A "facility where children commonly congregate" includes, but is not limited to, facilities in which children gather for a particular purpose in a structured or scheduled manner, or which are dedicated to use by children, such as playgrounds, youth service programs, day care centers, youth sports facilities, dance schools and gymnastic schools.
- d) The SPGA may reduce the distance requirement for non-retail Marijuana Establishments if the SPGA determines that there is no other feasible location alternative.

6640.2 The hours of operation of Marijuana Establishments shall be set by the SPGA.

6640.3 A Marijuana Establishment may only conduct or engage in the uses permitted by its definition in this Zoning Bylaw and may not include other businesses or services.

6640.4 No smoking or consumption of any Marijuana Products shall be permitted on the premises of a Marijuana Establishment. No burning of any Marijuana Products shall be permitted on the premises of a Marijuana Establishment, with the exception of product testing performed at an independent testing laboratory or Marijuana Research Facility.

6640.11 Any building or structure containing a Marijuana Establishment shall meet the setback and dimensional controls of the applicable zoning district as specified in this Zoning Bylaw.

6650. Application Requirements.

Applications for Special Permits for Marijuana Establishments will be processed in the order that they are filed with the Town. The approval of a Special Permit for any Marijuana Establishment shall require a) the determination of the SPGA that the application meets the requirements stated herein, (b) the SPGA making the findings set forth in Section 6660, and (c) the determination of the SPGA that issuance of the Special Permit will comply with the standards and intent of the Zoning Bylaw. While the SPGA is authorized to approve Special Permits for Marijuana Retailers in an amount up to, but not exceeding 20% of the number of licenses issued within the Town pursuant to M.G.L. c. 138, §15 for the retail sale of alcoholic beverages not to be drunk on the premises, the Zoning Bylaw shall not be construed to obligate the SPGA to approve any particular application for a Special Permit just because the maximum number of Special Permits has not been approved.

In addition to the standard application requirements for Special Permits, applications for a Marijuana Establishment shall include the following:

- a) The name and address of each owner and operator of the establishment;
- b) A copy of an approved Host Community Agreement;

- e) A notarized statement signed by the Marijuana Establishment organization's chief executive officer and corporate attorney disclosing all of its designated representatives, including officers, directors, shareholders, partners, members, managers, and other similarly-situated individuals and entities and their addresses. - f) A letter from the Town of Pepperell Police Chief, or designee, acknowledging review and approval of the Marijuana Establishment security plan;

- g) Proof of liability insurance coverage or maintenance of an escrow as required in 935 CMR 500.105;
- h) In addition to all application requirements outlined in the Planning Board Rules and Regulations for Special Permits and Site Plan Reviews, details showing all exterior proposed security measures for the Marijuana Establishment including lighting, fencing, gates and alarms, etc. ensuring the safety of employees and patrons and to protect the premises from theft or other criminal activity;
- i) A detailed floor plan identifying the area available and functional uses (including square footage);

- l) An odor control plan detailing the specific odor-emitting activities or processes to be conducted on-site; the source of these odors; the locations from which they are emitted from the establishment, the frequency of such odor-emitting activities; the duration of such odor-emitting activities; and the administration of odor control measures including maintenance of odor control devices;
- m) A management plan including a description of all activities to occur on-site, including all provisions for the delivery of marijuana, marijuana accessories, and Marijuana Products to the Marijuana Establishment and off-site direct delivery;
- n) Individual written plans which, at a minimum comply with the requirements of 935 CMR 500, relative to the Marijuana Establishment's operating procedures, marketing and advertising, waste disposal, transportation and delivery of marijuana or Marijuana Products, energy efficiency and conservation, security and alarms and the decommissioning of the Marijuana Establishment, as may be required, including a cost estimate taking into consideration Town oversight and regulatory costs in connection with such decommissioning.

6660. Mandatory findings.

In addition to the standard findings for a Special Permit under Section 9300, the SPGA shall not grant a special permit for a Marijuana Establishment unless it finds that:

- a) The establishment is designed to minimize any adverse visual or economic impacts on abutters and other parties in interest, as defined in M.G.L. c. 40A, §11.
- b) The applicant demonstrates to the satisfaction of the SPGA that it will meet all the permitting requirements of all applicable agencies within the Commonwealth of Massachusetts and will comply with all applicable state laws and regulations;
- c) The Marijuana Establishment provides adequate security measures to ensure that no individual participant will pose a direct threat to the health or safety of other individuals, and that the storage and/or location of any cultivated marijuana and Marijuana Products is adequately secured on-site and in delivery operations;
- d) The Marijuana Establishment's traffic plan adequately addresses traffic demand, circulation flow, parking and queueing, particularly during peak periods at the establishment, and its impact on neighboring uses, and
- e) The applicant has satisfied all of the conditions and requirements set forth in Section 6600.

A special permit granted under this Section shall have a term limited to no longer than the duration of the applicant's ownership or lease of the premises to be used for the Marijuana Establishment. A special

permit may be transferred only with the approval of the SPGA. Transfer shall require an application for an amendment to the special permit, including all information required for an initial application.

6670. Abandonment or discontinuance of use.

A special permit shall lapse if a final license has not been issued by the CCC pursuant to CMR 500.103 within one year of issuance of the special permit. The SPGA may grant an extension if the applicant demonstrates that, despite diligent effort, circumstances beyond its control have prevented the issuance of a final license and further demonstrates to the satisfaction of the SPGA that issuance of a final license is forthcoming.

A Marijuana Establishment shall be required to remove from its premises all material, plants, products, equipment and other paraphernalia within six (6) months of ceasing operations. All components of the Marijuana Establishment's security plan, and all required security measures and precautions shall be continued until removal is completed.

Plan for Positive Impact

Property Address: 112-114 Main Street Unit #1, Pepperell MA 01463

Applicant: New England Craft Cultivators, LLC

INTENT

England Craft Cultivators, LLC recognizes that it has a responsibility to contribute to the communities in which it does business and the surrounding areas in need. New England Craft Cultivators will focus its time and resources investing in people who have faced hardships because of past drug convictions, people who have barriers to entering the cannabis industry, as well as people in the area of disproportionate impact closest to our proposed stores. Lowell, Massachusetts is the area of disproportionate impact that is located closest to both of our proposed marijuana retail establishments in Pepperell and Dracut. New England Craft Cultivators, LLC is committed making positive and lasting contributions to areas of disproportionate impact.

It is our intent from the specific goals, programs and measurements below to have a positive impact in four of the five identified populations of disproportionately harmed people. Our proposed programs are designed to have a positive impact with: (1) Past or present residents of the geographic “areas of disproportionate impact;” (2) Commission-designated Social Equity Program participants; (3) Massachusetts residents who have past drug convictions; and (4) Massachusetts residents with parents or spouses who have drug convictions.

Any actions taken, or programs instituted, by the applicant will not violate the Commission’s regulations with respect to limitations on ownership or control or other applicable state laws.

PURPOSE

The purpose of this document is to summarize New England Craft Cultivators, LLC’s plan to ensure our business creates positive and lasting impacts on the communities in which it will be involved. New England Craft Cultivators is committed to fostering positive relationships within the community and endeavoring to identify ways in which to give back. New England Craft Cultivators, LLC will utilize our resources, including time, human capital and monies, to provide assistance to those who may be underserved and/or in need. We will achieve these goals through corporate accountability, intentional outreach, charitable giving, volunteer time and community engagement.

GOALS, PROGRAMS, AND MEASUREMENTS

New England Craft Cultivators, LLC will implement the following (5) initiatives to assist those communities that have been disproportionately impacted.

Proposed Program #1: Corporate Accountability, Coordination, and Oversight of Impact Opportunities.

GOAL: To model corporate responsibility by charging our senior staff with overseeing and reporting on the outcomes of our cumulative efforts to have a positive impact in areas of disproportionate impact, to assist social equity applicants, and to benefit Massachusetts residents who themselves or their parents have past drug convictions.

PROGRAMS: New England Craft Cultivators, LLC will task a member of its senior leadership team with no less than 50% of their job responsibilities to be committed to keeping community outreach and positive impact at the forefront of our corporate mission. This senior leadership team member will be responsible for facilitating the success of the commitments we make through this plan, to our host communities, and to the people, charities, and other groups we decide to partner with along the way. This person's success is what enables the corporate integration and comprehensiveness of our overall Positive Impact Plan.

MEASUREMENTS: New England Craft Cultivators, LLC will publicly release an annual "impact report" that thoroughly examines and measures our positive impact prior to our annual license renewal. This report will be released through our social media channels, to the towns of our marijuana retail establishment, to the cannabis control commission, and likely to our customers as well. This person will be successful in their position also by continually identifying opportunities for partnerships that are consistent with our plans and our values. We will report and track the requests our company receives and report on the outcomes of those requests.

Proposed Program #2: Creating Jobs in Areas of Disproportionate Impact

GOAL: To create jobs and hire at least 20% of our workforce from areas of disproportionate impact.

PROGRAMS: New England Craft Cultivators, LLC believes that the recreational cannabis industry in Massachusetts will drive economic growth for the state by increasing overall job creation and taxable revenue. New England Craft Cultivators, LLC will work diligently to attract and hire local qualified talent from areas of disproportionate impact in Lowell, or individuals who have been disproportionately harmed by marijuana prohibition in Pepperell and Dracut. These individuals will be given priority in the hiring process for open positions of employment. Senior leadership and management of New England Craft Cultivators, LLC will attend community job fairs, at least one annually, in Lowell with the intent of garnering employment interest and applications from residents in areas of disproportionate impact. If permissible under 935 CMR 500.105(4)(b), senior leadership and management will post employment opportunity advertisements in Lowell newspapers to attract a variety of local job applicant interest. New England Craft Cultivators, LLC will adhere to the requirements set forth in 935 CMR 500.105(4) which provides the permitted and prohibited advertising, branding, marketing, and sponsorship practices of every Marijuana Establishment.

MEASUREMENTS: New England Craft Cultivators, LLC will track the number of community job fairs attended in Lowell, at least one annually, and the number of employees hired that are past or present residents of areas of the geographic “areas of disproportionate impact” as defined by the Commission. It is our goal that 20% of our workforce are past or present residents of areas of disproportionate impact. These records will allow New England Craft Cultivators, LLC to demonstrate progress toward its goals to the Commission upon the annual renewal of its license. These metrics will be outlined in a comprehensive report that will be completed prior to our annual license renewal to the Cannabis Control Commission.

Proposed Program #3: Creating Jobs for LGBTQ People and Their Families Who Have Past Drug Convictions

GOAL: To create jobs for and provide economic opportunity to Massachusetts residents who have past drug convictions, or have family members with past drug convictions, through partnership with service organizations that serve the LGBTQ-community and their families. It is New England Craft Cultivators, LLC’s goal to hire 25% of our workforce from this outreach work.

PROGRAMS: New England Craft Cultivators, LLC intends to construct its own outreach program that is focused on recruiting and training people with past drug convictions who identify as LGBTQ and their family members, to work at our marijuana retail establishments. We will give hiring preference to people who come through this network, and other LGBTQ identified people and their family member who have past drug convictions. LGBTQ-identified people more likely to be incarcerated than non-LGBTQ people. Like the general population, many LGBTQ people have been incarcerated for drug crimes. Accordingly, we plan to partner specifically with the County Sheriff’s from Middlesex, Essex and Suffolk Counties, and existing organizations to do outreach and build a pipeline from prisons to jobs. New England Craft Cultivators, LLC plans to reach out to organizations like “Black and Pink” which has a chapter in Massachusetts and is primarily focused on supporting LGBTQ people while they are incarcerated and after incarceration.

MEASUREMENTS: New England Craft Cultivators, LLC is aiming to hit our goal of hiring 25% of our workforce from this outreach work. New England Craft Cultivators, LLC will have a goal of reaching out to each of the county sheriff’s departments identified in this proposal by the time of opening and reaching out to relevant organizations also by the time of opening. Additionally, New England Craft Cultivators will regularly post all staff recruitment offerings with organizations that serve or are likely to serve people who have past drug convictions. New England Craft Cultivators, LLC will keep all records of these job postings and outreached efforts. These records will allow New England Craft Cultivators, LLC to demonstrate progress toward its goals to the Commission upon the annual renewal of its license. These metrics will be outlined in a comprehensive report that will be completed prior to our annual license renewal to the Cannabis Control Commission.

Proposed Program #4: A Corporate Duty to Promote and Work with Social Equity Applicants

GOAL: New England Craft Cultivators, LLC sees itself as having a duty to promote and work with Social Equity Applicants. We will seek to send 100% of our job postings to the Cannabis Control Commission's Social Equity Program to recruit qualified applicants directly from the social equity applicant pool with a goal of hiring 20% of our workforce from this applicant pool. We will seek out social equity businesses through our work and offer free advice and technical assistance to no fewer than 5 businesses annually. We seek to serve as an access point for entrepreneurs who are interested in the Social Equity Program by connecting no fewer than 2 entrepreneurs with the application material annually.

PROGRAMS: To serve as an access point for entrepreneurs who are interested in entering the industry, New England Craft Cultivators, LLC will share all job descriptions with the Cannabis Control Commission's Social Equity Group so that we can recruit quality applicants directly from social equity applicants who are seeking to enter the industry. At the directive of our corporate officer who is responsible for overseeing outreach, we will also lead an effort to identify people who would qualify to join the Commission's social equity program and refer them to the program. We will serve as a door for people who are eager to enter the cannabis industry but lack the resources to know how to enter.

MEASUREMENTS: New England Craft Cultivators, LLC will seek to send 100% of job postings to the Cannabis Control Commission's Social Equity program to recruit qualified applicants directly from the social equity applicant pool. New England Craft Cultivators, LLC will maintain a record of its annual donations to the Cannabis Social Equity Loan Trust Fund, should it become operational. New England Craft Cultivators, LLC will keep records of feedback that we receive relative to the impact of our contributions, if any. We will keep a record of the references made of people to apply to be social equity program members. These metrics will be outlined in a comprehensive report that will be completed prior to our annual license renewal to the Cannabis Control Commission.

Proposed Program #5: Donating Time in Areas of Disproportionate Impact

GOAL: To direct local charitable contributions in the form of volunteer time to The Center for Hope and Healing, Inc. in Lowell, MA, which serves areas of disproportionate impact. Our goal is to have at least 90% of our employees volunteer for 10 hours each annually.

PROGRAMS: New England Craft Cultivators, LLC will provide all employees with paid time to participate in a minimum of 10 hours per year to volunteer with a nonprofit called The Center for Hope and Healing that serves identified areas of disproportionate impact and is located in Lowell.

The Center for Hope and Healing, Inc. (CHH) was founded in 1976 by a group of physicians, social workers and students who came together out of concern for the number of rapes in Lowell and who then committed themselves to eradicating sexual violence in Lowell and the surrounding communities. CHH envisions a world where gender, race and other oppressions are erased: a world where women and girls are safe and valued. They envision a world where men and boys engage in healthy masculinity and where concepts of gender are inclusive and not necessarily binary. They also work to place survivors lives and voice at the center of all they do in the movement, particularly the voices of SE Asian, Black, and Latinx survivors who have been most marginalized in our communities. The center has a specific focus on LGBTQ communities, and serves the communities of Pepperell and Dracut where both of New England Craft Cultivators, LLC's proposed MRE's are located.

New England Craft Cultivators is committed to serving communities that have been disproportionately impacted by serving individuals and organizations through the contribution of employee volunteer time courtesy of the company.

MEASUREMENTS: New England Craft Cultivators, LLC will maintain records of each employee who participates through paid volunteer or nonprofit service. New England Craft Cultivators, LLC will track the number of hours contributed by each employee with a goal of donating 10 hours per employee per year. New England Craft Cultivators, LLC will have a goal of 90% participation in the volunteer program by its employees each calendar year. New England Craft Cultivators, LLC will have a corporate officer who decided and hosts two volunteer days annually, one in the Spring and one in the Fall. New England Craft Cultivators, LLC employees will have the option to meet some of their volunteer hours at these activities or at other service activities through the year. New England Craft Cultivators, LLC will then solicit feedback from each employee to learn about their experiences and determine whether adjustments should be made in the future with regards to this program. These metrics will be outlined in a comprehensive report that will be completed prior to our annual license renewal to the Cannabis Control Commission and in our report we release to the wider community.

CONCLUSION

New England Craft Cultivators, LLC will go above the requirements from the Commission by including a dedicated senior management team member to perform no less than 50% of their job in service of our commitments to our communities and the state. This senior management team member will conduct continuous and regular evaluations of the implementation of New England Craft Cultivators, LLC's goals and at any point will make adjustments in its policies and procedures in order to better accomplish the goals set out in this Plan for Positive Impact. New England Craft Cultivators, LLC has not made a commitment to give financially to any local nonprofits, but it is our desire to do so as our commitment to the communities grows over time. Prior to any contribution being offered, New England Craft Cultivators, LLC will receive

confirmation from an organization that it can receive a donation or work with the marijuana establishment in furthering its goals.

It is the commitment of New England Craft Cultivators, LLC to be an outstanding community partner and to model the best of corporate behavior through our actions.

SECTION 8

TRANSFER OF MEMBERSHIP INTEREST

8.1 Sale or Encumbrance Prohibited. No member may voluntarily or involuntarily transfer, sell, convey, encumber, pledge, assign, or otherwise dispose of (collectively, "Transfer") an interest in the Company without the prior written consent of a majority of the other non-transferring Members determined on a per capita basis.

8.2 Right of First Refusal. Notwithstanding Section 8.1, a Member may propose the transfer of all or any part of the Member's interest in the Company (the "Interest") as follows:

8.2.1 The Member desiring to transfer his or her Interest first must provide written notice (the "Notice") to the other Members, specifying the price and terms on which the Member is prepared to sell the Interest (the "Offer").

8.2.2 For a period of 30 days after receipt of the Notice, the Members may acquire all, but not less than all, of the Interest at the price and under the terms specified in the Offer. If the other Members desiring to acquire the Interest cannot agree among themselves on the allocation of the Interest among them, the allocation will be proportional to the Ownership Interests of those Members desiring to acquire the Interest.

8.2.3 Closing of the sale of the Interest will occur as stated in the Offer; provided, however, that the closing will not be less than 45 days after expiration of the 30-day notice period.

8.2.4 If the other Members fail or refuse to notify the transferring Member of their desire to acquire all of the Interest proposed to be transferred within the 30-day period following receipt of the Notice, then the Members will be deemed to have waived their right to acquire the Interest on the terms described in the Offer, and the transferring Member may sell and convey the Interest consistent with the Offer to any other person or entity; provided, however, that notwithstanding anything in Section 8.2 to the contrary, should the sale to a third person be at a price or on terms that are more favorable to the purchaser than stated in the Offer, then the transferring Member must reoffer the sale of the Interest to the remaining Members at that other price or other terms; provided, further, that if the sale to a third person is not closed within six months after the expiration of the 30-day period describe above, then the provisions of Section 8.2 will again apply to the Interest proposed to be sold or conveyed. All transfers of interest in this section are subject to the provisions of Section 8.1 and must be approved by a

majority of non-selling members.

8.2.5 Notwithstanding the foregoing provisions of Section 8.2, should the sole remaining Member be entitled to and elect to acquire all the Interests of the other Members of the Company in accordance with the provisions of Section 8.2, the acquiring Member may assign the right to acquire the Interests to a spouse, lineal descendant, or an affiliated entity if the assignment is reasonably believed to be necessary to continue the existence of the Company as a limited liability company.

8.3 Substituted Parties. Any transfer in which the Transferee becomes a fully substituted Member is not permitted unless and until:

8.3.1 The transferor and assignee execute and deliver to the Company the documents and instruments of conveyance necessary or appropriate in the opinion of counsel to the Company to effect the transfer and to confirm the agreement of the permitted assignee to be bound by the provisions of this Agreement; and

8.3.2 The transferor furnishes to the Company an opinion of counsel, satisfactory to the Company, that the transfer will not cause the Company to terminate for federal income tax purposes or that any termination is not adverse to the Company or the other Members.

8.4 Death, Incompetency, or Bankruptcy of Member. On the death, adjudicated incompetence, or bankruptcy of a Member, unless the Company exercises its rights under Section 8.5, the successor in interest to the Member (whether an estate, bankruptcy trustee, or otherwise) will receive only the economic right to receive distributions whenever made by the Company and the Member's allocable share of taxable income, gain, loss, deduction, and credit (the "Economic Rights") unless and until a majority of the other Members determined on a per capita basis admit the transferee as a fully substituted Member in accordance with the provisions of Section 8.3.

8.4.1 Any transfer of Economic Rights pursuant to Section 8.4 will not include any right to participate in management of the Company, including any right to vote, consent to, and will not include any right to information on the Company or its operations or financial condition. Following any transfer of only the Economic Rights of a Member's Interest in the Company, the transferring Member's power and right to vote or consent to any matter submitted to the Members will be eliminated, and the Ownership Interests of the remaining Members, for purposes only of such votes, consents, and participation in management, will be proportionately increased until such time, if any, as the transferee of the Economic Rights becomes a fully substituted Member.

8.5 Death Buy Out. Notwithstanding the foregoing provision of Section 8, the Members covenant and agree that on the death of any Member, the Company, at its option, by providing written notice to the estate of the deceased Member within 180 days of the death of the Member, may purchase, acquire, and redeem the Interest of the deceased Member in the Company pursuant to the provision of Section 8.5.

8.5.1 The value of each Member's Interest in the Company will be determined on the date this Agreement is signed, and the value will be endorsed on Schedule 3 attached and made a part of this Agreement. The value of each Member's Interest will be redetermined unanimously by the Members annually, unless the Members unanimously decide to redetermine those values more frequently. The Members will use their best efforts to endorse those values on Schedule 3. The purchase price for a decedent Member's interest conclusively is the value last determined before the death of such Member; provided, however, that if the latest valuation is more than two years before the death of the deceased Member, the provisions of Section 8.5.2 will apply in determining the value of the Member's Interest in the Company.

8.5.2 If the Members have failed to value the deceased Member's Interest within the prior two-year period, the value of each Member's Interest in the Company on the date of death, in the first instance, will be determined by mutual agreement of the surviving Members and the personal representative of the estate of the deceased Member. If the parties cannot reach an agreement on the value within 30 days after the appointment of the personal representative of the deceased

Member, then the surviving Members and the personal representative each must select a qualified appraiser within the next succeeding 30 days. The appraisers so selected must attempt to determine the value of the Company Interest owned by the decedent at the time of death based solely on their appraisal of the total value of the Company's assets and the amount the decedent would have received had the assets of the Company been sold at that time for an amount equal to their fair market value and the proceeds (after payment of all Company obligations) were distributed in the manner contemplated in Section 8. The appraisal may not consider and discount for the sale of a minority Interest in the Company. In the event the appraisers cannot agree on the value within 30 days after being selected, the two appraisers must, within 30 days, select a third appraiser. The value of the Interest of the decedent in the Company and the purchase price of it will be the average of the two appraisals nearest in amount to one another. That amount will be final and binding on all parties and their respective successors, assigns, and representatives. The costs and expenses of the third appraiser and any costs and expenses of the appraiser retained but not paid for by the estate of the deceased Member will be offset against the purchase price paid for the deceased Member's Interest in the Company.

8.5.3 Closing of the sale of the deceased Member's Interest in the Company will be held at the office of the Company on a date designated by the Company, not be later than 90 days after agreement with the personal representative of the deceased Member's estate on the fair market value of the deceased Member's Interest in the Company; provided, however, that if the purchase price are determined by appraisals as set forth in Section 8.5.2, the closing will be 30 days after the final appraisal and purchase price are determined. If no personal representative has been appointed within 60 days after the deceased Member's death, the surviving Members have the right to apply for and have a personal representative appointed.

8.5.4 At closing, the Company will pay the purchase price for the deceased Member's Interest in the Company. If the purchase price is less than \$1,000.00, the purchase price will be paid in cash; if the purchase price is \$1,000.00 or more, the purchase price will be paid as follows:

- (1) \$1,000.00 in cash, bank cashier's check, or certified funds;
- (2) The balance of the purchase price by the Company executing and delivering its promissory note for the balance, with interest at the prime interest rate stated by primary banking institution utilized by the Company, its successors and assigns, at the time of the deceased Member's death. Interest will be payable monthly, with the principal sum being due and payable in three equal annual installments. The promissory note will be unsecured and will contain provisions that the principal sum may be paid in whole or in part at any time, without penalty.

8.5.5 At the closing, the deceased Member's estate or personal representative must assign to the Company all of the deceased Member's Interest in the Company free and clear of all liens, claims, and encumbrances, and, at the request of the Company, the estate or personal representative must execute all other instruments as may reasonably be necessary to vest in the Company all of the deceased Member's right, title, and interest in the Company and its assets. If either the Company or the deceased Member's estate or personal representative fails or refuses to execute any instrument required by this Agreement, the other party is hereby granted the irrevocable power of attorney which, it is agreed, is coupled with an interest, to execute and deliver on behalf of the failing or refusing party all instruments required to be executed and delivered by the failing or refusing party.

8.5.6 On completion of the purchase of the deceased Member's Interest in the Company, the Ownership Interests of the remaining Members will increase proportionately to their then existing Ownership Interests.

8.6 Admission of New Members to the Company. The Company may admit a Person other than original members as a Member. A Person may be admitted as a Member under this section only upon (a) approval of such admission and the terms and conditions of such admission, including without limitation, appropriate amendments to this Agreement by the affirmative vote of Members representing two-thirds of the

Percentage Interests; (b) an initial capital contribution in an amount determined by Members representing no less than equal to initial Member contributions; and (c) agreement by Members representing three-fourths of the Percentage Interests as to the necessary amendments to this Agreement to allow for additional membership in the Company.

SECTION 9

DISSOLUTION AND WINDING UP OF THE COMPANY

9.1 Dissolution. The Company will be dissolved on the happening of any of the following events:

- 9.1.1 Sale, transfer, or other disposition of all or substantially all of the property of the Company;
- 9.1.2 The agreement of all of the Members;
- 9.1.3 By operation of law; or
- 9.1.4 The death, incompetence, expulsion, or bankruptcy of a Member, or the occurrence of any event that terminates the continued membership of a Member in the Company, unless there are then remaining at least the minimum number of Members required by law and all of the remaining Members, within 120 days after the date of the event, elect to continue the business of the Company.

9.2 Winding Up. On the dissolution of the Company (if the Company is not continued), the Members must take full account of the Company's assets and liabilities, and the assets will be liquidated as promptly as is consistent with obtaining their fair value, and the proceeds, to the extent sufficient to pay the Company's obligations with respect to the liquidation, will be applied and distributed, after any gain or loss realized in connection with the liquidation has been allocated in accordance with Section 3 of this Agreement, and the Members' Capital Accounts have been adjusted to reflect the allocation and all other transactions through the date of the distribution, in the following order:

- 9.2.1 To payment and discharge of the expenses of liquidation and of all the Company's debts and liabilities to persons or organizations other than Members;
- 9.2.2 To the payment and discharge of any Company debts and liabilities owed to Members; and
- 9.2.3 To Members in the amount of their respective adjusted Capital Account balances on the date of distribution; provided, however, that any then outstanding Default Advances (with interest and costs of collection) first must be repaid from distributions otherwise allocable to the Defaulting Member pursuant to Section 9.2.3.

SUMMARY

Business Overview

New England Craft Cultivators, LLC (NECC) is a company driven by two professionals who have each built careers in Massachusetts advocating for progressive social change across drug policy, LGBTQ equality, law, and electoral politics. We have created a company that is committed to opening 3 marijuana retail establishments, the maximum allowed under law in Massachusetts for one corporate owner, and has gained traction in the process of opening its first two locations in Dracut and Pepperell, Massachusetts. The dispensaries will be owned by NECC and we will be building a brand around our company name.

NECC is a different kind of Marijuana Retail Establishment (MRE) in Massachusetts – we’re committed to partnering with locally owned small cultivators, small manufacturers, and microbusinesses to bring the highest quality, locally and sustainably grown craft cannabis products to the market. This is different than most other players in the retail marijuana market here in Massachusetts in one major way: most retail outlets in Massachusetts try to maximize profits at the expense of guaranteeing the highest quality craft products by growing and manufacturing the products they sell themselves. We know that we can still turn a strong profit by intentionally creating a “craft market” of products that are grown often by small, family-run businesses that use only the highest standards of marijuana cultivation and manufacturing.

We have completed detailed market research determining there is great demand for marijuana products across Massachusetts in both of our targeted areas – the Merrimack Valley/Greater Lowell region, along the New Hampshire state border, and the Metro-Boston region. In this emerging market, we are poised to draw three distinct categories of marijuana customers: (1) existing users who are accustomed to illicit market purchases, (2) new users who are exploring the cannabis experience, and (3) discerning customers who are interested in high quality specialty products from boutique producers, especially as more stores begin to operate across the state.

NECC’s two founders have extensive understanding of the dynamic and rapidly developing and changing marijuana market in Massachusetts. We have 4 distinct phases of our business.

(Phase 1) Dispensary #1 and #2: We have secured properly-zoned locations for our first two stores and are in the local approval process for both. Our Pepperell Store is located at 112-114 Main Street and our Dracut Store is located at 61 Silva Lane in Dracut. We have secured Host Community Agreements in both locations, hosted community meetings in both communities, are on track to secure all remaining local and state approvals to open our first stores in 2020.

(Phase 2) Third Dispensary: We have scouted properties and are in the process of locating our third location.

(Phase 3) Craft Online Marketplace and Brand Wars: We are talking to experts in the technology space to develop and launch a transformative online marketplace that centralizes delivery for small craft cultivators and manufacturers to help them compete in the delivery space.

(Phase 4) Possible Brand Expansion & Continued Brand Wars: In both of our Dracut and Pepperell locations, we have the space to grow marijuana if we decide to expand into cultivation. We expect to explore acquisition plays or work with our existing partners to adapt into a craft cannabis brand for sale in our stores and potentially beyond.

To support these phases, NECC needs to raise funds at each juncture to support our growth: we estimate that Phase 1 requires us to raise \$2,600,000, \$200,000 of which will be raised through a convertible note offering and \$2,000,000 through a general offering.

Vision and Values

NECC is a 100% LGBTQ-owned, inclusive, and socially responsible business. We are a “little guy” company that is committed to creating marijuana retail establishments that are designed to support other “little guy” craft cultivators and manufacturers. We will bring these quality products to market instead of the lower quality products that are mass-produced by many of the vertically integrated operators in business in Massachusetts and other states

Disadvantaged Business Enterprise (DBE) Statistics for Applications with Provisional and Final Approval

We will engage intentionally to help disrupt the illicit market, and we will be aggressive in our advertising and outreach while always remaining compliant with all relevant laws and regulations. Our sophisticated targeting of people aged 21+, consistent with all regulations, will be one of the ways that NECC stands out and makes its name and reputation in this market.

Topline market opportunity

The marijuana industry across Massachusetts and the country is a dynamic one – changing weekly. 11 states and the District of Columbia have fully legalized adult-use marijuana. The stigma around

marijuana use has begun to erode, with nearly 60% of adults supporting legalization of marijuana for adult use¹.

As of March, 2020, there are 36 licensed and open marijuana retail establishments across Massachusetts. The “big guys” in marijuana own the majority of the open stores, and none are focused bringing craft cultivator products to market. Increasingly and with few exceptions, our competitors are vertically integrated companies that produce, manufacture, and sell their own products, often solely to benefit large corporate investors. As the 165 marijuana retail businesses with pending applications come online over the next several years, the market in Massachusetts will become decentralized. At the same time, well-funded national and international companies will be seeking to corner the market by consolidating cannabis businesses.

Adult-use marijuana sales in Massachusetts to date have exceeded \$549,000,000 since the first store came online in November of 2018. According to the Boston Globe, the vast majority of marijuana sales remain on the black market even one year after legalization.² This presents a tremendous opportunity not to enter a market simply to divide an existing customer base between newly entering MRE’s but to expand and become a hub of retail sales for a newly emerging market of consumers who are exiting the illicit market in favor of affordable, regulated and safety-tested marijuana products.

Importantly, attitudes around marijuana consumption are also changing according to a Massachusetts Department of Public Health survey.³ The survey noted that in the 21% of adult residents in Massachusetts have used marijuana in the past 30 days.

The study found no significant difference in marijuana usage across races and noted 53% of Massachusetts residents believe that marijuana use has slight or no risks to the user, indicating an openness to cannabis from a wider segment of the population than current regular users. This study was conducted before the first MRE outlet opened, and speaks to the pervasiveness of the illicit market, which has functioned virtually undisturbed for decades.

According to data provided by the Cannabis Control Commission as of December 2019, current cannabis sales in Massachusetts exceed \$1 million per day (and around \$2.7 million on weekend days) with each item averaging about \$40 per unit. Sales remain on a steady upward trajectory as more stores open and more consumers’ move from the illicit market to the regulated cannabis economy.

Core Competencies & Professional Team

To date, NECC’s two founders, aided by a fantastic team as well as council of advisors, have provided the necessary guidance, assistance and preliminary funds to bring its Phase 1, Dracut and Pepperell Dispensaries to their current state. Each of NECC’s founders has over 15 years of government and public policy experience. Our team has activists who have been involved in harm reduction and legalization for nearly 10 years. Our founders have led organizations – one is an attorney who recently managed a \$1.2 million political organization and another has led a statewide Massachusetts

New England Craft Cultivators, L.L.C. History and Accomplishments

NECC was incorporated in April of 2019 after forming 6 months prior through discussions and planning. NECC has come a long way very fast. After business formation, we entered two leases, one in Dracut and one in Pepperell. NECC then successfully negotiated Host Community Agreements with both communities and held open public meetings. NECC has received its special permit to operate a marijuana dispensary in Dracut and is in the local approval process in Pepperell, where it expects a favorable outcome.

NECC has hit other milestones that have also eluded other companies: we have successfully secured banking through Bay Coast Bank in Swansea, Massachusetts. We have a legally compliant website and web presence. We have secured letters of intent from suppliers of craft marijuana products that we intend to partner with, and have developed deep business relationships with small companies that operate in this space. We have successfully completed a comprehensive operations plan, a detailed traffic and security plan, positive impact plan, and engaged with an architect to make sure our facility is in compliance with local regulations. We have also hired a top-notch security firm with a strong local reputation. NECC has hired an outstanding startup business and finance attorney to make sure our fundraising is compliant with all local and federal securities and other regulations.

NECC has draft design and security plans in hand. We expect to submit our application to the state licensing authority, the Cannabis Control Commission, in March of 2020.

OPPORTUNITIES ANALYSIS

Current Opportunity

Few industries are as dynamic and evolving as the Massachusetts adult use marijuana market. The market is both new in that marijuana is newly legal in Massachusetts, but there is a customer base that is used to purchasing this product in a different way for decades. Customers live everywhere – they're of all ages (above 21), and there is a high demand for our products. Paradoxically, it's a market that is truly in its infancy – few consumers have been as discerning on the black market as they are now that products are legal. We expect to enter in a time where the education around marijuana is new and exciting; with the expertise to make sure we are offering certain types of consumers not just marijuana, but the types of marijuana that they would prefer to use. The strong economy and continued wealth of many residents in the Northeast allows us access to a customer base that can afford to buy marijuana for recreational use.

Market Size and Segmentation

We see our market opportunities in three ways: hyperlocal, regional, and by affinity.

Dracut: Our hyperlocal population count includes a 5-mile radius from our location. There are 148,632 people in this 5 mile zone. Regionally, at a 10-mile radius from our location, there are 521,752 in our zone.

Peppercell: Our hyperlocal population count in a 5 mile radius of our location is 26,022 people. Regionally, there are 189,780 people at a 10-mile radius from our location in Peppercell.

Affinity: As a 100% LGBTQ-owned company, we expect to have an affinity group of LGBTQ folks who will travel locally and a little farther to buy marijuana from a trusted LGBTQ business. We don't yet account for that affinity numerically, but we do know that will be an important segment of our customer base.

More broadly, there are about 2.4 million people residing within 20 miles of Dracut center in Massachusetts.⁴ Using Census data about the age distribution of Massachusetts's residents combined with DPH data about the age of past month users; we estimate there are 388,000 past month cannabis users within a 20-mile radius of the store. If 75% of cannabis sales remain in the illicit market in Massachusetts,⁵ 97,000 individuals who use cannabis at least once a month reside in the market area and are potential immediate customers, with more coming online over time.

⁴ http://www.hoosierdata.in.gov/big_radius/radius.asp

⁵ <https://www.bostonglobe.com/news/marijuana/2019/02/02/illicit-pot-market-remains-stubbornly-robust/Fqq5baxLvqkrTB1ABJRbEL/story.html>

Assuming, extremely conservatively, that each past monthly user makes only four purchases of \$46 over the course of the year, this would yield 388,000 individual purchases totaling \$17.85 million annually. This market will be split with other competitors in the area, including the one dispensary that is already serving Lowell residents and others soon coming online around the same time we expect to come online. Although we project, conservatively, that NECC will have approximately 12% of the local marijuana market, if NECC's share of the total market in the area is about 25% that would generate gross sales of \$4.46 annually (per location). We expect the realistic margin to be in between.

We expect the market to grow considerably as more stores come online and more consumers move away from the illicit market. In Colorado, for instance, where the recreation market is more mature, regulated retailers are predicted to capture 2/3 of the cannabis market in 2019, demonstrating that we can anticipate the size of the regulated market in Massachusetts more than doubling over the next several years.

Our customers are going to primarily come from the surrounding 20 miles, with some customers traveling farther because they're seeking to purchase "craft" marijuana products or because they prefer to shop at LGBTQ-owned stores. This geographic region includes the Merrimack Valley and Greater Lowell areas, radiating outward to surrounding communities and upwards into New Hampshire's most populous counties. NECC will draw consumers that are conscious of the quality and origin of the products they consume.

In Dracut and Pepperell, we are going to be some of the closest marijuana establishments to the New Hampshire state line, located less than 2 miles from the line in both places. Purchasing marijuana is legal in Massachusetts for any adult who is over 21 years old with a valid driver's license, regardless of the state of origin of the purchaser.

Dracut By The Numbers:

- a. Dracut's population is slightly over 31,000 people. Pepperell's population is over 12,000 people.
- b. Dracut sits in the northeast most section of Middlesex County (population 1.6 million) and abuts Essex County (population 785,000) in Massachusetts. Pepperell is also located in the northern part of Middlesex county.
- c. Our Dracut store is located 3 miles off of Interstate 93 Exit 46 B, near the borders of Methuen and Lawrence, MA two major cities that have locally outlawed the sale of marijuana and have residents who will be seeking a place to legally purchase cannabis.⁶
- d. Average daily traffic⁷ for the area surrounding Exit 46 B on Interstate 93 ranges between 97,800 and 166,300 unique travelers each day.
- e. Our customers will primarily live and work in the 20-mile radius region in both locations with specialty traffic driven by the unique items that are available at our store.

Competitive Analysis

The number of MRE's in each community may be limited to 20% of the number of liquor licenses at the discretion of municipal authorities. Dracut has 20 liquor stores, so will allow four MREs to locate in the town. To date, three other companies have secured host community agreements from the town, and are seeking to open around the same time as NECC, in 2020. The three companies include Green Star Herbals, Lazy River Products, Inc., and 103 Pleasant Street. Our NECC dispensary location is closer to the major highway and to most of the population centers. Lowell currently hosts one MRE and more will likely open there over the coming years. We consider the market to still be in its infancy for a number of reasons, including a slow state-wide licensing process and the control that is afforded to municipalities to each write their own community rules and processes for licensure. In Pepperell, there are going to be two licensed stores and we are one of the only two companies working with the town. The other, Uma Flowers, is a small, family owned business that is seeking to locate in Pepperell but is struggling to get local zoning approval due to traffic flow issues.

Competition Regionally & Statewide: As mentioned above, there are 36 operational marijuana dispensaries across Massachusetts and 165 more waiting in the state licensure process to come online.

Dracut and Pepperell Competition: All three of the stores that have received host community agreements from Dracut are planning to operate vertically integrated marijuana companies or exclusive distribution arrangements, which is different than our plan to operate a retail dispensary with a focus on product variety. This provides us with two distinct opportunities and one possible drawback. The same is true of the one store in Pepperell.

Each of these competitor companies plan to maximize their own profits by not offering a diversity of brands and products, and just by selling their own products. We are likely to be the only stores offering a variety of brands that are specifically curated to appeal to a wide market. The additional advantage is that while two of the stores have already submitted their application to the CCC, each of the build-out and cultivation/manufacturing cycles for these companies indicates a longer time before they open and go to market. We are unencumbered by the cultivation and production components, and can source from many different stores in order to keep our inventory fresh and "craft" focused.

Green Star Herbals: This company, <https://www.greenstarherb.com/dracut/> is planning to enter the market by opening stores in Dracut, Chelsea and Maynard, Massachusetts. They are likely to open in 2020, and plan to be a vertically integrated company that grows, manufactures and sells its own products. They have submitted their full application to the cannabis control commission and have advanced deeply in the local process.

Lazy River Products, Inc: This company, <https://www.lazyriverproducts.com/> is planning to enter the market by operating a vertically integrated store in Dracut. They are also likely to be online in 2020. They have submitted their full application to the cannabis control commission and have advanced deeply in the local process.

BKPN, LLC: This company has hosted two community meetings as a result of non-compliance with their first meeting, also, they have not submitted their application to the state. They are planning a vertically integrated company, and are clustered close to the other two operators on the other side (away from us) of Dracut. They are having challenges getting permitted that the other companies and we have not encountered and do not expect to encounter.

Eyes on Metro-Boston: Boston proper has among the most opaque and difficult licensing process, and only has a single open store in the city, with NETA in Brookline still owning the biggest market share from the region. While Boston has a backlog of licensees in the process, we believe the ground is still fertile for us to enter the market in Boston for our third store if we go in that direction.

Policy Analysis & Market Transformation Long-Term: We expect to encounter the challenges that all Massachusetts companies face as it relates to legalization nationally. We expect, upon legalization, that the market will be flooded by national marijuana brands including those that are owned by big tobacco and pharmaceutical companies. This could cause large challenges for all smaller stores and companies, and we are clear-eyed about the risks that this could pose to our company as well as the doors this could open.

NECC Differentiation

Our competitive advantage is fourfold: (1) our long-term focus and vision on what consumers want both now and down the line in 2, 5, and 10 years, (2) our dynamic and entrepreneurial team with a deep background in cannabis and public policy and regulation, dynamic campaign and public relations skills, and compliance (3) our partnerships with and commitment to small craft cultivators, manufacturers and microbusinesses, and (4) our strong relationship and commitment to our state, communities and region.

Growth Strategy

(Phase 1) Dispensary #1 and #2: We have secured properly-zoned locations for our first two stores and are in the local approval process for both. Our Pepperell Store is located at 112-114 Main Street and our Dracut Store is located at 61 Silva Lane in Dracut. We have secured an HCA in Dracut, are negotiating a HCA in Pepperell, are on track to secure all remaining local and state approvals to open our first stores in 2020.

(Phase 2) Third Dispensary: We have explored other sites but have not yet chosen our preferred site for our third dispensary. That could be in metro-Boston, Boston-proper or elsewhere in the state.

(Phase 3) Craft Online Marketplace and Brand Wars: We are talking to experts in the technology space to develop and launch a transformative online marketplace that centralizes delivery for small craft cultivators and manufacturers to help them compete in the delivery space.

(Phase 4) Vertical Expansion & Continued Brand Wars: In both of our Dracut and Pepperell locations, we have the space to grow marijuana if we decide to expand into cultivation. We expect to explore acquisition plays or work with our existing partners to adapt into a craft cannabis brand for sale in our stores and potentially beyond.

Promotion Strategy

Our financial projections plan for the investment into an aggressive marketing plan targeted toward our affinity communities, including activists and LGBTQ folks, as well as regional growth and marketing. The advertising regulations are strict in the adult use marijuana laws, and require that all advertising and promotion is directed only to people who are over the age of 21 years old, and at least 80% of every audience must reasonably respected to be of legal age to consume marijuana products. Directed digital advertising is planned and maximization of free public media is also expected consistent with all state laws and regulations. Our website www.NECraftCultivators.com is currently live and will be incorporated into the promotion of the brand and retail location.

SALES PLAN

Sales Strategy

Right now, according to conversations with our partners and council of advisors, demand for marijuana at dispensaries can barely keep up with the available supply. Seventy-five percent of Massachusetts marijuana sales are still on the black market. The sales strategy is roughly twofold: some of the marijuana will "sell itself" as the market heats up - while the power of creating a lasting brand is in our hands to accomplish. We plan to sell the following high-demand products:

The products NECC intends to offer reflect market trends:

- a. Flower of the indica, sativa and hybrid varieties
- c. Edible infused products (gummies, chocolates, etc.)
- d. Flower based pre-rolls
- e. Infused (non-edible topicals)
- f. Vegan & specialty products across areas, geared toward health and wellness

We expect to offer the best variety of "craft" cultivation

Previous Week Product Distribution

products of any retailer from a selection of small growers across the state. We expect to serve no less than an average of 274 customers per day, per location, and for our store to be at full sales capacity for 360 days per year after a brief period of ramp-up.

We are also going to experiment with socially-conscious business and profit decisions, for example, only selling “safe vape” products where toxic chemicals are guaranteed to not be a part of the design. We are in conversations with Airgraft for next-generation safe vapor technology.

Pricing

NECC will seek a “middle-of-the-road” and “variable” pricing strategy relative to its competitors in the area. We expect our shelves to have products on the medium and high-end quality spectrum at the beginning and have them all priced and sold next to each other. We expect a roughly 50% profit margin on each spectrum of products, and expect and are comfortable adjusting with the market and customer demands of our clients.

NECC will offer a variety of carefully chosen marijuana strains and manufactured products from Massachusetts that meet using the highest standards of quality, methodology and environmental consciousness. Our products will include buds/flower, concentrates, edibles, pre-rolls, infused external (topical) products, and other craft and niche products from Massachusetts, and upon federal legalization, a more curated set of products that cater to our customer’s expectations. We believe that by supporting other local businesses, we will be keeping the market accessible to them to keep the market accessible to small businesses, and believe many of our customers will share these values.

Cannabis sold by NECC will be sourced from microbusinesses, small cultivators, and small manufacturers in Massachusetts, with some craft products carefully selected from larger corporations if they are on-brand and meet our quality sourcing requirements.

We also will source and price our products in a way that honors the quality of the products. Some larger cultivators and retailers in Massachusetts have resorted to “microwaving” plants to speed the curing process; the process matters to us and we know will matter to many of our customers. Craft cultivators grow organically or near-organically; larger manufacturers tend to walk right up to (and in some cases have been fined for crossing) the acceptable/legal line of pesticides and chemical growth accelerators that result in a final product that lacks the nuanced flavor profile of small batch cannabis. The craft cannabis product manufacturers that NECC is partnered with pride themselves on using high quality food ingredients to create products that rival the candies and chocolates created by the finest chocolatiers.

Craft cannabis can be thought of much like microbrew or craft beer, specialty coffee, premium wine, or organic food. Consumers gravitate to these products because they are manufactured with attention to detail and created using sustainable practices resulting in a higher quality product. Craft cannabis producers also make a commitment to social responsibility. Many in the process of being permitted in Massachusetts are economic empowerment applicants, or those that met the state’s qualifications to promote minority ownership and to promote economic development in communities devastated by the drug war.

NECC currently has or is negotiating agreements with small cultivators that have been licensed to operate or are in the application process. We have spoken and entered discussions with 17

companies and one distributorship at various stages of the licensing process. There are two companies we feel demonstrate the nature of our partnerships:

Gibby's Garden: Gibby's Garden is a female-owned and family operated marijuana cultivator. They are the first licensed microbusiness in Massachusetts and recently began sale of their products to retail outlets.

Freshly Baked Co.: Freshly Baked Co. is a disabled-veteran and female owned microbusiness that is in the licensing process and makes one product exceedingly well: 5mg-infused marijuana gummies.

We plan to partner with these and other companies and showcase their products and help build brand loyalty both to their brands and to our stores.

DESIGN AND DEVELOPMENT PLAN

Facility descriptions

NECC has a signed lease to 112-114 Main Street, Unit 1 in Pepperell and 61 Silva Lane in Dracut, Massachusetts.

Our Dracut location is in mint condition, has 20 spaces of dedicated parking, and the existing parking is sufficient to meet local approvals. Our unit is on the second floor, and Equipment East, which owns the building and operates a company from the building, occupies the first floor. Our spaces, aside from the entryway, will be completely separate.

Our Pepperell location is approximately 1,000 square feet that is a rental unit in the outdoor Pepperell Mall building that has 64 parking spaces that are shared between all 10 businesses in the location. We expect no traffic and parking concerns or issues with the space.

NECC will comply with state regulation 935 CMR 500.140(3) and any additional local regulations, including procedures for how MRE's interact with customers. NECC will only allow customers that are 21 years or older and have a verified and scanned government issued photo identification like a driver's license, official state ID, or Passport. Customers enter the dispensary into a holding room and will be greeted by security staff for the above verification before they are permitted into the retail floor inside. Customers who do not meet the security clearance and ID check will not be permitted into the store.

Each customer who passes the initial security holding area will be granted entry into the main sales floor.

Expertly trained staff will greet customers and begin the process of guiding them through their shopping experience. The customer is not permitted to handle marijuana products prior to the sale, though we will have display items and a menu of items and descriptions that customers can interact with. All products for sale will be stored securely and only accessed and delivered to the customer over the counter at the time of purchase.

Development Plan

The final design will commence with the closing of funding and the final local building approvals, though we have design and architecture plans that are being discussed with town officials today. NECC's goal is for construction to begin in earnest in the Summer of 2020 once we receive our provisional license from the Cannabis Control Commission.

CRITICAL RISKS

Competitors

As discussed previously there is plenty of market for the demand of our products. Barriers to entry of new competitors are high, both financially and in navigating local logistics and the licensure process. That said, we expect competition to be high from stores that will come online on or around our times, including our direct competitors in Dracut and Pepperell.

State Regulations and Approval Process

Massachusetts has one of the most highly regulated cannabis industries in the country. State approval is required for every license, and the Cannabis Control Commission has faced criticism from business owners and applicants for the speed of review of applications. Ultimately, the commission has some discretion on which and how many licenses to grant and when, and the local cities and towns also have some discretion. Public criticism, discontentment from municipal officials, concerns from state legislators, or other political issues could cause the commission to halt licensing. While stakeholders including state legislators have expressed the need for the Commission to move forward quickly with licensing more establishments, the chair of the commission has said that it is more important to “get it right” than to license numerous businesses rapidly. Meanwhile, some businesses say they have been held up for 6 months or longer as they wait for state and local approval. NECC may face significant time delays out of its control in obtaining state licensure.

Legalization in Other States & Nationally

Massachusetts is not an ideal location to cultivate marijuana because of our climate. That said, cultivation here is likely to keep prices high for retailers. If the market is nationally saturated, that could lead to a local depression in prices and profitability. Similarly, if legalization happens in New Hampshire, that is likely to impact our market share.

Extreme recession

Extreme recession could negatively impact sales as consumers will have less disposable income. However, cannabis will prices are likely relatively inelastic compared to other goods.⁸ Cannabis is safer and less habit forming than alcohol, but in many cases used in a similar manner and environment, and therefore may perform similarly in the market place, making it similar

Federal Illegality of Marijuana

While the federal government is looking like it’s taking hands off approach to legalization, it’s not a guarantee that states can operate with impunity in the legal state market. We’re subject to public policy whims and enforcement whims of the federal government especially, and to a lesser extent the state and local government.

⁸ <http://www.ias.org.uk/Alcohol-knowledge-centre/Price/Factsheets/How-does-the-price-of-alcohol-affect-consumption.aspx>

Local opposition

We expect some folks to be opposed to all marijuana due to the stigma and issues around “drug use.” Public opposition has been a barrier to marijuana businesses opening in communities across the state. However, the city of Dracut has already approved two cannabis businesses, indicating that there is local support for the industry.
