removed for cause only after reasonable notice and opportunity to be heard before the body proposing to remove him.

2.8 Regular Meetings. Regular meetings of the Directors may be held without call or notice at such places, within or without Massachusetts, and at such times as the Directors may from time to time determine, provided that any Director who is absent when such determination is made shall be given notice of the determination. A regular meeting of the Directors may be held without a call or notice immediately after and at the same place as the annual meeting of stockholders.

2.9 Special Meetings. Special meetings of the Directors may be held at any time and place, within or without Massachusetts, designated in a call by the Chairman of the Board, President, Treasurer, two or more Directors or by one Director in the event that there is only a single Director in office.

2.10 Meetings by Telephone Conference Calls. Directors or members of any committee designated by the Directors may participate in a meeting of the Directors or such committee by means of a conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other at the same time, and participation by such means shall constitute presence in person at a meeting.

2.11 Notice of Special Meetings. Notice of any special meeting of the Directors shall be given to each Director by the Secretary or Clerk or by the officer or one of the Directors calling the meeting. Notice shall be duly given to each Director (i) by notice given to such Director in person or by telephone at least 48 hours in advance of the meeting, (ii) by sending a telegram or telex, or by delivering written notice by hand, to his last known business or home address at least 48 hours in advance of the meeting, or (iii) by mailing written notice to his last known business or home address at least 72 hours in advance of the meeting. Notice need not be given to any Director if a written waiver of notice, executed by him before or after the meeting, is filed with the records of the meeting, or to any Director who attends the meeting without protesting prior to the meeting or at its commencement the lack of notice to him. A notice or waiver of notice of a Directors' meeting need not specify the purposes of the meeting. If notice is given in person or by telephone, an affidavit of the Secretary, Clerk, officer or Director who gives such notice that the notice has been duly given shall, in the absence of fraud, be conclusive evidence that such notice was duly given.

2.12 Quorum. At any meeting of the Board of Directors, a majority of the Directors then in office shall constitute a quorum. Less than a quorum may adjourn any meeting from time to time without further notice.

2.13 Action at Meeting. At any meeting of the Board of Directors at which a quorum is present, the vote of a majority of those present shall be sufficient to take any action, unless a different vote is specified by law, by the Articles of Organization or by these By-Laws.

2.14 Action by Consent. Any action required or permitted to be taken at any meeting of the Board of Directors may be taken without a meeting if all the Directors consent to the action in writing and the written consents are filed with the records of the Directors' meetings. Each such consent shall be treated for all purposes as a vote at a meeting.

2.15 Committees. The Board of Directors may, by vote of a majority of the Directors then in office, elect from their number an executive committee or other committees and may by like vote delegate to committees so elected some or all of their powers to the extent permitted by law. Except as the Board of Directors may otherwise determine, any such committee may make rules for the conduct of its business, but unless otherwise provided by the Directors or in such rules, its business shall be conducted as nearly as possible in the same manner as is provided by these By-

Laws for the Directors. The Board of Directors shall have the power at any time to fill vacancies in any such committee, to change its membership or to discharge the committee.

2.16 Compensation of Directors. Directors may be paid such compensation for their services and such reimbursement for expenses of attendance at meetings as the Board of Directors may from time to time determine. No such payment shall preclude any Director from serving the corporation in any other capacity and receiving compensation therefor.

ARTICLE 3 - Officers

3.1 Enumeration. The officers of the corporation shall consist of a Chief Executive Officer, , Chief Revenue Officer, Chief Operating Officer, President, a Treasurer, a Clerk and such other officers with such other titles as the Board of Directors may determine, including, but not limited to, a Chairman of the Board, a Vice Chairman of the Board, a Secretary and one or more Vice Presidents, Assistant Treasurers, Assistant Clerks and Assistant Secretaries.

3.5 Resignation and Removal. Any officer may resign by delivering his written resignation to the corporation at its principal office or to the President, Clerk or Secretary. Such resignation shall be effective upon receipt unless it is specified to be effective at some other time or upon the happening of some other event. Any officer may be removed at any time, with or without cause, by vote of a majority of the entire number of Directors then in office. An officer may be removed for cause only after reasonable notice and opportunity to be heard by the Board of Directors prior to action thereon. Except as the Board of Directors may otherwise determine, no officer who resigns or is removed shall have any right to any compensation as an officer for any period following his resignation or removal, or any right to damages on account of such removal, whether his compensation be by the month or the year or otherwise, unless such compensation is expressly provided in a duly authorized written agreement with the corporation.

3.6 Vacancies. The Board of Directors may fill any vacancy occurring in any office for any reason and may, in its discretion, leave unfilled for such period as it may determine any offices other than those of President, Treasurer and Clerk. Each such successor shall hold office for the unexpired term of his predecessor and until his successor is chosen and qualified, or until he sooner dies, resigns or is removed.

3.7 Chairman of the Board and Vice-Chairman of the Board. The Board of Directors may appoint a Chairman of the Board and may designate him as Chief Executive Officer. This investment capital will finance the hard costs associated with the build-out of a retail facility to the highest standard including a complete gut and re-build of the interior and a reface of the facade of the property that will blend in tastefully with the character of the surrounding community. The Company anticipates the YR1 operating budget to be \$1.2M. A more detailed cost breakdown is provided in the Financial Projections section of this business plan.

Choosing a strong and experienced partner is critical for any community. There are many cities and towns who have learned this the hard way. Many businesses have entered into agreements with host communities only to fail to launch the business successfully. This is usually due to industry inexperience and poor financial planning.

The Company works very hard to recruit and hire from within the host communities. We do this in a number of ways including hiring days and fairs that are advertised and held locally, local publication postings, and Indeed postings. The Company anticipates creating 40 to 55 well-paying, full-time jobs in New Bedford, MA. These positions include a store manager, four assistant managers, 35 budtenders, 8 security and parking attendant positions, and 5 inventory management specialists. The Company has also seen its presence in a community create an economic multiplier to the local economy. In addition to the ancillary jobs created by the direct services to the Company, local businesses near the store benefit from employee spending and the increase in traffic from pre and post customer visits.

V. Market Analysis

Industry Analysis

A large majority of cannabis companies are privately held. This makes capturing accurate revenue, profit margins and monthly operating expenses challenging. Fortunately, Marijuana Business Daily produces a rigorously researched Marijuana Business Factbook each year. Much of our industry analysis leverages their findings.

We estimate that sales of marijuana in 2019 will reach between \$5 billion and \$10 billion nationally, which will amount to a compounded annual growth rate (CAGR) of 7.5% to 14% over the past five years. Going forward we forecast a range of growth between \$6 billion and \$11 billion nationally in 2020, a 7% to 15% CAGR.

Even more important is the economic impact the industry has on the local economy. It is estimated that the “economic multiplier” in the Marijuana industry is four times. In other words, for every \$1 patients and caregivers spend at the retail level, an additional \$3 of economic value is injected into the economy – much of it at the local level. If that is accurate, then the industry will contribute roughly \$10.8 billion to \$20 billion to the national economy in 2020.

We forecast that the national growth rate will remain stable for two reasons. First, more states are expected to approve medical and recreational sales, which will serve to increase the total number of patients and consumers. Secondly, it is expected that more states will approve recreational marijuana, which is likely to slow the growth of total medical patients.

Industry Analysis: Massachusetts

The State of Massachusetts is the 15th most populated state in the US with 6,859,819 people, the population over the age of 18 is 5,487,855. Massachusetts is the 3rd most populated state by landmass behind New Jersey and Rhode Island.

The Massachusetts legislature mandated as part of the Marijuana Act of 2016 mandated a “Marijuana baseline health study report findings” the Massachusetts Department of Health commissioned this study and the results were released on June 29th 2018. This was a

comprehensive study that analyzed the patterns of use, methods of consumption, impacts on safety and economic impact.

The study results concluded that 21% of adults used cannabis in the previous 30 days. The millennial generation, ages between 21 and 25 reported the highest usage of 52% in the previous 30 days. Flower has been the dominant delivery method, however, 40% reported using multiple methods with Millennial's steering toward higher use of extracts and edibles. More than 75% of all adults considered cannabis to have slight or no risks and use cannabis for recreational purposes.

Using the 18 and over baseline population numbers (5,487,449) of which 21% are reported cannabis users the addressable market is around 1,152,449. Assuming a conservative estimate of \$1,500 per year spend per person we expect the size of the Massachusetts market to be at least \$1.15 billion dollars.

The following is from Marijuana Business Daily, a trusted third party cannabis industry analyst:

“Massachusetts’ [looming recreational marijuana market](#) has the potential to be one of the most prosperous in the nation. Under rules finalized this month, cannabis entrepreneurs face no license caps for an assortment of business categories, edibles and many other goods are permitted, and there are Massachusetts’ [looming recreational marijuana market](#) has the potential to be one of the most prosperous in the nation, according to MJ Business Daily.

Under rules finalized this month, cannabis entrepreneurs face no license caps for an assortment of business categories, edibles and many other goods are permitted, and there are opportunities to build a brand. But applicants seeking to set up shop when the Bay State’s adult-use industry opens this summer will face a gauntlet of requirements that have already derailed scores of aspiring medical marijuana businesses.

Of the roughly 275 businesses that have applied for MMJ licenses since Massachusetts voters approved medical cannabis in 2012, only 42 have opened. At least 75 applications have expired. Recreational license applicants can expect more of the same, observers said, though these same hurdles could benefit entrepreneurs who can cross the finish line.

“If you’re able to get open here, you’re going to see a more protected environment,” said Scott Moskol, an attorney who heads the cannabis practice at Boston law firm Burns & Levinson.

“We’re not going to see the downward pricing pressures as quickly,” he added.”

Saturation point?

With roughly 200 medical marijuana business applicants still in the Massachusetts’ licensing pipeline, the state’s adult-use market may seem poised for oversaturation, especially since existing MMJ businesses have first-mover advantages. Consider the following:

- Dispensaries began applying for “priority certification” on April 2, 2018
- Dispensaries that received priority verification could apply for a commercial license beginning April 16, 2018
- Applicants seeking to establish cannabis businesses in communities hurt by the war on drugs are also eligible to apply for priority certification.
- Rec applicants who didn’t possess medical cannabis licenses had to wait until June 1, 2018 to apply.
- The head start afforded MMJ licensees doesn’t portend potential oversaturation of the market – at least not anytime soon – said several industry watchers because:
 - The majority of existing MMJ license won't survive the adult-use application process
 - Some MMJ licenses will run out of capital before they get licensed

“If there are 200 or so applicants, I would guess that the majority of those won’t get licenses, including some really sharp and smart operators,” said Kris Krane, head of 4Front Ventures, a cannabis consulting and investment firm in Boston that has several clients seeking licenses. “I think we have a long-time horizon here before we have any saturation issues.” Adam Fine, an attorney who heads the Boston office of the Vicente Sederberg law firm, noted that numerous cannabis entrepreneurs have asked him if they’re too late to enter the Massachusetts market. Fine always tells them “no,” because “I don’t think we’re close to being saturated. “There’s still a tremendous opportunity for people to come in.”

While some entrepreneurs may be deterred by the municipalities’ restrictions, smart ones will see the bans and moratoriums as a benefit because they thin out the competition, Moskol said. “At the beginning, that lack of competition may make our market attractive because you don’t have to worry that there will be a thousand pot shops,” he said.

‘Compared with the first month of rec sales in other states, Massachusetts had lower gross sales but far fewer operating dispensaries than Oregon (\$14 million, 320 dispensaries), Colorado (\$14.7 million, 59 dispensaries) and Nevada (\$27.1 million, 53 dispensaries) Source: MJ Business Daily.’

National Recreational Market

The legalized marijuana industry is the fastest-growing industry in the country, [reports Â The Huffington Post today](#). "And if the trend toward legalization spreads to all 50 states, marijuana could become larger than the organic food industry," the article states.

The Huffington Post's announcement comes from a report the news outlet obtained from cannabis industry research and investment firm The ArcView Group, which found that "the U.S. market for legal cannabis grew 74 percent in 2014 to \$2.7 billion, up from \$1.5 billion in 2013," reports Â *HuffPost*.

The ArcView Group based its report on surveys, during 2013-2014, of hundreds of marijuana retailers—medical and recreational—and cultivators, as well as ancillary businesses, state agencies, non-profit organizations and others.

According to *HuffPost*, the ArcView Group's report predicts 32-percent market growth this year. And, "Over the next five years, the marijuana industry is expected to continue to grow, with ArcView predicting that 14 more states will legalize recreational marijuana and two more states will legalize medical marijuana," *HuffPost* reports.

Over the past few years, the number of companies operating in this market has increased exponentially. Producers are focused on expanding their customer pool by offering myriad portfolio of products and through geographical expansion. Products currently being offered include varieties of strains and extracts such as oils, tinctures, resins, and consumables based on concentration of cannabinoids like THC and CBD.

As countries begin to liberalize their Cannabis Laws, the market is expected to witness a surge in demand. Currently, the majority of cannabis is sold through illicit channels. To curb this illegal trade, governments have started legalizing marijuana in order to monitor the products that enter the supply chain and reap the benefits through taxes levied on these products.

In North America, it has been reported that about 70-75% of the cannabis trade is illegal, which has reduced nearly 30.0% in states where marijuana has been legalized. This in turn has prompted several countries to initiate legalization programs. Keen investors are awaiting legalization of recreational marijuana in countries like Canada. As recreational cannabis is legalized, the number of consumers it is expected to increase by 40.0%. It seems safe to say, the United States recreational cannabis market is booming and is here to stay.

Target Market

It is anticipated that the Company will appeal to a broad base of consumers. We do not expect a specific age demographic to emerge among our consumer however the research done in Massachusetts (which is consistent with national data) suggests the younger generations have adopted cannabis consumption at a much higher rate in percentage terms. Our consumers will share one common characteristic – over the age of 21 years old. They are likely to be middle and upper income individuals in single-person and family households. The Company's ideal consumers desire a convenient retail experience within a 10-mile radius of our retail locations. Safe, high quality products for everyone.

Competitive Analysis

We believe that if the current trend continues there will likely be an additional 10-20 retail stores that will open throughout the State of Massachusetts in 2019. We expect this growth trend to continue before accelerating in late 2020 and into 2021 as communities become more accepting. Northeast Alternatives was the 34th medical dispensary to open and the 8th recreational business to be approved and operating in Massachusetts. The relationship with Northeast Alternatives allows the Company to leverage the experience and infrastructure that Northeast Alternatives has built to support their operations and provide the services needed to achieve operational success. The cannabis business is complicated, cash intensive, and highly regulated. Many investors and operators desire to get into the industry, but only businesses with very strong and experienced operational teams will be successful and profitable.

Strategic Trends

TECHNOLOGY TREND: Customers want to be able to access information more quickly on-the-go; to be able to read reviews of the Company at websites such as www.leafly.com; www.yelp.com; www.google.com. The Company will stay relevant and up-to-date with technology and remain ahead of the competition and stay within regulatory parameters.

ECONOMIC TREND: Cannabis sales and participation rates are growing rapidly as more states have legalized both Medical and/or Recreational Marijuana sales and use. This trend is highly unlikely to change in the foreseeable future. We believe the cannabis industry is in its infant stage and will likely grow at exponential rates over the next 20 years.

Market Growth

Total marijuana retail sales in the U.S. are expected to continue to grow double digits on an annual basis likely reaching \$20 billion by 2020. This is incredible growth considering that from the year 2000 through 2013 retail sales hit \$1.6 billion and in 2016 total sales hit \$4.3 billion. If those numbers aren't impressive enough the actual economic impact from the cannabis industry in 2016 was \$16 billion and will likely grow to \$20 billion by 2020. 2016 was a pivotal year for the industry with California, Massachusetts, Maine and Nevada voting to approve recreational marijuana for adult use and Florida overwhelmingly approving to expand its MMJ regulations.

VI. Marketing Strategy

The Company's success will be achieved by providing great customer services while employing a proven digital marketing strategy to attract patient traffic. Today's market requires more than just great products to be successful. The Company will constantly strive to win customers by being proactive rather than reactive in its marketing efforts while being tasteful and respectful to our host communities. The Company's management will create and maintain a positive, appealing image for the Company, which will be consistently applied, as described below:

A. Website

The Company's management will be responsible for maintaining a fresh, interactive and well-designed website, which allows visitors to review the Company's menu of products, view images of the Company's RMD facility, access directions to the Company's RMD, and view the RMD's hours of operation.

A. Social Networking

Company's management will be responsible for maintaining fresh, interactive and well-designed accounts with popular social networking sites, including without limitation www.facebook.com, www.instagram.com, www.twitter.com and www.yelp.com, which will allow visitors to review the Company's products, view images of the Company's RMD facility, access directions to the Company's RMD, and view the RMD's hours of operation.

C. Digital Marketing

The Company's management will be responsible for deploying a digital marketing campaign to attract new patients as they search online for the unique products offered by the Company. Many proprietary techniques will be used to promote the Company on relevant digital platforms dedicated to serving the industry.

VII. Growth Plan

A. Expansion Plan

The Company is currently working with two other cities in Massachusetts to establish additional Marijuana Retail Establishments. The properties have been secured either by acquisition or through a binding lease and we expect to receive the final host agreements within the next 30-60 days.

While Company's management will focus first and foremost on developing the business in Massachusetts to achieve a successful return on investment without the need for expansion beyond Massachusetts, the Company's appealing services, comfortable atmosphere, and competitive prices will likely position the business for broad customer appeal in a wide range of markets. To this end, once the Company has achieved profitability, the Company's management will carefully consider organic and/or acquisitive expansion opportunities.

Leave Policies

MH leave policies will comport with all state and federal statutes.

All full-time employees will receive two 40-hour weeks of paid vacation per annum. Additional leave must be requested at least 2 weeks in advance and approved by the employee's department manager. MH will determine which holidays will be observed and which departments will not be required to work. MH will offer paid maternity leave. Additional leave will not be paid and must be approved by the department manager.

MH anticipates observing the following holidays:

- New Year's Day;
- Thanksgiving; and

- Christmas Day.

Disciplinary Policies

Purpose

MH's discipline policy and procedure is designed to provide a structured corrective action process to improve and prevent a recurrence of undesirable behavior and/or performance issues. The steps outlined below of MH's discipline policy and procedure have been designed consistent with MH's organizational values, best practices, and employment laws.

MH reserves the right to combine or skip steps depending upon facts of each situation and the nature of the offense. The level of disciplinary intervention may also vary. Some of the factors that will be considered depend upon whether the offense is repeated despite coaching, counseling, and/or training; the employee's work record; and the impact the conduct and performance issues have on MH's organization.

Procedure

Step 1: Counseling and Verbal Warning

Step 1 creates an opportunity for the immediate supervisor to schedule a meeting with an employee to bring attention to the existing performance, conduct, or attendance issue. The supervisor should discuss with the employee the nature of the problem or violation of company policies and procedures. The supervisor is expected to clearly outline expectations and steps the employee must take to improve performance or resolve the problem.

Within five business days, the supervisor will prepare written documentation of a Step 1 meeting. The employee will be asked to sign the written documentation. The employee's signature is needed to demonstrate the employee's understanding of the issues and the corrective action needed.

Step 2: Written Warning

While it is hoped that the performance, conduct, or attendance issues that were identified in Step 1 have been corrected, MH recognizes that this may not always be the case. A written warning involves a more formal documentation of the performance, conduct, or attendance issues and consequences.

During step two, the immediate supervisor and a department manager or director will meet with the employee and review any additional incidents or information about the performance, conduct, or attendance issues as well as any prior relevant corrective action plans. Management will outline the consequences for the employee of his or her continued failure to meet performance and/or conduct expectations. A formal performance improvement plan (PIP) requiring the employee's immediate and sustained corrective action will be issued within five business days of a step two meeting. A warning outlining that the employee may be subject to additional discipline up to and including termination if immediate and sustained corrective action is not taken may also be included in the written warning.

Step 3: Suspension and Final Written Warning

There may be performance, conduct, or safety incidents so problematic and harmful that the most effective action may be the temporary removal of the employee from the workplace. When immediate action is necessary to ensure the safety of the employee or others, the immediate supervisor may suspend the employee pending the results of an investigation.

Suspensions that are recommended as part of the normal progression of this progressive discipline policy and procedure are subject to approval from a next-level manager and the Human Resources Manager.

Depending upon the seriousness of the infraction, the employee may be suspended without pay in full-day increments consistent with federal, state and local wage-and-hour employment laws. Nonexempt/hourly employees may not substitute or use an accrued paid vacation or sick day in lieu of the unpaid suspension. Due to Fair Labor Standards Act (FLSA) compliance issues, unpaid suspension of salaried/exempt employees is reserved for serious workplace safety or conduct issues. The Human Resources Manager will provide guidance so that the discipline is administered without jeopardizing the FLSA exemption status.

Pay may be restored to the employee if an investigation of the incident or infraction absolves the employee.

Step 4: Recommendation for Termination of Employment

The last and most serious step in the progressive discipline procedure is a recommendation to terminate employment. Generally, MH will try to exercise the progressive nature of this policy by first providing warnings, a final written warning, and/or suspension from the workplace before proceeding to a recommendation to terminate employment. However, MH reserves the right to combine and skip steps depending upon the circumstances of each situation and the nature of the offense. Furthermore, employees may be terminated without prior notice or disciplinary action.

Management's recommendation to terminate employment must be approved by the Human Resources Manager and department manager or designee. Final approval may be required from the CEO or designee.

Nothing in this policy provides any contractual rights regarding employee discipline or counseling nor should anything in this policy be read or construed as modifying or altering the employment-at-will relationship between MH and its employees.

Appeal Process

Employees will have the opportunity to present information that may challenge information management has used to issue disciplinary action. The purpose of this process is to provide insight into extenuating circumstances that may have contributed to the employee performance and/or conduct issues while allowing for an equitable solution.

If the employee does not present this information during any of the step meetings, he or she will have five business days after that meeting to present information.

Performance and Conduct Issues Not Subject to Progressive Discipline

Behavior that is illegal is not subject to progressive discipline and may be reported to local law enforcement. Theft, intoxication at work, fighting and other acts of violence are also not subject to progressive discipline and may be grounds for immediate termination.

Documentation

The employee will be provided copies of all progressive discipline documentation, including all performance improvement plans. The employee will be asked to sign copies of this documentation attesting to their receipt and understanding of the corrective action outlined in these documents. Copies of these documents will be placed in the employee's official personnel file.

Separation of Employment

Separation of employment within an organization can occur for several different reasons. Employment may end as a result of resignation, retirement, release (end of season or assignment), reduction in workforce, or termination. When an employee separates from MH, his or her supervisor must contact the Human Resources Manager to schedule an exit interview, typically to take place on employee's last workday.

Types of Separation

1. Resignation

Resignation is a voluntary act initiated by the employee to end employment with MH. The employee must provide a minimum of two (2) weeks' notice prior to resignation. If an employee does not provide advance notice or fails to actually work the remaining two weeks, the employee will be ineligible for rehire and will not receive accrued benefits. The resignation date must not fall on the day after a holiday.

2. Retirement

An employee who wishes to retire is required to notify his or her department director and the Human Resources Manager in writing at least one (1) month before planned retirement date. It is the practice of MH to give special recognition to employees at the time of their retirement.

3. Job Abandonment

An employee who fails to report to work or contact his or her supervisor for two (2) consecutive workdays shall be considered to have abandoned the job without notice effective at the end of the employee's normal shift on the second day. The department manager shall notify the Human Resources Manager at the expiration of the second workday and initiate the paperwork to terminate the employee. Employees who are separated due to job abandonment are ineligible to receive accrued benefits and are ineligible for rehire.

4. Termination

Employees of MH are employed on an at-will basis, and the company retains the right to terminate an employee at any time.

5. Reduction in Workforce

An employee may be laid off due to changes in duties, organizational changes, lack of funds, or lack of work. Employees who are laid off may not appeal the layoff decision through the appeal process.

6. Release

Release is the end of temporary or seasonal employment. The Human Resources Manager, in consultation with the department manager, will inform the temporary or seasonal worker of their release according to the terms of the individual's temporary employment.

Exit Interview

The separating employee shall contact the HR department as soon as notice is given to schedule an exit interview. The interview will be on the employee's last day of work or other day, as mutually agreed upon.

Return of Property

The separating employee must return all company property at the time of separation, including but not limited to uniforms, cell phones, keys, computers, and identification cards. Failure to return some items may result in deductions from final paycheck. An employee will be required to sign the Wage Deduction Authorization Agreement to deduct the costs of such items from the final paycheck.

Termination of Benefits

An employee separating from MH is eligible to receive benefits as long as the appropriate procedures are followed as stated above. Two weeks' notice must be given, and the employee must work the full two work weeks. Accrued vacation leave will be paid in the last paycheck. Accrued sick leave will be paid in the last paycheck.

Health Insurance

Health insurance terminates on the last day of the month of employment, unless employee requests immediate termination of benefits. Information about the Consolidated Omnibus Budget Reconciliation Act (COBRA) continued health coverage will be provided. Employees will be required to pay their share of the dependent health and dental premiums through the end of the month.

Rehire

Former employees who left in good standing and were classified as eligible for rehire may be considered for reemployment. An application must be submitted to the Human Resources

Manager, and the applicant must meet all minimum qualifications and requirements of the position, including any qualifying exam, when required.

Department managers must obtain approval from the Human Resources Manager or designee prior to rehiring a former employee. Rehired employees begin benefits just as any other new employee. Previous tenure will not be considered in calculating longevity, leave accruals, or any other benefits.

An applicant or employee who is terminated for violating policy or who resigned in lieu of termination from employment due to a policy violation will be ineligible for rehire.

Compensation

As an employer, MH believes that it is in the best interest of both the organization and MH's employees to fairly compensate its workforce for the value of the work provided. It is MH's intention to use a compensation system that will determine the current market value of a position based on the skills, knowledge, and behaviors required of a fully-competent incumbent. The system used for determining compensation will be objective and non-discriminatory in theory, application and practice. The company has determined that this can best be accomplished by using a professional compensation consultant, as needed, and a system recommended and approved by the executive management team.

Selection Criteria

1. The compensation system will price positions to market by using local, national, and industry specific survey data.
2. The market data will primarily include marijuana-related businesses and will include survey data for more specialized positions and will address significant market differences due to geographical location.
3. The system will evaluate external equity, which is the relative marketplace job worth of every marijuana industry job directly comparable to similar jobs at MH, factored for general economic variances, and adjusted to reflect the local economic marketplace.
4. The system will evaluate internal equity, which is the relative worth of each job in the organization when comparing the required level of job competencies, formal training and experience, responsibility and accountability of one job to another, and arranging all jobs in a formal job-grading structure.
5. Professional support and consultation will be available to evaluate the compensation system and provide on-going assistance in the administration of the program.
6. The compensation system must be flexible enough to ensure that the company is able to recruit and retain a highly-qualified workforce, while providing the structure necessary to effectively manage the overall compensation program.

Responsibilities

The executive management team and will give final approval for the compensation system that will be used by MH.

1. On an annual basis the executive management team will review and approve, as appropriate, recommended changes to position-range movement as determined through the vendor's market analysis process.

2. As part of the annual budgeting process, the executive management team will review and approve, as appropriate, funds to be allocated for total compensation, which would include base salaries, bonus, variable based or incentive-based pay, and all other related expenses, including benefit plans.

Management Responsibility

1. The CEO is charged with ensuring that MH is staffed with highly-qualified, fully-competent employees and that all programs are administered within appropriate guidelines and within the approved budget.
2. The salary budget shall include a gross figure for the following budget adjustments, but the individual determinations for each employee's salary adjustment shall be the exclusive domain of the CEO: determining the appropriate head count, titles, position levels, merit and promotional increases and compensation consisting of salary, incentive, bonus, and other discretionary pay for all positions.
3. The CEO shall ensure that salary ranges are updated at least annually, that all individual jobs are market priced at least once every two years, and that pay equity adjustments are administered in a fair and equitable manner.

Agent Background Checks

- In addition to completing the CNB's agent registration process, all agents hired to work for MH will undergo a detailed background investigation prior to being granted access to a MH facility or beginning work duties.
- Background checks will be conducted on all agents in their capacity as employees or volunteers for MH pursuant to 935 CMR 500.100 and shall be used by the Director of Security, who will be registered with the Department of Criminal Justice Information Systems pursuant to 803 CMR 2.04: CORI Registration and the Commission for purposes of determining the suitability of individuals for registration as a marijuana establishment agent with the licensee.

- Suitability determinations will be made in accordance with the procedures set forth in 935 CMR 500.800. In addition to the requirements established in 935 CMR 500.800, MH shall:

- a. Comply with all guidance provided by the CNB and 935 CMR 500.802: Tables B through D to determine if the results of the background are grounds for Mandatory Disqualification or Presumptive Negative Suitability Determination.
 - b. Consider whether offense(s) or information that would result in a Presumptive Negative Suitability Determination under 935 CMR 500.802. In the event a Presumptive Negative Suitability Determination is made, MH will consider the following factors:
 - i. Time since the offense or incident;
 - ii. Age of the subject at the time of the offense or incident;
 - iii. Nature and specific circumstances of the offense or incident;
 - iv. Sentence imposed and length, if any, of incarceration, if criminal;

 - x. Any other relevant information, including information submitted by the subject.
 - c. Consider appeals of determinations of unsuitability based on claims of erroneous information received as part of the background check during the application process in accordance with 803 CMR 2.17: Requirement to Maintain a Secondary Dissemination Log and 2.18: Adverse Employment Decision Based on CORI or Other Types of Criminal History Information Received from a Source Other than the DCJIS.
- Upon adverse determination, MH will provide the applicant a copy of their background screening report and a pre-adverse determination letter providing the applicant with a copy of their right to dispute the contents of the report, who to contact to do so and the opportunity to provide a supplemental statement.
 - After 10 business days, if the applicant is not disputing the contents of the report and any provided statement does not alter the suitability determination, an adverse action letter will be issued providing the applicant information on the final determination made by MH along with any legal notices required.
 - All suitability determinations will be documented in compliance with all requirements set forth in 935 CMR 500 et seq. and guidance provided by the CNB.
 - Background screening will be conducted by an investigative firm holding the National Association of Professional Background Screeners (NAPBS®) Background Screening

Credentialing Council (BSCC) accreditation and capable of performing the searches required by the regulations and guidance provided by the CNB.

- References provided by the agent will be verified at the time of hire.
- As deemed necessary, individuals in key positions with unique and sensitive access (e.g. members of the executive management team) will undergo additional screening, which may include interviews with prior employers or colleagues.
- As a condition of their continued employment, agents, volunteers, contractors, and subcontractors are required to renew their Program ID cards annually and submit to other background screening as may be required by MH or the CNB.
