investigation that could lead to such a Proceeding, by reason of the fact that she or he was or is a Manager, a Member, or an officer of the Company or she or he was or is the legal representative of or a manager, director, officer, partner, venturer, proprietor, trustee, employee, agent or similar functionary of a Member or of an officer of the Company, shall be indemnified by the Company against judgments, penalties (including excise and similar taxes and punitive damages), fines, settlements and reasonable costs and expenses (including, without limitation, attorneys' fees) actually incurred by such Indemnified Person in connection with such Proceeding if such Indemnified Person acted in good faith and in a manner she or he reasonably believed to be in, or not opposed to, the best interest of the Company and, with respect to any criminal action or proceeding, had no reasonable cause to believe her or his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the Indemnified Person did not act in good faith and in a manner which she or he reasonably believed to be in or not opposed to the best interests of the Company or, with respect to any criminal action or proceeding, that the Indemnified Person had reasonable cause to believe that her or his conduct was unlawful.

5.02 Survival. Indemnification under this Article V shall continue as to a Person who has ceased to serve in the capacity which initially entitled such Person to indemnity hereunder. The rights granted pursuant to this Article V shall be deemed contract rights, and no amendment, modification or repeal of this Article V shall have the effect of limiting or denying any such rights with respect to actions taken or Proceedings arising prior to any such amendment, modification or repeal.

5.03 Advance Payment. The right to indemnification conferred by this Article V shall include the right to be paid or reimbursed by the Company for the reasonable expenses incurred in advance of the final disposition of the Proceeding and without any determination as to the Indemnified Person's ultimate entitlement to indemnification; provided, however, that the payment of such expenses incurred in advance of the final disposition of a Proceeding shall be made only upon delivery to the Company of a written affirmation by such Indemnified Person of her or his good faith belief that she or he has met the standard of conduct necessary for indemnification under this Article V and a written undertaking, by or on behalf of such Indemnified Person, to repay all amounts so advanced if it shall ultimately be determined that such Indemnified Person is not entitled to be indemnified under this Article V or otherwise.

5.04 Nonexclusivity of Rights. The right to indemnification and the advancement and payment of expenses conferred by this Article V shall not be exclusive of any other right which a Person may have or hereafter acquire under any law (common or statutory), provision of the Articles of Organization or Operating Agreement, agreements, vote of members or otherwise.

5.05 Savings Clause. If Paragraph 5.01 or any portion thereof shall be invalidated on any ground by any court of competent jurisdiction, then the Company shall nevertheless indemnify and hold harmless each Indemnified Person as to costs, charges and expenses (including attorneys' fees), judgments, fines and amounts paid in settlement with respect to any action, suit or proceeding, whether civil, criminal, administrative or investigative to the full extent permitted by any applicable portion of this Article V that shall not have been invalidated and to the fullest extent permitted by applicable law.

Notice of such meeting shall be sent to all Members. BUSINESS PLAN

OVERVIEW

On November 8, 2016, Massachusetts voters approved, effective January 1, 2018, the sale of cannabis and cannabis products to adults 21 years of age and older.

TEN-TEN LLC (“TEN-TEN”) has applied for an indoor Marijuana Cultivation Establishment license, an outdoor Marijuana Cultivation Establishment license, a Marijuana Retail Establishment license and Marijuana Product Manufacturing Establishment license. TEN-TEN’s application for these licenses is pending before the Massachusetts Cannabis Control Commission (“CCC”).

TEN-TEN is a true, end to end, craft cannabis business, with all facilities collocated at 775 Main Street, Sheffield, Massachusetts (“the property”).

TEN-TEN’s objective is to maximize the available indoor and outdoor cultivation, production, and retail space at the property to grow, produce, and sell, cannabis and cannabis products wholesale, and direct-to-consumer at retail, to meet the burgeoning wholesale and retail demand for legal cannabis and cannabis products.

CULTIVATION, PRODUCTION AND RETAIL SALES FACILITY – SHEFFIELD, MA

TEN-TEN has entered into a Host Community Agreement (“HCA”) with the Town of Sheffield, Massachusetts, and, acquired the property.

The property currently consists of 2.23 acres of land containing a 4,600 sq.ft. building, which includes retail spaces, and is commercially zoned, which allows this property to be used for: indoor and outdoor cannabis cultivation, production of cannabis and cannabis products, and retail and wholesale sale of cannabis and cannabis products.

The property is located directly on US-7, with a traffic count of over 10,000 cars daily. Sheffield is 6 miles from Great Barrington (pop. 6,900), a major tourist destination, 16 miles on US-7 from the Mass Pike, the main east-west route through Massachusetts, and 26 miles on US-7 from the City of Pittsfield (pop. 42,600), also a major tourism destination and the center of commerce in Berkshire County (pop. 126,000). The property has its own entrance directly off of US-7, and supports ample parking.

Upon approval of TEN-TEN’s Provisional Licenses, TEN-TEN will initiate a conversion of the existing building to an indoor growth facility, retaining space for future retail sales, and a multi-phase development of the property, including the construction of a two-story, 16,800 sq.ft. indoor facility containing ten flower rooms and additional manufacturing and retail space, adjacent to and connected to the existing building, as well as the development of an outdoor cultivation facility, all of which will be dependent on market conditions and demand.

Upon completion of TEN-TEN's purpose-built indoor cannabis cultivation facility, TEN-TEN will have approximately a 12,480 sq.ft. indoor canopy.

If and when TEN-TEN seeks to expand its indoor cultivation canopy, applies, and is approved to do so, the property provides sufficient space to allow TEN-TEN to further expand its indoor cultivation facility, adjacent to its existing and planned facilities.

TEN-TEN's facilities and buildings will be retrofitted and/or designed to comply with all current State and Local statutes, regulations, and codes, as well as with CCC regulations. This will involve significant expenditures for facility and property lighting, security systems and monitoring, as well as Information Technology (IT) and seed-to-sale tracking software.

In the event that TEN-TEN's Provisional Licenses are not approved concurrently, TEN-TEN will adjust their multi-phase development plan to take into account the Provisional License approvals.

COMPETITIVE ADVANTAGES

TEN-TEN'S location in Sheffield provides significant competitive advantages vs. TEN-TEN's competitors in Great Barrington, Lee, Lenox and Pittsfield:

TEN-TEN, through its principal, owns rather than rents its facilities, providing lower costs and allowing TEN-TEN control of its costs;

TEN-TEN has the ability to expand using its existing property;

TEN-TEN's indoor cultivation facility will be purpose-built for cannabis cultivation, rather than retrofitted using an existing structure, providing economies of scale not achievable in a retrofitted structure; and

TEN-TEN's colocation of indoor and outdoor cultivation of cannabis, production of cannabis and cannabis products, and retail and wholesale sales on one site, provides significant economies of scale in security and transportation costs.

TEN-TEN's principal has a lifetime of horticultural experience, and years of legal cannabis cultivation experience.

WHOLESALE PRODUCTION AND REVENUE ESTIMATES

Initially, TEN-TEN plans to target wholesale sales of cannabis and cannabis products from its purpose-built facility.

TEN-TEN's purpose-built facility will allow TEN-TEN to operate ten, independent flower rooms, each producing approximately 448 lbs. of cannabis annually, using a conservative estimate of four crops per year.

Of those estimated 448 lbs., 85%, or 380 lbs., will be flower, and the balance of 68 lbs. will be trim, which will be used for pre-rolled cannabis joints.

The wholesale price of flower varies widely, based on supply and demand. Using a price range of \$3,000.00 - \$4,800.00 per pound, each flower room provides estimated potential wholesale flower revenue of \$1,140,000.00 - \$1,824,000.00 annually, using a conservative estimate of four crops per year.

The wholesale price of pre-rolled cannabis joints is conservatively estimated at \$3,600.00 per pound, but may vary, based on supply and demand. Each flower room produces an estimated 68 lbs. of trim, so each flower room provides an estimated potential wholesale pre-roll revenue of \$244,800.00, using a conservative estimate of four crops per year.

Therefore, each flower room produces estimated potential annual wholesale revenue of \$1,384,800.00 - \$2,068,800.00, and with all ten flower rooms in cultivation, estimated potential annual wholesale revenue, using a conservative estimate of four crops per year, is \$13,848,000.00 – \$20,688,000.00, depending on the wholesale price per pound of pre-rolled joints and flower. The wholesale price of flower varies widely, based on supply and demand. The wholesale price of pre-rolled joints may vary, based on supply and demand.

TEN-TEN, LLC, Inc. (“TEN-TEN”) believes in creating and sustaining a robust policy of inclusivity and diversity not only in the employees they hire but with the vendors they engage and their suppliers. TEN-TEN recognizes that diversity in the workforce is key to the integrity of a company’s commitment to its community. TEN-TEN’s diversity plan is designed to promote equity among minorities, women, veterans, people with disabilities, and LGBTQ+. Minimum Qualifications

Pursuant to 935 CMR 500.030(1), all employees of TEN-TEN shall:

- (a) be 21 years of age or older;
- (b) have not been convicted of an offense in the Commonwealth involving the distribution of controlled substances to minors, or a like violation of the laws of Other Jurisdictions; and
- (c) be determined suitable for registration consistent with the provisions of 935 CMR 500.802.

- (1) In accordance with M.G.L. c. 94G, § 4(a½)(iii), the Commission has established qualifications for licensure and minimum standards for employment that are directly and demonstrably related to the operation of a marijuana establishment and similar to qualifications for licensure and employment standards in connection with alcoholic beverages as regulated under M.G.L. c. 138; provided, that a prior conviction solely for a marijuana-related offense or for a violation of M.G.L. c. 94C, § 34 shall not disqualify an individual or otherwise affect eligibility for employment or licensure in connection with a marijuana establishment, unless the offense involved the distribution of a controlled substance, including marijuana, to a minor.
- (2) For purposes of determining suitability based on background checks in accordance with 935 CMR 500.030 and 935 CMR 500.101:
 - (a) All conditions, offenses, and violations are construed to include Massachusetts law or like or similar law(s) of other jurisdictions.

 - (e) Unless otherwise specified in 935 CMR 500.801: Table B, a criminal condition, offense or violation shall include both convictions, which include guilty pleas and pleas of *nolo contendere*, and dispositions resulting in continuances without a finding or other disposition constituting an admission to sufficient facts, but shall exclude other non-conviction dispositions. All suitability determinations will be made in accordance with the procedures set forth in 935 CMR 500.800. In addition to the requirements established in 935 CMR 500.800, the Commission shall:
 - 1. Consider whether offense(s) or information that would result in a presumptive negative suitability determination under 935 CMR 500.801: Table B renders the subject unsuitable for registration; and
 - 2. Consider appeals of determinations of unsuitability based on claims of erroneous information received as part of the background check during the application process in accordance with 803 CMR 2.17: Requirement to Maintain a Secondary Dissemination Log and 803 CMR 2.18: Adverse Employment Decision Based on CORI or Other Types of Criminal History Information Received from a Source Other than the DCJIS.

Failure to make proper notification to the Commission may be grounds for disciplinary action. Narrative

TEN-TEN understands that security is of paramount importance in the operation of TEN-TEN's facilities. TEN-TEN is keenly aware of the added security challenges that a business in this space

faces, and has taken extensive measures to have professionally-vetted policies, procedures, and systems in place to provide comprehensive protection, not only for TEN-TEN's physical plant and inventory but also for the host community, TEN-TEN's employees, vendors, contractors, visitors, customers, and the general public.

TEN-TEN shall implement and continuously update state-of-the-art policies and procedures that take advantage of the security industry's best practices and most current technology, to ensure that TEN-TEN's facilities operate at the highest level of security and emergency preparedness.

It is the responsibility of every TEN-TEN employee to support TEN-TEN's security through prevention, awareness, reporting, and responsible incident management, including regular security training.

TEN-TEN employees must also actively protect themselves and fellow employees by situational awareness and incident prevention, management and reporting. Ongoing training, information-sharing between TEN-TEN employees and TEN-TEN's Security Manager and security personnel, between TEN-TEN's Security Manager and Security Managers of other Marijuana Establishments, and response coordination protocols shared with Sheffield's law enforcement agencies and emergency responders support the protection of the host community, the general public, TEN-TEN's assets, employees, vendors, contractors, visitors, and customers, and the safety and security of TEN-TEN's facilities.

TEN-TEN's security policies and procedures shall be implemented using Risk Based Performance Standards (RBPS) to comply with the Department of Homeland Security (DHS) Anti-Terrorism Standards for high-risk facilities. These standards include, but are not limited to: an effective restricted area perimeter, site-specific design features to control approved access and prevent unauthorized access, determination of and protection of the areas where TEN-TEN's critical assets are located, and the utilization of control, deter, detect and delay concepts in the site plan, as well as an integral part of the safety and security policies and procedures.

All finished marijuana and marijuana products shall be stored in a secure, locked safe or vault, in such a manner as to prevent diversion, theft and/or loss. A complete vaulting system by Custom Vault shall be utilized for the security of finished products.

TEN-TEN is cognizant of the serious risk of fire associated with the growth and processing of marijuana and marijuana products. TEN-TEN's Security Manager is responsible for liaising with Sheffield's emergency services providers to ensure that TEN-TEN's systems, policies, procedures and trainings sufficiently protect TEN-TEN's site and facilities, the host community, the general public, TEN-TEN's assets, employees, vendors, contractors, visitors, and customers.

TEN-TEN understands that safe and secure sites and facilities require well-prepared contingency plans and employees trained in their execution. Under the leadership of our Security Manager and with input from appropriate local agencies and enforcement authorities, TEN-TEN shall develop a comprehensive Emergency Response Plan.

The Emergency Response Plan shall include contingencies for non-security related emergencies such as medical emergencies, bomb threats, fires, explosions, chemical release, and weather-related disasters to ensure an appropriate and orderly response. This shall prevent non-security related emergencies from becoming aggravated security emergencies as well. Emergency procedures and PRODUCTION Safety and Security Plan

emergency contact numbers shall be provided in writing to all employees and posted prominently in all areas of the facility.

TEN-TEN's Security Policies and Procedures are overseen by TEN-TEN's Security Manager. Transportation Security is addressed separately in the Transportation Policies and Procedures. The preventive measures included in these policies and procedures are intended to minimize TEN-TEN's physical plant and inventory security and safety exposure, protect the public and TEN-TEN's host community, and protect TEN-TEN's assets, employees, vendors, contractors, visitors, and customers.

TEN-TEN is confident that, in the unlikely event that there is any breach of security, TEN-TEN's comprehensive response capabilities shall ensure the incident is detected quickly, contained, and resolved at the appropriate response level.

FACILITY SECURITY

The security at TEN-TEN's facility is designed to reduce the likelihood of security breaches and trigger an immediate and appropriate response in the unlikely event a breach does occur. In addition, TEN-TEN's facility security is designed to control access to all indoor and outdoor areas where marijuana and marijuana products are produced, cultivated, harvested, processed, stored, disposed of, transported and/or sold, or where cash is kept, secured and processed, limiting access to those areas to ONLY authorized and properly identified and accompanied employees, vendors, contractors, visitors, and customers.

Facilities

TEN-TEN's facilities shall be colocated at 775 North Main Street, Sheffield, Massachusetts 01257.

TEN-TEN has located its facilities in a commercial district in a rural, lightly trafficked town. TEN-TEN's facilities shall be the only facilities on TEN-TEN's property, and TEN-TEN's operations shall be the sole occupants of TEN-TEN's facilities. TEN-TEN's facilities shall initially utilize the

existing buildings and outdoor locations on TEN-TEN's property. Additional facilities are being custom-designed and constructed to meet the specific high security and access control needs of TEN-TEN's businesses. TEN-TEN's additional facilities shall be constructed on TEN-TEN's secured property at 775 North Main Street, Sheffield, Massachusetts 01257 and shall be in addition to the existing building

Pursuant to 935 CMR 500.110(3), TEN-TEN's facilities are not, at the time of the submission of this licensing application to the Commission, located within five hundred feet (500') of a public or private school providing education in grades K – 12. Pursuant to 935 CMR 500.110(3), the distance between a school's property and TEN-TEN's property has been measured in a straight line from the point of the property line of said school nearest to TEN-TEN's property to the point of TEN-TEN's property line nearest to the school. TEN-TEN's host community, Sheffield, MA, has not adopted an ordinance or bylaw that reduces this distance requirement.

Detailed site plans showing TEN-TEN's indoor and outdoor existing and planned facilities shall be provided to the Commission.

TEN-TEN's existing facilities shall be customized to ensure that they meet, at a minimum, all of the Commission regulations

TEN-TEN's custom-designed and built facility shall have the following internal configurations:

Indoor areas where marijuana and marijuana products are produced, cultivated, harvested, processed, and stored shall have no external doors or windows and shall be accessed only from within the facilities. All main access point door hinges shall be equipped with hinge-pin-locking screws to increase security. These configurations yield optimal conditions for security and surveillance. These design elements shall not only make unauthorized access extremely unlikely but also act as a deterrent to discourage theft.

Floor Plan

Detailed interior and exterior floor plans of TEN-TEN's facilities shall be provided to the Commission, as required.

Lighting

Studies and statistics demonstrate that criminal activities are less likely to occur in well-lit areas, as well-lighted facilities are an excellent deterrent to illegal activities. Security lighting is one of the most practical and effective ways to deter crime in and around commercial facilities.

The primary objective of TEN-TEN's facilities' security lighting systems is to illuminate dark areas, allowing detection and recognition of movement in the protected area, and allowing clear video tracking and recording of detected individuals. The best quality video tracking and recording using outdoor lighting is obtained from downward directed and shielded security lighting that is continuously on, supplemented with instant-on lighting triggered by motion detectors. TEN-TEN shall ensure that sufficient lighting is provided between dusk and dawn, and during the day, should there be insufficient sunlight for the best quality video tracking and recording.

TEN-TEN facilities' exterior lighting shall include, but shall not be limited to, high lumen floodlights and spotlights. All parking lots and walkways to and from TEN-TEN facilities shall be well illuminated to maximize safety, security, visibility, and video capture. Lighting shall be operated automatically by a photoelectric sensor, ensuring optimal lighting conditions at all times.

TEN-TEN's interior and exterior lighting shall comply with the Commission's requirements for energy usage and efficiency.

Security Personnel

Upon the commencement of construction of TEN-TEN's facilities, TEN-TEN's Security Manager shall either contract with a private security company to provide security personnel or shall employ security personnel. Unarmed security personnel shall be on-site monitoring TEN-TEN's facilities during the hours of operation.

All security personnel shall be thoroughly vetted, screened, trained, and strictly supervised by TEN-TEN's Security Manager, to ensure they are of the highest caliber.

During operating hours, TEN-TEN shall have on-site security personnel at each indoor and outdoor exterior entrance and exit that is in-use.

On-site security personnel are responsible for ensuring that all emergency egress points from TEN-TEN's facilities are accessible when TEN-TEN's facilities are occupied and that all ingress and egress points to TEN-TEN's site and facilities are secured outside TEN-TEN's business hours.

Security Systems Maintenance, Inspections, Testing and Audits

All security equipment shall be maintained in good working order and shall be inspected and tested by TEN-TEN's Security Manager, who shall perform and keep records of having performed routine regular inspections of all security systems, barriers, gates, doors, and locks, immediately documenting and reporting any malfunctioning or compromised security feature and/or system. Any malfunctioning or compromised security feature and/or system shall be addressed immediately by the Security Manager.

TEN-TEN shall notify appropriate regulatory and law enforcement agencies of any breach of security immediately and, in no instance, more than twenty-four (24) hours, following discovery of said breach, pursuant to 935 CMR 500.110(9)

TEN-TEN's Security Manager and the Security Directors of TEN-TEN's security system providers shall audit TEN-TEN's security systems at regular intervals, at a minimum every thirty (30) calendar days, and upon any changes, upgrades, repairs and/or failures.

The security systems shall be audited annually, at TEN-TEN's expense, by a vendor approved by the Commission. A report of said audit, in a form and manner prescribed by the Commission, shall be submitted no more than thirty (30) calendar days after the audit is conducted. If the audit identifies concerns related to TEN-TEN's security systems, TEN-TEN must also submit a plan to the Commission to mitigate those concerns within ten (10) business days of submitting the audit, PRODUCTION Safety and Security Plan

pursuant to 935 CMR 110(10).

Backup Power

TEN-TEN's primary and backup security systems and access control system (ACS) shall be supported by a commercial back-up generator which shall start automatically in the event of a power failure and which is supported by sufficient fuel capable of providing power for all of TEN-TEN's requirements during a forty-eight (48) hour power outage.

Security Systems

All alarm controls shall have a duress alarm function with a specific code to alert TEN-TEN security, TEN-TEN's security monitoring companies and local law enforcement that a TEN-TEN employee is being required to disable the alarm system under duress. There shall be panic alarms throughout facility to create visual and audible alarms that an emergency is in progress requiring an evacuation and/or response by TEN-TEN personnel, law enforcement and emergency responders. Employees working with visitors or the public shall be required to wear a wireless transponder allowing for manual initiation by the employee or use a "man-down" feature, which is activated when the transponder is tilted more than a pre-programmed angle limit, and which shall alert TEN-TEN security, TEN-TEN's security monitoring companies and local law enforcement.

These provisions are accomplished by installing a UL listed, commercial-grade, state of the art, intrusion system head-end control panel. This panel shall manage the feeds from all alarm locations, detectors, sensors, arm/disarm keypads, and panic alarms, and shall have the capability to process alarms and events by individual point ID and zone, and report those events, by point ID and zone, to the on-site surveillance room and off-site "Central Stations" for dispatch of security and first responder personnel as needed.

The security system shall have the capability to accept multiple, point and zone input devices, such as push buttons, foot rails, palm buttons, etc. These input devices can be programmed for either silent or audible operation.

The safety and security system control panels shall be located in TEN-TEN's surveillance room. Access to TEN-TEN's surveillance room shall be limited to persons that are essential to surveillance operations, regulatory and law enforcement agencies, and security system service personnel. A current list of authorized employees and service personnel who have access to the surveillance room shall be made available to the Commission and law enforcement agencies upon request. The surveillance room at TEN-TEN shall remain locked and shall not be used for any other function.

Trees, bushes and other foliage outside the TEN-TEN facilities shall be maintained so as to prevent a person or persons from concealing themselves from sight.

Security plans and procedures shared with law enforcement agencies shall, at a minimum, include a description of the location and operation of the security system, including but not limited to the location of the premises central controls, a schematic of the security zones, the name of the primary PRODUCTION Safety and Security Plan

and back-up security alarm companies and monitoring companies and their contact information, the name of TEN-TEN's Security Manager and his backup, and their twenty-four (24) hour contact information, and a floor plan or layout of the facility in a manner and scope as required by Sheffield and/or the applicable law enforcement and/or the local emergency services agencies.

Perimeter Security

TEN-TEN shall secure the perimeter of its facilities to prevent unauthorized intrusion. TEN-TEN plans to employ, as appropriate, one or more of the following critical elements, in combination with other critical elements, to secure the perimeter of their indoor and outdoor facilities: security fencing, security guards, and electronic surveillance, including, but not limited to round-the-clock manned and/or alarmed camera surveillance and electronic intrusion detection.

The perimeter of each TEN-TEN indoor and outdoor facility shall be also secured by video surveillance and outside security lighting, as above. During non-operational hours, all entrances, exits, and windows shall be externally covered by additional locked security gates and/or locked security fencing.

In addition to the above facility security fencing, the perimeter of TEN-TEN's property shall also be surrounded by appropriate security fencing. All entrances and exits to the security fencing shall be secured by commercial-grade locks.

All outdoor and indoor facility entrances, exits and windows shall have contacts designed to trigger internal and external primary and backup alarms should any entrances, exits and windows be breached, either from the interior or the exterior of the facilities. Additionally, motion detectors shall monitor the inside of all entrances, exits and windows, which are designed to trigger internal and external primary and backup alarms should any motion be detected.

All outdoor and indoor interior spaces shall also be monitored by motion detectors designed to trigger internal and external primary and backup alarms should any motion be detected, to alert TEN-TEN security personnel to intrusion through fences, walls and roofs.

The perimeter and interior space motion detectors shall be separate from the video camera motion detectors.

Internal Access Controls

Movement within TEN-TEN's facilities shall be tightly controlled. All entrance and exit doors to outdoor and indoor facilities, as well as access to the surveillance room, safes, vaults, sales areas, and areas where marijuana and marijuana products are cultivated, harvested, processed, prepared, stored, handled, sold, and/or disposed of, or where cash is kept, secured and processed, shall be controlled by TEN-TEN's access control system (ACS), which requires keycards or fobs and electronic passcodes.

Access Control to TEN-TEN's Premises, Facilities, and Limited Access Areas, Visitors

TEN-TEN has identified limited access areas, to which only properly authorized and properly

identified and accompanied employees, regulatory and law enforcement agency personnel acting within their jurisdictional authority, and emergency responders shall be permitted. These limited access areas include, but are not limited to the surveillance room, safes, vaults, sales areas, and areas where marijuana is cultivated, harvested, processed, prepared, stored, handled, sold, and/or disposed of, or where cash is kept, secured and processed

Only authorized Marijuana Establishment Agents may access limited access areas (areas where marijuana and marijuana products are cultivated, harvested, processed, prepared, stored, handled, sold, and/or disposed of, or where cash is kept, secured and processed). The Security Manager is responsible for assigning and recording access rights under the Access Control System (ACS).

TEN-TEN intends to utilize the Medeco XT Intelligent “Key” System (ACS) to control all access to limited access areas. The ACS provides the ability to program key cards and/or fobs to limit employees’ access to the particular limited access areas the employees are required to access to perform their jobs, as determined by the Security Manager. The ACS offers a cloud-based, web-managed database, and allows TEN-TEN’s Security Manager to update an employee’s access via smartphone.

Access cards or fobs are programmable by the Security Manager to allow Marijuana Establishment Agents and employees the appropriate, predetermined level of access. The ACS tracks access by all users, allowing for access to limited access areas to be tracked and logged. Access cards or fobs can be easily deactivated locally or remotely, if necessary. The use of keys for routine entry and/or exit is eliminated.

TEN-TEN’s ACS ensures that the limited access areas are accessible only to properly authorized and properly identified and accompanied employees, regulatory and law enforcement agency personnel acting within their jurisdictional authority and emergency responders.

Upon employment by TEN-TEN, the Security Manager shall scan each employee’s approved government photo identification card into the ACS, and the Security Manager shall issue each employee a TEN-TEN photo identification badge which shall be worn at all times when the employee is in any TEN-TEN facility and/or transporting marijuana products, to identify the individual as an employee, as well as a key card or fob which allows the employee, through the ACS, access to the particular limited access areas the employee is required to access to perform his job, as determined by the Security Manager. The Security Manager shall maintain a log of the issued TEN-TEN employee photo identification badges and key cards or fobs. The ACS tracks each entry and exit from a limited access area.

All TEN-TEN employees shall provide the Security Manager the year, make, model, color, and license plate number of all vehicles they intend to use for transportation to TEN-TEN’s site. The employee is responsible for immediately notifying the Security Manager of any changes to the above information.

All TEN-TEN photo identification badges and key cards or fobs must be collected from on-duty security personnel by each employee at the beginning of their shift and shall be returned to on-duty security personnel at the end of each shift. Security personnel shall verify the employees are in possession of their Commission issued Marijuana Establishment Agent card, and shall log the collection and return of each employee’s TEN-TEN photo identification badge and key card or fob. The returned TEN-TEN photo identification badges and key cards or fobs shall be retained in the PRODUCTION Safety and Security Plan

safe in the surveillance room until the employees return to work for their next shift.

Employees not in possession of their Marijuana Establishment Agent cards shall be denied entrance to TEN-TEN's facilities and may be subject to TEN-TEN's progressive discipline policy, which includes disciplinary actions up to and including termination of employment.

No employees shall be permitted to leave TEN-TEN's premises with their TEN-TEN photo identification badges and key cards or fobs, with the exception of those TEN-TEN Marijuana Establishment Agents who are required to wear their TEN-TEN photo identification badges while transporting marijuana and/or marijuana products.

All employees of TEN-TEN shall visibly display a TEN-TEN employee photo identification badge at all times while on TEN-TEN's site, while in any TEN-TEN facility and/or while transporting marijuana products.

All Marijuana Establishment Agents must be in possession of their Cannabis Control Commission-issued Marijuana Establishment Agent card at all times while on TEN-TEN's site, while in TEN-TEN's facilities while transporting marijuana and marijuana products, and while conducting business on TEN-TEN's behalf.

Loss and/or theft of a TEN-TEN photo identification badge and/or a key card or fob shall immediately be reported to the Security Manager, who shall immediately deactivate the key card or fob, and who shall create an incident report documenting the details of said loss and/or theft.

Employees who, without prior authorization from the Security Manager, remove their TEN-TEN employee photo identification card from TEN-TEN premises shall be subject to TEN-TEN's progressive discipline policy, which includes disciplinary actions up to and including termination of employment.

Employees who lose and/or experience the theft of their TEN-TEN photo identification badge and/or a key card or fob shall be subject to TEN-TEN's progressive discipline policy, which includes disciplinary actions up to and including termination of employment, at TEN-TEN's sole discretion.

Employees who lose or experience theft of their Marijuana Establishment Agent card shall be denied entrance to TEN-TEN's facilities, are responsible for reporting said loss or theft to the Commission and may be subject to TEN-TEN's progressive discipline policy, which includes disciplinary actions up to and including termination of employment.

Upon termination of employment, the employee shall immediately return the TEN-TEN photo identification badge and the key card or fob to the Security Manager. The Security Manager shall indicate in the log that the TEN-TEN employee photo identification badge and key card or fob have been returned. All returned ACS key cards or fobs shall be immediately deactivated and, along with returned TEN-TEN employee photo identification badges, retained in the safe in the surveillance room by the Security Manager, in case they are required in the future.

All limited access areas shall be identified by the posting of a sign at the ingress and egress points that shall be a minimum of twelve inches by twelve inches (12" x 12") and which states in **bold** type: **"Do Not Enter—Limited Access Area—Access Limited to Authorized Personnel and Escorted Visitors Only"** in lettering no smaller than one inch (1") in height. (935 CMR 500.110(4)(a))

All limited access areas shall be clearly described by the filing with the Commission of a diagram of the licensed premises, in the form and manner determined by the Commission, reflecting entrances and exits, security stations, the surveillance room, walls, partitions, counters, propagation, vegetation, flowering, processing, production, storage, shipping, receiving, disposal and retail sales areas. (935 CMR 500.110(4)(b))

Access to Limited Access Areas shall be restricted to employees and agents specifically permitted by the TEN-TEN, agents of the Commission, Commission Delegees, and state and local Law Enforcement Authorities acting within their lawful jurisdictions, police and fire departments, and emergency medical services acting in the course of their official capacity. (935 CMR 500.110(4)(c))

Employees of TEN-TEN shall visibly display an employee identification badge issued by TEN-TEN at all times while at TEN-TEN or transporting Marijuana. (935 CMR 500.110(4)(d))

All outside vendors, contractors and visitors shall obtain a visitor identification badge prior to entering a limited access area and shall be escorted at all times by a Marijuana Establishment Agent authorized to enter the limited access area. The visitor identification badge shall be visibly displayed at all times. All visitors must be logged in and out and that log shall be available for inspection by the Commission at all times. All visitor identification badges shall be returned to TEN-TEN on exit. (935 CMR 500.110(4)(e))

Individuals under the age of twenty-one (21) are not allowed on TEN-TEN's premises or in TEN-TEN's facilities. TEN-TEN shall employ security policies and procedures to ensure that individuals under the age of twenty-one (21) do not gain entry to TEN-TEN's premises and facilities unless those individuals have a legitimate business purpose for access to TEN-TEN's premises and facilities.

All TEN-TEN premises and facilities shall have a sign posted at their entrances and exits that shall be a minimum of twelve inches by twelve inches (12" x 12") and which states in **bold type**: "**No one under twenty-one (21) years of age permitted. All persons shall present a valid, current government-issued photo identification card with a clearly visible, unaltered date of birth.**" in lettering no smaller than one inch (1") in height.

Security personnel shall verify that the age of every visitor is twenty-one (21) years or older, and log information regarding the visitor, including but not limited to the visitor's name, contact information, and numbered visitor identification badge issued, time of arrival and departure, purpose of visit, facilities and areas to be accessed, the names of any employees visited, as well the names of the Marijuana Establishment Agent or Agents escorting the visitor. If the visitor is a regulatory agent, a law enforcement agent, or an emergency responder visiting TEN-TEN on a non-emergency basis, the visitors' log shall also reflect their badge number. The visitors' log shall be available for inspection by the Commission and law enforcement agencies at all times.

Visitors entering limited access areas shall be escorted at all times by one or more Marijuana Establishment Agents authorized to enter the limited access area. In the event of an emergency, regulatory and law enforcement agency personnel and emergency responders may enter limited access areas without Marijuana Establishment Agent escorts.

Following an emergency, TEN-TEN security personnel shall request the regulatory and law enforcement agency personnel and emergency responders provide proper government-issued identification, and their information shall be entered in the emergency response log.

The numbered visitor identification badge shall be worn and visibly displayed at all times while the visitor is in any TEN-TEN facility. All visitors and numbered visitor identification badges shall be logged in and out as above by on-duty security. All numbered visitor identification badges shall be returned to TEN-TEN on-duty security upon departure from TEN-TEN premises. When not in use, numbered visitor identification badges shall be retained in the safe in the surveillance room.

Any visitor or customer refusing to leave the premises should be considered a security incident and dealt with accordingly. Sheffield law enforcement shall be contacted immediately.

All visitors are prohibited from touching any unpackaged marijuana or marijuana products located in a limited access area.

Retail Customers

On entry to TEN-TEN's Marijuana Retail store, a TEN-TEN Marijuana Establishment Agent will immediately inspect each consumer's identification to ensure the individual is twenty-one (21) years of age or older, pursuant to 935 CMR 500.140(2). An individual shall not be admitted to TEN-TEN's Marijuana Retail store unless a TEN-TEN Marijuana Establishment Agent has verified that the individual is 21 years of age or older.

At point of sale, a TEN-TEN Marijuana Establishment Agent shall again inspect each consumer's identification to ensure the individual is twenty-one (21) years of age or older

TEN-TEN reserves the right to refuse service to anyone, for any legal reason.

Acceptable identification documentation is a valid, unexpired, government-issued driver's license/ID, passport, passport card, a United States military identification card, or any other identification card issued by a state or the federal government that bears a picture of the person, their name, their date of birth and their physical description. Individuals presenting identification that appears to be forged and/or tampered with shall not be admitted to TEN-TEN's Marijuana Retail store.

TEN-TEN shall employ state-of-the-art external and internal cameras, each with a minimum resolution sufficient to allow facial identification of anyone inside TEN-TEN's facilities or on TEN-TEN's site. All cameras shall be equipped with motion detection and shall have infrared technology for low light conditions, capable of identifying individuals and activity at night and in unlit rooms. All camera placement shall conform to the Commission requirements.

Interior cameras shall include IP megapixel technology, digital pan/tilt/zoom capability and light finder day/night capability. All cameras shall have a wide dynamic range for light/dark filtering and accuracy of imagery. Exterior cameras shall have digital pan/tilt/zoom capability and also have the ability to auto-track and zoom to a point and/or event, while maintaining full coverage of the camera area, with perimeter camera coverage of a minimum of twenty feet (20'). Each camera shall apply a date and time stamp to its video feed that shall not obstruct the image. All cameras shall be equipped with SD cards that shall record for up to seventy-two (72) hours, in the event that the primary and backup video surveillance recording systems are down.

Camera placement and selection shall be given careful consideration. Camera placement and camera type shall be based on maximizing the cameras' ability to positively identify TEN-TEN employees and MREA's, positively identify unknown individuals, and capture the license plate information on vehicles entering and departing TEN-TEN's site.

Cameras shall be placed at the entrance gate, up the drive to the facility, and before gated entry into the facility, before entering into a secured, controlled entryway (a "Sallyport"), observing parking areas with CCTV coverage as well as being capable of license plate recognition. Cameras shall also be equipped with infra-red illuminators to supplement lighting conditions.

All video live feeds, and all video recordings shall conform to the Commission requirements. Video recordings shall be retained both on-site in the surveillance room (see below), and in an off-site, cloud-based backup, for the periods prescribed by the Commission's regulations.

TEN-TEN's video surveillance system shall include, but not be limited to external video surveillance which shall provide continuous coverage of all areas of possible ingress and egress, including the site perimeters, the site entrance gate, the driveway to the facilities, the employee and visitor parking lots, prior to gated entry to the facilities, the secured, controlled entryways ("sally ports"), internal video surveillance which shall provide continuous coverage of all rooms and areas of possible ingress and egress to rooms within TEN-TEN's facilities, including the surveillance room, security areas, all areas containing safes and vaults, as well as all areas where marijuana and marijuana products are cultivated, harvested, processed, prepared, stored, handled, sold, and/or disposed of, or where cash is kept, secured and processed.

Surveillance Room

The primary and backup security systems and the video surveillance and recording systems shall be kept in a locked and secured room with limited access and with its own independent security system (surveillance room). Access to the surveillance room shall be limited by the Security Manager to persons essential to surveillance operations, regulatory and law enforcement agency personnel, and security system and video surveillance and recording system service personnel.

Twenty-four (24) hour recordings from all video cameras that are available for immediate viewing by regulatory and law enforcement agencies upon request shall be located in the surveillance room. These recordings shall be retained for at least ninety (90) calendar days or as required by the Commission, whichever is longer. Recordings shall not be destroyed or altered and shall be retained as long as necessary if TEN-TEN is aware of any pending criminal, civil or administrative investigations or legal proceedings for which the recordings may contain relevant information.

A current list of authorized employees and service personnel that have access to the surveillance room shall be maintained by the Security Manager and shall be made available to the Commission and law enforcement personnel upon request.

Product Security and Vault

All packaged marijuana and marijuana products shall be kept in the vault. The vault shall be under twenty-four (24) hour video surveillance and shall be equipped with motion detectors. The modular vault shall have an outer and inner steel-framed door. Outer doors shall be activated by the ACS PRODUCTION Safety and Security Plan

and/or biometrics, and the inner doors shall be accessed by security code lock and/or biometrics.

The storage vault shall be equipped with measures to prevent any infestations of insects or animals and shall be equipped with all necessary lighting, ventilation and temperature controls. The vault shall be cleaned, organized and given a preventative maintenance inspection weekly. Vault access shall be controlled and limited by the Security Manager. Access codes to the vault door, if required, shall be, at a minimum, changed twice a year at the discretion of the Security Manager.

Third-Party Monitoring

TEN-TEN anticipates contracting with primary and backup vendors to supplement TEN-TEN's on-site security and video surveillance systems to help deter, detect, and document security events at TEN-TEN's facilities from a remote location. The vendors shall monitor for smoke, fire, carbon monoxide, propane gas, and for internal and external security breaches of TEN-TEN's property and facilities.

Trained professionals from the remote monitoring centers shall monitor TEN-TEN's safety, security, and video surveillance systems at all times and shall report any suspicious activity to the TEN-TEN Security Manager and/or backup Security personnel, and log the reported activity. TEN-TEN's Security Manager shall work with the vendors to establish guidelines for suspicious activity and to ensure compliance with all Commission, law enforcement and emergency response regulations and requirements.

PRODUCTION Safety and Security Plan

equipment, which shall not be the same company supplying the primary security system. 935 CMR 500.110(5)(c)

Access to surveillance areas shall be limited to persons that are essential to surveillance operations, Law Enforcement Authorities acting within their lawful jurisdictions, police and fire departments, security system service personnel, and the Commission. 935 CMR 500.110(5)(d)
