Cannabis Control Commission
COMMONWEALTH OF MASSACHUSETTS

July 6, 2026

In accordance with Sections 18-25 of Chapter 30A of the Massachusetts General Laws and Chapter 2 of the Acts of 2023, notice is hereby given of a meeting of the Cannabis Control Commission. The meeting will take place as noted below.

CANNABIS CONTROL COMMISSION

**July 9, 2026**
**10:00 AM**

**Remote via Microsoft Teams* and In-Person at Cannabis Control Commission,**
Second Floor Public Meeting Room, Worcester Union Station, 2 Washington Square, Worcester

PUBLIC MEETING AGENDA

I. Call to Order
II. Commissioners' Comments & Updates
III. Minutes
    1. June 11, 2026
    2. June 17, 2026
IV. Executive Director and Commission Staff Report
    1. Social Consumption Regulation Implementation
    2. Licensing Data Updates
V. Staff Recommendations on Changes of Ownership
    1. Cannabis Connection Inc.
    2. MCR Labs LLC
VI. Staff Recommendations on Renewal Licenses
    1. Patriot Care Corp. (#RMD165)
VII. Staff Recommendations on Final Licenses
    1. Chief Cannabis, LLC (#MR285404), Retailer
    2. Pharmacannis Massachusetts, Inc. (#MC282047), Cultivator, Tier 7 / Indoor
    3. Pharmacannis Massachusetts, Inc. (#MP282063), Product Manufacturer
VIII. Staff Recommendations on Provisional Licenses
    1. Legal Greens Boston LLC (#MRN285427), Retailer

2. Legal Greens Boston LLC (#DOA100194), Courier
3. Lucky Green Ladies, LLC (#DOA100205), Courier
4. Morabeza LLC (#MPN282295), Product Manufacturer
5. Emerald Grove, Inc. (#RMDA4025), Medical Marijuana Establishment [*Added to Agenda 7/7/26, 4:39PM]*

IX. Enforcement Actions
1. Stipulated Agreements
i. Legal Greens LLC

X. Hearing Officer Recommended Decisions
1. MassBiolytics

XI. Commission Discussion and Votes
1. Further 2026 Regulatory Round Discussion Topics
2. Tier Relegation Discussion *Commissioner Anthony Wilson*

XII. New Business Not Anticipated at the Time of Posting

XIII. Next Meeting Date

XIV. Adjournment

*Closed captioning available

*If you need reasonable accommodations in order to participate in the meeting, contact the ADA Coordinator Debra Hilton-Creek in advance of the meeting. While the Commission will do its best to accommodate you, certain accommodations may not be available if requested immediately before the meeting.*

PUBLIC MEETING MINUTES

**Documents**:

- Application Materials associated with:
  - Staff Recommendations on Change of Ownership
  - Staff Recommendations on Renewal Licenses
- Meeting Packet

**In Attendance**:

- Chair Christopher Harding
- Commissioner Xiomara DeLobato
- Commissioner Anthony Wilson

I. Call to Order

- The Chair recognized a quorum and called the meeting to order.
- The Chair gave notice that the meeting is being recorded.
- The Chair gave an overview of the agenda.

II. Chairman's Comments & Updates – 00:02:05

1. Commissioner Priorities and Topics of Focus
   - Commissioner DeLobato expressed gratitude for her onboarding. She stressed equity in Social Consumption (SC) and that justice in the Cannabis industry be assured, along with economic growth. Commissioner Wilson thanked the Governor for his appointment to the Commission and was impressed with the quality of Commission staff members. He emphasized supporting the Cannabis industry and advancing public health. He also was concerned that adequate testing occurred and emphasized the necessity of regulation and enforcement against products coming in from other jurisdictions. The Chair expressed appreciation for his onboarding process. He noted his priorities as engaging staff, hearing about their priorities and working on organizational roles and filling in gaps. He also stressed engaging stakeholders and

the work on meeting Chapter 65 deadlines and finally, ensuring Safe, Equitable, Efficient, Transparent and Sustainable recommendations.

III. Executive Director and Commission Staff Report – 00:11:40

- Executive Director (ED) Travis Ahern noted he would cover a few brief high-level updates and save the listed reports to be taken out of order by the Chair later in the meeting time permitting. He added that if they were unable to get to everything, they would do their best to make sure that all the information was available to the public and discussed by Commissioners when appropriate. He highlighted the remote meeting function for the day's meeting and noted the new Town Hall platform was being used for the first time. He mentioned that in terms of the public, the Chair's intent was to go back to a hybrid schedule in the future. He shared that they published Commissioner assignments on the website where the Chair assigned specific projects, existing formal working groups and point persons for specific topics and provided examples. He shared summary highlights from Cannabis Regulators Association (CANNRA) and noted he would discuss and provide more in the future. Commissioner Wilson highlighted recent news that dropped out of Michigan involving inversion and around an operator that was diverting product into the legal barrier. He emphasized that the Commission was working in the background diligently on the topic and other priorities for the industry. The Chair noted wonderful indication of different jurisdictions collaborating.

IV. Staff Recommendations on Change of Ownership – 00:20:06

- Licensing Analyst Jaime Wakefield presented on behalf of the Licensing Department, on its Recommendations for Change of Ownership and Renewals.

1. Yellow House Cannabis, LLC – add two individuals.
    - Commissioner Wilson moved to approve the Change of Ownership.
    - Commissioner DeLobato seconded the motion.
    - The Chair took a roll call vote:
        - Commissioner DeLobato – Yes
        - Commissioner Wilson – Yes
        - Chair Harding – Yes
    - The Commission unanimously approved the Change of Ownership.

V. Staff Recommendations on Renewal Licenses – 00:24:05

- Commissioner Wilson moved to approve the renewal of items numbered 1 – 22 as indicated on the agenda.
- Commissioner DeLobato seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes

- The Commission unanimously approved the renewal of items numbered 1 – 22 as indicated on the agenda.

VI. Commission Discussion and Votes – 00:25:49

1. Introduction to Chapter 65 of the Acts of 2026 Regulatory Package
   - The Chair focused on two-month deadlines for compliance pursuant to the Act. He focused on the medical Cannabis program and on the Commission's testing and regulations protocols. General Counsel Kajal Chattopadhyay (GC Chattopadhyay) kicked off the discussion and then the ED discussed two scenarios for meeting the 60-day deadlines, and what was within the scope of the regulatory package. He noted a follow-up meeting was slated for June 17th. GC Chattopadhyay turned the presentation to Associate General Counsel Erica Bruno (AGC Bruno) who described deadlines and the work needed to be done to meet them. The Chair asked about the consequences of missing deadlines, and GC Chattopadhyay believed that the statute was silent on the issue. The Chair asked when final regulations would be filed.

   - Commissioner DeLobato moved to direct the Legal department to prepare redlines for an emergency regulation package on topics outlined in sections 29 and 36 of Chapter 65 including the increase in purchase limits from one ounce to two ounces and definitional changes around ownership and to bring them to the board for consideration at the June 17, 2026, Public Meeting.
   - Commissioner Wilson seconded the motion.
   - The Chair took a roll call vote:
     - Commissioner DeLobato – Yes
     - Commissioner Wilson – Yes
     - Chair Harding – Yes
   - The Commission unanimously approved the motion.

   - Commissioner DeLobato moved to direct the CTIO to begin implementing the changes required by Chapter 65 as recommended by the Legal department.
   - Commissioner Wilson seconded the motion.
   - The Chair took a roll call vote:
     - Commissioner DeLobato – Yes
     - Commissioner Wilson – Yes
     - Chair Harding – Yes
   - The Commission unanimously approved the motion.

   - Commissioner Wilson moved to take a recess returning at 11:45 AM.
   - Commissioner DeLobato seconded the motion.
   - The Chair took a roll call vote:
     - Commissioner DeLobato – Yes
     - Commissioner Wilson – Yes

    - Chair Harding – Yes
- The Commission unanimously approved the motion.
- The Commission took a brief recess. (Returned at 01:35:54.)

2. Delegation of License Renewals
    - The ED highlighted ensuring that Public Meetings (PMs) follow a consistent cadence. In that vein, he explained that two renewals of Licenses were particularly an issue during the transition from the former Commissioners to the current board. The ED urged that such administrative renewals be ultimately reviewed, but that in urgent needs to renew for Licensee(s), that the ED be permitted to renew them during this emergent period.

    - Commissioner DeLobato moved to approve the proposed administrative process for ministerial License renewals as contained in the June 11, 2026, board packet.
    - Commissioner Wilson seconded the motion.
    - The Chair took a roll call vote:
        - Commissioner DeLobato – Yes
        - Commissioner Wilson – Yes
        - Chair Harding – Yes
    - The Commission unanimously approved the motion.

3. Review of Approved Board Motions from March-April 2026
    - The Chair noted he thought there were multiple votes worthy of discussion. He initially addressed the March 12, 2026, vote involving a Data Use Agreement and read the motion language. The Chair noted privacy and security issues. Commissioner DeLobato shared her concerns around sensitive information and the importance of making sure they were not in situations that create any form of liability and that protection of their data both for their operators, Licensees, agents, and the industry as a whole were critical. Commissioner Wilson noted due to the nature of their work, some things that are under the Public Records Law or Open Meeting Law (OML) would be sensitive business information and confidential. He added that they have the inherent authority to work with another agency outside the entity around analyzing some of the data including some of the confidential material and they could shape an agreement with that entity to protect the individuals whose data they were exposing as well as themselves and the general public. He expressed he did not think there was any benefit to their Licensees or them to have the motion hanging over the Commission. The ED noted that a lot of the information that the motion was relative to was up on the open data platform right now, just not deanonymized.

    - Commissioner DeLobato moved to reconsider the previously approved motion dated March 12, 2026, involving a Data Use Agreement.
    - Commissioner Wilson seconded the motion.
    - The Chair took a roll call vote:
        - Commissioner DeLobato – Yes

    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- Commissioner DeLobato moved to rescind the motion dated March 12, 2026, involving a Data Use Agreement.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- The Chair addressed the March 26, 2026, vote regarding recusals and the Rules of Necessity and the OML. He read the motion language. Commissioner Wilson believed that the policy had been well-settled, as did Commissioner DeLobato, who thought that the policy was already in place. She asked if there were any gaps in the process(es). The ED opined that with a three-member board as opposed to the former five-member board, there would be more occasions in the future to face recusals and quorum concerns.

- Commissioner DeLobato moved to reconsider the previously approved motion dated March 26, 2026, regarding recusals and the Rules of Necessity and the Open Meeting Law.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - The Chair – Yes
- The Commission unanimously approved the motion.

- Commissioner DeLobato moved to rescind the previously approved motion dated March 26, 2026, regarding recusals and the Rules of Necessity and the Open Meeting Law and to direct the Legal department to develop a prospective policy for the board review and approval.
- Commissioner Wilson second the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- The Chair addressed the April 7, 2026, vote regarding distribution of Orders to Show Cause and Letters of Enforcement Intent. He read the motion language. The Chair shared he felt the motion could create real liability in the area of investigations and as adjudicators. Commissioner Wilson asked for an explanation on what Orders of Show Cause and Letters of Enforcement Intent were and the process. The ED shared generally the process, and EC Goodin explained the descriptions of each. Commissioner Wilson expressed his two concerns with the motion and was in favor of potentially rescinding it. Commissioner DeLobato noted a layer of liability if Commissioners had access to information that prevented them from being impartial in various scenarios.

- Commissioner DeLobato moved to reconsider the previously approved motion dated April 7, 2026, regarding distribution of Orders to Show Cause and Letters of Enforcement Intent.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- Commissioner DeLobato moved to rescind the previously approved motion dated April 7, 2026, regarding distribution of Orders to Show Cause and Letters of Enforcement Intent.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- The Chair addressed the April 7, 2026, vote regarding establishment of a permanent Testing Task Force. He read the motion language. He opined that as now structured, this was the responsibility of the Chair ultimately, and Commissioner Wilson specifically. Commissioner DeLobato felt that the new board had made the vote superseded. Commissioner Wilson assured that rescission did not alter the Commission's dedication to assuring that testing was conducted correctly.

- Commissioner DeLobato moved to reconsider the previously approved motion dated April 16, 2026, regarding establishment of a permanent Testing Task Force.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:

    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- Commissioner DeLobato moved to rescind the previously approved motion dated April 16, 2026, regarding establishment of a permanent Testing Task Force.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- The Chair addressed the April 16, 2026, vote regarding a temporary licensing freeze involving Indoor and Outdoor Marijuana Cultivators. The Chair urged the review of additional data from other jurisdictions. He also advocated for keeping the pause in place but reviewing it and learning more about other jurisdictions' results with License caps. Commissioner DeLobato did not feel that she had enough information to confidently proceed right now with a freeze, particularly as it could affect social equity. The ED explained how data had been compiled during the limited time that cap had been in effect and how much more voluminous data would be analyzed in the future. Commissioner Wilson echoed the possibility of carving out a social equity exception to the cap, while otherwise advocating for the 120-day pause. The ED stated that there were many data discussions, focusing on canopies. Commissioner DeLobato asked about risk to Cultivators with SC caps. The ED thought that there was a limited group which could be sampled to review regarding supply and demand concerns and discussed prices declining due to still-high production of Cannabis.

- Commissioner DeLobato moved to reconsider the previously approved motion dated April 16, 2026, regarding a temporary licensing freeze involving Indoor and Outdoor Marijuana Cultivators.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- Commissioner DeLobato moved to amend the previously approved motion dated April 16, 2026 regarding temporary licensing freeze involving Indoor and Outdoor Marijuana Cultivators to allow the licensing freeze to go into effect subject to the additional requirement that staff gather and provide data from other jurisdictions

around similar licensing freezes and their effect on equity applicants and Licensees within 90 days.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
  - Commissioner DeLobato – Yes
  - Commissioner Wilson – Yes
  - Chair Harding – Yes
- The Commission unanimously approved the motion.

VII. Executive Director and Commission Staff Report (continued) – 03:08:25

1. EquityWorks Career Hub Job Fair (5/20) Summary
   - The ED presented data on the engagement in the job fair for the EquityWorks Career Hub and lauded the work of Director of Equity Programming and Community Outreach Silea Williams and other Commission staff members for making it a success.

2. Update on Receiverships
   - The ED shared the Commission had put out a bulletin on pre-approved receivers and without limitation, how to apply to become a pre-approved receiver.

3. THC Potency Inflation Bulletin Update
   - The ED deferred discussion of the topic until a later PM.

4. Assessment of Fines
   - The ED deferred discussion of the topic until a later PM.

5. Chapter 65 Municipal Waiver Requests to Prohibit Delivery Update
   - The ED presented the first set of municipalities who had requested two-year waivers on delivery. He noted one was seeking a one-year waiver.

6. Social Consumption Regulation Implementation
   - The ED noted they would continue to have the topic in updates and that Commissioner DeLobato would be the point person on the topic.

7. Host Community Municipal Equity Update
   - The ED noted substantial progress on the issue since August 2025 and noted Commissioner DeLobato as the point person on the topic.

8. Licensing Data Updates
   - The ED stated that the Licensing updates were conducted on a monthly basis. He added that the data was in the reports and would continue to track.

VIII. Next Meeting Date – 03:15:08

- The Chair stated that the next meeting was scheduled for June 17, 2026.

IX. Adjournment – 03:16:50

- Commissioner DeLobato moved to adjourn.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
  - Commissioner DeLobato – Yes
  - Commissioner Wilson – Yes
  - Chair Harding – Yes
- The Commission unanimously approved to adjourn.

Cannabis Control Commission
COMMONWEALTH OF MASSACHUSETTS

CANNABIS CONTROL COMMISSION

**June 17, 2026**
**12:00 PM**

**Remote via Microsoft Teams***

PUBLIC MEETING MINUTES

**Documents**:

- Application Materials associated with:
  - Staff Recommendations on Changes of Ownership
- Meeting Packet

**In Attendance**:

- Chair Christopher Harding
- Commissioner Xiomara DeLobato
- Commissioner Anthony Wilson

I. Call to Order
- The Chair recognized a quorum and called the meeting to order.
- The Chair gave notice that the meeting is being recorded.
- The Chair gave an overview of the agenda.

II. Chairman's Comments & Updates – 00:01:49
- Commissioner DeLobato expressed her excitement at being there and how great it had been working with staff. Commissioner Wilson noted his productive conversations with staff and other stakeholders. The Chair mentioned that the board would take Enforcement Actions out of order following the Executive Director (ED) and Commission Staff Report.

III. Minutes – 00:02:39

- May 28, 2026
- Commissioner DeLobato moved to approve the May 28, 2026, Commission Public Meeting minutes.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
  - Commissioner DeLobato – Yes

    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the May 28, 2026, Commission Public Meeting minutes.

IV. Executive Director and Commission Staff Report – 00:03:17

1. THC Potency Inflation Bulletin Update
    - First Assistant Enforcement Counsel Jacob Nielson (First AEC Nielson) spoke through their efforts to address THC inflation and practices that they had started in auditing the accuracy of label potency. He explained that in May of 2026, the Commission initiated a program to audit the accuracy of label potency for Marijuana flower products available to Consumers and patients. He noted that Consumers and patients relied on the information contained on a label and in many cases make purchasing decisions based solely on the label potency. He added that Licensees also relied on the information contained in the label or in a Certificate of Analysis (COA) that were provided by the laboratory. He also mentioned that Licensees could generally charge more for products that contain a higher total THC content and that Consumers and patients were not getting the benefit but still paying a premium. He explained why they started the program to ensure that Licensees were not falsely advertising or marketing products but added that for the program to have an impact on public health and safety, they needed to establish a compliance standard for when the Commission would act against Licensees for inaccurate labels. He presented and explained the standard they landed on and mentioned that every plant was not the same, and potency did degrade over time. He noted other jurisdictions' practices and studies they investigated and shared that potency was well researched and a problem in other jurisdictions. He added that they also did their own research in 2025 and presented the testing results on one of the strains. He explained the product was under labeled and the practice of auditing the accuracy of labeled potency. He shared the method of using Independent Testing Labs (ITLs) to test blind and taking randomly selected samples for testing with all the results be given to the Commission. He presented how they made their calculation of potency deviation. Commissioner Wilson asked about the current testing process and First AEC Nielson walked him through the supply chain and how often products were tested. He also confirmed they were testing the final product before hitting shelves. Commissioner Wilson provided clarity on the steps of the process and asked why they used the same lab. First AEC Nielson and Enforcement Counsel Timothy Goodin (EC Goodin) explained labs had different processes or techniques to test and it was the best practice until a standards lab was established. The Chair asked if they were looking for accuracy or nefarious players and First AEC Nielson confirmed both. EC Goodin mentioned the importance of accuracy for patients and Consumers and explained the notice process. The Chair advocated for a standards lab and was interested in the variety of ways ITLs tested. Commissioner DeLobato noted discrepancies if a standard was not established. The

ED mentioned feedback he had received in the past as a reasonable approach and that THC potency fell under Consumer protection.

2. Assessment of Fines
    - EC Goodin explained utilizing fines or the assessment of fines in instances where they identify a violation of the regulations and noted it as one of the primary tools used. He described the process and standardization of fine assessment and explained the historic approach. He mentioned that they conducted a jurisdiction survey and explained that they landed on a category approach. He noted they were establishing an Enforcement portal to add guidance and actions. He explained and described the four categories for fine assessment. He provided examples for each category and noted they would escalate fines if they saw repeating violations. Commissioner Wilson asked about regulations and EC Goodin confirmed they were acting within their regulations. General Counsel Kajal Chattopadhyay (GC Chattopadhyay) confirmed there was no regulatory packet around the topic. The Chair asked if they were to look back, how many would they have in each category bucket. EC Goodin responded that they would look back to provide the Chair with the information. EC Goodin also noted they had already started using the presented process.

    - The Commission took a brief recess returning at 1:15 PM. (Returned at 01:08:54.)

V. Enforcement Actions

1. Stipulated Agreements
    - EC Goodin explained the process and that once the investigations were over, a referral was sent over to the Commission for them to do their due diligent review. He noted the effort to ensure further compliance and personnel accountability and explained what they were containing in the agreements.

    i. DMA Holdings (MA), LLC
    - EC Goodin placed the Stipulated Agreement before the board for their consideration and explained how many Licenses they held. Associate Enforcement Counsel David Tennyson (AEC Tennyson) provided a brief presentation and context around the Stipulated Agreement for DMA Holdings (MA), LLC. He noted they were under receivership. He shared the Commission's findings and how they displayed a lack of responsible business. Commissioner DeLobato asked how the situation compared to other similar situations and EC Goodin noted that the violations were unique compared to historical violations. Commissioner DeLobato asked how they came to the number for the fine and the Chair noted that the nature of it was in receivership which made a cap. EC Goodin noted that receivership was limited in what they could offer. Commissioner Wilson asked how the receivership was initiated and AEC Tennyson noted that the receivership process was done privately. The Chair asked if the time frame of three years was normal and EC Goodin responded that there were many things that could affect the timeline and that it could take up to a year or more

than a year to perform their due diligence and noted that negotiation could take a bit of time too.

- Commissioner DeLobato moved to approve the Stipulated Agreement for DMA Holdings (MA), LLC.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
  - Commissioner DeLobato – Yes
  - Commissioner Wilson – Yes
  - Chair Harding – Yes
- The Commission unanimously approved the motion.

ii. Legal Greens LLC

- First AEC Nielson explained the findings in the Stipulated Agreement for Legal Greens LLC and proposed a resolution to the matter. He explained the negotiations terms and noted the category violations. Commissioner Wilson noted his concerns around Cannabis being grown in the basement of the business and how he was surprised they received the same penalty as the owner who did not engage in the same acts. Commissioner DeLobato opined that the fine was too high and asked about different floors of a building. She added the situation jumped out as assumption and that there was too much doubt presented. First AEC Nielson noted the unique situation from what the Commission had seen. He also noted that it depended on how the Licensee used the basement and that it should have been disclosed as part of the establishment according to the definition of Premises. Commissioner DeLobato suggested they needed to look at the time length and three-year lapse of great standing. She also noted costs were being added on top of hiring and mentioned it was reality for families to help small businesses. Commissioner Wilson mentioned shifting the fine to take action against the individual who performed the acts. The Chair shared the want to not put undue burden on the Licensee who had shown cooperation for the last three years and Commissioner DeLobato agreed. She added she wanted the fine to be reconsidered.

- Commissioner DeLobato moved to table.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
  - Commissioner DeLobato – Yes
  - Commissioner Wilson – Yes
  - Chair Harding – Yes
- The Commission unanimously approved the motion to table.

- The Commission took a brief recess returning at 2:25 PM. (Returned at 02:21:19.)

VI. Staff Recommendations on Change of Ownership

- Licensing Analyst Jaime Wakefield presented on behalf of the Licensing Department, on its Recommendations for Changes of Ownership.

1. Tree Market Lynn LLC – add one individual and one entity.
   - Commissioner DeLobato moved to approve the Change of Ownership.
   - Commissioner Wilson seconded the motion.
   - The Chair took a roll call vote:
     - Commissioner DeLobato – Yes
     - Commissioner Wilson – Yes
     - Chair Harding – Yes
   - The Commission unanimously approved the Change of Ownership.

2. Tree Market Taunton, LLC – add one individual and one entity.
   - Commissioner DeLobato moved to approve the Change of Ownership.
   - Commissioner Wilson seconded the motion.
   - The Chair took a roll call vote:
     - Commissioner DeLobato – Yes
     - Commissioner Wilson – Yes
     - Chair Harding – Yes
   - The Commission unanimously approved the Change of Ownership.

VII. Commission Discussions and Votes – 02:26:25

1. Chapter 65 of the Acts of 2026 Regulatory Package
   - The Chair noted the discussion as a follow up to the last meeting where they discussed promulgation of emergency regulations. He explained that the discussion would be around proposed draft emergency regulation amendments prepared by the Legal department. He added that at the June 11th Public Meeting (PM), they voted to direct the Legal department to draft an emergency regulation package responsive to Chapter 65 updates that the legislature and the administration had directed to amend within two months of enactment of the new law. He also added that if the board moved forward the emergency regulations package, they would begin addressing all other changes that needed to be made to comply with Chapter 65 in the early fall in a large policy regulatory round.

   - The Commission took a brief recess. (Returned at 02:31:27.)

   - Associate General Counsel Erica Bruno (AGC Bruno) noted that the redlined version of the draft emergency regulations was contained in the PM packet. She discussed the amendments broadly topic by topic. She stated that the first types of amendments shown in both 935 Code Mass. Regs. §§ 500.000 and 501.000 were technical types of amendments and identified the areas of amendment. She next shared the more substantive type of categories starting with the change of one ounce to two ounces for

adult-use retail sales and directed the board to the specific citations. She continued to the area of amendment related to the License caps and Social Equity Business exclusivity period and she pointed out the specific areas of amendments. Commissioner Wilson asked if someone currently had a medical License, they would not need to make any changes and that it would not affect anyone's License or Renewal and AGC Bruno confirmed correct. AGC Bruno proceeded to the next category of amendments pertaining to License cap carveouts for Employee Stock Ownership Plan (ESOP) trustees. AGC Bruno noted that the next License cap carveout was for those Persons or Entities holding less than 20% equity who do not otherwise have Direct or Indirect Control. AGC Bruno stated the last area of amendment was for equity holders possessing an equity interest of 10% or greater. Commissioner DeLobato thanked staff for the process and encouraged them to start thinking through what an action plan would look like from a data perspective. Commissioner Wilson recommended tracking how many Licenses people were a part of even if they were well below the limit. AGC Bruno proposed three draft motions for the board's review and consideration of the package. The Chair read the motion language.

- Commissioner DeLobato moved to approve the draft emergency regulations at 935 Code Mass. Regs. §§ 500.000 and 501.000 resulting from Commission deliberations including all amendments to increase a possession and sale limits from 1 to 2 ounces, License cap updates and Social Equity business exclusivity period and License cap exclusions for ESOP trustees and Persons or Entities possessing an equity interest of less than 20% who do not otherwise have Direct or Indirect Control as final for submission to the Secretary of the Commonwealth.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- Commissioner DeLobato moved to authorize Commission staff and the Legal department to make any ministerial edits to the final emergency regulations at 935 Code Mass. Regs. § 500.000 and 935 Code Mass. Regs. § 501.000 that are consistent with Commission deliberations and votes, the Commission's governing laws, and the Secretary of the Commonwealth's requirements, and to take any additional steps to file the final emergency regulations with the Secretary of the Commonwealth.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- Commissioner DeLobato moved to authorize Commission staff and the Legal department to take all steps necessary to submit a Notice of Public Comment and Hearing on the final emergency regulations at 935 Code Mass. Regs. § 500.000 and 935 Code Mass. Regs. § 501.000 with the Secretary of the Commonwealth.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved the motion.

- AGC Bruno explained next steps and timeline for the emergency regulation process. Commissioner DeLobato asked once they start collecting public comments, how did the public submit comments and AGC Bruno noted they could submit them through email and written comments. AGC Bruno also mentioned that many engaged stakeholders were aware of the process and that they were also able to testify during the Public Hearing with a hybrid option. She added that all comments and testimony would be compiled for the board's review and for staff to work through any potential amendments that would be beneficial.

VIII. Next Meeting Date – 02:50:11

- The next meeting was scheduled for July 9, 2026.

IX. Adjournment – 02:50:12

- Commissioner DeLobato moved to adjourn.
- Commissioner Wilson seconded the motion.
- The Chair took a roll call vote:
    - Commissioner DeLobato – Yes
    - Commissioner Wilson – Yes
    - Chair Harding – Yes
- The Commission unanimously approved to adjourn.

# MARIJUANA CULTIVATOR RENEWALS TIER RELEGATION CONSIDERATIONS EXECUTIVE SUMMARY

**COMMISSION MEETING: JULY 9, 2026**

## RENEWAL OVERVIEW

1. Renewal applications presented for approval:

| | |
|---|---|
| **Business Name:** | Patriot Care Corp. |
| **License Number:** | RMD165 |
| **Renewal Application:** | N/A (Paper application) |
| **Expiration Date:** | 7/12/2026 |
| **Current Tier Level:** | Tier 2 Indoor (5,000 to 10,000 sq. ft.) |
| **Percentage Sold:** | 61% |
| **Additional Information:** | **Additional response provided by email:**<br><br>"During that 6-month period, Patriot Care Corp. was operating without a wholesale manager, which had an immediate impact on wholesale sales, and the team believes is the biggest reason for the dip in the sales data." |

2. All active license expiration dates will be extended by one (1) year following approval. Expiration dates for licenses that have expired prior to the Public Meeting will be set for one (1) year from the date of approval.

3. All licensees have submitted renewal applications pursuant to 935 CMR 500.103(4) which include the licensee's disclosure of their progress or success towards their Positive Impact and Diversity Plans.

4. All licensees have submitted documentation of good standing from the Secretary of the Commonwealth, Department of Revenue, and Department of Unemployment Assistance, if applicable.

5. All licensees provided a compliant HCA or HCA Waiver, that was accepted by Commission staff pursuant to 935 CMR 500.180(3).

6. All licensees have paid the appropriate annual license fee.

7. The licensees, when applicable, have been inspected during the current renewal period.

8. The licensees' cultivation tier data has been reviewed by Commission staff and found that the licensee sold less than 70% of what it produced during the six months prior to the application for renewal for an indoor cultivator or during the harvest season prior to the application for renewal for an outdoor cultivator.

9. Commission staff certify that, to the best of our knowledge, no information has been found that would prevent renewal of the licenses mentioned above pursuant to 935 CMR 500.450.

**RENEWAL CONDITIONS**

Commission staff has reviewed the application for compliance with applicable laws and regulations and are presenting it for the Commission's review and vote.

Cannabis Control Commission
COMMONWEALTH OF MASSACHUSETTS

**Chief Cannabis, LLC**
MR285404

## ESTABLISHMENT OVERVIEW

1. Name and address of the Marijuana Establishment:

| | |
|---|---|
| **Licensee Business Name:** | Chief Cannabis |
| **Licensed Location:** | 10 Canal Street, Bourne, MA 02532 |

2. Type of final license sought (if cultivation, its tier level and outside/inside operation):

| **License Type(s) Sought:** |
|---|
| Marijuana Retailer |

3. The licensee is associated with the following license type(s):

The licensee is not associated with any other license applications or licenses.

## LICENSING OVERVIEW

4. The licensee was approved for provisional licensure for the above-mentioned license(s) on December 11, 2025.

5. The licensee has paid all applicable license fees.

6. No new information has been reported to Commission staff regarding the organizational structure of the entity since the issuance of the provisional license(s).

7. No new information has been discovered by Commission staff regarding the suitability of the licensees previously disclosed since the issuance of the provisional license(s).

## INSPECTION OVERVIEW

8. Commission staff inspected the licensee's facility on the following date(s): June 22, 2026.

9. The licensee's facility was inspected by Commission staff and found to be in full compliance with the requirements listed in 935 CMR 500.105 through 935 CMR 500.160 as applicable.

10. No evidence was discovered during the inspection(s) that indicated the licensee was not in compliance with all applicable state laws and local bylaws or ordinances.

11. Specific information from Commission staff's inspection is highlighted below:

    a. Security

    Enforcement staff verified that all security-related requirements were in full compliance with Commission regulations. Some of the requirements verified include the following:

    i. The security of all entrances and exits;
    ii. Visitor procedures;
    iii. Limited access areas;
    iv. Verification of a primary and back-up security company;
    v. Presence of perimeter and duress alarms; and
    vi. All cameras complied with Commission requirements.

    b. Inventory and Storage

    Enforcement staff verified that all inventory-related requirements were in full compliance with Commission regulations. Some of the requirements verified include the following:

    i. Secure storage of marijuana and marijuana products;
    ii. Sanitation and pest control measures; and
    iii. Inventory controls and procedures.

    c. Retail Operation

    Enforcement staff verified that all retail-related requirements were in full compliance with Commission regulations. Some of the requirements verified include the following:

    i. Verification of identifications for access;
    ii. Layout of the sales floor; and
    iii. Availability and contents of adult-use consumer education materials.

    d. Transportation

    The licensee will not be performing transportation activities at this time.

## FINAL LICENSE CONDITIONS

Commission staff has reviewed the license for compliance with applicable laws and regulations and are presenting it for the Commission's review and vote.

1. The licensee may possess and otherwise acquire marijuana, but shall not dispense, sell, or otherwise transport marijuana to other Marijuana Establishments, or to consumers, until upon inspection, receiving permission from the Commission to commence full operations.
2. The licensee is subject to inspection to ascertain compliance with Commission regulations.
3. The licensee remains suitable for licensure.
4. The licensee shall cooperate with and provide information to Commission staff.
5. Licensure is subject to notification to the Commission of any update to written operations plans required by 935 CMR 500.105(1) prior to the issuance of a commencement of operations and that Commission staff be given adequate opportunity to review said plans at the business location or the location where any such plans are maintained in the normal course of business.

The licensee has demonstrated compliance with the laws and regulations of the Commonwealth and suitability for licensure. Therefore, the licensee is recommended for final licensure.

As part of the approval of final licensure, the Commission authorizes staff to take all necessary actions to review compliance with the above-referenced conditions and to approve the commencement of operations.

2. Type of final license sought (if cultivation, its tier level and outside/inside operation):

| **License Type(s) Sought:** |
|---|
| Marijuana Cultivator, Tier 7, Indoor (50,001 – 60,000 sq. ft.) |
| Marijuana Product Manufacturer |

3. The licensee is associated with the following license type(s):

| Type | Status | Location |
|---|---|---|
| Marijuana Retail | Commence Operations | Wareham |
| Marijuana Retail | Commence Operations | Shrewsbury |
| Marijuana Retail | Commence Operations | Franklin |
| MTC<br>Tier 3/Indoor<br>(10,001 – 20,000 sq. ft.) | Commence Operations | Holliston-Newton |

The licensee is not associated with any other license applications or licenses.

## LICENSING OVERVIEW

4. The licensee was approved for provisional licensure for the above-mentioned license(s) on February 20, 2020 for its cultivation operations and March 10, 2022 for its product manufacturing operations.

5. The licensee has paid all applicable license fees.

6. No new information has been reported to Commission staff regarding the organizational structure of the entity since the issuance of the provisional license(s).

7. No new information has been discovered by Commission staff regarding the suitability of the licensees previously disclosed since the issuance of the provisional license(s).

## INSPECTION OVERVIEW

8. Commission staff inspected the licensee's facility on the following date(s): May 27, 2026.

9. The licensee's facility was inspected by Commission staff and found to be in full compliance with the requirements listed in 935 CMR 500.105 through 935 CMR 500.160 as applicable.

10. No evidence was discovered during the inspection(s) that indicated the licensee was not in compliance with all applicable state laws and local bylaws or ordinances.

11. Specific information from Commission staff's inspection is highlighted below:

    a. Security

    Enforcement staff verified that all security-related requirements were in full compliance with Commission regulations. Some of the requirements verified include the following:

    i. The security of all entrances and exits;
    ii. Visitor procedures;
    iii. Limited access areas;
    iv. Verification of a primary and back-up security company;
    v. Presence of perimeter and duress alarms; and
    vi. All cameras complied with Commission requirements.

    b. Inventory and Storage

    Enforcement staff verified that all inventory-related requirements were in full compliance with Commission regulations. Some of the requirements verified include the following:

    i. Secure storage of marijuana and marijuana products;
    ii. Sanitation and pest control measures; and
    iii. Inventory controls and procedures.

    c. Cultivation Operation

    Enforcement staff verified that all cultivation operations were in compliance with the Commission's regulations. Some of the requirements verified include the following:

    i. Seed-to-sale tracking;

ii. Compliance with applicable pesticide laws and regulations; and
iii. Best practices to limit contamination.

d. Product Manufacturing Operation

Enforcement staff verified that all manufacturing-related requirements were in full compliance with Commission regulations. Some of the requirements verified include the following:

i. Proposed product compliance; and
ii. Safety, sanitation, and security of the area and products.

e. Transportation

The licensee will not be performing transportation activities at this time.

## FINAL LICENSE CONDITIONS

Commission staff has reviewed the license for compliance with applicable laws and regulations and are presenting it for the Commission's review and vote.

1. The licensee may cultivate, harvest, possess, prepare, produce, and otherwise acquire marijuana, but shall not sell, or otherwise transport marijuana to other Marijuana Establishments, until upon inspection, receiving permission from the Commission to commence full operations
2. The licensee is subject to inspection to ascertain compliance with Commission regulations.
3. The licensee remains suitable for licensure.
4. The licensee shall cooperate with and provide information to Commission staff.
5. Licensure is subject to notification to the Commission of any update to written operations plans required by 935 CMR 500.105(1) prior to the issuance of a commencement of operations and that Commission staff be given adequate opportunity to review said plans at the business location or the location where any such plans are maintained in the normal course of business.

The licensee has demonstrated compliance with the laws and regulations of the Commonwealth and suitability for licensure. Therefore, the licensee is recommended for final licensure.

As part of the approval of final licensure, the Commission authorizes staff to take all necessary actions to review compliance with the above-referenced conditions and to approve the commencement of operations.

MRN285427

## APPLICATION OF INTENT REVIEW

1. Name, address, and license type(s) sought of the proposed License Applicant:

| | |
|---|---|
| **License Applicant Business Name:** | Legal Greens Boston, LLC |
| **Proposed Location:** | 571B Washington Street, Boston, MA 02124 |

2. Type of final license sought (if cultivation, its tier level and outside/inside operation):

| **License Type(s) Sought:** |
|---|
| Marijuana Retailer |
| Marijuana Courier |

3. The license applicant is associated with the following license type(s):

   The license applicant is not associated with any other license applications or licenses.

4. The license applicant was pre-certified by the Commission on July 7, 2025. Pursuant to 935 CMR 500.101(2)(b)(2), the applicant demonstrated a propensity to successfully operate a license.

5. List of all required individuals and their roles:

| Individual | Role |
|---|---|
| Vanessa Jean-Baptiste | Person Having Direct/Indirect Control / Capital Contributor |
| Mark Bouquet | Person Having Direct/Indirect Control / Capital Contributor |
| Michael Maloney | Person Having Direct/Indirect Control / Capital Contributor |

6. List of all required entities and their roles:

| Entity | Role |
|---|---|
| Legal Greens, LLC | Entity Having Direct/Indirect Control / Capital Contributor |

7. License Applicant's Status:

   Economic Empowerment Priority Applicant
   Vanessa Jean-Baptiste / 51% / EE202402

8. The license applicant and host community executed a Host Community Agreement ("HCA") on August 27, 2025 for its Retail Operations. The license applicant submitted their application prior to March 1, 2024 and provided the required certification form. The license applicant submitted or resubmitted their application on or after March 1, 2024 and provided a compliant HCA that was certified by Commission staff pursuant to 935 CMR 500.180(3) and/or comparable medical regulations.

9. The license applicant and the second host community executed a Host Community Agreement ("HCA") on June 23, 2026 for their Marijuana Courier operations. The license applicant submitted or resubmitted their application on or after March 1, 2024 and provided a compliant HCA that was certified by Commission staff pursuant to 935 CMR 500.180(3) and/or comparable medical regulations.

10. The Commission received a municipal response from the host community on December 9, 2026 for its Marijuana Retail operations stating the applicant was in compliance with all local ordinances or by-laws. The Commission sent a municipal notice with a copy of the application to the host community on November 5, 2025 for its Marijuana Courier operations. The Commission did not receive a response within 30 days pursuant to 935 CMR 500.102(1)(d)2.

11. The license applicant proposed the following goals for its Positive Impact Plan:

| # | Goal |
|---|---|
| **1** | The license applicant proposed to host expungement clinics in the census tracts of Boston. |
| **2** | The license applicant proposed to hire 50-75% of employees from census tracts of Boston. |

## BACKGROUND CHECK REVIEW

12. There were disclosures of any past civil or criminal actions, occupational license issues, or marijuana-related business interests in other jurisdictions. None of the disclosures raised suitability issues.

13. There were no concerns arising from background checks on the individuals or entities associated with the application.

## MANAGEMENT AND OPERATIONS PROFILE REVIEW

14. The license applicant submitted all required summaries of plans, policies, and procedures for the operation of the proposed establishment. The summaries were determined to be substantially compliant with the Commission's regulations.

15. The license applicant proposed the following goals for its Diversity Plan:

| # | Goal |
|---|---|
| **1** | The license applicant proposed to hire the following: 20% Women, 20% People of color, particularly Black, African American, Hispanic, Latinx, and Indigenous peoples, 20% Veterans, 20% Persons with Disabilities, and 20% LGBTQ+ People. |
| **2** | The license applicant proposed to contract with 5% Women, 5% People of color, particularly Black, African American, Hispanic, Latinx, and Indigenous peoples, 5% Veterans, 5% Persons with Disabilities, and 5% LGBTQ+ People-owned businesses. |

## PROVISIONAL LICENSE CONDITIONS

Commission staff has reviewed the application for compliance with applicable laws and regulations and are presenting it for the Commission's review and vote.

1. Provisional licensure is subject to the payment of the appropriate license fee within 90 days of an affirmative vote of the Commission pursuant to 935 CMR 500.103(1)(e) and 935 CMR 501.103(1)(d)
2. Provisional licensure does not allow the license holder to cultivate, manufacture, or possess marijuana and/or marijuana infused products (MIPs) prior to being approved for a final license.

| **Proposed Location:** | 393 E Main Street, Unit C, Southbridge, MA 01550 |

2. Type of final license sought (if cultivation, its tier level and outside/inside operation):

| **License Type(s) Sought:** |
|---|
| Marijuana Product Manufacturer |

3. The license applicant is associated with the following license type(s):

| Type | Status | Location |
|---|---|---|
| Marijuana Delivery Operator | Provisional License | Southbridge |

4. List of all required individuals and their roles:

| Individual | Role |
|---|---|
| Carlos Rosa | Person Having Direct/Indirect Control / Capital Contributor |

5. List of all required entities and their roles:

   No other entity appears to have ownership or control over this license applicant business.

6. License Applicant's Status:

   Expedited Applicant (Social Equity Program Participant/ Minority-Owned Business)

   Carlos Rosa / 100% ownership and control/ SE306396

7. The license applicant and host community executed a Host Community Agreement ("HCA") on August 19, 2024. The license applicant submitted or resubmitted their application on or after March 1, 2024 and provided a compliant HCA that was certified by Commission staff pursuant to 935 CMR 500.180(3) and/or comparable medical regulations.

8. The Commission sent a municipal notice with a copy of the application to the host community on May 22, 2026. The Commission did not receive a response within 30 days pursuant to 935 CMR 500.102(1)(d)2.

9. The license applicant proposed the following goals for its Positive Impact Plan:

| # | Goal |
|---|---|
| **1** | The license applicant proposed to provide career and educational opportunities to individuals from the following Commission identified Areas of Disproportionate Impact: Southbridge, Economic Empowerment Priority Applicants, Social Equity Participants, MA Residents with Past Drug Convictions, and/or MA Residents with Parents or Spouses with Past Drug Convictions. |
| **2** | The license applicant proposed to allocate $25,000 annually to assist in covering closing costs for up to five (5) qualifying Southbridge residents. |
| **3** | The license applicant proposed to provide industry-specific and priority hiring pipeline for Economic Empowerment Priority Applicants, Social Equity Participants, MA Residents with Past Drug Convictions, and/or MA Residents with Parents or Spouses with Past Drug Convictions. |

## BACKGROUND CHECK REVIEW

10. There were no disclosures of any past civil or criminal actions, occupational license issues, or marijuana-related business interests in other jurisdictions.

11. There were no concerns arising from background checks on the individuals or entities associated with the application.

## MANAGEMENT AND OPERATIONS PROFILE REVIEW

12. The license applicant submitted all required summaries of plans, policies, and procedures for the operation of the proposed establishment. The summaries were determined to be substantially compliant with the Commission's regulations.

13. The license applicant proposed the following goals for its Diversity Plan:

| # | Goal |
|---|---|

| | |
|---|---|
| **1** | The license applicant proposed to hire the following: 40% Women, 30% People of color, particularly Black, African American, Hispanic, Latinx, and Indigenous peoples, 5% Veterans, 5% Persons with Disabilities, and 5% LGBTQ+ People. |
| **2** | The license applicant proposed to establish a paid internship/mentorship that intentionally recruits Women; People of color (with emphasis on Black, African American, Hispanic, Latinx, and Indigenous peoples); Veterans; Persons with Disabilities; and LGBTQ+ individuals. |
| **3** | The license applicant proposed to prioritize working with suppliers and ancillary service providers owned and/or managed by members of the Commission-defined diverse groups at least 40% of suppliers are Women-owned businesses, 30% are Businesses owned by People of color (Black, African American, Hispanic, Latinx, Indigenous), 5% Veteran-owned, 5% owned by Persons with Disabilities, and 5% LGBTQ+-owned |

## PROVISIONAL LICENSE CONDITIONS

Commission staff has reviewed the application for compliance with applicable laws and regulations and are presenting it for the Commission's review and vote.

1. Provisional licensure is subject to the payment of the appropriate license fee within 90 days of an affirmative vote of the Commission pursuant to 935 CMR 500.103(1)(e) and 935 CMR 501.103(1)(d)
2. Provisional licensure does not allow the license holder to cultivate, manufacture, or possess marijuana and/or marijuana infused products (MIPs) prior to being approved for a final license.

## APPLICATION OF INTENT REVIEW

1. Name, address, and license type(s) sought of the proposed License Applicant:

| | |
|---|---|
| **License Applicant Business Name:** | Emerald Grove, Inc. |
| **Proposed Cultivation Location:** | 740 Dutton Street, Lowell, MA 01854<br>Tier 1/Indoor (up to 5,000 sq. ft.) |
| **Proposed Manufacturing Location:** | 740 Dutton Street, Lowell, MA 01854 |
| **Proposed Dispensary Location:** | 3 Main Street, Eastham, MA 02642 |

2. Type of final license sought (if cultivation, its tier level and outside/inside operation):

| **License Type(s) Sought:** |
|---|
| Medical Marijuana Establishment |

3. The license applicant is associated with the following license type(s):

| Type | Status | Location |
|---|---|---|
| Marijuana Retail | Commence Operations | Eastham |
| Marijuana Cultivator, Tier 1/Indoor (up to 5,000 sq. ft.) | Provisional License | Middleborough |
| Marijuana Product Manufacturing | Provisional License | Middleborough |
| Marijuana Cultivator, Tier 1/Indoor (up to 5,000 sq. ft.) | Commence Operations | Lowell |
| Marijuana Product Manufacturing | Commence Operations | Lowell |

4. List of all required individuals and their roles:

| Individual | Role |
|---|---|
| Alexander Jamoulis | Person Having Direct/Indirect Control / Capital Contributor |
| Timothy Jamoulis | Person Having Direct/Indirect Control / Capital Contributor |

| | |
|---|---|
| Demetra Jamoulis | Person Having Direct/Indirect Control / Capital Contributor |
| Kyle Bazon | Person Having Direct/Indirect Control |

5. List of all required entities and their roles:

   No other entity appears to have ownership or control over this license applicant business.

6. License Applicant's Status:

   General Applicant

7. The license applicant and host community executed a Host Community Agreement ("HCA") on June 20, 2024. The license applicant submitted or resubmitted their application on or after March 1, 2024 and provided a compliant HCA that was certified by Commission staff pursuant to 935 CMR 500.180(3) and/or comparable medical regulations.

8. The license applicant and the second host community executed a Host Community Agreement ("HCA") on August 12, 2024. The license applicant submitted or resubmitted their application on or after March 1, 2024 and provided a compliant HCA that was certified by Commission staff pursuant to 935 CMR 500.180(3) and/or comparable medical regulations.

9. The Commission sent a municipal notice with a copy of the application to the host community of Lowell and Eastham on April 8, 2026.The Commission did not receive a response within 60 days pursuant to 935 CMR 500.102(1)(d).

10. The license applicant proposed the following goals for its Positive Impact Plan:

| # | Goal |
|---|---|
| **1** | The license applicant proposes to hire 10% of individuals from the following Commission identified Areas of Disproportionate Impact: Wareham |
| **2** | The license applicant proposed to donate $1,000 to Onset Bay Association. |
| **3** | The license applicant proposed to support at least two (2) events per year for the Onset Bay Association through volunteer hours. |
| **4** | The license applicant proposed to provide training opportunities to employees who are Wareham residents; such training opportunities will include third-party educational programs, certificates, and seminars, such as those offered by Cannabis Training University, which Emeral Grove will pay for. |

## BACKGROUND CHECK REVIEW

11. There were disclosures of any past civil or criminal actions, occupational license issues, or marijuana-related business interests in other jurisdictions. None of the disclosures raised suitability issues.

12. There were no concerns arising from background checks on the individuals or entities associated with the application.

## MANAGEMENT AND OPERATIONS PROFILE REVIEW

13. The license applicant submitted all required summaries of plans, policies, and procedures for the operation of the proposed establishment. The summaries were determined to be substantially compliant with the Commission's regulations.

14. The license applicant proposed the following goals for its Diversity Plan:

| # | Goal |
|---|---|
| **1** | The license applicant proposes to hire the following: 40% Women, 5% People of color, particularly Black, African American, Hispanic, Latinx, and Indigenous peoples, 5% Veterans, 5% Persons with Disabilities, and 10% LGBTQ+ People. |
| **2** | The license applicant proposed to distribute internal workplace newsletters at least two (2) times each year that encourage current employees to recommend/refer individuals who are Women, People of color, particularly Black, African American, Hispanic, Latinx, and Indigenous peoples, Veterans, Persons with Disabilities, and LGBTQ+ People. |
| **3** | The license applicant proposed to advertise open job positions at least once annually |
| **4** | The license applicant proposed to implement annual employee training on diversity, equity, and inclusion |

## PROVISIONAL LICENSE CONDITIONS

Commission staff has reviewed the application for compliance with applicable laws and regulations and are presenting it for the Commission's review and vote.

1. Provisional licensure is subject to the payment of the appropriate license fee within 90 days of an affirmative vote of the Commission pursuant to 935 CMR 500.103(1)(e) and 935 CMR 501.103(1)(d)
2. Provisional licensure does not allow the license holder to cultivate, manufacture, or possess marijuana and/or marijuana infused products (MIPs) prior to being approved for a final license.

License Nos. MR282937 and MC282508

**Case No. ENF-2024-0000001775**

# FINAL ORDER AND STIPULATED AGREEMENT

This Final Order and Stipulated Agreement (herein, "Agreement") between the Commonwealth of Massachusetts Cannabis Control Commission (the "Commission") and Legal Greens, LLC (herein, "Respondent") (together, the "Parties") is offered for the purposes of settlement to resolve the Order to Show Cause issued on December 29, 2025. The Commission finds that the resolution of this matter serves the purposes of G.L. c. 94G and 935 CMR 500.000 *et seq*., because Respondent has cooperated with the Commission's investigation and with the Commission since being issued the Order to Show Cause.

Accordingly, the Parties stipulate to the following Facts of Record and Applicable Law, as presented by the Commission. Respondent enters into this Agreement solely for the purposes of settlement, which shall neither be considered an admission of liability nor a violation of law. Respondent has voluntarily agreed to the stipulated remedy, contained in Paragraphs 42 through 68. Following the ratification of this Agreement by majority vote of the Commission, this Agreement is binding on the Parties for the purpose of reaching a final resolution.

## Legislative, Statutory, and Regulatory Authority

1. The Commission is charged with the administration and enforcement of laws regulating and licensing Marijuana Establishments and maintains jurisdiction over the conduct of licensed Marijuana Establishments, including their compliance with the Commonwealth's marijuana laws, G.L. c. 94G, and regulations, 935 CMR 500.000 *et seq*. *See* G.L. c. 94G, § 4(a), (a½);

2. The Commission possesses all the powers necessary or convenient to carry out and effectuate its purposes including, but not limited to:
   a. The power to revoke or suspend a license. *See* G.L. c. 94G, § 4(a)(xi);
   b. The power to gather facts and information applicable to the Commission's obligation to suspend or revoke licenses for a violation of G.L. c. 94G, or any regulation adopted by the Commission. *See* G.L. c. 94G, § 4(a)(xiv);

c. The power to conduct investigations into the qualifications of all applicants for licensure. *See* G.L. c. 94G, § 4(a)(xv);
d. The power to be present, through its inspectors and agents, at any time, in marijuana establishments for the purposes of exercising its oversight responsibilities. *See* G.L. c. 94G, § 4(a)(xvii);
e. The power to fine a person licensed for any cause that the Commission deems reasonable, including a violation of G.L. c. 94G or any regulation promulgated by the Commission. *See* G.L. c. 94G, § 4(a)(xiii), (xxii);

3. The Commission also has the power to promulgate regulations and to adopt, amend, or repeal regulations for the implementation, administration, and enforcement of G.L. c. 94G. *See* G.L. c. 94G, § 4(a)(xxiv), (xxviii);

4. Accordingly, the Commission has adopted regulations for the administration and enforcement of laws regulating Licensees, including 935 CMR 500.370(1), which provide that the Commission "may also issue an Order to Show Cause why the Licensee or registration should not be suspended or revoked";

5. At any time, the Commission or a Commission Delegee may, in its discretion, review, approve or reject an informal disposition, but only on a showing that the alleged violations have been corrected, and a submission of a written waiver of its right to judicial review. *See* 935 CMR 500.500(7); *see also* G.L. c. 30A, § 10 (agencies have the authority to make informal dispositions by stipulation or settlement);

**Facts of Record**

6. Respondent currently operates a Marijuana Retailer Establishment located at 73-75 Pleasant Street, Brockton, Massachusetts 02301 (the "Pleasant St. Store");

7. Respondent received a Final License for its Retail License on March 11, 2021, and commenced operations on March 24, 2021;

8. Respondent also holds a Provisional License for Marijuana cultivation, License No. MC282508, that the Commission approved on January 20, 2022;

9. Additionally, Respondent's Owners of record have two license applications pending approval for Provisional Licensure, Application Nos. DOA100194 and MRN285427;

10. Vanessa Jean-Baptiste holding 51% ownership and control interest, Mark Bouquet holding 40% ownership and control interest, and Michael Maloney holding 9% ownership and control interest are Respondent's Owners of record;

11. On or around August and September 2021, Respondent posted promotional photos and videos on social media that contained the hashtag "#legalgreens" indicated the potential consumption of Marijuana and Marijuana Products (herein together, "Marijuana") and alcohol in the basement of the Pleasant St. Store;

12. On February 1, 2023, Commission Investigators conducted an unannounced inspection at the Pleasant St. Store;

13. During the inspection, Investigators observed Respondent's employees entering and exiting the basement of the Pleasant St. Store;

14. Upon entering the basement, Investigators observed what appeared to be one of Respondent's Registered Marijuana Establishment Agents (herein, "Agents") consuming Marijuana;

15. Throughout the basement, Investigators found unsecured and untagged Marijuana and open bottles of alcohol, indicating that those products had been consumed;

16. According to Respondent's Policy Prohibiting Illicit Drugs, Alcohol, and Tobacco in the Workplace (the "Drug and Alcohol SOP"), the prohibition on the use or possession of alcohol and drugs applies "while on Company property, while on Company business, or during working hours";

17. The Drug and Alcohol SOP defines "Company Property" as including "any [Respondent's] workplaces, offices, vehicles, and any and all premises used to serve [Respondent's] objectives";

18. Respondent used the basement to store packaging and Branded Goods, and had three separate rooms used as offices for its marketing personnel and Owners;

19. Investigators also saw multiple plastic storage bins containing repackaging material with Respondent branded labeling and packaging, Respondent Branded Goods, and company business records such as receipts and inventory documents;

20. During the inspection, Investigators learned that a locked closet within the basement was being used to propagate immature plantings of Marijuana;

21. The cultivation area also had a cultivation light facing downward to light four plastic nursery trays with humidity domes, each containing multiple Marijuana clones;

22. At the inspection, Mr. Bouquet stated that the clones were part of his personal grow;

23. During the inspection, Investigators also interviewed Ms. Jean-Baptiste and Mr. Bouquet about underage individuals working at the Pleasant St. Store;

24. Both Ms. Jean-Baptiste and Mr. Bouquet separately stated to Investigators that an 18-year-old family member volunteered in the basement where they affixed labels to Respondent's empty Marijuana packaging and Branded Goods;

25. Respondent's policy titled "Restricting Access to Age 21 and Older" (herein, "Underage SOP") states that "Legal Greens employees will validate the age of all individuals entering the premises" and will "deny entry to any individual unless the person has verified that the individual is 21 years of age or older by an individual's photo identification";

26. Following the inspection on February 1, 2023, the Commission issued a Notice of Deficiency to Respondent on March 23, 2023, for violations observed during the inspection. In response to the Notice of Deficiency, Respondent provided a Plan of Correction that was approved on August 14, 2023;

27. On December 29, 2025, the Commission issued an Order to Show Cause to Respondent seeking the revocation of Respondents licenses due to its noncompliant operations;

28. Following a request from Respondent on January 12, 2026, from March 11, 2026, to May 29, 2026, the Parties engaged in negotiations relative to an informal disposition of this matter through counsel resulting in the proposed terms presented in this Agreement;

29. Since February 1, 2023, the Commission has not observed a recurrence of the alleged violations that are the subject of this order;

## Applicable Law

30. Acceptance of a provisional or final license constitutes an agreement by the Marijuana Establishment that it will adhere to the practices, policies, and procedures that are described in its application materials, as well as all relevant laws, regulations, and any conditions imposed by the Commission as part of licensure. 935 CMR 500.103(2)(d);

31. Every Marijuana Establishment shall have and follow a set of detailed written operating procedures that shall include alcohol, smoke, and drug-free workplace policies. *See* 935 CMR 500.105(1)(k);

32. No marijuana establishment shall allow any person under 21 years of age to volunteer or work for the Marijuana Establishment. G.L. c. 94G, § 12(e);

33. A Marijuana Establishment shall implement sufficient security measures to deter theft of Marijuana and Marijuana Products, prevent unauthorized entrance into areas containing Marijuana and Marijuana Products and ensure the safety of Marijuana Establishment employees, Consumers and the general public. Security measures taken by the Licensee shall include positively identifying individuals seeking access to the Premises of the Marijuana Establishment to limit access solely to individuals 21 years of age or older. *See* 935 CMR 500.110(1)(a);

34. A Marijuana Retailer may purchase, transport, sell, Repackage, or otherwise Transfer Marijuana or Marijuana Products to Marijuana Establishments and sell to Consumers. A Marijuana Retailer can deliver Marijuana or Marijuana Products to Consumers in accordance with 935 CMR 500.000. A Marijuana Retailer may not allow on-site social consumption by Consumers on the Premises of the Marijuana Establishment. 935 CMR 500.050(8)(a)1;

35. Notwithstanding any general or special law to the contrary, except as otherwise provided in this chapter, a person 21 years of age or older…within the person's primary residence, can possess up to 10 ounces of marijuana and any marijuana produced by marijuana plants cultivated on the premises and possessing, cultivating or processing not more than 6 marijuana plants for personal use so long as not more than 12 plants are cultivated on the premises at once. *See* G.L. c. 94G, § 7(a)(2);

**Commission Findings**

36. The Commission, through its Executive Director, and Respondent have come to mutual agreement and understanding, and jointly propose to the Commission a resolution of the alleged violations in lieu of proceeding with an administrative hearing to determine the merits of such allegations. The terms and conditions of this Agreement are expressly subject to ratification by the full Commission. Pursuant to G.L. c. 6, § 223, two Commissioners shall constitute a quorum, and the affirmative vote of two Commissioners shall be required for ratification of this Agreement;

37. Respondents failed to maintain a workplace free from drugs and alcohol in violation of its own written operating procedures, which constitutes a violation of 935 CMR 500.105(1)(k) as well as 935 CMR 500.050(8)(a)1.:
    a. Respondent has a Drug and Alcohol SOP that explicitly prohibits the use or possession of alcohol and drugs on Company property;
    b. Respondent's basement should have been designated as part of its licensed Premises;
    c. On or around August and September 2021, Respondent failed to take measures to prevent the consumption of Marijuana in the basement of its licensed Premises by non-Agents;

d. On February 1, 2023, Investigators observed one of Respondent's Agents consuming what appeared to Marijuana in the basement; and
e. Throughout Respondent's basement, Investigators also observed consumed Marijuana flower and concentrate, related paraphernalia, and opened and consumed alcohol bottles indicating that Respondent had failed to enforce its Drug and Alcohol SOP.

38. Respondent permitted an individual under the age of 21 to volunteer on its licensed Premises in violation of G.L. c. 94G, § 12(e) and 935 CMR 500.110(1)(a):
    a. Respondent has an Underage SOP that instructs Respondent to deny entry to any individual under 21 years of age; and
    b. Respondent allowed an 18-year-old family member to volunteer by having them label empty Marijuana packaging and Branded Goods in the basement of its licensed Premises.

39. Respondent's practices, conduct and actions collectively demonstrate a failure to adhere to all relevant laws imposed by the Commission in violation of 935 CMR 500.103(2)(d);
    a. Respondent permitted the consumption and use of Marijuana and alcohol in the workplace in violation of 935 CMR 500.105(1)(k) and 935 CMR 500.050(8)(a)1.;
    b. Respondent permitted an individual under the age of 21 to access and volunteer on its Premises in violation of G.L. c. 94G, § 12(e) and 935 CMR 500.110(1)(a); and
    c. Respondent permitted Mr. Bouquet to carry out personal cultivation operations at its licensed Premises in violation of G.L. c. 94G, § 7(a)(2).

40. Respondent has cooperated through all investigatory stages of this matter and has corrected the violations alleged in this Agreement and has agreed to take further corrective action as detailed below;

**Stipulated Remedy**

41. In lieu of proceeding with an administrative hearing and subsequent proceedings, Respondent agrees to the stipulated remedies and terms set forth in Paragraphs 42 through 68, inclusive of all subparagraphs;

42. Respondent shall pay a monetary penalty in the amount of **twenty-five thousand dollars ($25,000.00)** by check or money order and made payable to the order of the Cannabis Control Commission Marijuana Regulation Fund;
    a. Payment shall consist of the following installments due and payable in accordance with the following schedule, however Respondent may pay more than the specified amount if they are able:

| Payment | Due Date |
|---|---|
| **$10,000.00** | 60 days after the ratification of this Agreement by the Commission |

| | |
|---|---|
| **$15,000.00** | On or before February 14, 2027 |

b. If Respondent Licensee fails to timely remit any payment due in accordance with this Paragraph, at the option of the Commission with notice to Respondent, the entirety of the balance shall be due and payable within 14 days of said notice;

43. Mr. Bouquet shall pay a monetary penalty in the amount of **five thousand dollars ($5,000.00)** by check or money order and made payable to the order of the Cannabis Control Commission Marijuana Regulation Fund;
    a. Payment shall consist of the following installments due and payable in accordance with the following schedule, however Respondent may pay more than the specified amount if they are able:

| Payment | Due Date |
|---|---|
| **$2,500.00** | 60 days after the ratification of this Agreement by the Commission |
| **$2,500.00** | On or before February 14, 2027 |

    b. If Respondent Licensee fails to timely remit any payment due in accordance with this Paragraph, at the option of the Commission with notice to Respondent, the entirety of the balance shall be due and payable within 14 days of said notice;

44. Payments shall be postmarked on or before the due dates identified in Paragraphs 42.a. and 43.a. and be mailed to the following address:
    a. Via USPS:

Cannabis Control Commission
PO Box 412144
Boston, MA 02241-2144

    b. Via Courier/Overnight:

Bank of America Lockbox Services
Cannabis Control Commission 412144
MA5-527-02-07
2 Morrissey Boulevard
Dorchester, MA 02125

45. Ms. Jean-Baptiste shall donate **three thousand six hundred dollars ($3,600.00)** to the Cannabis Social Equity Trust Fund within 120 days of the ratification of this Agreement in one installment. Ms. Jean-Baptiste shall provide proof to Respondent's assigned lead within 5 days of said donation;
    a. If Ms. Jean-Baptiste fails to timely remit payment to the Cannabis Social Equity Trust Fund in accordance with this Paragraph, at the option of the Commission with notice to Ms. Jean-Baptiste, her Agent Registration shall be suspended indefinitely until the entire balance is remitted to the Cannabis Social Equity Trust Fund.

46. Mr. Bouquet shall donate **three thousand six hundred dollars ($3,600.00)** to the Cannabis Social Equity Trust Fund within 120 days of the ratification of this Agreement in one installment. Mr. Bouquet shall provide proof to Respondent's assigned Investigation within 5 days of said donation;
    a. If Mr. Bouquet fails to timely remit payment to the Cannabis Social Equity Trust Fund in accordance with this Paragraph, at the option of the Commission with notice to Mr. Bouquet, his Agent Registration shall be suspended indefinitely until the entire balance is remitted to the Cannabis Social Equity Trust Fund.

47. Mr. Bouquet's Agent Registration (Agent Registration No. AR299848) shall be suspended for **1-month**, taking effect 14 days from the date of ratification of this Agreement, subject to the conditions below during the course of the suspension:
    a. Mr. Bouquet shall not:
        i. Be present at any of Respondent Licensee's Premises;
        ii. Work or volunteer at any of Respondent's Marijuana Establishments; and
        iii. Conduct any other activity that would otherwise require a valid Agent Registration.

48. Respondent shall include the basement as part of its licensed Premises and comply with all applicable regulatory requirements. At minimum, Respondent must ensure the following, unless otherwise approved by the Commission:
    a. Sufficient camera coverage of the basement entrance to capture individuals entering and exiting;
    b. No Marijuana, Marijuana Product, or alcohol is stored or present in the basement;
    c. There is no consumption of Marijuana, Marijuana Product, or alcohol in the basement; and
    d. No vaults, safes or other apparatus used for securing cash are located in the basement.

49. Within 90 days of the ratification of this Order, Respondent shall hire or promote a person to the position of Compliance Officer for the Respondent and notify the Commission of said person assuming the responsibility;
    a. The Compliance Officer shall have sufficient authority, independence, and resources to ensure ongoing compliance with all applicable laws and regulations;
    b. Respondent may request an extension to the time period for hiring or promoting a person to the position of Compliance Officer as reasonably necessary to find an individual with sufficient qualifications. Approval of this request shall not be unreasonably withheld by the Commission but shall not extend beyond 6 months from the date of ratification of this Order;

50. Respondent shall develop and implement a plan for **Affirmative Relief Training** (the "Training") for all Agents, including Management and Owners, at its Marijuana Establishments;
    a. Respondent's Training shall directly address the reasons for its implementation by educating employees on violations identified in the Order to Show Cause. This includes, but is not limited to:
        i. Massachusetts laws governing personal cultivation;
        ii. Drug- and alcohol-free workplace requirements;
        iii. Age restriction requirements;
        iv. The responsibilities of Agents and their role in maintaining regulatory compliance; and
        v. The authorized activities of a Marijuana Retailer, as defined in 935 CMR 500.002.

51. No later than 60 calendar days after the ratification of this Agreement, Respondent shall submit to the Commission for approval a detailed curriculum of the Training in addition to any and all educational and supplemental materials it intends on using;
    a. Respondent shall submit its Training curriculum and materials via email in the format detailed below:

| | |
|---|---|
| To: | Enforcement@cccmass.com |
| Subject: | Affirmative Relief Training- Request for Approval |
| CC: | Tiixa.Chukwuezi@cccmass.com |
| | Amanda.Molina.Dumas@cccmass.com |
| | Timothy.Barwise@cccmass.com |
| | Armond.Enos@cccmass.com |

    b. If upon Respondent's submission the department rejects its Training curriculum and materials, the Commission will remand the Training for further development articulating the reasons for rejection at which time Respondent will have 14 calendar days to amend and resubmit its Training to the Commission;

52. No later than 30 days after the Commission's approval of the Training, Respondent shall implement, host and record the Training for all Agents at its associated Establishments and shall submit to the Commission a copy of the recorded training;

53. This Agreement may be admissible as evidence in any future hearing before the Commission or used in connection with any future licensure or administrative actions by the Commission;

54. Any issues relating to the underlying complaint and investigation that formed the basis for this Agreement against Respondent, and any defenses that Respondent may have to

such complaint or investigation, shall not be at issue in a proceeding against Respondent for failing to comply with the terms of this Agreement;

55. Respondent agrees that the Commission may consider this Agreement and the facts and circumstances described therein in connection with review of an application for licensure, renewal of licensure, or suitability review;

56. Respondent enters into this Agreement solely for the purposes of settlement. This Agreement shall neither be considered an admission of liability nor a violation of law for any purpose, nor as evidence supporting the allegations of the Commission;

57. By entering into this Agreement, Respondent acknowledges that it has been advised of its right to a hearing and nonetheless wishes to resolve all issues that were the subject of this investigation or in any way related to this investigation and Agreement;

58. If approved by the Commission and upon execution of all Parties, this Agreement shall have the same force and effect as an order entered after a hearing conducted in accordance with G.L. c. 30A pursuant to 935 CMR 500.500(12), except that this Agreement may not be appealed. Failure to comply with the terms of this Agreement, including but not limited to failure to make a timely payment in accordance with Paragraphs 42-43, and 46-47, shall constitute the basis for further administrative action against Respondent;

59. Respondent acknowledges that the Commission advised Respondent of its opportunity to consult with an attorney of its choosing and Respondent represents that it had an opportunity to do so prior to signing this Agreement. Respondent acknowledges that it has been given a reasonable period of time in which to consider the terms of this Agreement before signing it. Respondent acknowledges and confirms that it has entered into this Agreement voluntarily and of its own free will, without duress or coercion, and that it is competent to enter into this Agreement. Respondent acknowledges that it has carefully read and fully understands the meaning and intent of this Agreement;

60. Respondent further understands and knowingly and voluntarily waives the following rights:
    a. The right to proceed with an adjudicatory proceeding;
    b. The right to subpoena and cross-examine witnesses, present evidence and testify on Respondent's own behalf at that adjudicatory proceeding; and
    c. The right to appeal this Agreement;

61. Respondent consents to the terms and conditions described herein and agrees to waive its right to judicial review of this Agreement pursuant to G.L. c. 30A, § 14;

62. Upon execution by all Parties, this Agreement shall represent the entire and final agreement of the Parties. In the event that any provision of this Agreement is deemed unenforceable by a court of competent jurisdiction, such provision shall be severed, and the remainder of this Agreement shall be given full force and effect;

63. This Agreement shall be binding upon Respondent and shall insure to the benefit of the Parties to this Agreement and their respective successors and assignees and shall be construed in accordance with and governed by the laws of the Commonwealth of Massachusetts. Further, in accordance with G.L. c. 94G, § 19, the Commission may record this Agreement, which shall then constitute a debt to the Commonwealth and shall have priority over an encumbrance recorded, registered or filed with respect to any site;

64. Upon ratification of this Agreement by the Commission, this Agreement shall become a permanent part of Respondent's record and shall be open to public inspection and disclosure pursuant to the Commission's standard policies and procedures or applicable law;

65. The Commission may reject the terms of this Agreement or otherwise deny ratification and entry of this Agreement. In such event, the terms of this Agreement shall be null, and void and the Parties may proceed to hearing;

66. This Agreement may be executed by e-mail and any signature delivered by either email or first-class mail shall be deemed to be as valid as an original signature;

67. All costs and expenses incurred by Respondent to comply with this Agreement shall be the sole responsibility of Respondent and shall not in any way be the obligation of the Commission; and

68. For purposes of addressing any future violations of this Agreement, applicable law or regulations shall be construed to include all amendments and revisions to said law or regulations that are in effect at the time of the subsequent violation.

This Agreement is subject to ratification by the Commission. Upon ratification, this Agreement becomes binding on the Parties. Failure to comply with the above conditions shall result in administrative action against Respondent up to and including suspension and/or revocation of licensure or registration.

**IN THE MATTER OF**

**Massbiolytics Corporation**

**Enforcement Case No: ENF-2025-1787**

**License No. IL 281290**

---

## RECOMMENDED DECISION ON MOTION TO DISMISS

This is a recommended decision of the Cannabis Control Commission (Commission) Hearing Officer.

The Hearing Officer **recommends dismissal** of Massbiolytics Corporation's (Respondent) Request for a Hearing on the Commission's December 24, 2025 Order to Show Cause; and **recommends granting** Commission Counsel's Motion to Dismiss.

## I. Authority and Jurisdiction

The Commission has authority to adjudicate license revocation proceedings; and to delegate to a hearing officer the authority to conduct administrative proceedings and to issue a recommended decision for presentment to the Commission for consideration and final action. See M.G.L. c. 94G, § 4(a) (xxiv) and (g) and 935 CMR 500.500.

This matter arises from an Order to Show Cause, dated December 24, 2025, issued under the Commission's regulations. A licensee served with such an action may submit a Request for a Hearing. Failure to timely file a request for a hearing or failure to state the basis of the requested hearing, may result in dismissal of the request. 935 CMR 500.500(4).

A Request for a Hearing must comply with the Commission's procedural requirements, including that the licensee must: 1) identify each issue and fact in dispute, and 2) state its position, identify the pertinent facts to be adduced at the hearing, and state the reasons supporting that position. 935 CMR 500.500(4).

Hearings are also governed by the Standard Adjudicatory Rules, including the requirement that requests for extension of time be made, by motion, before the expiration of the applicable deadline. See 801 CMR 1.00 et seq., 935 CMR 500.500(9)(a)-(c).

## II. Procedural History

On December 24, 2025, Commission Counsel issued an Order to Show Cause seeking revocation of Respondent's Independent Testing Laboratory License (No. IL 281290).

The Order to Show Cause alleges multiple violations (Counts I-X), including allegations relating to accreditation status and notice, testing while lacking valid accreditation, false information, surveillance and security deficiencies, visitor log issues, waste control, corrections plans, sanitation/cleanliness, and competent operation.

On December 30, 2025, Respondent submitted a Request for a Hearing.

On March 26, 2026, the Hearing Officer conducted a Pre-Hearing Conference (PHC). At that PHC, Respondent appeared, without counsel, through its President, Craig Sockol.

At the PHC, Commission Counsel asserted that Respondent's hearing request did not comply with the Commission's pleading requirements as it did not identify each issue in dispute and failed to state a basis for its hearing request with sufficient clarity. Commission Counsel requested that Respondent provide a supplemental response.

On March 27, 2026, the Hearing Officer issued a Tracking Order establishing deadlines agreed to at the PHC; to allow the matter to move forward in an orderly, efficient, and fair way; and also to allow the Respondent additional time to either secure counsel or continue Pro Se. The Tracking Order stipulated: 1) an April 13, 2026 deadline for Respondent's representation decision; and; 2) an April 21, 2026 deadline for Respondent to provide a Supplemental Response.

On April 13, 2026, Respondent notified the Hearing Officer and Commission Counsel that it had retained counsel.

Respondent did not submit a Supplemental Response or file a motion requesting an extension before the April 21, 2026 deadline, set in the Tracking Order.

On April 23, 2026, Respondent's counsel filed a Notice of Appearance.

Per the Tracking Order, a PHC was scheduled for April 23, 2026, and was rescheduled to May 7, 2026, due to the unavailability of the Hearing Officer.

On May 6, 2026, Commission Counsel filed a Motion to Dismiss.

On May 7, 2026, a PHC was held at which Respondent was represented by counsel. Respondent was permitted to file an Opposition to the Commission Counsel's Motion to Dismiss by May 15, 2026.

On May 15, 2026, Respondent filed its opposition and also provided the previously required supplemental response (which it had failed to file by the April 21, 2026 deadline).

## III. Issues Presented

1. Whether Respondent's hearing request should be dismissed due to its failure to timely cure its supplemental response deficiency; and failure to seek an extension prior to the Tracking Order deadline.

2. Whether Respondent's hearing request should be allowed due to the delay being unintentional; the delay being deemed excusable neglect due to Respondent's Pro Se representation; and given that Respondent retained counsel who cured the deficiencies.

## IV. Analysis

The Order to Show Cause indicated that the proceedings for this matter would be conducted under the Informal Hearing Rules. The PHC was conducted in accordance with those regulations. The Hearing Officer takes administrative notice of all papers filed in this matter, as well as M.G.L. c. 94G, Commission Regulations (935 CMR), Adjudicatory Rules (801 CMR) and M.G.L. c. 30A.

A Request for a Hearing must comply with the Commission's procedural requirements. The Hearing Request form states:

> "Part 4: Basis for Hearing. Please: (1) identify each issue and fact in dispute; and (2) state your position with respect to those issues and facts, the pertinent facts to be adduced at the hearing, and the reasons supporting your position. If necessary, you may attach additional pages to complete this response. The failure to state the basis for of the hearing request will result in dismissal of the challenge to the findings set forth in the notice of violation(s) or action(s)."

A hearing request must comply with the Commission's procedural requirements so the parties can define the scope of adjudication and manage the proceedings efficiently.

1. **Respondent's Initial Hearing Request.**

The Commission's regulations require that a hearing request specifically identify each issue and fact in dispute, state the licensee's position, identify the pertinent facts to be adduced at hearing, and state the reasons supporting that position.

Respondent filed a Request for a Hearing within the required period. However, as raised by Commission Counsel at the March 26, 2026 PHC, the hearing request did not adequately perform the required framing function. In particular, it did not clearly identify (for each count) the specific facts and issues Respondent disputed; or the basis for Respondent's position, sufficient to define the scope of adjudication.

Consistent with efficient case management and fairness, Respondent was afforded an opportunity to cure these deficiencies through a supplemental response, under the Tracking Order. The Respondent failed to meet the deadline for the supplemental response and did not file a motion seeking extension of the deadline.

Therefore, the Hearing Officer finds that despite Respondent being afforded an opportunity to cure, Respondent's failure to comply with the Tracking Order and failure to seek an extension, are sufficient grounds to justify dismissal of Respondent's Request for a Hearing.

**2. Tracking Order Deadline**

Where a party misses a clear deadline and fails to request relief through the established procedures before the deadline expires, dismissal is an available consequence.

On March 27, 2026, the Hearing Officer issued a Tracking Order requiring Respondent to submit a supplemental response by April 21, 2026. The Tracking Order outlined clear expectations.

Respondent did not submit the supplemental response by April 21, 2026. Respondent also did not move for an extension before the deadline expired, as required by the rules. Respondent ultimately filed the supplemental response on May 15, 2026, approximately 24 days after the Tracking Order deadline.

Therefore, the Hearing Officer finds dismissal of the Respondent's Request for a Hearing is warranted because Respondent failed to comply with the established Commission procedures, despite being afforded additional time to do so.

**3. Respondent's Pro Se Status / Excusable Neglect**

The courts in this Commonwealth have held that, "the rules bind a pro se litigant as they bind other litigants." Mmoe v. Commonwealth, 393 Mass. 617, 620 (1985), citing Kornatowski v. Family Mut. Sav. Bank, 388 Mass. 1011 (1983), International Fidelity Ins. Co. v. Wilson, 387 Mass. 841, 847 (1983).

Respondent argues that it lacked the legal knowledge, while Pro Se, and did not understand the consequences of missing the supplemental response deadline. While some deference is given to unrepresented parties, their Pro Se status does not exempt the Respondent from compliance with clear, case-specific orders and deadlines.

Here, the deficiency was explicitly raised during the March 26, 2026 PHC. Further, the March 27, 2026 Tracking Order was issued with an explicit cure deadline of April 21, 2026.

Respondent also contends that the late filing was not intentional or in bad faith, counsel acted diligently upon entering the case, and the Commission suffered no prejudice.

On this record, the Hearing Officer does not find sufficient grounds to excuse the missed April 21, 2026 deadline. Respondent retained counsel on April 13, 2026, but counsel did not file a notice of appearance until April 23, 2026. Further, no motion to extend was filed before the April 21 deadline, and the supplemental response was not submitted until May 15, 2026, well after the established deadline.

Commission Counsel contends that a delay in a matter alleging serious compliance failures implicates the agency's public-interest mandate, as the role of an Independent Testing Laboratory in the cannabis industry is to certify that marijuana and marijuana products are safe for consumption. Regardless of whether conventional litigation prejudice is demonstrated, the Commission has a substantial regulatory interest in the timely resolution of allegations concerning the operations of an independent testing laboratory.

Therefore, the Hearing Officer finds the Commission Counsel's public-interest argument compelling and does not find excusable neglect on this record, sufficient to excuse Respondent missing the April 21, 2026, deadline.

## 4. Requested Relief

The Commission Counsel requests this Hearing Officer to find that:

1) Respondent failed to state the basis of its request as required;

2) Said failure warrants dismissal of its hearing request to the December 24, 2025 Order to Show Cause; and

3) It should be recommended to the Commission that Respondent's Independent Testing Laboratory license be revoked.

The Hearing Officer finds there is sufficient evidence in the record to grant the relief requested by the Commission Counsel.

## 5. Conclusion

Allowing the Motion to Dismiss results in dismissal of Respondent's hearing request. In that procedural posture, Respondent has not preserved the right to an adjudicatory hearing on the merits of the December 24, 2025 Order to Show Cause; and the Commission may proceed to consider final agency action on the underlying enforcement matter.

Accordingly, dismissal is warranted because Respondent was given notice of the pleading deficiency, a meaningful opportunity to cure it, and a clear deadline for doing so; yet failed to submit a timely cure or seek a timely extension.

Therefore, the Hearing Officer **recommends dismissal** of Respondent's request for a Hearing on the Commission's December 24, 2025 Order to Show Cause; and **recommends granting** Commission Counsel's Motion to Dismiss.

### 6. Recommended Order

The Hearing Officer recommends that:

1) The Cannabis Control Commission's Motion to Dismiss, filed May 6, 2026 be ALLOWED.

2) Respondent's Request for a Hearing based on the December 24, 2025 Order to Show Cause be DISMISSED.

3) The Respondent's Independent Testing Laboratory License (No. IL 281290) be REVOKED.

Enforcement Case No. ENF-2025-1787)

License No.: IL281290

**RESPONDENT MASSBIOLYTICS CORPORATION'S OBJECTION/ARGUMENT TO HEARING OFFICER'S RECOMMENDED DECISION ON MOTION TO DISMISS**

Now comes Craig Sockol, on behalf of Massbiolytics (Respondent) and hereby respectfully objects to Hearing Officer's Recommended Decision on the Motion to Dismiss. In support of this objection, the Respondent states as follows:

## I. FACTS

a. On or about December 24, 2025, the Commission issued the Order to Respondent, seeking to revoke its license based on a lack of responsible operation and violations.
b. On or about December 30, 2025, Respondent submitted a hearing request to the Commission.
c. During the prehearing conference on March 26, 2026, the Commission requested that Respondent provide a supplemental response to the Order consistent with the requirements of 935 CMR 500.500(4)(a).
d. Respondent requested that the Hearing Officer provide additional time to decide whether it wished to retain counsel.

e. On March 27, 2026, the Hearing Officer issued a Tracking Order addressing the requests, granting Respondent until April 13, 2026, to decide whether to retain counsel and April 21, 2026, to submit a supplemental response.
f. On April 23, 2026, Respondent's counsel submitted a Notice of Appearance.
g. A Pre Hearing Conference was scheduled for April 23, 2026, however there was a scheduling error on the Hearing Officer's calendar and the matter was rescheduled to May 07, 2026.
h. Per the email exchanges on April 23, 2026, Counsel for the Respondent informed the Hearing Officer and Commission that he was looking to discuss an extension of the supplemental response.
i. On May 06, 2026, Commission Counsel filed a Motion to Dismiss.
j. On May 07, 2026, a Pre Hearing Conference was held at which Respondent was represented by Counsel. Respondent was permitted to file an Opposition to the Commission Counsel's Motion to Dismiss by May 15, 2026.
k. On May 15, 2026, Respondent filed a supplemental response to its Answer as well as an opposition to Commission Counsel filed a Motion to Dismiss.
l. O June 02, 2026, the Hearing Officer issued the following recommended decision to the Commission:
    i. The Cannabis Control Commission's Motion to Dismiss, filed May 06, 2026 be ALLOWED.
    ii. Respondent's Request for a Hearing based on the December 24, 2025 Order to Show Cause be DISMISSED.
    iii. Respondent's Independent Testing Laboratory License be REVOKED.

## II. ARGUMENT

On March 26, 2026, the Commission requested that Respondent submit a supplemental answer as its answer insufficiently stated the basis for the challenge as required by regulation. The Commission agreed to allow until April 21, 2026, for Respondent to submit its supplemental answer. The Respondent failed to meet the deadline of April 21, 2026.

**Respondent's failure to meet the supplemental filing deadline constitutes excusable neglect.**

The Respondent timely filed its initial request for a hearing and actively participated in the administrative process. During the first hearing, when the Respondent was pro se he lacked the legal knowledge necessary to understand the procedural requirements and consequences associated with the supplemental filing deadline. The only procedural deficiency at issue concerns the timing of the supplemental response requested by the Commission. Respondent's failure was not intentional, strategic or undertaken in bad faith.

The Hearing Officer concluded that a dismissal was warranted because Respondent was "given notice of the pleading deficiency, a meaningful opportunity to cure it, and a clear deadline for doing so; yet failed to submit a timely cure or seek a timely extension."

Respondent did not intentionally disregard the Hearing Officer's order or seek a tactical advantage. Upon retaining Counsel, Counsel acted diligently upon entering the matter. On April 23, 2026, Counsel filed an Appearance and was prepared to appear for the pre-hearing conference scheduled for that day. Due to a scheduling conflict, the pre-hearing conference was rescheduled. On this date, Counsel was prepared to discuss the supplemental response.

Courts and administrators recognize that procedural defaults occurring while a Party is unrepresented may constitute excusable neglect, especially where the Party acts promptly to cure the deficiency after obtaining Counsel.

Since Counsel has been involved, Counsel has been in communication with the CCC and the Hearing Officer and appeared for a pre-hearing conference on May 07, 2026. The Respondent represented that he would prepare a supplemental response by May 15, 2026. Today, May 15, 2026, the Respondent provided the supplemental response to the CCC.

Furthermore, the Hearing Officer allowed Respondent to file an opposition and supplemental response on May 15, 2026. The permitting and accepting of these filings clearly indicate that the matter was still being actively litigated and the late filing should be considered rather than

disregarded. These circumstances demonstrate excusable neglect on behalf of the Respondent not willful noncompliance.

**The CCC is not faced with any harm or prejudice caused by the delay.**

The Commission has not identified any actual prejudice resulting from the delayed supplemental response. Respondent timely requested a hearing in December of 2025, which placed the CCC on notice that the Respondent was contesting any facts/issues with the CCC's findings. The supplemental response was then filed in accordance with the allotted additional time awarded to the Respondent. As the CCC has failed to show how it has been or how it would be prejudiced, dismissal is not warranted.

**Dismissal and a Revocation of Laboratory License are Extreme Remedies**.

The recommended decision effectively imposes a severe sanction- revocation of the Respondent's laboratory license, which is based solely upon a procedural default. The Respondent has not had repeated violations against it or intentionally disregarded orders. The Respondent has a meritorious defense in this matter. Should the CCC's Motion remain granted and a revocation of laboratory license remain, the Respondent will suffer substantial prejudice.

The management of Massbiolytics has extensive knowledge and experience in owning, running, and complying with lab regulations. Massbiolytics began as a cannabis company in 2019. Between 2019 and 2025, the CCC has continuously renewed the license of Massbiolytics as an ITL. Massbiolystics has continued to provide excellent lab testing service to the license Massachusetts Cannabis cultivators and manufacturers. Massbiolytics has remained in compliance with the CCC with the exception of the deficiencies at the heart of this matter that have been cured and corrected.

A suspension of a highly competitive cannabis lab service business results in an immediate loss of all customers, elimination of payments for lab service, a loss of all employees and

destruction of the business. There will be no recovery of this business post suspension. A license suspension at this stage would result in the same devastation as a permanent license revocation.

## III. CONCLUSION

For the foregoing reasons, Respondent respectfully requests that the Commission reject the Hearing Officer's Recommended Decision, deny the Motion to Dismiss, accept Respondent's supplemental response, reinstate Respondent's hearing request and allow this matte to proceed to adjudication on the merits.

Dated: June 23, 2026

Respectfully submitted,
Massbiolystics/Craig Sockol

**COMMONWEALTH OF MASSACHUSETTS**

**WORCESTER COUNTY** **CANNABIS CONTROL COMMISSION**

**IN THE MATTER OF**

**Massbiolytics Corporation**

(Enforcement Case No. ENF- 2025-1787)

**License No. IL281290**

**CANNABIS CONTROL COMMISSION'S ARGUMENT IN SUPPORT OF THE HEARING OFFICER'S RECOMMENDED DECISION**

Pursuant to 935 CMR 500.500(11)(c), the Cannabis Control Commission (the "Commission") hereby submits the foregoing argument in support of the Hearing Officer recommended decision in the above-captioned enforcement matter against Massbiolytics Corporation ("Respondent" or "Massbio") to allow the Commission's Motion to Dismiss Respondent's Challenge to the Order to Show Cause ("Order") issued on December 24, 2025, and either affirm and adopt the recommended penalty to revoke License No. IL281290, or elect to amend and modify the decision to impose a lesser penalty of suspension in accordance with 935 CMR 500.500(12)(a).

## I. PROCEDURAL HISTORY

1. On December 24, 2025, the Commission issued the Order to Respondent, an Independent Testing Laboratory, seeking to revoke License No. IL281290 based on a lack of responsible operation among other violations;
2. In accordance with 935 CMR 500.500(4), Respondent had 30 days, or until January 23, 2026, to submit a hearing request identifying each issue and fact in dispute, stating the

position of the Licensee, the pertinent facts to be adduced at the hearing, and the reasons supporting that position;

3. On December 30, 2025, Respondent submitted a hearing request to the Commission, however, the request failed to specifically identify each issue in fact in dispute and state a basis for its challenge, rendering the submission incomplete;
4. During the initial prehearing conference on March 26, 2026, the Commission requested that Respondent provide a supplemental response to the Order consistent with the requirements of 935 CMR 500.500(4)(a), and Respondent requested additional time to decide whether it would retain counsel to handle the matter moving forward;
5. During the prehearing conference, the Hearing Officer made clear the expectation related to the submission of a supplemental response in accordance with the agreed upon timeline, whether or not Respondent ultimately retained counsel by the agreed upon deadline of April 13, 2026;
6. On March 27, 2026, the Hearing Officer issued a Tracking Order addressing the requests, granting Respondent until April 21, 2026, to submit a supplemental response;
7. On April 13, 2026, Respondent sent an email stating it had retained counsel to handle the matter moving forward and provided contact information for the attorney;
8. On April 17, 2026, in accordance with the deadlines set by the Tracking Order, the Commission served its discovery requests on Respondent;
9. On April 21, 2026, Respondent did not submit, nor did the Commission receive, a supplemental answer consistent with the deadline set by the Tracking Order;
10. On April 23, 2026, two days after the agreed upon extension, and only after the Commission raised the issue to the Hearing Officer while discussing rescheduling of the prehearing conference initially scheduled for the same day, Respondent requested an additional extension to provide a supplemental answer;
11. On May 6, 2026, the Commission filed a Motion to Dismiss Respondent's Challenge to the Order based on Respondent's failure to submit a supplemental response in accordance with the Tracking Order and therefore failing to submit a hearing request complying with the requirements of 935 CMR 500.500(4)(b);

12. Following the prehearing conference on May 7, 2026, the Hearing Officer issued an Amended Tracking Order, including deadlines for Respondent to submit an opposition to the Commission's Motion;
13. On May 15, 2026, Respondent ultimately submitted its supplemental response to the Order, as well as its opposition to the Commission's Motion for Dismissal of Respondent's Challenge;
14. On May 29, 2026, the Commission voluntarily provided its discovery to Respondent in anticipation of the June 1, 2026, discovery deadline set in the Tracking Orders, as the Commission had yet to receive any request from Respondent;
15. On June 1, 2026, Respondent provided the Commission with voluntary discovery, however, did not respond to the interrogatories and specific requests for documentation previously served on Respondent via email on Apri l7, 2026;
16. On June 2, 2026, the Hearing Officer issued a decision granting the motion to dismiss Respondent's challenge and recommended to the Commission revocation of the ITL license;
17. On June 23, 2026, Respondent submitted its Objections to the Hearing Officer Recommended Decision granting the Commission's Motion to Dismiss Respondent's Challenge.

## II. ARGUMENT

In accordance with 935 CMR 500.500(2), a Licensee must be afforded a hearing on any adverse action taken pursuant to 935 CMR 500.370 or 935 CMR 500.450.[1] To exercise its right, a Licensee must submit its hearing request in a form and manner determined by the Commission, which includes specifically identifying each issue and fact in dispute and state the position of the Licensee, the pertinent facts to be adduced at the hearing, and the reasons supporting that position.[2] Pursuant to 935 CMR 500.500(4)(b), the failure to timely file a request *or* to state the basis of the hearing request will result in dismissal of the challenge to the findings set forth in the

[1] *See* 935 CMR 500.500(2).
[2] *See* 935 CMR 500.500(4)(a).

Order. Where a Licensee has waived its right to a hearing by failing to submit a request in the form and manner outlined under the regulations, the Hearing Officer has authority to assume the truth of the allegations set forth in the Order and recommend to the Commission the disciplinary action(s) or sanction(s) to be imposed against the Licensee based on the written record alone.[3] Thereafter, the Hearing Officer recommendation is brought before the Board for consideration and may be affirmed, adopted, modified, amended or reversed.[4]

Here, Respondent submitted its initial hearing request on December 30, 2025, however, this request failed to specifically identify each fact in dispute, the pertinent facts to be adduced at a hearing and state the position of Respondent. At the time of the Commission's request for a supplemental response, the Hearing Officer advised Respondent of the nature of the action and the expectation that, if a supplemental response would be submitted by the agreed upon deadline of April 21, 2026. As a result, allowing Respondent until April 21, 2026, to submit an adequate hearing request served as an extension of the timeframe allotted in accordance with 935 CMR 500.500(4), which otherwise expired on January 23, 2026. Respondent's failure to submit a supplemental hearing request at any time prior to May 15, 2026,[5] is necessarily considered untimely and therefore warrants the dismissal of Respondent's challenge to the findings set forth in the Order pursuant to 935 CMR 500.500(4)(b).

Due to Respondent's default related to its failure to submit a timely hearing request, the Hearing Officer has assumed the truth of the allegations set forth in the Order, recommending revocation of Respondent's ITL license pursuant to the authority granted under 935 CMR 500.500(6)(b). Due to the nature of the allegations, Respondent's failure to submit a timely

[3] *See* 935 CMR 500.500(6)(a) & (b).
[4] See 935 CMR 500.500(12)(a).
[5] Of note, the Supplemental Response and hearing request submitted by Respondent on May 15, 2026, does not substantively differ from the initial hearing request.

request or otherwise articulate a legitimate basis to challenge the Order, the Commission should issue a Final Decision which adopts in full, or in part, the recommended decision of the Hearing Officer.

## III. REQUESTED RELIEF

Based on the aforementioned, the Commission respectfully requests that in accordance with 935 CMR 500.500(12)(a), the Board: (1) affirm the Hearing Officer recommended decision to grant the Commission's Motion to Dismiss Respondent's Challenge to the Order and assume the truth of the allegations set forth in the Order issued on December 24, 2025; and (2) render a Final Decision in the matter by affirming the Hearing Officer's recommendation to revoke Respondent's ITL license based on a lack of responsible operation. In the alternative, if the Board is inclined to modify, amend, or reverse the Hearing Officer's recommended decision, Enforcement requests consideration of a lesser penalty, such as the imposition of a suspension.

**COMMONWEALTH OF MASSACHUSETTS**

**WORCESTER COUNTY** **CANNABIS CONTROL COMMISSION**

**IN THE MATTER OF**

**Massbiolytics Corporation**

**License No. IL281290**

(Enforcement Case No. ENF- 2025-1787)

**CANNABIS CONTROL COMMISSION'S MOTION FOR DISSMISSAL OF RESPONDENT'S CHALLENGE**

Pursuant to 935 CMR 500.500(4)(b) and 801 CMR 1.02(7)(c), the Cannabis Control Commission (the "Commission") hereby requests the dismissal of Massbiolytics Corporation's ("Respondent" or "Massbio") challenge to the findings set forth in the Order to Show Cause ("Order") issued in the above-captioned matter on December 24, 2025.

## I. RELEVANT FACTS

1. On December 24, 2025, the Commission issued the Order to Respondent, an Independent Testing Laboratory, seeking to revoke License No. IL281290 based on a lack of responsible operation among other violations. *See* Exhibit A, Order to Show Cause;
2. In accordance with 935 CMR 500.500(4), Respondent had 30 days, or until January 23, 2026, to submit a hearing request identifying each issue and fact in dispute, stating the position of the Licensee, the pertinent facts to be adduced at the hearing, and the reasons supporting that position;
3. On December 30, 2025, Respondent submitted a hearing request to the Commission, however, the request failed to specifically identify each issue in fact in dispute and state a

basis for its challenge, rendering the submission incomplete. *See* Exhibit B, Massbio's Hearing Request Form; *see also* Exhibit C, Massbio's Response to Enforcement Action;

4. During the initial prehearing conference on March 26, 2026, the Commission requested that Respondent provide a supplemental response to the Order consistent with the requirements of 935 CMR 500.500(4)(a);
5. Respondent requested that the Hearing Officer provide additional time to decide whether it wished to retain counsel;
6. On March 27, 2026, the Hearing Officer issued a Tracking Order addressing the requests, granting Respondent until April 13, 2026, to decide whether to retain counsel and April 21, 2026, to submit a supplemental response. *See* Exhibit D, Tracking Order;
7. On April 13, 2026, Respondent notified the Commission and Hearing Officer that it had retained counsel in the matter but did not provide a Notice of Appearance. *See* Exhibit E, Emails between Parties 4.13.26-4.23.26, 3-4;
8. On April 21, 2026, Respondent did not submit nor did the Commission receive a supplemental answer consistent with the deadline set by the Tracking Order;
9. On April 23, 2026, Respondent's counsel submitted a Notice of Appearance. *See* Exhibit F, Notice of Appearance;
10. During an email exchange discussing potential dates for purposes of rescheduling the prehearing conference initially set by Tracking Order for April 23, Respondent's counsel stated it intended to discuss the submission of a supplemental answer at the prehearing conference. *See* Exhibit E at 1-2;
11. On April 27, 2026, the Hearing Officer notified the Parties that the prehearing conference would be rescheduled to May 7, 2026;

12. As of May 6, 2026, the Commission has not received a hearing request from Respondent compliant with the requirements of 935 CMR 500.500(4)(a).

## II. DISCUSSION

Failure to timely file a request for a hearing or to state the basis of the hearing request results in dismissal of the challenge to the findings set forth in the notice of violation(s) or action(s). 935 CMR 500.500(4)(b). All requests for extensions of time shall be made by motion before the expiration of the original or next previous extended time period. 801 CMR 1.02(4).

On March 26, 2026, the Commission requested that Respondent submit a supplemental answer as its initial hearing request and answer insufficiently stated the basis for the challenge as required by regulation. *See* 935 CMR 500.500(4)(a). In the spirit of fairness, on account of Respondent appearing *pro se*, the Commission agreed to allow until April 21, 2026, for Respondent to submit its supplemental answer. The Hearing Officer established this deadline in his Tracking Order on March 27, 2026.[1] At the prehearing conference, the Hearing Officer also reiterated to Respondent that it would be expected to file the supplemental answer by the extended deadline whether or not it ultimately decided to retain counsel. Even though this expectation was made explicit, Respondent did not submit a supplemental answer on April 21, 2026, and further, only addressed its failure to do so after the Commission identified that the supplemental response had not been submitted in an email exchange on April 23, 2026—two days *after* the due date in accordance with the Tracking Order.[2] As a result, not only did

[1] The Tracking Order deadline of April 21, 2026, provided Respondent a total of 26 days to submit a supplemental response. This timeline provided Respondent 18 days following the prehearing conference to decide whether to retain counsel, with an additional seven days thereafter to submit a supplemental response. Of note, this means Respondent had been granted 88 additional days to respond to the action *after* the initial January 23, 2026, hearing request deadline.

[2] In an email exchange between Parties related to rescheduling the April 23, 2026, prehearing conference, the Commission provided its availability and noted for the record that a supplemental answer had not been received. In response, Respondent's counsel stated he sought to discuss this during the prehearing conference.

Respondent fail to submit a supplemental answer, but also failed to submit a timely request for an extension.[3] *See supra* 801 CMR 1.02(4).

Giving Respondent any additional time to submit a supplemental answer prejudices the Commission's ability to preserve public health, safety, and welfare by unnecessarily delaying resolution of this matter. In the time since the Commission issued the Order, Respondent has continued operations as a licensed ITL, conducting and reporting test results to its clients, including both Marijuana and Medical Marijuana Establishments. The Commission's allegation is that Respondent is and has been operating irresponsibly since at least October 2023, with several historical violations[4] that have yet to be rectified through the Plan of Correction process including, but not limited to, resolving meeting minimum security requirements, conducting monthly and annual security audits, and resolving marijuana waste violations. Consistent with the process outlined for Plans of Correction this violation, Count 8 in the Order, in and of itself constitutes full and adequate grounds for revocation. *See* 935 CMR 500.320; *see also* 935 CMR 500.450(4).

The nature and seriousness of the violations alleged in the Order are significant. The role of ITLs in this industry is to certify that Marijuana and Marijuana Products are safe for consumption. Based on Respondent's historical operation, the Commission is not confident that

[3] The Commission acknowledges that counsel for Respondent has only had this matter since April 13, 2026, and may have not been informed by its client that a supplemental answer was due on April 21, 2026. Nevertheless, following the first prehearing conference on March 26, 2026, Respondent was given 18 days to inform all parties whether it had decided to retain counsel and 26 days to provide a supplemental response. Even after retaining counsel on April 13, 2026, Respondent had ample time to request an extension but chose to wait to bring up the issue until April 23, 2026, two days after the supplemental response was due. These circumstances are entirely of Respondent's own creation in what appears to be an attempt to create delay in this matter. In fact, even if no extension is granted, Respondent has created a 16-day delay. Lastly, Respondent could have submitted a supplemental answer at any point in time since counsel was retained, yet has not, instead choosing to wait to discuss at a prehearing conference.

[4] Many of which Respondent has all but of admitted to in his initial answer on December 30, 2025. *See* Exhibit C, Massbiolytics' Response to Enforcement Action.

Respondent is effectively serving in its licensed capacity. Respondent has already been afforded a courtesy extension of 26 days by the Hearing Officer to provide a sufficient answer—more than 100 days since its initial answer was due. Any further extension unjustifiably allows Respondent to continue to operate and prejudices the Commission in its ability to enforce compliance.

Since the Commission has not received a supplemental answer, nor did Respondent submit a timely request for an extension of the deadline, Respondent has failed to sufficiently state the basis of its request for a hearing in a timely manner consistent with 935 CMR 500.500(4)(a).

## III. REQUESTED RELIEF

Based on the aforementioned and to prevent any further delay which may pose a threat to public health, safety, and welfare, the Commission respectfully requests that in accordance with 935 CMR 500.500(4)(b) the Hearing Officer take the following action: 1) find that Respondent failed to state the basis of its request; 2) Respondent's failure results in the dismissal of its challenge to the findings set forth in the Order issued on December 24, 2025; and 3) recommend to the Commission that Respondent's license be revoked.

**WORCESTER COUNTY**

**CANNABIS CONTROL COMMISSION**

IN THE MATTER OF

Massbiolytics Corporation

Enforcement Case No. ENF-2025-1787)

License No.: IL281290

**RESPONDENT MASSBIOLYTICS CORPORATION'S OPPOSITION TO THE CANNABIS CONTROL COMMISSION'S MOTION FOR DISMISSAL OF RESPONDENT'S CHALLENGE**

Now comes Craig Sockol, on behalf of Massbiolytics (Respondent) and hereby respectfully opposes the Cannabis Control Commission's Motion for Dismissal of Respondent's Challenge.

## I. FACTS

a. On or about December 24, 2025, the Commission issued the Order to Respondent, seeking to revoke its license based on a lack of responsible operation and violations.
b. On or about December 30, 2025, Respondent submitted a hearing request to the Commission.
c. During the prehearing conference on March 26, 2026, the Commission requested that Respondent provide a supplemental response to the Order consistent with the requirements of 935 CMR 500.500(4)(a).
d. Respondent requested that the Hearing Officer provide additional time to decide whether it wished to retain counsel.

e. On March 27, 2026, the Hearing Officer issued a Tracking Order addressing the requests, granting Respondent until April 13, 2026, to decide whether to retain counsel and April 21, 2026, to submit a supplemental response.
f. On April 23, 2026, Respondent's counsel submitted a Notice of Appearance.

## II. ARGUMENT

On March 26, 2026, the Commission requested that Respondent submit a supplemental answer as its answer insufficiently stated the basis for the challenge as required by regulation. The Commission agreed to allow until April 21, 2026, for Respondent to submit its supplemental answer. The Respondent failed to meet the deadline of April 21, 2026.

**Respondent's failure was not intentional, strategic or undertaken in bad faith**.

The Respondent filed the initial challenge on time and in good faith. During the first hearing, when the Respondent was pro se he lacked the legal knowledge necessary to understand the procedural requirements and consequences associated with the supplemental filing deadline.

Upon retaining Counsel, Counsel acted diligently upon entering the matter. On April 23, 2026, Counsel filed an Appearance and was prepared to appear for the pre-hearing conference scheduled for that day. Due to a scheduling conflict, the pre-hearing conference was rescheduled. On this date, Counsel was prepared to discuss the supplemental response.

Courts and administrators recognize that procedural defaults occurring while a Party is unrepresented may constitute excusable neglect, especially where the Party acts promptly to cure the deficiency after obtaining Counsel.

Since Counsel has been involved, Counsel has been in communication with the CCC and the Hearing Officer and appeared for a pre-hearing conference on May 07, 2026. The Respondent represented that he would prepare a supplemental response by May 15, 2026. Today, May 15, 2026, the Respondent provided the supplemental response to the CCC.

The CCC is not faced with any harm or prejudice caused by the delay. A delay would be insufficient to justify the dismissal of Respondent's challenge.

**Dismissal is an Extreme Remedy**.

The Respondent has a meritorious defense in this matter. If the CCC's Motion is granted, the Respondent will suffer substantial prejudice as he will be deprived of the opportunity to present a sufficient challenge.

## III. CONCLUSION

Based on the above reasons, the CCC's Motion for Dismissal of Respondent's Challenge shall be **dismissed**.

Dated: May 15, 2026

Respectfully submitted,
Massbiolystics/Craig Sockol

License No. IL281290

**Case No. ENF-2025-0000001787**

**ORDER TO SHOW CAUSE**
**Revocation of License**
**G.L. c. 94G, § 4(a)(xi) and (a½)(xi);**
**935 CMR § 500.370**

Pursuant to its authority under M.G.L. c. 94G, §§ 4(a)(xi) and (a½)(xi) and 935 CMR 500.000, the Commonwealth of Massachusetts Cannabis Control Commission ("Commission"), acting through its Executive Director, now orders Massbiolytics Corporation (hereinafter, "Massbiolytics" or "Respondent"), an Independent Testing Laboratory, to show cause as to why Respondent's License, License No. IL281290 ("Licensee"), should not be **revoked**.

The Commission issues this Order on account of Respondent's gross lack of responsible operations through a pattern of ongoing regulatory noncompliance and general disregard for Massachusetts' cannabis laws. The totality of Respondent's actions has diminished the Commission's confidence in its ability and desire to operate safely and responsibly within the industry, particularly as an Independent Testing Laboratory responsible for carrying out compliance testing of Marijuana and Marijuana Products sold to the public.

## I. STATUTORY AND REGULATORY AUTHORITY

1. The Commission is charged with the administration and enforcement of laws regulating and licensing Marijuana Establishments and maintains jurisdiction over the conduct of licensed entities including their compliance with the Commonwealth's Marijuana laws, M.G.L. c. 94G and 935 CMR 500.000 *et seq*. M.G.L. c. 94G, §§ 4(a), (a½) and 15(a)(1);

2. An Independent Testing Laboratory is a Marijuana Establishment as defined by M.G.L. c. 94G, § 1 and 935 CMR 500.002;

3. The Commission possesses all powers necessary or convenient to carry out and effectuate its purposes including, but not limited to, the power to revoke or suspend a license. *See* M.G.L. c. 94G, § 4(a)(xi);

4. The Commission also has the power to promulgate regulations and to adopt, amend, or repeal regulations for the implementation, administration, and enforcement of G.L. c. 94G. *See* G.L. c. 94G, § 4(a)(xxiv), (xxviii);

5. In accordance with M.G.L. c. 94G, §§ 4(a½) and 15(a)(1), the Commission has adopted regulations for the administration, licensing, and oversight of Marijuana Establishments, including Independent Testing Laboratories, which include a process for the revocation of a License and grounds for the suspension or revocation of a License or registration. *See* 935 CMR 500.370; *see also* 935 CMR 500.450;

6. If, after investigation, the Commission or a Commission Delegee determines that there are grounds to suspend or revoke a License or registration, [the Commission] may also issue an Order to Show Cause why the Licensee [sic] or registration should not be suspended or revoked. 935 CMR 500.370(1);

7. The Commission or a Commission Delegee shall send written notice of the action taken against a Licensee or Registrant and the basis for that action which shall include…the Commission's statutory and regulatory authority…factual basis(es) of the order…alleged violations of law…restrictions on operations, if any…potential for further disciplinary action(s), sanction(s) or fine(s); and the right to a hearing, if any. *See* 935 CMR 500.370(2);

8. The Commission or a Commission Delegee may modify, amend or rescind an order issued pursuant to 935 CMR 500.370 on condition(s) just [sic] to all parties;

## II. FACTUAL ALLEGATIONS

9. Respondent is a licensed Independent Testing Laboratory, License No. IL281290;

10. On November 18, 2021, the Commission granted Respondent a final license to operate an Independent Testing Laboratory, which commenced operations on March 21, 2022;

11. Respondent Independent Testing Laboratory is located at 20 Commercial Drive, Suite 2001, Dracut, Massachusetts 01826;

12. According to Commission records, Massbiolytics has one listed Owner, Craig Sockol ("Mr. Sockol"), who holds 100% ownership and control of the license;

13. On December 19, 2019, prior to final licensure, Respondent Independent Testing Laboratory obtained initial International Organization for Standardization (ISO) 17025 accreditation from Perry Johnson Laboratory Association, Inc. (PJLA);

14. On October 20, 2021, PJLA issued Respondent Certificate No. L21-622-R1, demonstrating ISO/IEC 17025:2017 accreditation valid through February 28, 2024;

15. On March 8, 2023, PJLA notified Respondent that its failure to address an outstanding balance owed to PJLA within 15 days would result in the suspension of Massbiolytics ISO accreditation and could ultimately lead to withdrawal of Certificate L21-622-R1;

16. Respondent did not address the outstanding balance owed to PJLA within 15 days, and did not contact PJLA to resolve the non-payment issue until October 3, 2023;

17. On April 26, 2023, PJLA sent Respondent a Notice of Suspension stating its ISO accreditation had been suspended and that Respondent may dispute or appeal the suspension within 15 days to avoid risking withdrawal of Certificate L21-622-R1;

18. In the suspension notice, PJLA instructed Respondent to immediately refrain from the following throughout the suspension period to avoid mismarketing accreditation to the public:

    a. Utilizing all certificates issued by PJLA along with any marketing material such as banners, flags and plaques immediately;
    b. Issuing any accredited reports or distributing marketing material reflecting ISO/IEC 17025:2017/Option A/Testing accreditation with PJLA's logo.

19. PJLA further instructed Respondent to "remove all references to accreditation on company website within 7 days from the date of this letter" and "notify all pertinent customers relying on your accreditation of your status change within 7 days from the date of this letter";

20. On June 29, 2023, after Respondent failed to take action following the suspension notice, PJLA withdrew Massbiolytics' accreditation Certificate L21-622-R1;

21. On or around October 2, 2023, the Commission, through its Investigations and Enforcement department ("the department") checked the status of Respondent's ISO accreditation online through PJLA's website, which indicated Massbiolytics' accreditation to be inactive at this time;

22. The following day, on October 3, 2023, Investigators conducted an unannounced inspection of Massbiolytics' laboratory, which included an assessment of Respondent's inventory, waste management, security, operational procedures, and quality management systems;

23. During the unannounced inspection, Investigators observed Respondent laboratory to be in a general state of disarray and in unsanitary condition with open tubes containing samples of Marijuana and microbials strewn across various work benches and across the floor, tabletops covered by a layer of dust, debris, and sticky Marijuana residue, as well as a dead insect located on one of the workspaces;

24. Investigators also observed the following deficiencies:

a. The entrance to the Respondent laboratory, which is connected to a shared-tenant, publicly accessible hallway, remained unlocked throughout the workday;
b. Expired reagent labels were present on various reagent containers throughout the laboratory on the work benches;
c. The Respondent could not produce personnel records for 2021 through 2023;
d. An on-site scale used for weighing Marijuana test samples had an expired inspection sticker with an expiration of July 2022;
e. The Respondent did not have a separate storage area for quarantined and damaged products, and could not locate and identify specific samples on request;
f. the Respondent failed to maintain its Visitor logs from July 2023 through the present;
g. There was a blind spot identified in Respondent's interior surveillance, preventing a large portion of the laboratory, including a workstation from being captured by current camera coverage; and
h. The Respondent could not produce surveillance records for the previous 90 calendar days, and the timestamps contained on the surveillance footage was off by one hour;

25. During the inspection, when Investigators inquired about the status of Massbiolytics' ISO accreditation, the Respondent denied knowledge of any issue and stated the laboratory was accredited through 2024;

26. After the inspection, the department contacted PJLA who confirmed that it suspended Massbiolytics' ISO on April 26, 2023, and subsequently withdrew its accreditation certificate on June 29, 2023, as a result of Massbiolytics' non-payment of an overdue balance owed to PJLA for services;

27. On October 19, 2023, the department issued a Notice of Deficiency ("NOD") to Respondent citing 16 regulatory deficiencies, including the violations observed during the inspection and for failing to notify the Commission of the suspension and withdrawal of its ISO accreditation, causing the lapse to go undetected until the department discovered this information itself on October 2, 2023;

28. On October 30, 2023, Respondent submitted a Plan of Correction ("POC") denying that any lapse in Massbiolytics' ISO accreditation had occurred and did not address nor specify any proposed corrective action related to this deficiency;

29. Due to Respondent's failure to propose any corrective action related to the ISO accreditation deficiencies, the department partially rejected the initial POC on December 22, 2023;

30. On December 29, 2023, Respondent submitted a revised POC in response to the NOD issued on October 19, 2023, again denied that any lapse in accreditation occurred and reiterated that the laboratory was fully accredited through February 28, 2024, resulting in the rejection of the revised POC on February 14, 2024;

31. On January 2, 2024, the department conducted an audit of Respondent's Metrc data and discovered that Massbiolytics' had received a total of 243 samples for testing during the period of lapse between April 26, 2023, and October 3, 2023, with 83 samples received and tested during the suspension period and 160 samples received tested during the withdrawal period;

32. On February 14, 2024, the department issued Respondent a Request for Information (RFI) and documentation related to Massbiolytics' ISO accreditation status between April 26, 2023, and October 3, 2023, including all records of communication between Massbiolytics and its clients related to the lapse in accreditation, as well as a spreadsheet containing the Metrc tags for packages received for testing during this period, including the associated test results;

33. On February 15, 2024, PJLA sent a letter to the Respondent confirming in writing that per its policy and procedures, PJLA suspended Massbiolytics' ISO accreditation on April 26, 2023, and ultimately reinstated its accreditation on October 3, 2023, after the Respondent rectified its outstanding financial obligation that same day;

34. On March 4, 2024, Respondent provided responsive documents to the RFI, including:

    a. Correspondence from PJLA dated March 8, 2023, and April 23, 2023, notifying Massbiolytics of the outstanding balance owed and the subsequent suspension of its ISO accreditation;
    b. A spreadsheet listing the packages received and tested by Respondent during the period of lapse and the six associated Licensees for which testing was performed during this period; and
    c. A statement that it verbally informed the six Licensees about the suspension of its ISO accreditation;

35. On March 5, 2024, the department conducted an unannounced inspection of Massbiolytics to verify it had implemented the corrective actions identified in its initial and revised Plans of Correction submitted by Respondent in response to the NOD issued following the inspection on October 3, 2023;

36. During the inspection, Investigators observed that Respondent failed to address the following deficiencies observed during the previous inspection on October 3, 2023, including:

    a. The Respondent laboratory remained in a similarly unsanitary and disorderly condition as previously observed;
    b. Respondent continued to use its designated quarantine space for storage of non-quarantined samples;
    c. The blind spot previously identified in Respondent's interior laboratory surveillance coverage remained uncorrected; and,
    d. Logs documenting the laboratory's various processes remained incomplete, including the scale certification record which expired in July 2022;

37. Investigators also observed that, while it initially appeared that the Respondent took corrective action to update Massbiolytics' visitor log, upon further investigation and review, all entries appeared to be completed and signed by Respondent;

38. Additionally, Investigators observed the following new deficiencies during the inspection on March 5, 2024:

    a. The Respondent was unable to reconcile its physical on-site inventory with its inventory entered in Metrc;
    b. A review of exterior surveillance footage revealed that Respondent's exterior dumpster used for Marijuana wasting had been left unlocked and accessible for a period of five days, from February 21, 2024, through February 26, 2024, allowing for two individuals not associated with the Respondent laboratory to access the contents of the dumpster on February 26, 2024;
    c. Login credentials were listed and therefore easily accessible at laboratory computer spaces; and,
    d. The Respondent was unable to produce records of neither monthly nor annual security audits;

39. On April 5, 2024, the department sent e-mails to the six Licensees that Respondent performed testing for during the lapse period, and claimed to have notified of the lapse in accreditation;

40. In response, all six of these Licensees stated the Respondent did not inform them at any time of the suspension and subsequent withdrawal of Massbiolytics' ISO accreditation;

41. On April 11, 2024, the department issued Respondent a second NOD based on the violations observed during the unannounced inspection on March 5, 2024;

42. Respondent submitted a POC on April 11, 2024, which the department accepted on June 7, 2024;

43. On August 27, 2024, the department conducted an announced inspection of Respondent laboratory which included a review of security measures, a tour of the premises, a discussion about microbial testing, and verification that the corrective actions detailed in its Plans of Correction submitted following the inspections on October 3, 2023, and March 5, 2024;

44. During the inspection, Investigators observed the following deficiencies to be ongoing since the inspection conducted on October 3, 2023:

    a. The Respondent laboratory's entrance remained unlocked during business hours;
    b. Vials containing microbial cultures were strewn across workbenches, despite Respondent stating these cultures were to be wasted;

c. The Respondent continued using its designated quarantine space to store non-quarantined Marijuana and samples;
d. The visitor logs maintained between April 15, 2022, and August 22, 2024, appeared to have been filled out by Respondent for all entries, and review of surveillance footage at this time allowed Investigators to verify the two most recent entries were not completed by the individual delivery driver, nor did the entries reflect accurate delivery times;
e. The blind spot in Respondent's interior surveillance camera coverage remained uncorrected; and,
f. The timestamps contained on the surveillance footage remained off by one hour, and Respondent was unable to produce stills and footage during the inspection for the requested dates, but provided stills for a different date than requested over one month after the inspection;

45. During the inspection, Investigators observed the following deficiencies to be ongoing since the inspection conducted on March 5, 2024:

a. More than half of the Respondent's inventory could not be located while onsite when compared to its virtual inventory;
b. The Respondent continued to use the exterior dumpster shared by other tenants of the building, and remained unlocked and accessible at this time;
c. The Respondent could not produce complete records of monthly security audits; and,
d. The Respondent could not produce records of an annual security audit, nor that it had scheduled the audit as previously represented in Massbiolytics' POC submitted on April 11, 2024;

46. In addition to the ongoing deficiencies from previous inspections, Investigators also observed that Respondent's exterior dumpster had been relocated to another area of the building and could not be captured by the Respondent's current exterior surveillance camera coverage;

47. Upon review of Respondent's exterior surveillance, Investigators further observed and identified the Respondent-Owner, Mr. Sockol, to be transporting Marijuana in his personal vehicle, which was not approved for use by the Commission in accordance with regulations, to the relocated exterior dumpster without a second Lab Agent present;

48. On October 18, 2024, the department issued Respondent a third NOD, which included the uncorrected deficiencies from the two previous inspections, in addition to the new deficiencies observed by Investigators during the inspection on August 27, 2024;

49. On April 8, 2025, the department conducted an unannounced inspection of the Respondent laboratory to determine whether Respondent had corrected the outstanding deficiencies from the previous inspections on October 3, 2023, March 5, 2024, and August 27, 2024;

50. During the inspection, Investigators observed surveillance footage that revealed Respondent permitted an individual, believed to be Stephen Sockol, to work and perform testing for Massbiolytics without a valid Lab Agent registration since at least January 9, 2025, or approximately four months;

51. During the inspection, Investigators also observed a number of other deficiencies present in the Respondent laboratory as of April 8, 2025, including:

    a. The Respondent could not reconcile its on-site inventory with its Metrc inventory, with an RFID scan locating only 38% of Respondent's reported inventory;
    b. The Respondent was unable to produce up to date employee records upon request, including Responsible Vendor Training ("RVT"), Criminal Offender Record Information ("CORI"), or Metrc Training Records;
    c. The exterior dumpster remained unlocked, accessible to all tenants of the building and the general public, and located outside Respondent's exterior surveillance coverage;
    d. The interior surveillance blind spot had still not been corrected, resulting in an ongoing, significant obstruction to the interior of the Respondent laboratory;
    e. The timestamps on the surveillance system remained behind by an hour; and,
    f. There had been no monthly or annual security audits conducted, nor had the Respondent even scheduled its annual audit;

52. To date, the Respondent has demonstrated an ongoing failure to productively engage with the Commission and continues to exhibit an ongoing disregard for the seriousness of these violations;

53. Additionally, independent from the subject investigation, on December 18, 2024, Respondent, through its owner, Mr. Sockol, completed and submitted a new application for Lab Agent Registration on behalf of an individual named Stephen Sockol for employment with Massbiolytics;

54. Upon information and belief, Respondent-Owner, Mr. Sockol, is the father of applicant Stephen Sockol and would therefore be uniquely situated in his ability to confirm accuracy of the required disclosures;

55. On March 24, 2025, Stephen Sockol's application submission was referred to the department for a suitability review having identified potentially disqualifying events in his background check report;

56. While the underlying events did not disqualify Stephen Sockol from becoming a Registered Laboratory Agent, Mr. Sockol, the individual who submitted the application to the Commission, omitted relevant criminal history information from Stephen's application as required and despite having knowledge of this history at the time of its submission;

57. Stephen Sockol was ultimately approved for Lab Agent registration (Agent No. LA282667) associated with Respondent Laboratory on September 29, 2025;

58. On October 2, 2025, an RFI was sent to the Respondent to inquire about the reason for withholding this relevant information from Stephen Sockol's Lab Agent application;

59. As of December 3, 2025, the department has not received any response from the Respondent to the RFI related to Stephen Sockol's Lab Agent application;

## III. ALLEGED VIOLATIONS OF LAW AND GROUNDS FOR REVOCATION

**Count I – Violation of 935 CMR 500.104(5)**
***(Failure to Notify Commission of ISO Accreditation Suspension and Withdrawal)***

60. The Marijuana Establishment shall keep current all information required by 935 CMR 500.000 or otherwise required by the Commission. The Marijuana Establishment shall report any changes in, or additions to, content of the information contained in any document to the Commission within five business days after such change or addition. 935 CMR 500.104(5);

61. In addition to the requirements for the Management and Operations Profile set forth in 935 CMR 500.101(c), applicants for a license to operate an Independent Testing Laboratory may provide, as part of the Management and Operations Profile packet, documentation demonstrating accreditation that complies with 935 CMR 500.050(7)(a). If unable to demonstrate accreditation prior to provisional licensure, the applicant shall demonstrate accreditation prior to final licensure. 935 CMR 500.101(3)(f);

62. On or around March 8, 2023, Respondent received a written notice from PJLA requesting payment for services previously rendered, indicating that the Respondent's failure to address the outstanding financial obligation within 30 days would result in PJLA suspending Massbiolytics' ISO accreditation;

63. Due to Respondent's failure to timely address the outstanding payment owed, PJLA suspended Massbiolytics' ISO accreditation on April 26, 2023;

64. Respondent had an obligation to report the suspension of its ISO accreditation to the Commission within five business days and failed to do so in violation of 935 CMR 500.104(5);

65. On June 29, 2023, due to Respondent's continued failure to address the outstanding balance and subsequent suspension of its accreditation, PJLA withdrew Massbiolytics' ISO Certificate L21-622-R1;

66. Respondent had an obligation to report the withdrawal of its ISO accreditation to the Commission within five business days and failed to do so in violation of 935 CMR 500.104(5);

67. Following the suspension and subsequent withdrawal of Massbiolytics' ISO accreditation, between April 26, 2023, and October 3, 2023, Respondent continued operating as an Independent Testing Laboratory, conducting 6,513 tests on 243 samples before Investigators learned of the lapse and prior to PJLA's reinstatement of Massbiolytics' accreditation on October 3, 2023;

**Count II – Violation of 935 CMR 500.050(7)(a)**
**(*Conducting Testing without a Valid Accreditation*)**

68. Prior to final licensure, an Independent Testing Laboratory shall be accredited to the most current International Organization for Standardization (ISO) 17025 by a third-party accrediting body that is a signatory to the International Laboratory Accreditation Cooperation (ILAC) Mutual Recognition Arrangement or certified, registered, or accredited by an organization approved by the Commission. 935 CMR 500.050(7)(a);

69. "Independent Testing Laboratory" means a laboratory that is licensed or registered by the Commission that is currently and validly licensed under 935 CMR 500.101, or formerly and validly registered by the Commission; accredited to ISO 17025:2017 or the International Organization for Standardization 17025 by a third-party accrediting body that is a signatory to the International Laboratory Accreditation Accrediting Cooperation mutual recognition arrangement or that is otherwise approved by the Commission; independent financially from any MTC Marijuana Establishment or Licensee; and qualified to test Marijuana and Marijuana Products, including MIPs, in compliance with G.L. c. 94C, § 34; M.G.L. c. 94G, § 15; 935 CMR 500.000; 935 CMR 501.000: *Medical Use of Marijuana*; and Commission protocol(s). *See* 935 CMR 500.002;

70. On April 26, 2023, PJLA suspended Respondent's ISO accreditation for failing to address an outstanding balance it owed to PJLA for conducting the most recent assessment of Massbiolytics;

71. In its April 26, 2023, letter, PJLA informed Respondent they could no longer advertise Massbiolytics as an ISO accredited ITL through PJLA and instructed Respondent to inform its clients that it no longer held a valid ISO accreditation as a result of the suspension in place;

72. During the suspension period, between April 26, 2023, and June 29, 2023, Respondent received a total of 83 samples from three different clients, conducting a total of 2,345 tests on the samples received during this period;

73. On June 29, 2023, PJLA withdrew Respondent's ISO accreditation for ongoing failure to pay;

74. During the withdrawal period, between June 29, 2023, and October 3, 2023, Respondent received a total of 160 samples from five different clients, conducing a total of 4,168 tests on the samples received during this period;

75. Between April 26, 2023, and October 3, 2023, Respondent conducted a total of 6,513 tests on 243 samples that were received from six different Licensees;

76. By conducting unaccredited testing over the course of seven months, despite having notice regarding the suspension and withdrawal of Massbiolytics ISO accreditation status, and subsequently failing to inform both the Commission and its clients, the Licensee has demonstrated a complete lack of accountability related to the requirement that ITLs maintain ISO accreditation at all times and in violation of 935 CMR 500.050(7)(a);

**Count III – Violation of 935 CMR 500.450(2)**
***(Providing False Information to the Commission)***

77. Information provided by the Marijuana Establishment was deceptive, misleading, false or fraudulent, or that tends to deceive or create a misleading impression, whether directly, or by omission or ambiguity, including lack of disclosure or insufficient disclosure. 935 CMR 500.450(2);

78. An application for registration of a Laboratory Agent submitted to the Commission by an Independent Testing Laboratory shall include background information including a description and the relevant dates of any criminal action under the laws of the Commonwealth or an Other Jurisdiction, whether for a felony or misdemeanor and which resulted in conviction, or guilty plea, or plea of *nolo contendere*, or admission of sufficient facts. 935 CMR 500.029(2)(g);

79. On or around March 8, 2023, Respondent received a letter from PJLA indicating an outstanding balance owed and warning the Respondent that its failure to address the issue would result in the suspension of its ISO accreditation;

80. On April 26, 2023, Respondent received notice its ISO accreditation had been suspended by PJLA;

81. When Investigators inquired with the Respondent about the status of its ISO accreditation during the inspection on October 3, 2023, the Respondent reported it was not aware of any issues related to its ISO accreditation and stated the laboratory was accredited through 2024;

82. On the day of the unannounced inspection, Respondent contacted PJLA and tendered payment of the outstanding balance in order to have Massbiolytics' ISO accreditation reinstated;

83. In its first POC submitted in response to the NOD issued on October 19, 2023, Respondent denied a lapse in its ISO accreditation had occurred, stating "[t]he laboratory was and still is accredited until Feb 28th 2024 by PJLA as issued after last year's assessment," and further, that the "lab continued to operate as an ISO-17025 as there

were no compliance deficiencies or requirements to modify or suspend the way the lab operates";

84. After rejection of the original POC, Respondent submitted a revised POC on December 29, 2023, which stated "Massbiolytics will obtain a letter/document from the current President/ General Manager of PJLA, explaining that there were no compliance or technical issues with Massbiolytics lab operations during [the lapse] and that the only issue here was nonpayment";

85. Thereafter, Respondent provided the department with a letter from PJLA dated February 15, 2024, and addressed to Mr. Sockol, confirming that Massbiolytics' ISO accreditation was suspended on April 26, 2023, per PJLA policy and procedures;

86. By denying to Investigators and the department that any lapse in Massbiolytics' ISO accreditation had occurred, despite knowledge to the contrary, the Respondent provided false information to the Commission;

87. In its response to the RFI issued on February 14, 2024, despite otherwise consistently denying that any lapse in accreditation had occurred, Respondent provided a list of six Licensees it conducted testing for during the period of lapse, further stating it "verbally informed" these clients of its accreditation issue;

88. On April 5, 2024, the department sent each the six Licensees an email seeking to corroborate Respondent's statement that it had notified its clients of the suspension in Massbiolytics' ISO accreditation between April 26, 2023, and October 3, 2023;

89. Despite its representations to the Commission that it had verbally informed its clients of the lapse in Massbiolytics' ISO accreditation, all six Licensees responded to the department that they had no knowledge of Massbiolytics' ISO accreditation issue, nor had Respondent ever informed them of any accreditation issue;

90. By stating it informed its clients of the lapse in its ISO accreditation in response to the department's RFI, the Respondent provided false information to the Commission;

91. On December 18, 2024, Respondent submitted a Laboratory Agent application for Stephen Sockol, however, failed to disclose a potentially disqualifying event in his criminal history;

92. Despite its ability to verify or otherwise provide accurate information related to this applicant's legal history, the Respondent-Owner, Mr. Sockol, did not disclose any information related to Stephen Sockol's legal history in Respondent's application submission;

93. By withholding information from Stephen Sockol's Lab Agent application, the Respondent withheld required information from the Commission that tends to create a misleading impression that the applicant has no such criminal history;

94. By providing misleading information to Investigators and withholding information from the Commission in an Agent application, Respondent's integrity and trustworthiness as a Licensee has been called into question, serving as full and adequate grounds, in and of itself, to suspend or revoke Respondent's License pursuant to 935 CMR 500.450(2);

**Count IV – Violation of 935 CMR 500.110(5)(a)**
***(Failure to Comply with Minimum Surveillance System Requirements)***

95. A Marijuana Establishment…shall have an adequate security system to prevent and detect diversion, theft or loss of Marijuana or unauthorized intrusion, utilizing commercial grade equipment which shall, at a minimum, include:

    a. Video cameras in all areas that may contain Marijuana or vaults or safes…at all points of entry and exit and in any parking lot which shall be appropriate for the normal lighting conditions of the area under surveillance. The cameras shall be directed at all safes, vaults…and areas where Marijuana is cultivated, harvested, Processed, prepared, stored, handled or dispensed…[c]ameras shall be angled as to allow for the capture of clear and certain identification of any Person entering or exiting the Marijuana Establishment or area. 935 CMR 500.110(5)(a)4.;
    b. Recordings from all video cameras which shall be enabled to record 24 hours each day and be available for immediate viewing by the Commission on request for at least the preceding 90 calendar days. 935 CMR 500.110(5)(a)5.;
    c. A date and time stamp embedded in all recordings, which shall be synchronized and set correctly at all times. 935 CMR 500.110(5)(a)7.;

96. Investigators observed a blind spot present in Respondent's interior surveillance footage during the inspections on October 3, 2023, March 5, 2024, August 27, 2024, and April 8, 2025, obstructing from view an area in the center of the laboratory, over one of the laboratory workstations;

97. During the inspection on August 27, 2024, Investigators reviewed Respondent's exterior surveillance and observed inadequate coverage of the laboratory's exterior waste receptacle, which remained uncorrected as of the inspection on April 8, 2025;

98. By employing inadequate surveillance, Respondent has failed to comply with security system requirements for video cameras;

99. During the inspections on October 3, 2023, and April 8, 2025, Respondent was unable to produce surveillance recordings for the preceding 90 days for Investigator review;

100. During the inspections between October 3, 2023, and April 8, 2025, Investigators observed Respondent's video surveillance system's embedded time stamps were not synchronized to reflect the accurate time, off by one hour;

101. By failing to bring its security system into compliance with minimum security requirements, Respondent repeatedly violated 935 CMR 500.110(5)(a);

**Count V – Violation of 935 CMR 500.110(5)(f) and 935 CMR 500.110(10)**
***(Failure to Comply with Monthly and Annual Security Inspection and Audit Requirements)***

102. All security equipment shall be in good working order and shall be inspected and tested at regular intervals, not to exceed 30 calendar days from the previous inspection and test. 935 CMR 500.110(5)(f);

103. A Marijuana Establishment shall, on an annual basis, obtain at its own expense, a security system audit by a vendor approved by the Commission. A report of such audit shall be submitted, in a form and manner determined by the Commission, no later than 30 calendar days after the audit is conducted. If the audit identifies concerns related to the establishment's security system, the Marijuana Establishment shall also submit a plan to mitigate those concerns within ten business days of submitting the audit. 935 CMR 500.110(10);

104. During the inspections on March 5, 2024, and August 27, 2024, Respondent could not produce any records showing that Massbiolytics had conducted monthly security audits;

105. During the inspection on April 8, 2025, Respondent was able to produce records of monthly security audits for the months of September 2024, November 2024, and January 2025, having skipped August 2024, October 2024, December 2024, February 2025 and March 2025;

106. During the inspection on March 5, 2024, Respondent could not produce records demonstrating that an annual security system audit of Massbiolytics had been performed;

107. In its POC submitted in response to the second NOD issued on April 11, 2024, Respondent stated, "Massbiolytics will hire the Auger Security Company to perform and document an annual security audit on its current systems," with an implementation date of June 21, 2024;

108. During the inspection on August 27, 2024, Investigators inquired with Respondent as to the status of Massbiolytics' annual security audit, to which the Respondent replied had not yet been scheduled nor conducted;

109. In its POC submitted in response to the first NOD issued on October 18, 2023, Respondent again stated, "Massbiolytics will hire a new Security Company to perform and document an annual security audit on its current systems," with an implementation date of January 31, 2024;

110. During the inspection on April 8, 2025, Respondent stated the annual security audit had still not been conducted at this time;

111. By failing to conduct required monthly and annual security audits of the laboratory and its systems, the Respondent has violated and disregarded the requirements of 935 CMR 500.110(5)(f) and 935 CMR 500.110(10);

**Count VI – Violation of 935 CMR 500.110(4)(e)**
***(Failure to Maintain an Accurate Laboratory Visitor Log)***

112. Following receipt of a final License, all outside vendors, contractors, and Visitors shall obtain a Visitor Identification Badge prior to entering a Limited Access Area and shall be escorted at all times by a Marijuana Establishment Agent authorized to enter the Limited Access Area…All Visitors shall be logged in and out and that log shall be available for inspection by the Commission at all times. 935 CMR 500.110(4)(e);

113. "Limited Access Area" means an indoor or outdoor area on the Premises of a Marijuana Establishment where Marijuana or Marijuana Products, or their byproducts are cultivated, stored, weighed, packaged, Processed, or disposed, under the control of a Marijuana Establishment, with access limited to only those Marijuana Establishment or Laboratory Agents designated by the Establishment after receipt of a Final License. *See* 935 CMR 500.002;

114. During the inspection on October 3, 2023, Investigators observed that Respondent's visitor log had not been updated since July 2023, despite the entirety of the laboratory being considered a Limited Access Area;

115. When Investigators returned on March 5, 2024, the visitor log had been updated per Respondent's POC, however, some entries appeared to have been post-dated, with all entries appearing to have been filled out by one individual, as opposed to each visitor to the Respondent laboratory;

116. During the inspection on August 27, 2024, Investigators reviewed surveillance footage and flagged a discrepancy between the timestamps included on Respondent's visitor log and the actual time individual visitors were coming and going from the laboratory;

117. Investigators also observed that Respondent's visitor log entries did not include individual names, but rather used identifiers such as, "Driver" from "Plym Armor," "roofing guy," etc.;

118. During the inspection on April 8, 2025, Investigators again reviewed surveillance footage and verified that the delivery made to the Respondent laboratory before Investigators arrived that day had been entered in the visitor log by the Respondent as "Driver" from "Plym Armor" for samples between 11:00 and 11:15 A.M.;

119. Upon review of related surveillance footage, Investigators learned this visitor had exited the Respondent laboratory by 11:05 A.M.;

120. Respondent's ongoing failure to maintain an accurate visitor log in violation of 935 CMR 500.110(4), when coupled with Respondent's failure to maintain an adequate security system and the accessible nature of the laboratory, creates a significant security risk to Respondent and its Lab Agents as well as the general public;

**Count VII – Violation of 935 CMR 500.105(12)(a)**
***(Failure to Prevent Unauthorized Access to Marijuana Waste)***

121. All recyclables and waste, including organic waste composed of or containing Finished Marijuana and Marijuana Products, shall be stored, secured, and managed in accordance with applicable state and local statutes, ordinances, and regulations. All exterior waste receptacles located on the Marijuana Establishment's Premises shall be locked and secured to prevent unauthorized access. 935 CMR 500.105(12)(a);

122. Between February 21, 2024, and February 26, 2024, Respondent left its exterior dumpster unlocked and accessible, including on February 26, 2024, between 5:19 PM and 5:26 PM, when two individuals not associated with Massbiolytics accessed the contents of the dumpster;

123. During the inspection on March 5, 2024, Respondent stated that its exterior dumpster is shared, and that all tenants know the combination for the lock used;

124. During the inspections on August 27, 2024, and April 8, 2025, Investigators observed Respondent's exterior dumpster to be unlocked and accessible to the general public;

125. During these inspections, Investigators also observed that Respondent's exterior dumpster, previously covered by its exterior surveillance, had been relocated outside the view of this camera, creating additional concerns related to its accessibility;

126. By failing to secure the exterior dumpster used by Respondent for wasting Marijuana located on Massbiolytics' premises, Respondent has violated 935 CMR 500.105(12)(a), creating additional concerns due to Respondent's location within a shared-tenant, publicly accessible building;

**Count VIII – Violation of 935 CMR 500.450(4)**
***(Failure to Implement Plans of Correction)***

127. The Marijuana Establishment has failed to submit a Plan of Correction as required or to implement the plan as submitted pursuant to 935 CMR 500.320. 935 CMR 500.450(4);

128. A Marijuana Establishment or Host Community shall submit to the Commission a written Plan of Correction for any violations cited in the deficiency statement issued pursuant to 935 CMR 500.310, within ten business days after receipt of the statement. 935 CMR 500.320(1);

129. A plan shall state, with respect to each deficiency, the specific corrective step(s) to be taken, a timetable for such steps, and the date by which compliance will be achieved. The timetable and the compliance dates shall be consistent with achievement of compliance in the most expeditious manner possible. 935 CMR 500.320(2);

130. In Massbiolytics' POC submitted in response to the NOD issued on October 19, 2023, Respondent stated that all proposed corrective actions would be implemented by December 1, 2023;

131. On March 5, 2024, the department conducted an unannounced inspection and learned that Respondent had not thoroughly cleaned the lab, had not corrected the blind spot in its interior surveillance coverage, and remained unable to product up to date records and logs upon request of Investigators;

132. On April 11, 2024, the department issued a Second NOD to the Respondent which cited Massbiolytics for the new, additional deficiencies observed by Investigators during the inspection on March 5, 2024;

133. In its POC submitted in response to the Second NOD, Respondent stated that all proposed corrective actions would be implemented by June 21, 2024, at the latest;

134. During the announced inspection on August 27, 2024, nine of the sixteen deficiencies Investigators observed during October 3, 2023, inspection remained uncorrected at this time, as well as four of the six additional deficiencies observed during the follow up inspection on March 5, 2024;

135. On October 18, 2024, the department issued a Third NOD to the Respondent which cited Massbiolytics for the failure to implement the POCs submitted in response to the First and Second NODs, as well as the new, additional deficiencies observed during the inspection on August 27, 2024;

136. In its POC submitted in response to the Third NOD, Respondent stated that all proposed corrective actions would be implemented by December 31, 2024, including those that addressed the outstanding deficiencies cited by the First and Second NODs;

137. On April 8, 2025, the department conducted an unannounced inspection, and Investigators observed the Respondent again failed to implement the corrective actions as identified in the POC submitted in response to the Third NOD;

138. By failing to implement corrective actions identified in its three POCs between October 3, 2023, through the present, the Respondent has violated 935 CMR 500.450(4);

**Count IX – Violation of 935 CMR 500.450(7)(a)**
***(Failure to Maintain an Independent Testing Laboratory in a Clean, Orderly, and Sanitary Fashion)***

139. The lack of responsible operation of a Marijuana Establishment constitutes full and adequate grounds for suspending or revoking a Marijuana Establishment's License. 935 CMR 500.450(7);

140. The Marijuana Establishment has demonstrated a lack of responsible operation as shown by a failure to maintain the Marijuana Establishment in a clean, orderly, and sanitary fashion. 935 CMR 500.450(7)(a);

141. All Marijuana Establishments…shall maintain buildings, fixtures, and other physical facilities in a sanitary condition. 935 CMR 500.105(3)(b)8.;

142. A Marijuana Establishment shall have separate areas for storage of Marijuana that is outdated, damaged, deteriorated, mislabeled, or contaminated, or whose containers or packaging have been opened or breached, until such products are destroyed. 935 CMR 500.105(11)(b);

143. Marijuana Establishment storage areas shall be maintained in a clean and orderly condition. 935 CMR 500.105(11)(c);

144. During the inspection of the Respondent laboratory on October 3, 2023, Investigators observed multiple open tubes containing samples of Marijuana on work benches and strewn across the floor among other litter and debris, as well as tabletop and desk spaces to be covered by a sticky layer of Marijuana residue and dust, and located a dead insect atop one of the desk spaces;

145. During the inspection on March 5, 2024, Investigators observed the Respondent laboratory remained in a similarly unsanitary state, evidenced by the dead insect Investigators photographed in the exact location as the previous inspection, indicating that the laboratory had not been thoroughly sanitized in the five months since the inspection on October 3, 2023;

146. Investigators also observed the Respondent laboratory did not maintain a separate storage area for quarantined Marijuana and instead comingled all inventory, including inventory it had already reported as "Finished" in Metrc, making it difficult to locate and identify specific samples due to the disorganized and unsecure storage of the Marijuana onsite;

147. During the inspection on April 8, 2025, the Respondent laboratory remained in a generally unsanitary and disorderly state, and Investigators additionally observed several unsecured boxes of Marijuana identified by the Respondent as having samples to be wasted that were placed in this area sometime in December 2024, but were subsequently forgotten about until this time;

148. By displaying an ongoing failure to maintain its laboratory in a clean, orderly, and sanitary condition, particularly when considered in conjunction with patterns of inventory recordkeeping discrepancies and inadequate storage of Marijuana, Respondent has

demonstrated a lack of responsible operation that calls into question its ability to maintain an Independent Testing Laboratory in a condition necessary for providing valid testing results in violation of 935 CMR 500.450(7)(a);

**Count X – Violation of 935 CMR 500.450(7)(f)**
***(Incompetent Operation of an Independent Testing Laboratory)***

149. The Commission hereby incorporates Paragraphs 60 through 148 as if restated fully herein:

150. The Marijuana Establishment has demonstrated a lack of responsible operation as shown by other incompetent operation. 935 CMR 500.450(7)(f);

151. A Marijuana Establishment shall implement sufficient security measures to deter theft of Marijuana and Marijuana Products, prevent unauthorized entrance into areas containing Marijuana and Marijuana Products and ensure the safety of Marijuana Establishment employees, Consumers and the general public. Security measures taken by the Licensee to protect the Premises, employees, Marijuana Establishment Agents, Consumers and the general public shall include securing all entrances to the Marijuana Establishment to prevent unauthorized access. 935 CMR 500.110(1)(d);

152. A Marijuana Establishment shall implement sufficient security measures to deter theft of Marijuana and Marijuana Products, prevent unauthorized entrance into areas containing Marijuana and Marijuana Products and ensure the safety of Marijuana Establishment employees, Consumers and the general public. Security measures taken by the Licensee to protect the Premises, employees, Marijuana Establishment Agents, Consumers and general public shall include:

a. Prohibiting accessibility of security measures, such as combination numbers, passwords or electronic or biometric security systems, to persons other than specifically authorized personnel 935 CMR 500.110(1)(j);
b. Prohibiting keys, if any, from being left in the locks or stored or placed in a location accessible to persons other than specifically authorized personnel. 935 CMR 500.110(1)(i).

153. Every Marijuana Establishment shall have and follow a set of detailed written operating procedures. … Operating procedures shall include but not be limited to policies and procedures to promote workplace safety consistent with the standards set forth under the Occupational Safety and Health Act of 1970, 29 U.S.C. § 651, et seq., including the general duty clause whereby each employer including the general duty clause under 29 U.S.C. § 654. 935 CMR 500.500.105(1)(r);

154. Records of a Marijuana Establishment shall be available for inspection by the Commission, on request…Written records that are required and are subject to inspection include, but are not necessarily limited to personnel records including job descriptions for each position, a personnel record for each Marijuana Establishment Agent, a staffing

plan, personnel policies and procedures, and all background check reports obtained in accordance with M.G.L. c. 6 § 172, 935 CMR 500.029…and 803 CMR 2.00: *Criminal Offender Record Information (CORI)*. 935 CMR 500.105(9)(d);

155. Real-time inventory shall be maintained as specified by the Commission and in 935 CMR 500.105(8)(c) and (d) including, at a minimum, an inventory of Marijuana plants; Marijuana plant-seeds and Clones in any phase of development such as Propagation, Vegetation, and Flowering; Marijuana ready for dispensing; all Marijuana Products; and all damaged, defective, expired, or contaminated Marijuana and Marijuana Products awaiting disposal. 935 CMR 500.105(8)(b);

156. A vehicle used for transporting Marijuana Products shall be owned or leased by the Marijuana Establishment. 935 CMR 500.105(13)(c)1.;

157. During the inspection on October 3, 2023, Investigators observed that the entrance to the Respondent laboratory, which is connected to a publicly accessible, shared-tenant property, remained unlocked throughout the workday, despite the use of an electronic lock and keypad installed on the entrance;

158. Again, during the inspection on August 27, 2024, Investigators observed that the entrance to Respondent's laboratory remained unlocked during the workday and Respondent had still not been using the electronic lock installed on the door;

159. By regularly failing to secure its laboratory entrance, Respondent has repeatedly violated 935 CMR 500.110(1)(d);

160. During the inspection on March 5, 2024, Respondent revealed to Investigators that the combination for the lock used on its exterior dumpster was known by the other building tenants, and that this dumpster is regularly accessed by members of the public that are not Lab Agents associated with Massbiolytics;

161. During the inspection on March 5, 2024, Investigators observed computer login credentials were left on display at three laboratory computer stations;

162. During the inspection on April 8, 2025, Investigators again located a piece of paper which contained the keypad door combination, door alarm code, dumpster lock, lab safe keys, as well as passwords and access codes to the listed items;

163. By sharing the code for its exterior dumpster and leaving notes containing other sensitive security measures open and accessible to any individual who enters the lab, Respondent has violated both 935 CMR 500.110(1)(i) and 935 CMR 500.110(1)(j);

164. Respondent's conduct throughout the course of the investigation, including as outlined in Counts IV, V, VI and X has demonstrated an ongoing pattern of noncompliance and disregard for Commission security regulations outlined under 935 CMR 500.110;

165. During the inspection on October 3, 2023, Investigators located expired reagent containers throughout the laboratory, including on various work benches, indicating they were actively being used by the laboratory at this time;

166. During the inspection, Respondent's applicable SOP read as follows: Protocol #61-Quality Control for Operations-Label and store chemicals properly. All Chemical containers must be labeled to identify the container contents (no abbreviations or formulas) and should identify hazard information;

167. By storing expired reagents onsite for use, Respondent violated its SOP: Protocol #61-Quality Control for Operations, in violation of 935 CMR 500.450(7);

168. During the inspection on October 3, 2023, Respondent was unable to produce any personnel records, including Responsible Vendor Training (RVT) records, Metrc training records, and Criminal Offender Record Information (CORI) records;

169. During the inspection on April 8, 2025, over a year later, Respondent was still unable to produce personnel records, including RVT records, Metrc training records and CORI background check information;

170. By failing to maintain personnel records between 2021 and 2025, Respondent has violated 935 CMR 500.105(9)(d);

171. During the inspection on March 5, 2024, Investigators conducted a Metrc search of Respondent's inventory from December 1, 2023, through February 25, 2024, yielding a list of 148 packages, 103 of which were finished as of October, but not yet wasted and therefore still onsite in the laboratory;

172. During the inspection on August 27, 2024, Investigators conducted an RFID scan of Respondent's onsite inventory, detecting only 46% of its Metrc inventory;

173. During this inspection, Investigators asked Respondent to locate three packages chosen at random that were not picked up by the RFID scan, two of which were located, however, the third sample had reportedly already been wasted;

174. During the inspection on April 8, 2025, Investigators conducted an RFID scan of Respondent's onsite inventory, this time detecting only 38% of Respondent's Metrc inventory;

175. By failing to maintain accurate inventory records throughout the course of the investigation, particularly when considering the disorganization observed by Investigators within the laboratory, Respondent has violated 935 CMR 500.105(8)(b);

176. During the inspection on August 27, 2024, upon review of Respondent's exterior surviellance, Investigators observed and identified the Respondent-Owner, Mr. Sockol, had transported Marijuana in his personal vehicle;

177. By transporting Marijuana in Mr. Sockol's personal vehicle, rather than a vehicle which is owned or leased by Massbiolytics, the Respondent has violated 935 CMR 500.105(13)(c)1.;

178. Respondent's conduct throughout the course of this investigation, including in Counts I, II, VII, VIII, IX and X reveals ongoing noncompliance and a systematic disregard for a number of operational requirements outlined under 935 CMR 500.105;

179. Respondent's ongoing noncompliance with various security and operational requirements under 935 CMR 500.110 and 935 CMR 500.105, in addition to the violations outlined in Counts I through X collectively demonstrate Respondent to be incapable of competently operating an Independent Testing Laboratory;

180. Additionally, Respondent's failure to provide truthful information to the Commission as outlined under Count III creates additional concerns related to Respondent's intent in its statements made to the Commission and its trustworthiness to continue to operate as a licensed Independent Testing Laboratory;

181. Considering the role of an Independent Testing Laboratory in conjunction with the nature of the violations as described, permitting the Respondent laboratory to continue to operate at this level of noncompliance poses an unnecessary risk to public health, safety and welfare;

182. Taken as a whole, Respondent's conduct and actions as outlined in the foregoing paragraphs demonstrate a clear and consistent pattern of incompetent operation of an Independent Testing Laboratory, serving as full and adequate grounds for revocation of its license for a lack of responsible operation under 935 CMR 500.450(7)(f).

## IV. ORDER

Based on the above factual findings and violations of law, Respondent has demonstrated an inability to responsibly operate an Independent Testing Laboratory. Coupled with its pattern of submitting untruthful information to the Commission, Respondent's conduct as alleged constitutes full and adequate grounds for revocation of Massbiolytics' Independent Testing Laboratory License. In accordance with its authority under G.L. c. 94G, § 4(a)(xi), (a½)(xi) and 935 CMR 500.370, the Commission acting through its Executive Director, hereby **ORDERS** the following:

183. **Revocation** of License No. IL281290;

184. **Revocation** of the following agent registrations associated with Respondent's license:

| | |
|---|---|
| Craig Sockol | Laboratory Agent Registration No. LA281757 |
| Stephen Sockol | Laboratory Agent Registration No. LA282667 |
| Robert Kearns | Laboratory Agent Registration No. LA282045 |

Respondent's Independent Testing Laboratory License and Agent registrations shall be revoked on January 24, 2025, at 12:01 AM, unless a timely hearing request is made under Section V of this Order.

Pursuant to 935 CMR 500.370, the Commission reserves the right to modify, amend, or rescind this Order on conditions just to all parties.

## V. HEARING RIGHTS

Respondent may request a hearing in accordance with 935 CMR 500.500 by submitting the accompanying form to the Commission at 2 Washington Square, Union Station, Worcester, Massachusetts 01604. The form may also be submitted electronically to the Commission's Hearings mailbox at Hearings@CCCMass.com, copying Enforcement@CCCMass.com.

A request for hearing shall specifically identify each issue and fact in dispute and state the position of Respondent, the pertinent facts to be adduced at the hearing, and the reasons for supporting that position. *See* 935 CMR 500.500(4)(a). Further, if represented by counsel, a notice of representation must accompany the request.

**A hearing request must be submitted and postmarked no later than thirty (30) days from the date of this notice.** 935 CMR 500.500(4). Hearings shall be held before the Commission, or a hearing officer appointed by the Commission. The hearing will be conducted pursuant to M.G.L. c. 30A and the informal rules of adjudicatory practice and procedure. 801 CMR 1.02. The failure to timely file a request for a hearing or to state the basis of the hearing request will result in dismissal of the challenge to the findings set forth in this notice and the Hearing Officer may assume the truth of the allegations set forth in this Order and recommend to the Commission disciplinary action(s), sanction(s) or fine(s) or an informal disposition of the matter. *See* 935 CMR 500.500(4)(b); *see also* 935 CMR 500.500(6)(a) & (b).

Issuance of this order shall not limit the Commission from issuing a further order to take further administrative action against Respondent, including suspension or revocation of licensure.

Signed and Effective this 24th of December 2025:

**Commonwealth of Massachusetts Cannabis Control Commission**

Travis Ahern, Executive Director

Cc:
Nomxolisi K. Jones, Chief of Investigations and Enforcement
Timothy Goodin, Enforcement Counsel
Jacob Nielson, First Assistant Enforcement Counsel

## CERTIFICATE OF SERVICE

I, Madison Boudreau, hereby certify that on this 24th day of December 2025, I served a copy of this Order to Show Cause on Massbiolytics Corporation by electronic mail to the owner of record, Craig Sockol at csockol@massbiolytics.com.

Cannabis Control Commission
COMMONWEALTH OF MASSACHUSETTS

# Hearing Request Form

*Please complete each section of this form and submit all required documents.*

## Part 1: Information on Party Seeking Hearing

Name of Party Seeking Hearing (Licensee, Registrant, Host Community):

Massbiolytics Corp

Contact Name and Title:

Craig Sockol President

Contact Email address:

csockol@massbiolytics.com

Contact phone number:

978 655 1005

Contact mailing address:

20 Commercial Dr, ste 2001, Dracut, ma 01826

## Part 2: Action Taken by Cannabis Control Commission

Please check the box below that describes the action taken by the Cannabis Control Commission that you seek to address in a hearing:

☐ Notice of denial of marijuana establishment's renewal application for failure to produce a compliant Host Community Agreement ("HCA") or HCA waiver (935 CMR 500.180(3)(c)(8) and 935 CMR 501.180(3)(c)(8)).

☐ Challenge to Community Impact Fee ("CIF") determination. (935 CMR 500.180(4)(c)(4) and 935 CMR 501.180(c)(4)(c)(4)).

☐ Challenge by Host Community to fines imposed for noncompliance with equity requirements. (935 CMR 500.181(3)(e)(1) and 935 CMR 501.181(3)(e)(1)).

☐ Quarantine Order. (935 CMR 500.340 and 935 CMR 501.340).

☐ Cease and Desist Order/Summary Suspension Order. (935 CMR 500.350 and 935 CMR 501.350)).

☐ Notice of Fines or Sanctions. (935 CMR 500.360 and 935 CMR 501.360).

☑ Order to Show Cause why license or registration should not be suspended or revoked. (935 CMR 500.370 and 935 CMR 501.370)).

☐ Adverse action taken pursuant to 935 CMR 500.450 or 501.450.

☐ Other. (935 CMR 500.500(2)(d) and 935 CMR 501.500(2)(d)).

**Timeliness:** Please note that hearing request forms for hearings on cease-and-desist orders or summary suspension orders (935 CMR 500.350 and 501.350) must be received by the Cannabis Control Commission ("Commission") no later than 21 calendar days after the effective date of the orders being challenged. Hearing request forms for other types of hearings must be received by the Commission no later than 30 calendar days after the effective date of the notice that is the subject of the hearing request. The failure to timely file a request for a hearing will result in dismissal of the challenge to the findings set forth in the notice of violation(s) or action(s).

## Part 3: Action Taken by Cannabis Control Commission

Please attach a copy of the Notice or Order you received from the Cannabis Control Commission that is the subject of your hearing request (e.g., Summary Suspension Order, Order to Show

Cause, Notice of Nonrenewal of License). Check the box below to confirm that you are attaching the Notice for which you are seeking a hearing to this Hearing Request Form.

☑ The Notice/Order received from the Cannabis Control Commission that is the subject of my request for a hearing is attached.

## Part 4: Basis for Hearing

Please: (1) identify each issue and fact in dispute; and (2) state your position with respect to those issues and facts, the pertinent facts to be adduced at the hearing, and the reasons supporting your position. If necessary, you may attach additional pages to complete this response. The failure to state the basis for of the hearing request will result in dismissal of the challenge to the findings set forth in the notice of violation(s) or action(s).

See the attached PDF Document

## Part 5: Representation

Simultaneously with filing this Hearing Request Form, you or your Authorized Representative must file a Notice of Appearance form. A blank Notice of Appearance form is available on the Hearings page of the Commission website.

## Part 6: Signature and Information

I swear or attest under the pains and penalties of perjury that the information provided as part of this request for a hearing is true and accurate to the best of my knowledge and understanding.

| | 12/27/2025 |
|---|---|
| Signature of individual requesting hearing | Date |

(If this request is submitted via email, it may be signed electronically by typing the requester's name on the signature line above. In that case, the "signature" must be preceded by /s/ (e.g., /s/ John S. Doe)). Use of the electronic signature permits the Commission to rely upon the signature as if it were handwritten.

## Submission Instructions

Please submit this Hearing Request Form and required attachments to: Hearings@CCCMass.com.

If you do not have access to email, you may submit this request and required attachments via regular mail to:

Cannabis Control Commission
Attn: Legal
Union Station, Second Floor
2 Washington Square
Worcester, MA 01604

Cause Notice of Noncompliance). Check the box below to confirm that you are attaching the Notice for which you are seeking a hearing to this Hearing Request Form.

☑ The Notice/Order received from the Cannabis Control Commission that is the subject of my request for a hearing is attached.

**Part 4: Basis for Hearing**

Please: (1) identify each issue and fact in dispute; and (2) state your position with respect to those issues and facts, the pertinent facts to be addressed at the hearing, and the reasons supporting your position. If necessary, you may attach additional pages to complete this response. The failure to state the basis for of the hearing request will result in dismissal of the challenge to the findings set forth in the notice of violation(s) or action(s).
See the attached PDF Document

**Part 5: Representation**

Simultaneously with filing this Hearing Request Form, you or your Authorized Representative must file a Notice of Appearance form. A blank Notice of Appearance form is available on the Hearings page of the Commission's website.

**Part 6: Signature and Information**

I swear or attest under the pains and penalties of perjury that the information provided as part of this request for a hearing is true and accurate to the best of my knowledge and understanding.

**Count I – Violation of 935 CMR 500.104(5)**
***(Failure to Notify Commission of ISO Accreditation Suspension and Withdrawal)***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT I
The Testing lab has maintained ISO-17025 compliance since 2021 and is in compliance today. During a brief period of 2 months in 2023, the lab had a cash flow problem and chose to delay paying PJLA for the most recent ISO audit. The lab maintained ISO compliance during all of 2023. The executive management of PJLA issued a letter to Massbiolytics that ISO-17025 compliance was maintained at all times and never lapsed and that the past financial matter has been resolved. The lab was working on that financial matter for PJLA when the inspection occurred. The lab had continued to perform testing under full ISO-17025 compliance and all products were tested and reported accurately at that time. There was never a complaint by any client. There was never a compromise in quality or safety to the Cannabis products tested. There was never a danger to the public from any products tested. The lab did not believe that a late payment issue should have caused this extreme and unnecessary action by PJLA but the lab intended to rectify the issue quickly. Because there was no change to the lab performance and it maintained accreditation compliance that this did not warrant notifying the CCC because it would all be rectified soon and PJLA would then reverse its position. This in no way reflected management's position and cooperation with the CCC but was simply a different view and a different interpretation as to maintaining or losing its operational safely as an

ISO-17025 accredited testing lab. Our position is that this was a business issue and not a compliance issue.
Our position is that this count is not true.

**Count II – Violation of 935 CMR 500.050(7)(a)**
**(*Conducting Testing without a Valid Accreditation*)**
POSITION OF LICENSEE MASSBIOLYTICS- COUNT II
The Testing lab has maintained ISO-17025 compliance since 2021 and is in compliance today. During a brief period of 2 months in 2023, the lab had a cash flow problem and chose to delay paying PJLA for the most recent ISO audit. The lab maintained ISO compliance during all of 2023. The executive management of PJLA issued a letter to Massbiolytics that ISO-17025 compliance was maintained at all times and never lapsed and that the past financial matter has been resolved. The lab was working on that financial matter for PJLA when the inspection occurred. The lab had continued to perform testing under full ISO-17025 compliance, and all products were tested and reported accurately at that time. There was never a complaint by any client. There was never a compromise in quality or safety to the Cannabis products tested. There was never a danger to the public from any products tested. The lab did not believe that a late payment issue should have caused this extreme and unnecessary action by PJLA but the lab intended to rectify the issue quickly. Because there was no change to the lab performance and it maintained accreditation compliance that this did not warrant notifying the CCC because it would all be rectified soon and PJLA would then reverse its position. This in no way reflected management's position and cooperation with the CCC but was simply a different view and a different interpretation as to maintaining or losing its operational safely as an ISO-17025 accredited testing lab. Our position is that this was a business issue and not a compliance issue.
Our position is that this count is not true.

**Count III – Violation of 935 CMR 500.450(2)**
***(Providing False Information to the Commission***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT III
The lab maintains that it had notified customers that there was a payment issue to PJLA temporarily affecting its accreditation but the lab was always operating in full compliance and testing their products correctly. This was an attempt to both inform the client of temporary change and to collect money for overdue testing invoices. This was however not documented.

A lab agent application for Stephen Sockol was filled out by Craig Sockol in Dec 2024. At that time, Craig Sockol had assumed that there was only a single past misdemeanor that did not disqualify this candidate from a position as a lab agent. The application was reviewed by the CCC who instructed the applicant that it had completed its reviewe and then proceed to submit fingerprints. Then for many months with numerous written attempts and calls by Craig Sockol to ask the CCC about why it had not issued the license and why it continually had not responded to this application. Finally in Sept 2025 the agent license was granted and submitted. If there was an issue with this candidate, the CCC licensing should have either inquired immediately, or denied or issued an agent license. A lab cannot operate effectively without hiring trained staff. This creates a major hardship and may jeopardize the quality of the test results.
Our position is that this count is not true.

**Count IV – Violation of 935 CMR 500.110(5)(a)**
***(Failure to Comply with Minimum Surveillance System Requirements***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT IV
Massbiolytics does not agree with this allegation. We provided 90 day coverage at all inspections. Images from 90 days past have always been produced and submitted to the CCC inspector.
The blind spot was minimal, but it has been investigated and a correction was made resulting in a blind spot reduction.
The time stamp was occasionally off by an hour due to the daylight savings time changes.
The dumpster was moved suddenly from the original spot by the landlord who has since placed a camera on it.
The inspection of April 8th 2025 resulted in a NOD report that had just 2 deficiencies of which neither indicated a deficiency with minimum surveillance systems.
Our position is that this count is not true.

**Count V – Violation of 935 CMR 500.110(5)(f) and 935 CMR 500.110(10)**
***(Failure to Comply with Monthly and Annual Security Inspection and Audit Requirements)***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT V
Massbiolytics has conducted internal Security Audits on regular basis. Sometimes the time interval may have stretched a little longer than 1 month, but audits have been performed correctly and diligently.
A search for a company is ongoing to perform regular annual audits. The inspection of April 8th 2025 resulted in a NOD report that had just 2 deficiencies of which neither indicated a deficiency for security inspection requirements.

**Count VI – Violation of 935 CMR 500.110(4)(e)**
***(Failure to Maintain an Accurate Laboratory Visitor Log)***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT VI
Massbiolytics has accurately maintained a visitors log since October 2023 and maintained a visitors log prior to this inspection. All visitors have been logged in correctly and accurately.
When manifests of sample transport have been submitted, the transport driver's name is documented so that the log recording can trace back to the driver. The times and dates are accurate and surveillance footage supports this. The inspection of April 8th 2025 resulted in a NOD report that had just 2 deficiencies of which neither indicated a deficiency for maintaining a visitor's log.
Our position is that this count is not true.

**Count VII – Violation of 935 CMR 500.105(12)(a)**
***(Failure to Prevent Unauthorized Access to Marijuana Waste)***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT VII
Prelicensing inspections of Massbiolytics approved a shared dumpster with the company and some tenants of the facility. The dumpster is locked and Massbiolytics and a few others have keys to the dumpster. The Marijuana waste as disposed of by Massbiolytics is inactivated and rendered unusable prior to being disposed of in a locked dumpsters. Because the dumpster was shared, Massbiolytics was not in full control. Occasionally Massbiolytics had observed that the lock was off and immediately reported this to the landlord. All waste disposal activity was halted until the

dumpster's was locked in position. The inspection of April 8th 2025 resulted in a NOD report that had just 2 deficiencies of which neither indicated a deficiency for failure to prevent unauthorized access to cannabis waste.
Our position is that this count is not true.

**Count VIII – Violation of 935 CMR 500.450(4)**
***(Failure to Implement Plans of Correction)***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT VIII
Massbiolytics has taken much time and effort to prepare, plan and implement its plans of correction. Corrective or ongoing compliant actions made since the 1st post license inspection in October 2023 include. maintaining the visitors log, maintaining the security system including performing timely audits, maintaining inventory, performing waste disposals, implementing staff training, applying for agent licenses. Maintaining ISO -17025 accreditation compliance at all times, keeping the lab in a clean and tidy orderly condition. The inspection of April 8th 2025 resulted in a NOD report that had just 2 deficiencies of which neither indicated a failure to correct any past deficiencies or failure to implement corrections. Prior deficiencies were not listed because they were most likely not found.
Our position is that this count is not true.

**Count IX – Violation of 935 CMR 500.450(7)(a)**
***(Failure to Maintain an Independent Testing Laboratory in a Clean, Orderly, and Sanitary Fashion)***
Massbiolytics has maintained an orderly and sanitary and a generally clean lab. There are no major inventory record keeping discrepancies that exist. Quarantine areas are clearly indicated. The lab is sanitary at all times. The CCC inspector should know that this is working lab and work is always in progress when they inspect. A cleaning service had been hired to come in monthly and clean the lab. All staff attempt to keep the lab orderly and organized. The inspection of April 8th 2025 resulted in a NOD report that had just 2 deficiencies of which neither indicated a failure to maintain the lab in a clean or orderly fashion.
Our position is that this count is not true.

**Count X – Violation of 935 CMR 500.450(7)(f)**
***(Incompetent Operation of an Independent Testing Laboratory***
POSITION OF LICENSEE MASSBIOLYTICS- COUNT IX
Massbiolytics usually keeps the door closed to the hallway, but sometimes open.
The shared dumpster was approved by the CCC prior to licensing.
Management has allowed computer login for its limited number of employees.
Other combinations and passwords are not available unless specifically provided by management.
All the above counts have been responded to.
Expired reagents are disposed off or the expiration is extended by the lab director and then re-labelled. Personnel records for Robert Kearns do contain CORI and training and RVT. They are in the file. We do not believe an RFID scan is reliable to accurately detect inventory.
Inventory is maintained at Massbiolytics accurately.
The transport of Marijuana was once only in the parking lot to the dumpster because my knee was in pain. As indicated in the above responses, the management of Massbiolytics lab has run the lab correctly and with a strong attempt to maintain compliance and respond to the CCC. There has never

been a danger or risk to the public. Management has always been truthful to the best of their knowledge. This is a competent independent testing lab operation.
Our position is that this count is not true.

**Subject:** Re:Fwd: Today's Hearing

Good Afternoon,

We were hoping to discuss MassBiolytics' supplemental response during today's hearing.

Would you be willing to grant a short courtesy extension on the supplemental response as our office has just recently been retained and need additional time to get acclimated to the case.

Thank you,

**Sabrina Peace, Esq.**

Attorney Boudreau:

I am in receipt of your email relative to CCC's availability for Monday at 2pm. If the CCC intends to move for dismissal or seek other relief for failure to provide the supplemental response as listed in the tracking order, it can be addressed at the PHC when it is held.

Once I hear from all parties on their availability, I will provide everyone with the PHC finalized date and time.

All parties have been included on this email.

Respectfully
Thomas Ralph
Hearing Officer

RE: Proposal to Replace Canopy-Based Cultivation Tiers with Annual Production-Weight Tiers Under 935 CMR 500 and 935 CMR 501

This memorandum recommends that the Cannabis Control Commission (Commission) amend 935 CMR 500 and 935 CMR 501 (collectively "the Regulations") to replace the current canopy-based (square footage) tier system for Marijuana Cultivator licenses with a production-weight tier system measured in grams of dried flower produced annually and monitored quarterly. The current framework, which ties license tiers to the maximum square footage of flowering canopy, was adopted on the assumption that physical area would be easier to audit than output; but canopy is itself difficult to measure accurately, the metric captures capacity rather than output, the tier-relegation process is ambiguous, and the framework diverges from the metric that actually drives market impact: the quantity of cannabis entering the supply chain. An annual weight-based system would more precisely regulate production, simplify compliance, and align the Commission's oversight with the economic reality of cannabis cultivation.

## I. The Problem with Canopy as a Regulatory Metric

A. Canopy Measures Capacity, Not Output

Under the Regulations, "Canopy" is defined in terms of the area of flowering plants. License tiers under 500.050 are assigned based on the maximum square footage of this canopy. The fundamental issue is that canopy area is a proxy for production, not a direct measure of it. Two cultivators holding identical tier licenses can produce vastly different quantities of cannabis depending on strain genetics, cultivation technique, lighting intensity, plant density, and harvest frequency.

Multiple independent industry sources document this variability. A Cannabis Business Times survey of commercial cultivators found that yield per square foot ranged from less than 20 g/ft$^2$ to over 60 g/ft$^2$, with the average across surveyed operations resting at 39.5 g/ft$^2$; a threefold spread among licensed commercial growers operating under comparable regulatory frameworks.[1] Consultants have advised that start-up operations should expect approximately 35 grams of dried flower per square foot per harvest, that established

[1] *CBT Staff, "Measuring Yield," Cannabis Business Times*, Oct. 6, 2016. Survey of commercial cultivators finding yield per square foot ranged from <20 g/ft² to >60 g/ft², averaging 39.5 g/ft². Available at: https://www.cannabisbusinesstimes.com/home/article/15699459/measuring-yield

operations with refined genetics and protocols should expect 50 to 70 grams, and that yields exceeding 100 grams per square foot are achieved by very few cultivators.[2]

In practical terms, a Tier 3 indoor cultivator (20,000 sq. ft.) could produce anywhere from 400,000 grams to over 1,200,000 grams per harvest depending on skill and method, a threefold range under the same license. The canopy cap does not actually constrain how much cannabis enters the market; it constrains only how much physical space is devoted to flowering plants at any given moment.

The RAND Corporation's analysis of cannabis production economics confirmed the structural basis for this variability: indoor operations maximize yield per square foot by planting densely and harvesting while plants are smaller, running multiple harvests per year, while outdoor operations space plants widely, grow them to much larger sizes, and harvest once annually.[3] The same canopy footprint thus yields fundamentally different volumes of product depending on the cultivator's chosen method.

B. Canopy Is Borrowed from Agriculture but Misapplied as a Regulatory Cap

Canopy measurement is an established tool in mainstream U.S. horticulture, but it is used by growers and researchers to manage their own operations, not by regulators to cap production. Canopy measurement is an operator tool for yield prediction, irrigation scheduling, and pruning decisions. No alcohol regulator caps a vineyard by its canopy density. No orchard licensing body limits an apple grower's canopy projection area. Where agricultural regulators have historically imposed area-based production limits, such as the EU vine planting authorization system or the now-defunct U.S. tobacco acreage allotment program, those systems measured planted ground area (acreage), not canopy. Cannabis appears to be the only agricultural sector in which regulators use canopy area specifically as a production-capacity cap and licensing tier.

The presumed justification for this approach is that physical area should be easier to verify than production weight. In practice, however, canopy is not straightforward to measure. The Commission's own definition of Canopy in 935 CMR 500.002 implicitly acknowledges this complexity by specifying that "[i]f Flowering and/or Vegetative plants larger than eight inches tall and eight inches wide are being cultivated using a shelving system, the surface area of each level shall be included in the total Canopy calculation." A canopy figure is not

simply the floor area of a grow room; it requires accounting for vertically tiered shelving, distinguishing flowering plants from immature plants that fall below the size threshold, identifying and subtracting walkways and fallow areas, and determining where canopy boundaries begin and end as plants grow into and out of demarcated zones throughout a cultivation cycle. These measurements shift as plants develop, as cultivators rotate between flowering and vegetative areas, and as canopy boundaries expand or contract over time. The result is that the metric chosen for its supposed ease of inspection is itself subject to ongoing measurement disputes, inspector judgment calls, and cultivator gaming, while still failing to tell the regulator how much cannabis was actually produced. A weight recorded in the seed-to-sale tracking system at a defined post-harvest point, by contrast, is a single objective number that does not change after it is entered.

C. The Tier Relegation Standard Is Ambiguous

Section 500.050(2)(d) authorizes the Commission to reduce a licensee's canopy tier if the licensee "sold less than 70% of what it produced" during the relevant review period. This standard raises several interpretive problems that a weight-based system would resolve. "Produced" is undefined at the measurement level. Cannabis is weighed at multiple points: at harvest (wet weight), after drying, after curing, and after trimming and processing for sale. Weight decreases substantially at each stage. The regulation does not specify which measurement constitutes what was "produced." The treatment of plant waste is unaddressed. Stems, fan leaves, and trim are byproducts of every harvest. Whether they count toward what was "produced" is not specified, yet the answer materially affects whether a cultivator crosses the 70% threshold.

The Commission currently calculates what was "produced" using the METRC harvest report. Staff subtracts waste (column G) and moisture loss (column J) from the wet harvested weight (column F). This formula is not supported by the Regulations and could be contested by Licensees if the Commission used this methodology as a basis for enforcement action. Importantly, this methodology explicitly uses weight, not square footage, as its measurement device.

An annual production-weight system, with quarterly monitoring, would eliminate these ambiguities by defining the relevant measure explicitly; grams of dried, trimmed flower as recorded in the seed-to-sale tracking system at a designated point in the post-harvest process and by tying tier status directly to what was produced rather than to what was sold.

## II. Advantages of Weight-Based Tiers

A weight-based system offers several concrete advantages over the status quo. It directly regulates the variable the Commission cares about: how much cannabis enters the

market. Canopy is at best a proxy for this; production weight is the thing itself. The metric is already captured in the seed-to-sale tracking system, so compliance verification does not require physical inspection of canopy boundaries, it can be audited from existing data. The system eliminates the interpretive problems embedded in the current relegation standard by defining "production" at a specific, unambiguous point in the post-harvest process. It also removes the incentive structure created by canopy limits, under which cultivators are rewarded for maximizing output within a fixed footprint regardless of quality, market demand, or resource efficiency. Under a weight-based system, a cultivator who chooses to produce less, focusing on premium flower, for instance, is not penalized for underutilizing canopy space.

A weight-based system also resolves a latent gap in the current application process. The Regulations require applicants to submit a floor plan identifying the square footage available and describing the functional areas of the establishment, but they do not expressly require an applicant to demonstrate that the premises can physically accommodate the canopy footprint of the tier the applicant has selected. Under 500.050(2)(b), the applicant "shall select a cultivation tier," and the Commission relies on inspection and downstream METRC data to catch mismatches. Under a weight-based system, this verification problem disappears. The Commission does not need to know whether a facility is physically large enough for its selected tier; it only needs to know whether annual production has exceeded the licensed amount, which METRC records definitively.

The framework also better serves the Commission's equity objectives. Weight-based tiers are agnostic to how much space or capital an operator has. A Social Equity Program participant operating a small vertically-racked microbusiness that produces high-quality flower is measured on the same basis as a large multi-state operator: grams produced. Small footprints, premium-flower strategies, and space-efficient cultivation methods are no longer penalized relative to sprawling operations, and cultivators can plan investments and expansions around a predictable, quantifiable ceiling.

No other major agricultural industry uses canopy area as a production cap. Where regulators in other sectors limit output, they do so through harvest quotas, acreage allotments, or production-weight limits. Cannabis regulation would be better served by adopting the approach used in virtually every other regulated agricultural context: measuring what is actually produced, not the space in which it is grown.

## III. Current Market Conditions and Commission Response

The average retail price per gram of adult-use cannabis has fallen from $14.09 when legal sales began in November 2018 to $5.36 in April 2024, a 62% decline. The per-ounce price followed the same trajectory, dropping from $401.50 to $153.73 over the same period.[4] By December 2025, the average retail price per ounce had reached a record low of $113.68, down 72% from December 2020.[5] As of January 2026, the per-gram price stood at $4.05.[6]

This price erosion has occurred alongside rapid expansion of licensed cultivation capacity. As of December 2025, active Marijuana Cultivators and Microbusinesses had the capacity to grow up to 4.57 million square feet of cannabis canopy, with an additional 700,000 square feet pending.[7] The total number of licensees across all types rose from 223 in July 2023 to 686 by January 2026. Twenty-four licensees have been placed into court-appointed receivership.

In response to these market conditions, the Commission voted to impose a 120-day moratorium on new cultivation permits, effective June 16, 2026.[8] The freeze applies to new Marijuana Cultivator applications, with exceptions for applications submitted before the effective date and for microbusiness applications from Social Equity Program participants and Economic Empowerment Applicants. The Commission also began reviewing cultivators at annual license renewal to utilize tier relegation under 500.050(2)(d) for the first time.

These are significant interventions, but both actions expose the limitations of the canopy-based framework. The Commission can reduce individual cultivators' canopy, but it has no mechanism to set or enforce a ceiling on total production across the industry.

[7] Cannabis Control Commission, "Massachusetts Adult-use Cannabis Sales Generated $1.65 Billion Total in 2025," Jan. 9, 2026. Available at: https://masscannabiscontrol.com/2026/01/massachusetts-adult-use-cannabis-sales-generated-1-65-billion-in-2025/

[8] MJBizDaily, "Massachusetts Halts Cannabis Cultivation Permitting, but Doubles Retail Cap," June 18, 2026. Available at: https://mjbizdaily.com/news/massachusetts-caps-cannabis-cultivation-expands-retail/616537/

A weight-based tier system would give the Commission a tool it currently lacks: the ability to control the maximum amount of cannabis a new licensee could bring to the market. This approach is more precise, more flexible, and more equitable than a licensing freeze. A moratorium halts all new entry regardless of whether a prospective cultivator would operate efficiently or serve an underserved market segment. A weight-based license, by contrast, manages total output while preserving the Commission's ability to issue new licenses. It also gives existing cultivators clearer market signals: a weight-based license allows businesses to plan production and investment against a known regulatory constraint rather than reacting to ad hoc freezes.

Critically, a weight-based license is measurable and enforceable using data the Commission already collects. METRC records every harvest. Production can be monitored on a quarterly basis and evaluated against the licensee's annual cap using existing data fields. A canopy-based license, by contrast, would require the Commission to estimate production from area, the very exercise this memo has shown to be unreliable, given the threefold yield variability documented across commercial operations. The Commission cannot rationally manage statewide supply in grams by regulating inputs in square feet.

## IV. The Proposed Framework: Annual Production-Weight Tiers with Quarterly Monitoring

Under the proposed system, cultivation license tiers would be defined by maximum grams of dried cannabis flower a licensee is authorized to produce per calendar year, rather than by maximum canopy square footage.

The Commission should codify in regulation the methodology currently used by the enforcement and investigation units, determining the weight produced from the final dried flower minus the waste and moisture losses. This eliminates ambiguity about wet versus dry weight and the treatment of waste. Indoor and outdoor cultivators would be held to the same annual production limits. The Commission would monitor production on a quarterly basis, using running METRC data to identify licensees approaching or exceeding their annual cap in advance of year-end, providing a more granular and timely regulatory signal than the current six-month or harvest-season review window. A weight-based system is indifferent to canopy configuration; a cultivator may use a sea-of-green, vertical racking, or any other method, so long as total annual output does not exceed the licensed amount.

The proposed tier structure is set out below. The tiers were calibrated using METRC production data from existing cultivators for the twelve-month period from Q3 2025 through Q2 2026, and are designed to accommodate the current distribution of licensee production levels while providing clear ceilings for each tier.

| Tier | Maximum Annual Output (Indoor or Outdoor) | App. Fee Indoor | App. Fee Outdoor | Annual License Fee — Indoor | Annual License Fee — Outdoor |
|---|---|---|---|---|---|
| 1 | up to 5,000 kg | $200 | $100 | $1,250 | $625 |
| 2 | up to 10,000 kg | $400 | $200 | $2,500 | $1,250 |
| 3 | up to 15,000 kg | $600 | $300 | $5,000 | $2,500 |
| 4 | up to 20,000 kg | $2,000 | $1,500 | $20,000 | $10,000 |
| 5 | up to 25,000 kg | $2,000 | $1,500 | $22,500 | $11,250 |
| 6 | up to 30,000 kg | $2,000 | $1,500 | $25,000 | $12,500 |
| 7 | up to 35,000 kg | $2,000 | $1,500 | $30,000 | $15,000 |
| 8 | up to 40,000 kg | $2,000 | $1,500 | $35,000 | $17,500 |

*Table: Proposed Cultivation Tier Structure (Annual Production Weight). Application and annual license fees shown for indoor (I) and outdoor (O) operations.*

New applicants, who by definition have no prior production history under METRC, would select a starting tier at the time of application and would be subject to that tier's annual cap as of the effective date of their final license. The Commission may adjust an applicant's starting tier during the licensing process where the applicant's business plan, capital resources, or facility capacity indicate that a different tier is warranted. Existing licensees would be transitioned to the weight-based tier corresponding to their actual production over the preceding twelve months, as discussed in Section VI.

## V. Provisions of 935 CMR 500 and 935 CMR 501 Requiring Amendment

Transitioning to a weight-based tier system will require amendments to the following provisions of the Regulations, along with their parallel provisions in 935 CMR 501 governing Medical Marijuana Treatment Centers:

1. 935 CMR 500.002: Definition of "Canopy." The existing definition should be supplemented or replaced with a definition of "Annual Production Limit" (or equivalent term), defined as the maximum weight in grams of dried, trimmed cannabis flower a licensee is authorized to produce per calendar year. The canopy definition may be retained for premises-related regulatory purposes but would no longer serve as the basis for tier classification.

2. 935 CMR 500.002: Definition of "Outdoor Cultivation." The current definition references canopy. It should be reviewed to ensure it does not implicitly incorporate canopy-based limits.

3. 935 CMR 500.005(1)(d): Tier Fee Structure. License fees currently scale with canopy-tier size. The fee schedule must be recalibrated to correspond to the proposed weight-based tiers as set out in Section IV.

4. 935 CMR 500.050(1)(b)(5), (8), and (9)(c): Application Requirements. Application provisions currently referencing canopy dimensions must be amended to require a projected annual production estimate in grams, along with the cultivation methods and operational plan supporting that estimate.

5. 935 CMR 500.050(2)(b): Tier Selection. The provision governing tier selection must be revised to reflect selection based on annual production weight rather than canopy square footage.

6. 935 CMR 500.050(2)(c): Tier Expansion. The tier expansion process, which currently relies on canopy-based classification and the "85%" sold threshold, should be replaced with a production-weight based expansion mechanism or eliminated as no longer necessary.

7. 935 CMR 500.050(2)(d): Tier Relegation. This provision requires the most substantive revision. The current standard, reducing a licensee's tier if it "sold less than 70% of what it produced", should be replaced with a direct production-cap enforcement mechanism, or eliminated in favor of the automated quarterly monitoring of annual caps contemplated by the new framework.

8. 935 CMR 501: Parallel Amendments. Corresponding provisions of 935 CMR 501 governing MTC cultivation activities must be amended in parallel to maintain consistency across the adult-use and medical-use frameworks.

## VI. Implementation Considerations

The seed-to-sale tracking system already captures harvest weights at multiple stages. Implementing a weight-based tier would require the Commission to designate a single official measurement point. Most of this infrastructure already exists; the change is primarily definitional and regulatory rather than technological.

The transition should affect existing licensees as little as possible. Several implementation issues warrant the Commission's consideration:

First, as illustrated by the METRC data referenced in Section IV, the Commission already possesses data on what each licensee currently produces. Existing licensees should be automatically transferred into the tier that matches their trailing twelve-month production. Any cultivator whose production is within 20% of the maximum of their assigned tier should be moved to the next tier up, except for operators already at the highest tier.

Second, this tier structure may change the annual license fee for existing operators. Licensees should have the option to voluntarily elect a lower tier during the two quarters following promulgation of the amended regulations, so that operators who intend to reduce production are not locked into a higher fee obligation.

Third, the Commission should publish clear guidance for enforcement staff explaining how production is calculated and monitored on a quarterly basis for compliance with annual tier caps, so that licensees and staff apply the same methodology.

## VII. Recommended Votes

The Commission is asked to take the following actions:

- That the Executive Director, under the delegated authority to renew license applications, shall flag for the Commissioners any cultivation license renewal application that is below 70% of the existing tier relegation calculation per existing regulations, but shall not remove said license renewal application from the Executive Director's renewal checklist on the basis of the 70% calculation alone.

- That the Executive Director direct the Legal Department to draft modifications to 935 CMR 500 and 935 CMR 501 consistent with this memorandum for consideration by the Commission at its September 2026 meeting.

- That the sections of the Regulations defining the processes for "Tier Expansion" and "Tier Relegation" be deleted within the next round of regulatory promulgation with the exception of licensees requesting voluntary relegation or expansion.

- That the Legal Department review the Regulations to remove the use of the term "canopy" and replace it with weight-based terms such as grams or kilograms of annual production, except where canopy remains relevant for non-tier purposes, and provide a red-line version for the Board's review at the Sept. 2026 meeting.

- That the Legal Department draft a penalty section imposing appropriate fines on licensees that produce more cannabis than their tier permits for the Board's review at the Sept. 2026 meeting.

- That, upon the passage of revised regulations, the licensing schedule be modified to reflect the weight-based licensing scheme discussed in this memorandum, and further that the Executive Director direct the Licensing and Enforcement Departments to prepare a memorandum explaining how this regulatory change will be implemented, specifically identifying how a weight-based system will change the review of cultivation license applications.

Cannabis Control Commission
COMMONWEALTH OF MASSACHUSETTS

**Regulatory Provisions Impacted by Eliminating Tier-Based Canopy Licensing**

**I. 935 CMR 500.000 – Adult Use**

**500.002 – Definitions**

**Impacted**

- Canopy definition may need revision depending on whether canopy remains the measurement method.
- Outdoor Cultivation definition may need revision if licensing is no longer based on canopy size.
- Tier terminology throughout definitions should be removed.

**500.005 – Fees**

Current regulations establish:

- Tier 1–11 application fees
- Tier 1–11 annual license fees
- Craft Cooperative fees based on canopy tier
- Microbusiness fee structure based on Tier 1 cultivation
- Applicants select a cultivation tier during licensure

**500.050 – Marijuana Establishments – Would require revisions throughout as many of the regulations are tied to the 100,000 maximum canopy cap limit.**

**Marijuana Cultivator**

Would require revisions to:

- Tier classifications (Tier 1–11)

- License classes
- Tier Expansion
- Tier Relegation
- Tier Factors

**Craft Marijuana Cooperative**

Would require revisions to:

- License fees
- Tier classification
- Tier Expansion
- Tier Relegation
- Tier Factors
- Multiple cultivation location fee calculations

**Marijuana Microbusiness**

Current regulation limits cultivation to:

Tier 1 Marijuana Cultivator

This provision would require amendment if tiers no longer exist.

**500.101 – Application Requirements**

Would require revisions because applications currently require:

- Cultivation tier selection
- Tier-based information
- Fee calculations
- Canopy classification

Energy compliance provisions also reference Tier 1 and Tier 2 Microbusinesses and Craft Cooperatives.

**500.102 – Action on Applications**

Indirect impact.

Application review procedures currently rely upon the selected cultivation tier for approval.

**500.103 – Licensure and Renewal**

Would require revisions because:

- Renewal currently evaluates tier status.
- Updated energy compliance documentation references Tier 1 and Tier 2 facilities.
- License fee calculations depend upon cultivation tier.

**500.104 – Notification and Approval of Changes**

Current amendment process includes:

- Tier changes
- Canopy expansion approvals
- Reduction of canopy
- License amendments

If tiers disappear, a completely new canopy modification process would be required.

**500.120 – Additional Operational Requirements for Cultivators**

Operational requirements that reference:

- Tier classifications
- Tier-dependent energy compliance
- Canopy calculations would require review.

The operational cultivation requirements themselves may remain largely unchanged.

**Control Limitations**

Current regulations limit:

- 100,000 sq. ft. maximum canopy

- Distributed among cultivation licenses

**II. 935 CMR 501.000 – Medical Use**

**501.005 – Fees**

Medical cultivation fees tied to cultivation tiers would require revision.

**501.050 – Medical Marijuana Treatment Centers**

Major revisions required.

Current provisions include:

- Tier 1–11 classifications
- Initial tier selection
- Tier Expansion
- Tier Relegation
- Tier Factors

**501.100 / 501.101 – Application Requirements**

Applications currently require:

- cultivation tier
- canopy designation
- fee calculation

Would require revision.

**501.103 – Licensure and Renewal**

Renewal currently incorporates tier-related cultivation review.

Would require amendment.

**501.104 – Notification and Approval of Changes**

Tier change amendments would no longer exist.

A replacement canopy modification process would be necessary.

**501.120 – Operational Requirements**

Operational provisions referencing cultivation tiers or tier-based compliance would require revision.

**III. Indirect Administrative Impacts (Outside the Regulations)**

Although not regulatory text, eliminating tiers would also require updates to:

- MMJOS
- MassCIP
- Online licensing applications
- License certificates
- Renewal forms
- Amendment forms
- Standard Operating Procedures (SOPs)
- Guidance documents
- Internal workflows
- Public-facing webpages
- Fee calculators
- Reporting and data dashboards
- Seed-to-sale licensing workflows

Cannabis Control Commission
COMMONWEALTH OF MASSACHUSETTS

Neamat, LLC
290 Millville Road
Uxbridge, MA 01569

**MC282693; Case No. ENF-2022-0000001179**

# FINAL ORDER AND STIPULATED AGREEMENT

This Final Order and Stipulated Agreement (herein, "Order") between the Commonwealth of Massachusetts Cannabis Control Commission (the "Commission") and Neamat, LLC ("Respondent") (together, the "Parties") is offered for the purposes of settlement and in lieu of **further administrative action. The Commission finds that resolution of this matter serves the** purposes of M.G.L. c. 94G, 935 CMR 500.350, 500.450, and 500.500 because Respondent has accepted responsibility for the violations set forth in this Order and has no other record of compliance infractions.

Accordingly, the Commission and Respondent stipulate to the following facts of record, applicable law, findings, and remedies:

1. The Commission has jurisdiction over the conduct and operations of licensed Marijuana Establishments ("MEs") and the subject matter herein pursuant to the provisions of the Commonwealth's marijuana laws, St. 2016 c. 334 § 76, M.G.L. c. 94G, and 935 CMR 500.000 ***et seq.***;

2. The Commission may rely on its statutory and regulatory authority to conduct investigations of compliance with Commission laws, impose fines on the holder of a **license, or otherwise restrict a license;**

3. In accordance with its statutory mandate, the Commission has adopted regulations for the administration, clarification and enforcement of laws regulating and licensing marijuana **establishments which include the following:**
    a. Methods and forms of application which an applicant for a license shall follow and complete before consideration by the commission. M.G.L. c. 94G § 4(a½)(i);
    b. A schedule of application, license and renewal fees in an amount necessary to pay **for all regulation and enforcement costs of the commission. M.G.L. c. 94G §** 4(a½)(ii);
    c. Standards for the licensure of marijuana establishments, including, but not limited to updating that licensure. M.G.L. c. 94G § 4(a½)(v); and
    d. **Creating a schedule of cultivator license fees commensurate with cultivation size.** M.G.L. c. 94G § 4(a½)(xxvii).

## Facts of Record

4. Respondent is an adult-use Marijuana Establishment located at 290 Millville Road Uxbridge, MA 01569. Respondent is currently licensed to operate as an Outdoor Marijuana Cultivator utilizing a Tier 3 Canopy;

5. On or around May 5, 2020, Respondent submitted a Marijuana Cultivator license application to the Commission. The Commission deemed the application complete on May 21, 2020;

6. On August 6, 2020, the Commission issued a Provisional License to Respondent to operate as a Tier 9 outdoor Marijuana Cultivator, which allowed cultivation using a Canopy of 70,001–80,000 square feet ("SF");

7. On August 10, 2020, Respondent submitted a Voluntary Tier Relegation Form. As the reason for requesting relegation, Respondent stated they "were unclear how canopy was to be calculated for outdoor cultivation when we applied. We have just over 3 acres of an **enclosed, fenced area, however, our designated canopy [...] will be 19,367 SF. That is** calculated by the surface area of the trenches or garned [sic] beds only";

8. On August 12, 2020, Investigator Michael McCarthy ("McCarthy") conducted a due **diligence review of Respondent's Tier Relegation request. McCarthy recommended the** request be approved;

9. On August 27, 2020, the Commission's Executive Director approved Respondent's **request to change operations from Tier 9/Outdoor to Tier3/Outdoor. Respondent's new** authorized tier was 10,001–20,000 SF of Canopy;

10. On October 12, 2020, staff of the Commission's Investigations and Enforcement **Department ("Enforcement") conducted a post provisional license inspection ("PPLI").** During the PPLI inspection, Respondent assured Enforcement staff that its Canopy would not exceed Tier 3;

11. **On February 5, 2021, the Commission issued a Final License to Respondent as a Tier 3** outdoor Marijuana Cultivator. As a condition of final licensure, Respondent was permitted to cultivate, harvest, possess and acquire Marijuana, but could not sell or transport Marijuana to other Marijuana Establishments;

12. Respondent began its planting season on June 1, 2021, and planted in excess of its licensed cultivation tier on or around July 15, 2021;

13. On July 28, 2021, Respondent submitted a Tier Expansion Request Form seeking to increase its cultivation tier to a Tier 4 Canopy. A Tier 4 cultivation license allows a Marijuana Establishment to cultivate Marijuana using a Canopy area of 20,001–30,000 SF;

14. On August 9, 2021, the Commission denied Respondent's Tier Expansion Request because Commission regulations require licensees to demonstrate eligibility through sales data while operating at the higher end of their cultivation tier and Respondent had not yet commenced full business operations. As a result of the Commission's decision, Respondent's license to cultivate Marijuana remained limited to use in a Tier 3 Canopy;

15. On September 29, 2021, Enforcement staff conducted a Post-Final License Inspection ("PFLI") on the licensed premises;

16. While conducting the PFLI, Enforcement staff measured the cultivation area and determined that the size of Respondent's Canopy was 35,525 SF. Enforcement's technique for measuring the cultivation area was to use the static distance between the T-posts in each row for the area width (five feet) multiplied by the length of each plant row, which varied in distance;

17. Enforcement staff also discovered additional cultivation areas beyond the garden beds. Plants were found growing in five-gallon pots around a portion of Respondent's perimeter fence line;

18. Having determined that Respondent's canopy exceeded the maximum square footage permitted for a Tier 3 Marijuana Cultivator, Enforcement staff issued a Notice of Deficiency ("NOD") to Respondent on October 7, 2021, citing violations of 935 CMR 500.005(1)(c) and 935 CMR 500.050(2)(c);

19. On October 8, 2021, Respondent submitted a Plan of Correction ("POC"). In the POC, Respondent countered that, based on its calculations, its total Canopy area was 26,216 SF. The POC indicated the width of each row had been measured by the tilled garden bed, which was less than the width relied on by Enforcement staff in its calculation;

20. 26,216 SF exceeds the maximum Canopy area of 20,000 square feet allowed under Respondent's Tier 3 cultivation license;

21. On November 16, 2021, Respondent submitted an amended POC featuring an amended Canopy calculation based on the linear feet (LF) measured by Enforcement staff, or 7,105 LF. The amended POC restated that Respondent had measured its Canopy using a different identifiable boundary than the boundary chosen by Enforcement – Respondent's identifiable boundary was the width of each raised garden bed, which is 3.5 feet. Adopting Enforcement's calculation of 7,105 LF, Respondent calculated a difference of 24,867.50 (24,868 rounded up) SF of excessive Canopy, differing from its first Plan of

Correction identifying 26,216 SF of Canopy. As a result, Respondent claimed that its Canopy had exceeded its tier limit by 4,868 SF;

22. In its Amended Plan of Correction, Respondent also indicated that it had destroyed twenty percent of its "in-field" Canopy on November 2, 2021, and November 3, 2021, as a corrective measure for the overage. Towards that end, Respondent listed plants as "wasted" in the Commission's Seed to Sale System of Record ("Metrc");

23. Enforcement could not verify that Respondent had destroyed twenty percent of its in-field crops to correct the excessive Canopy because the Metrc record attributes plant destruction to other causes such as weather, plant death, root rot, plant weakness, or plants not being harvestable;

24. On December 9, 2021, Respondent, through legal counsel, provided a second amended POC, which reasserted Respondent's position that it cultivated at least 4,868 square feet of plants beyond its approved cultivation tier;

25. According to the amended POC, Respondent leveled the entirety of its garden beds on or around November 15, 2021, during its farming cycle. Respondent further asserted it has been operating within 20,000 SF of Canopy as of November 3, 2021;

## Applicable Law

26. An applicant for licensure as a Marijuana Cultivator must choose the tier at which it will be initially licensed. 935 CMR 500.005(1)(c); 935 CMR 500.050(2)(b);

27. Cultivation tiers are based on the square footage of Canopy. 935 CMR 500.050(2)(b);

28. Each applicant for licensure must pay the Commission a nonrefundable application fee and an annual license fee. 935 CMR 500.005(1)(a). For Marijuana Cultivator applicants, the application and annual license fee amounts depend on the cultivation tier and whether the applicant will operate as an indoor or outdoor cultivator. 935 CMR 500.005(1)(d);

29. A Tier 3 Canopy is 10,001–20,000 square feet. 935 CMR 500.050(1)(c)1.c. An applicant must pay an application fee of $300.00 and an annual license fee of $2,500 to pursue a Tier 3 outdoor cultivation license. 935 CMR 500.005(1)(d);

30. A Tier 4 Canopy is 20,001–30,000 square feet. 935 CMR 500.050(1)(c)1.d. For that cultivation tier, an outdoor Marijuana Cultivator applicant must pay an application fee of $1,500 and an annual license fee of $10,000. 935 CMR 500.005(1)(d);

31. Canopy is an area to be calculated in square feet and measured using clearly identifiable boundaries of all areas(s) that will contain Flowering and/or Vegetative plants larger than

eight inches tall and eight inches wide at any point in time, including all of the space(s) within the boundaries. 935 CMR 500.002;

32. Canopy may be noncontiguous, but each unique area included in the total Canopy calculations shall be separated by an identifiable boundary which includes, but is not limited to: interior walls, shelves, Greenhouse walls, hoop house walls, garden benches, hedge rows, fencing, garden beds, or garden plots. If Flowering and/or Vegetative plants larger than eight inches tall and eight inches wide are being cultivated using a shelving system, the surface area of each level shall be included in the total Canopy calculation. 935 CMR 500.002;

33. A Marijuana Cultivator may apply to the Commission to change its cultivation tier to either expand or reduce production. 935 CMR 500.050(2)(c); 935 CMR 500.050(2)(d);

34. If a Marijuana Cultivator submits an application to expand production, it shall demonstrate that while cultivating at the top of its production tier, it has sold 85% of its product consistently over the six months preceding the application for expanded production for an indoor cultivator, or during the harvest season prior to the application for expanded production for an outdoor cultivator. 935 CMR 500.050(2)(c);

35. Acceptance of a provisional or final license constitutes an agreement by the Marijuana Establishment that it will adhere to the practices, policies, and procedures that are described in its application materials, as well as all relevant laws, regulations, and any conditions imposed by the Commission as part of licensure. 935 CMR 500.103(2)(d);

## Stipulated Findings

36. The Commission, through its Executive Director, and Respondent have come to mutual agreement and understanding, and jointly propose to the Commission a resolution of the alleged violations in lieu of proceeding with an administrative hearing to determine the merits of such allegations. The terms and conditions of this Order are expressly subject to ratification of the full Commission. Pursuant to M.G.L. c. 10, § 76, three Commissioners shall constitute a quorum and the affirmative vote of three Commissioners shall be required for ratification of this agreement;

37. In lieu of proceeding with an administrative hearing and subsequent proceedings, Respondent further agrees to the stipulated findings set forth in Paragraphs 38–39, inclusive of all subparagraphs;

38. From July 15, 2021–November 3, 2021, Respondent conducted unauthorized cultivation operations under License No. MC282693, violating 935 CMR 500.005(1)(c), 935 CMR 500.050(2)(b), 935 CMR 500.050(2)(c) and 935 CMR 500.103(2)(d);
    a. On or around June 1, 2021, the Respondent began their planting season on June 1, 2021 and planted in excess of their tier on or around July 15, 2021;

b. On July 28, 2021, Respondent submitted a Tier Expansion Request to the Commission to expand their operations to tier 4;
c. On August 9, 2021, the Commission denied the Tier Expansion Request, and the **Respondent remained licensed at tier 3;**
d. On September 29, 2021, Enforcement staff measured the canopy and discovered the Respondent was operating as a tier 4 outdoor cultivator, in excess of their authorized tier. Enforcement staff also discovered plants growing in five-gallon **pots around a portion of Respondent's perimeter fence line.**
e. Respondent exceeded its canopy by 4,868 SF;
f. Respondent continued to operate at the tier 4 cultivation level until it harvested its plants on November 3, 2021;

39. From July 15, 2021–November 3, 2021, Respondent deprived the Commission of the annual licensing fee commensurate to the cultivation tier under which it operated, violating 935 CMR 500.005(1)(a) and 935 CMR 500.005(1)(d);
    a. The annual license fee for a tier 3 outdoor Marijuana Cultivator is $2,500 and the fee for a tier 4 outdoor Marijuana Cultivator is $10,000. The Commission was deprived of a difference of $7,500, prorated for the 111 days of Respondent's noncompliant operations ($7,500/365 = $20.5/day);
    b. $20.5 for 111 days of noncompliant operations amounts to $2,275 owed;
    c. Respondent harvested its plants, inclusive of the excessive Canopy, on November 3, 2021;

## Stipulated Remedy

40. Weighing Respondent's acknowledgement of cultivating above its licensed tier, and the **need for ongoing compliance oversight to ensure accurate canopy size and seed-to-sale** inventory tracking, Respondent further agrees to the stipulated remedies and terms set forth in Paragraphs 41–61, inclusive of all subparagraphs;

41. **Respondent shall submit to a twenty-four-month probationary period (the "probationary** period") for this license, which will take effect on ratification of this Order:
    a. Any substantial noncompliance with any Commission laws by Respondent during the probationary period shall constitute full and adequate grounds for license **suspension or revocation;**
    b. Prior to enforcing this provision, the Commission agrees to send Respondent a Letter of Warning providing notice of the alleged substantial noncompliance and an opportunity for Respondent to correct the deficiencies;

42. Respondent shall participate in continuing education during the probationary period:
    a. Respondent's owners and agents shall take and complete the following courses: (1) the Massachusetts Metrc New Business Training and (2) the Metrc Learn **training courses (collectively, the "courses"). Respondent must take the courses** at least once during each year of the probationary period, totaling two (2)

trainings. Respondent must provide a certificate or other documentation demonstrating completion of each course to its assigned Investigator within 30 days of completing the course;

b. The Commission may require Respondent's owners to take additional trainings during the probationary period as the Commission deems reasonably necessary to resolve documented compliance concerns regarding Metrc competency;

43. Respondent is precluded from seeking tier expansion for MC282693 during the probationary period;

44. Respondent shall request Enforcement staff to come on site to measure their canopy, and certify the size of the canopy at the start of each growing season during the probationary period.

45. Respondent shall pay a recoupment fee to the Commission in the amount of **$2,275** to account for the application and license fee (prorated) that was not paid while the Respondent operated at a tier 4 canopy;

46. Respondent's failure to comply with its licensed tier limitations shall result in a penalty assessment of **$20,000.00**.

47. Respondent shall provide the payments in Paragraphs 45–46 by check or money order payable to the Cannabis Control Commission Marijuana Regulation Fund within 30 days of the ratification of this Order. Payments for penalties and recoupment assessed against the Respondent shall be mailed to the following address:

a. Via USPS:

Cannabis Control Commission
PO Box 412144
Boston, MA 02241-2144

b. Via Courier/Overnight:

Bank of America Lockbox Services
Cannabis Control Commission 412144
MA5-527-02-07
2 Morrissey Boulevard
Dorchester, MA 02125

48. This Order may be admissible as evidence in any future hearing before the Commission or used in connection with any future licensure or administrative actions by the Commission;

49. Any issues relating to the underlying complaint and investigation that formed the basis for this Order against Respondent (and any defenses that Respondent may have to such

complaint or investigation) shall not be at issue in a proceeding against Respondent for failing to comply with the terms of this Order;

50. Respondent agrees that the Commission may consider the Order and the facts and circumstances described therein in connection with review of an application for licensure, renewal of licensure, or suitability review;

51. Respondent acknowledges advisement of hearing rights and process of the proceedings and wishes to resolve all issues which were the subject of the investigation or in any way related to the investigation by entering into this Order;

52. If approved by the Commission and upon execution of all parties, this Order shall have the same force and effect as an order entered after formal hearing pursuant to 935 CMR 500.500(12), except that it may not be appealed. Failure to comply with the terms of this Order, including but not limited to failure to make a timely payment in accordance with Paragraphs 45–46, may constitute the basis for further administrative action against Respondent;

53. Respondent acknowledges that the Commission advised Respondent of its opportunity to consult with an attorney of their choosing and Respondent represents that they have had an opportunity to do so prior to signing the Order. Respondent acknowledges that they have been given a reasonable period of time in which to consider the terms of this Order before signing it. Respondent acknowledges and confirms that they have entered into this Order voluntarily and of their own free will, without duress or coercion, and that they are competent to enter into this Order. Respondent acknowledges that they have carefully read and fully understand the meaning and intent of this Order;

54. Respondent further understands and knowingly and voluntarily waives the following rights:
    a. The right to proceed with the adjudicatory proceeding;
    b. The right to cross-examine witnesses, subpoena witnesses, present evidence and testify on Respondent's own behalf at that hearing;
    c. The right to appeal this Order;

55. Respondent consents to the terms and conditions described herein and agrees to waive its right to judicial review of this agreement pursuant to M.G.L. c. 30A, § 14;

56. Upon execution by all parties, this Order shall represent the entire and final agreement of the parties. In the event that any provision of this Order is deemed unenforceable by a court of competent jurisdiction, such provision shall be severed, and the remainder of the Order shall be given full force and effect;

57. This Order shall be binding upon Respondent and shall inure to the benefit of the parties to this Order and their respective successors and assignees and shall be construed in accordance with and governed by the laws of the Commonwealth of Massachusetts;

58. Upon ratification of this agreement by the Commission, this Order shall become a permanent part of Respondent's record and shall be open to public inspection and disclosure pursuant to the Commission's standard policies and procedures or applicable law;

59. The Commission may reject the terms of this Order or otherwise deny ratification and entry of the Order. In such event, the terms of the Order shall be null and void, including but not limited to Respondent's admissions, and the parties will proceed to hearing;

60. This Order may be executed by e-mail and any signature delivered by either email or first-class mail shall be deemed to be as valid as an original signature;

61. All costs and expenses incurred by Respondent to comply with this Order shall be the sole responsibility of Respondent and shall not in any way be the obligation of the Commission; and

62. For purposes of addressing any future violations of the Order, the Commission regulations, 935 CMR 500.000, *et seq.*, shall include all later adopted regulations that are in effect at the time of the subsequent violation.

This Order is subject to ratification by the Commission. Upon ratification, this Order becomes binding on the Parties. Failure to comply with the above conditions may result in administrative action against Respondent up to any including suspension and/or revocation of registration.

# Executive Director and Commission Staff Report

Cannabis Control Commission
COMMONWEALTH OF MASSACHUSETTS

# Social Consumption Regulatory Implementation Project

# Project Overview

## Project Goal

Design and implement the regulatory, operational, and technology framework required to support Social Consumption licensing. This includes the development of a new RVT training program, configuring new license types across platforms, developing clear and standardized processes, and supporting distinct pathways for Supplemental, Hospitality, and Event Organizer licensees. The project will also deliver public education to promote safe and responsible cannabis use among consumers while coordinating engagement with municipalities and other state agencies to solicit feedback and key considerations.

## Background

Project Management Office (PMO) management initiated in January 2026, establishing a governance structure and cross-functional management plans to support implementation across 4 working groups. Since launch, efforts have focused on assessing the 3 license types, developing the full scope of work, and sequencing deliverables for delivery. To improve collaboration and transparency across teams, the 4 working groups were consolidated into a single project team, resulting in more efficient project execution.

# Project Phases & Phase Gates

**Gate 1**
Sign charter and approve project to move into planning

**Gate 2**
Approve project mgmt. plan, deliverables, and resource commitment

**Gate 3**
Confirm continued alignment, audit readiness and training progress

**Gate 4**
Evaluate readiness for closeout and initiate closure preparation

**Gate 5**
Formal project close out and sign off, review lessons learned

## Phase 1: Initiation

- ✓ Define project objective & scope
- ✓ Identify stakeholders
- ✓ Develop Charter / outline

## Phase 2: Planning

- ✓ Create project management plan
- ✓ Deliverable planning
- ✓ Secure resources & staff bandwidth
- ✓ Define schedule & budget needs

## Phase 3: Execution

- ✓ Assign tasks
- ✓ Manage communications, resources, and provide updates
- ✓ Hold regular team meetings

## Phase 4: Monitor & Control

- Track project progress against plan
- Monitor schedule, budget, and risks
- Update stakeholders on progress

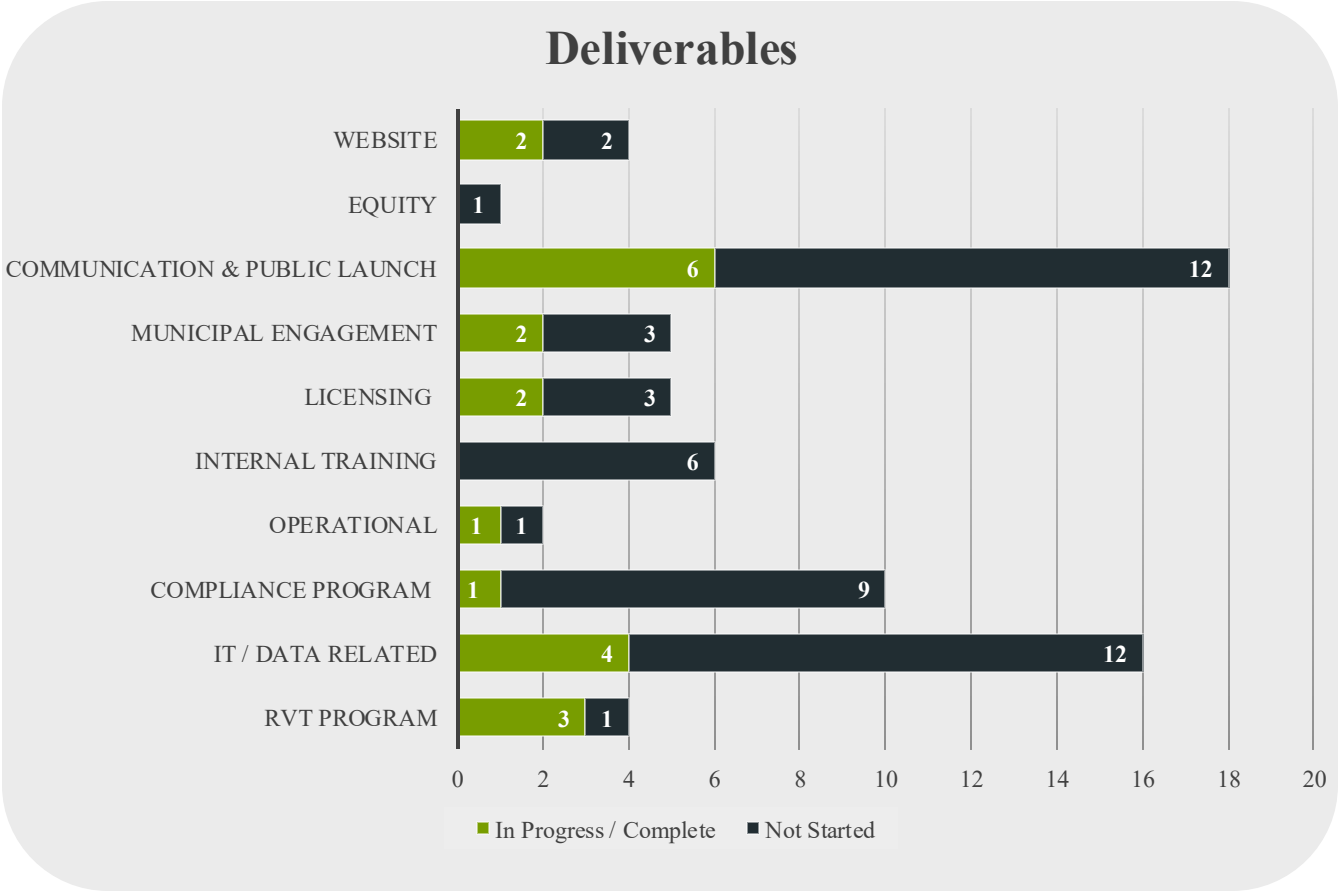

## Phase 5: Closing

- Confirm all deliverables are complete
- Obtain stakeholder sign-off
- Review project, document lessons learned

**End of Project Retrospective:** Recognize efforts, achievements, and release resources

*Phases and gate activities shown are representative and not exhaustive of all project requirements*

# Project Progress

Foundational Deliverables represent early-stage activities necessary for successful and efficient project execution

## ✓ COMPLETE

- ✓ Electronic Municipality Opt-In Form available
- ✓ RVT curriculum, evaluation rubric, & web content
- ✓ HCA model template assessment
- ✓ State-wide survey questions submitted

## IN PROGRESS

- ✓ 90% of foundational deliverables are underway and remain on track for completion throughout the summer
- ✓ Supplemental License application & internal processes
- ✓ HCA updates & guidance
- ✓ Municipal engagement & public education

# Next Steps

- Finalize RVT application and launch by end of August
- Finalize draft applications for Supplemental License
- Finalize licensing & inspection process mapping and begin procedural updates and document development
- Continue development of RVT trainer compliance audit
- Engage municipal stakeholders and solicit feedback
- Develop consumer education content & advance public education strategy

## Key Risks / Considerations

- **Resource Capacity:** Staff are supporting multiple other initiatives and working groups concurrently
- **Technology Backlog & Capacity**: Competing agency priorities and backlog work impact development for SC initiatives
- **Alignment of Concurrent Initiatives:** Ongoing decisions may have downstream impacts to project timeline, resources availability, and implementation approach
- **Project Management Software:** PMO currently operating without integrated software tools, requiring manual coordination and structured organization to maintain oversight

2. Tier Relegation Discussion *Commissioner Anthony Wilson*

# Regulatory Amendments – Executive Summary

- Emergency Regulatory Package
  - Emergency Regs Filed: June 18
  - Public Comment Period: July 3 – July 30
  - Public Hearing: July 30
  - Final Regulations to be Filed: August 28

- Fall Regulatory Promulgation Package, major policy areas:
  - Ch. 65 Amendments: medical program, advertising, ownership/control, delivery, seeds, anonymous online portal, testing
  - Other amendments (non-Ch. 65): agent registration, labeling, receiverships, island transportation, NODs, technical updates
- Spring Regulatory Promulgation Package
  - Reserved Ch. 65 and non-Ch. 65items with later target dates (A/R, potency, reference lab, RVT)

*All dates are subject to change

# Commission Discussion and Votes

2. Tier Relegation Discussion *Commissioner Anthony Wilson*

# Weight Based Tier Memo- Recommended Votes

1. That the Executive Director, under the delegated authority to renew license applications, shall flag for the Commissioners any cultivation license renewal application that is below 70% of the existing tier relegation calculation per existing regulations, but shall not remove said license renewal application from the Executive Director's renewal checklist on the basis of the 70% calculation alone.
2. That the Executive Director direct the Legal Department to draft modifications to 935 CMR 500 and 935 CMR 501 consistent with this memorandum for consideration by the Commission at its September 2026 meeting.
3. That the sections of the Regulations defining the processes for "Tier Expansion" and "Tier Relegation" be deleted within the next round of regulatory promulgation with the exception of licensees requesting voluntary relegation or expansion.
4. That the Legal Department review the Regulations to remove the use of the term "canopy" and replace it with weight-based terms such as grams or kilograms of annual production, except where canopy remains relevant for non-tier purposes, and provide a red-line version for the Board's review at the Sept. 2026 meeting.
5. That the Legal Department draft a penalty section imposing appropriate fines on licensees that produce more cannabis than their tier permits for the Board's review at the Sept. 2026 meeting.
6. That, upon the passage of revised regulations, the licensing schedule be modified to reflect the weight-based licensing scheme discussed in this memorandum, and further that the Executive Director direct the Licensing and Enforcement Departments to prepare a memorandum explaining how this regulatory change will be implemented, specifically identifying how a weight-based system will change the review of cultivation license applications.
