The Green Gateway Positive Impact Program

Introduction

This direct mentor-to-mentee program will be hosted in Greenfield, MA, a community that is an Area of Disproportionate Impact (ADI) as defined by the Commission. ToroVerde (Massachusetts), Inc. has committed to funding the *Green Gateway Positive Impact Program* for a minimum of five years. Execution of this program will commence at the receipt of a provisional Marijuana Establishment license. Quarterly scheduled seminars will be promoted and advertised through print media, social media, poster campaigns, and any other means.

Acknowledgements

The applicant will adhere to the requirements set forth in 935 CMR 500.105(4) which provides the permitted and prohibited advertising, branding, marketing, and sponsorship practices of every Marijuana Establishment.

No actions taken, or programs instituted by the applicant will violate the Commission's regulations with respect to limitations on ownership or control or other applicable state laws.

No donation or program to support any specifically named organizations or the furtherance of their goals have been proposed as this is a direct mentor-to-mentee program.

Goals:

This program will meet the spirit and objectives of state law M.G.L. Ch. 94G §4 that requires Licensed Marijuana Establishments to, “...engage in processes and policies that promote and encourage full participation in the regulated cannabis industry by people from communities that have previously been disproportionately harmed by marijuana prohibition and enforcement and to positively impact those communities.”

The Commission has identified the groups this plan is intended to impact as the following:

- Past or present residents of the geographic ADI, which have been defined by the Commission and identified in its *Guidance for Identifying Areas of Disproportionate Impact*.
- Commission-designated Economic Empowerment Priority applicants;
- Commission-designated Social Equity Program participants;
- Massachusetts residents who have past drug convictions; and
- Massachusetts residents with parents or spouses who have drug convictions.
- The above persons are hereinafter be referred to as the **Primary Target Group (PTG)**.

The goal of the program is to provide ADI communities access to the following training, educational and mentorship resources, with a goal of attracting 25% of attendees from the PTG described above:

- Access to **quarterly** training seminars (see seminar content below)
 - PTG participants will acquire or adapt some of the tools and skills necessary to achieve success as either an entrepreneur or employee within the licensed marijuana industry.
 - PTG participants will be empowered to better understand and recognize if, and where, their interest within the licensed marijuana industry lies.
 - PTG participants will have access to guidance and support in the job-seeking process for those looking to gain employment within the industry.

- Provide PTG participants open access to expert, proactive, post-seminar mentorship and counseling, an online resource center providing links and information of use to both PTG entrepreneurs and those seeking employment in the licensed marijuana industry, and access to weekly group and individual conference calls with leading industry consultants and ancillary professionals
- Promote PTG attendee participation in a wide-reaching quarterly survey designed to identify and overcome the obstacles to success in the industry, and thus make a positive impact on others seeking to contribute or participate in the licensed marijuana industry.

Programs:

The *Green Gateway Positive Impact Program* comprises three main elements:

One day seminar - This free, quarterly seminar will be conducted at a suitable venue in the above ADI. The goal of these seminars is to directly assist members of the PTG by providing participants with knowledge, resources, tools and guidance to strengthen, promote and empower their successful participation in this industry as an entrepreneur, business owner, or employee.

Seminar Content:

- Introduction
- A brief history of Marijuana regulation
- Federal Law, State Law, Regulations and Administrative Decisions
- The Cannabis Control Commission
- Developing your vision
- Developing your business plan
- The Application Process - Threading the needle
- Community Resources for Economic Development
- Home-Grown Cannabis regulations
- Employment in the Marijuana Industry
- Open Forum
- Next steps

Mentorship and Counseling - Seminar participants will be offered free, **ongoing** access to a web-based, “help-desk” facility that provides access to the knowledge and experience of professional industry consultants with expertise in Business Development, Marijuana Licensing, Federal and State law, and Federal and State accounting. This post-seminar mentorship and counseling facility will assist and guide PTG participants by providing the following:

- Exclusive access to an online resource center that provides links to documents, state and local resources, service providers and articles that will benefit the PTG participant.
- Exclusive access to our “Ask me anything” FAQ page, where PTG participants may post questions and receive answers to Marijuana industry related issues.
- A **weekly** telephone conference that comprises a 60-minute check-in with PTG participants, with a Q&A session, followed by a number of, 30-minute, pre-booked individual calls that allow PTG participants to pose or discuss business sensitive or confidential questions and matters without fear of disclosure.

Positive Impact Survey - A goal and measurement of our program progress will be our Positive Impact Survey. All participants in the one-day seminar are required to complete and submit the pre-seminar baseline survey. The goal of the survey is to help identify the “capture” demographics of attendees. A second, follow-up survey will be completed and submitted at the conclusion of the one-day seminar. This will help identify our core survey group.

The goal of the program is to gather a cadre of core survey participants. This group should comprise those participants whose interest in the marijuana industry and the Green Gateway Program extends beyond the initial seminar. Participants in the core survey, while benefiting from ongoing mentorship and counseling, will through a series of in-depth questionnaires, focus groups and feedback opportunities, provide a wealth of data detailing demographics, backgrounds, challenges and advantages encountered or perceived by seminar attendees and survey participants. The qualitative and quantitative findings of our survey will be published in an annual report. This report will be made available to the CCC, state funding agencies, and local business development organizations. This report will help assess and measure the obstacles and routes to success for PTG participants.

Measurements:

Program Progress and Success - The success and impact of this program will be measured through the following means:

- **Attendance** - Attendance will be counted and recorded through both the survey and attendee records. Attendance goals will be achieved if at least 25% of attendees are PTGs from any ADI.
- **Feedback** - All attendees, survey participants, and survey recipients will be asked to complete feedback surveys on the content and delivery of this program. Our feedback goals will be achieved if 75% or more attendees provide feedback and that feedback rating is at least 3.5 out of 5.
- **Sustainability** - One of our benchmarks of success will be sustained participation in our program. We define "sustained participation" as the continued engagement of at least 25% of attendees in our post seminar activities such as mentorship and counseling activities, accessing our online resource center, or participating in our weekly telephone conference during the 3 months following their first seminar
- **Survey Data use** -The success of our survey data efforts may be measured by the circulation of our annual survey data report to at least two state organizations, the governing body of the above ADI, and at least two independent regional workforce development and/or economic development organizations.
- **License Renewal:** A comprehensive annual report that shows the progress or success of this plan will be provided to the CCC prior to annual renewal of the license and each year thereafter, commencing with the date of provisional license.

ToroVerde’s goals include providing safe and high-grade cannabis and extract products to eligible consumers above the age of 21. ToroVerde also strives to contribute to the local economy and community by providing jobs, organizing employee volunteer days and industry specific training classes to prospective employees.

2. COMPANY DESCRIPTION

2.1 Corporate and Application Status

ToroVerde is a Massachusetts business corporation in good standing that is applying for a license from the Massachusetts Cannabis Control Commission (the “**Commission**”) to operate an adult use Marijuana Retailer Establishment (“**MRE**”) in the Commonwealth.

ToroVerde will file, in a form and manner specified by the Commission, an application for licensure as an MRE consisting of three (3) packets: an Application of Intent packet; a Background Check packet; and a Management and Operations Profile packet, in addition to submission of the required fees.

2.2 Operations

ToroVerde has executed a Lease Agreement for 26-28 N. King Street, Unit 2 in Northampton for use as a Marijuana Retailer Establishment. The property includes an existing 3,000 square foot commercial/retail space that will be renovated to improve exterior and interior conditions and install state-of-the-art security systems. There is ample existing parking on site for customers and staff.

ToroVerde’s facility will be designed with the specific intentions of ensuring consumer safety; promoting a smooth flow of business throughout the facility; eliminating queuing; and incorporating design nuance that is intended to facilitate one-on-one conversations between customer service representatives and customers. ToroVerde will meticulously invest in security, interior design, quality control, product testing, and staff training.

ToroVerde plans to obtain the marijuana flower and marijuana products to be sold at its Retailer Establishment from other licensed Marijuana Cultivator and Product Manufacturer Establishments in the Commonwealth.

2.3 Inventory Procedures

ToroVerde will establish inventory controls and procedures for reviewing comprehensive inventories of marijuana products; conduct a monthly inventory of finished and stored marijuana; conduct a comprehensive inventory at least once every year after the date of the previous comprehensive inventory; and promptly transcribe inventories if taken by use of an oral recording device.

ToroVerde will track all marijuana products using a seed-to-sale methodology in a form and manner approved by the Commission. Such procedures have a well-established track record in the industry of preventing internal diversion of product.

ToroVerde will maintain records that will be available for inspection by the Commission and host upon request. The records will be maintained in accordance with generally accepted accounting principles (GAAP). Records will be maintained for at least 12 months.

Additional information on ToroVerde's inventory procedures are available in the Inventory Procedures document included with this submission.

2.4 Security

ToroVerde will contract with a professional security and alarm company to design, implement, and monitor a comprehensive security plan to ensure that the facility is a safe and secure environment for customers, employees and the local community.

ToroVerde's state-of-the-art security system will consist of perimeter windows, as well as duress, panic, and holdup alarms connected to local law enforcement for efficient notification and response in the event of a security threat. The system will also include a failure notification system that will immediately alert the executive management team if a system failure occurs. A redundant alarm system will be installed to ensure that active alarms remain operational if the primary system is compromised.

Interior and exterior HD video surveillance of all areas that contain marijuana, entrances, exits, and parking lots will be operational 24/7 and available to the Northampton Police Department. These surveillance cameras will remain operational even in the event of a power outage. The exterior of the dispensary and surrounding area will be sufficiently lit, and foliage will be minimized to ensure clear visibility of the area at all times.

Only eligible consumers 21 years of age and older with a valid government-issued ID and ToroVerde's registered agents and other authorized visitors (e.g. contractors, vendors) will be allowed access to the facility, and a visitor log will be maintained in perpetuity. All agents and visitors will be required to visibly display an ID badge, and ToroVerde will maintain a current list of individuals with access.

On-site consumption of marijuana by customers, ToroVerde's employees and visitors will be prohibited. ToroVerde will have security personnel on-site during business hours.

Additional information on ToroVerde's security plan is available in the Security Plan document included with this submission.

2.5 Benefits to the City of Northampton

ToroVerde looks forward to working cooperatively with the City of Northampton to ensure that ToroVerde operates as a responsible, contributing member of the Northampton community. ToroVerde anticipates establishing a mutually beneficial relationship with the City in exchange for permitting ToroVerde to site and operate in Northampton. The City stands to benefit in various ways, including but not limited to the following:

- a. **Jobs.** ToroVerde estimates adding 15 - 25 full-time jobs for qualified Northampton residents, in addition to hiring qualified local contractors and vendors.
- b. **Host Community Agreement.** A Host Community Agreement, under which ToroVerde will make significant community impact payments to the City, will provide additional financial benefits beyond local property taxes.
- c. **Access to Quality Legal Product for Consumers.** ToroVerde will ensure only qualified consumers ages 21 and over are able to purchase consistent, high-quality marijuana and marijuana products that are regulated and tested for cannabinoid content and contaminants. This will help to eliminate the current black market, in which consumers and patients are not required to verify their age and marijuana products are not tested.
- d. **Local Sales Tax Revenue.** The City will receive additional tax revenue through the adoption of a local sales tax of up to 3% on each retail sale to consumers.
- e. **Control.** In addition to the Commission, the Northampton Police Department and other municipal departments will have oversight over ToroVerde's security systems and processes.
- f. **Responsibility.** ToroVerde is comprised of experienced professionals who will be thoroughly background checked and vetted by the Commission.
- g. **Economic Development.** ToroVerde's project will revitalize the surrounding area and contribute to the overall economic development of the local community.

2.6 Zoning and Local Compliance

ToroVerde will remain compliant at all times with the local zoning requirements set forth in the City of Northampton Zoning Ordinance. In accordance with the Zoning Ordinance, ToroVerde's proposed Marijuana Retail Establishment is located in the Highway-Business (HB) Zoning District designated for Marijuana Retail Establishments.

In compliance with 935 CMR 500.110(3) and the Zoning Ordinance, ToroVerde's proposed facility is not located within five hundred (500) feet of a public or private school providing education to children in kindergarten or grades 1 through 12 or within two hundred (200) feet daycare center or any facility in which children commonly congregate.

ToroVerde will apply for any other local permits, approvals, registrations or certificates required to site and operate a Marijuana Retailer Establishment at the proposed location. ToroVerde will comply with all conditions and standards set forth in any required local permit or approval.

ToroVerde has met with local officials and community members to discuss its plans for a proposed Marijuana Retailer Establishment, and ToroVerde has executed the required Host Community Agreement with the City. ToroVerde will continue to work cooperatively with various municipal departments, boards, and officials to ensure that the establishment is compliant with all local laws, regulations, rules, and codes with respect to design, construction, operation, and security.

ToroVerde has also retained two law firms specializing in marijuana businesses to assist with ongoing compliance with local zoning requirements.

3. MARKET RESEARCH

3.1 Industry

33 States and Washington D.C have laws broadly legalizing marijuana use. Approximately 60% of Americans support the legalization of marijuana, with 89% of Americans supporting the legalization of marijuana use for medical purposes.

According to a recent study released by the Massachusetts Department of Public Health, over 21 percent of adults in Massachusetts have used marijuana within the last 30 days. In Massachusetts, marijuana sales are expected to increase from \$106 million in 2017 to \$457 million in 2018, and eventually to \$1.4 billion in 2025, according to New Frontier Data.

3.2 Customers

The City of Northampton's population is approximately 28,500, and the population of Hampshire County is approximately 161,800.

ToroVerde's target customers are consumers 21 years of age or older who live in, work in and visit the City of Northampton and the surrounding communities in Hampshire County and who are seeking to purchase high-quality marijuana and marijuana products in a secure, professional, welcoming and conveniently-located retail establishment.

3.3 Competitors

ToroVerde's main competitors will include other licensed Retailer Establishments in the City of Northampton and in other municipalities in Hampshire County.

3.4 Competitive Advantage

ToroVerde is in the process of engaging experienced cannabis industry professionals to provide advice on best practices for retail marijuana operations on a consultant basis.

ToroVerde feels confident that a consultant partner with experience in effective cannabis retail operations, superior product quality and selection, and attention to customer experience will yield a positive reputation for ToroVerde within the Northampton community that competitor retailer establishments may not be able to achieve. ToroVerde will leverage its partner's experience to ensure a premiere dispensing experience.

4. PRODUCT / SERVICE

ToroVerde intends to offer a variety of marijuana strains, concentrates and infused products to meet the wide-ranging needs and preferences of its customer base. The products available for purchase will include, but will not be limited to:

2. Creams and Lotion
3. Patches
4. Oral Mucosal/Sublingual Dissolving Tablets
5. Tinctures
6. Oral Sprays
7. Inhalation Ready to Use CO2 Extracted Hash Oils
8. Pre-Dosed Oil Vaporizers
9. Ingestion Capsules
10. Food and Beverages

4.2 Dispensary Procedures

In accordance with 935 CMR 500.140(3), access to ToroVerde's establishment will be limited to verified individuals 21 years of age and older. Prior to entering the dispensary, a customer must present a valid, government-issued photo identification to a ToroVerde security agent to determine whether the customer is 21 years of age or older. Once the customer's identity and age are verified, the security agent will permit the customer to enter the establishment's sales area.

Once inside the sales area, the customer will enter a queue to obtain individualized service from a ToroVerde agent who will help the customer select from the available products and complete the transaction. Prior to checkout, customers will be required to confirm their identities and ages a second time. The checkout also activates the seed-to-sale tracking system that will be compliant with 935 CMR 500.105(8). Sales will be limited to one (1) ounce of marijuana flower or five (5) grams of marijuana concentrate per adult use consumer transaction. All required taxes will be collected at the point of sale.

Once a customer has selected products for purchase, a ToroVerde agent will collect the requested items from a secure product storage area. The agent will then scan each product's barcode into

the Commission-approved point of sale system. All products will be packaged in tamper and child-resistant, resealable packaging that is compliant with 935 CMR 500.105(5) and properly labeled with warnings, strain information, cannabinoid profile, and other information detailed in 935 CMR 500.105.

In the event a ToroVerde agent determines a consumer would place themselves or the public at risk, the agent will refuse to sell any marijuana products to the consumer. ToroVerde will use the point of sale system to accept payment and complete the sale. The system will back up and securely cache each sale for inspection.

In compliance with 935 CMR 500.140(8), ToroVerde will provide educational materials designed to help consumers make informed marijuana product purchases. The educational materials will describe the various types of products available, as well as the types and methods of responsible consumption. The materials will offer education on titration, which is the method of using the smallest amount of product necessary to achieve the desired effect. Additional topics discussed in the education materials will include potency, proper dosing, the delayed effects of edible marijuana products, substance abuse and related treatment programs, and marijuana tolerance, dependence, and withdrawal.

Additional information on ToroVerde's retail policies and procedures is available in the Dispensing Procedures document included with this submission.

4.3 Pricing Structure

When determining the appropriate pricing structure, ToroVerde will continually strive to find the perfect balance between affordability for consumers and preventing the diversion of product to the black market.

5. MARKETING & SALES

5.1 Growth Strategy

ToroVerde's plan to grow the company includes:

1. Strong and consistent branding;
2. Intelligent, targeted, and compliant marketing programs;
3. An exemplary customer in-store experience; and
4. A caring and thoughtful staff made of highly-trained, consummate professionals

5.2 Communication

ToroVerde will engage in reasonable marketing, advertising, and branding practices that do not jeopardize the public health, welfare, or safety of the general public, or promote the diversion of

marijuana or marijuana use in individuals younger than 21 years old. Any such marketing, advertising, and branding created for viewing by the public will include the statement: “Please Consume Responsibly,” in a conspicuous manner on the face of the advertisement and will include a minimum of two of the warnings, located at 935 CMR 500.105(4)(a), in their entirety in a conspicuous manner on the advertisement.

All marketing, advertising, and branding produced by or on behalf of ToroVerde will include the following warning, including capitalization, in accordance with M.G.L. c. 94G, § 4(a½)(xxvi): “This product has not been analyzed or approved by the Food and Drug Administration (FDA). There is limited information on the side effects of using this product, and there may be associated health risks. Marijuana use during pregnancy and breast-feeding may pose potential harms. It is against the law to drive or operate machinery when under the influence of this product. KEEP THIS PRODUCT AWAY FROM CHILDREN. There may be health risks associated with consumption of this product. Marijuana can impair concentration, coordination, and judgment. The impairment effects of edible marijuana may be delayed by two hours or more. In case of accidental ingestion, contact poison control hotline 1-800-222-1222 or 9-1-1. This product may be illegal outside of MA.”

ToroVerde will communicate with customers through:

1. A company run website;
2. A company blog;
3. Popular online information platforms such as WeedMaps and Leafly;
4. Popular social media platforms such as Instagram and Facebook;
5. Opt-in direct communications; and
6. Partnership with local businesses.

ToroVerde will provide a catalogue and a printed list of the prices and strains of marijuana available to consumers and will post the same catalogue and list on its website and in the retail store.

ToroVerde will seek events where 85% or more of the audience is reasonably expected to be 21 years of age or older, as determined by reliable, current audience composition data. At these events, ToroVerde will market its products and services to reach a wide range of qualified consumers.

5.3 Product Packaging

ToroVerde will ensure that all marijuana products that are provided for sale to consumers are sold in tamper or child-resistant packaging. Packaging for marijuana products sold or displayed for consumers, including any label or imprint affixed to any packaging containing marijuana products or any exit packages, will not be attractive to minors.

Packaging for marijuana products sold or displayed for consumers in multiple servings will allow a consumer to easily perform the division into single servings and include the following statement on the exterior of the package in a printed font that is no smaller than ten-point Times New Roman, Helvetica, or Arial, including capitalization: “INCLUDES MULTIPLE

SERVINGS.” ToroVerde will not sell multiple serving beverages and each single serving of an edible marijuana product contained in a multiple-serving package will be marked, stamped, or otherwise imprinted with the symbol issued by the Commission under 935 CMR 500.105(5) that indicates that the single serving is a marijuana product. At no point will an individual serving size of any marijuana product contain more than five (5) milligrams of delta-nine tetrahydrocannabinol.

5.4 Branding and Logos

ToroVerde will develop logos and branding that complies with state regulations and that will distinguish ToroVerde from its competitors. ToroVerde will file for trademark protection at the state level, and when permissible, at the federal level.

6. FINANCIAL SUMMARY

ToroVerde is well-funded and is expected to have the ability to leverage its consultant’s operational experience to establish a successful, compliant retail operation in a timely manner.

ToroVerde’s proposed facility in Northampton is an existing structure that will not require large amounts of capital and time-intensive construction.

6.2 Financial Assumptions

ToroVerde has based its revenue forecasts on a top-down model that accounts for the local population (of both the City of Northampton and Hampshire County). While initial estimates assume a higher proportion of revenue from the sale of dried flower, ToroVerde assumes that revenue will shift in favor of derivative products (including topicals, tinctures, concentrates, and edibles) in subsequent years.

ToroVerde expects to employ at least 13 full-time equivalents (FTEs) in Northampton, plus a salaried General Manager and Assistant General Manager. Additionally, ToroVerde will employ a minimum of two Security Officers, one of which will be present on the premises during all operating hours.

In these financial projections, ToroVerde assumes operations as a Marijuana Retail Establishment will commence on these premises in November 2019. However, the applicant understands that the opening of the business is requisite on receipt of full licensure from the Commonwealth of Massachusetts and full compliance with all laws and regulations governing the operation of such business.

(c) This Section 3.07 shall survive the expiration or termination of this Agreement.

ARTICLE IV INTELLECTUAL PROPERTY

Section 4.01 Consultant Intellectual Property. ToroVerde acknowledges and agrees that it will not acquire any right in or to any expertise, work product, know-how, trade secrets, statutory and common law copyrights and intellectual property now or hereafter owned by Consultant (“**Consultant Intellectual Property**”). ToroVerde acknowledges the legal validity and commercial value of Consultant Intellectual Property, including all state and federal intellectual property registrations that Consultant owns, obtains or acquires. ToroVerde shall not, at any time, file any application for intellectual property protection with the United States Patent and Trademark Office, or with any other governmental entity, based on knowledge obtained from Consultant’s Intellectual Property.

Section 4.02 ToroVerde Intellectual Property. ToroVerde retains exclusive rights to, and ownership of, any of ToroVerde’s work product, know-how, trade secrets, statutory and common law copyrights, trademarks and other materials provided to Consultant, disclosed to Consultant, or otherwise used in connection with or in furtherance of the Services and/or this Agreement (the “**ToroVerde Intellectual Property**”). Consultant acknowledges and agrees that it will not, by virtue of this Agreement or otherwise, acquire any right in or to ToroVerde Intellectual Property. Consultant shall not, at any time, file any application for intellectual property protection with the United States Patent and Trademark Office, or with any other governmental entity, based on ToroVerde’s Intellectual Property. Consultant shall not oppose or seek to cancel or challenge, in any forum, including, but not limited to, the United States Patent and Trademark Office, any application or registration of ToroVerde’s brands, products, official label or any other existing or future ToroVerde trademarks based on ToroVerde’s Intellectual Property.

Section 4.03 IP Developed by Consultant or Jointly. The Parties agree that all intellectual property rights, titles and interests in and to all of the products conceived, created, developed or produced by Consultant for ToroVerde or jointly by the Parties in connection with and during the performance of this Agreement, including licenses, copyrights, trademarks, patents and all other intellectual property rights, shall be considered “work made for hire” and shall become the exclusive property of ToroVerde. Consultant may use, distribute, market, license or sell such products with the prior written consent of ToroVerde. Nothing in this Section 4.03 shall confer any right in Consultant’s Intellectual Property to ToroVerde.

Section 4.04 Termination of IP Rights. Upon the expiration or termination of the Agreement, each Party agrees to return, and cease to use, the other's intellectual property as soon as practicably possible. This provision shall survive the expiration or termination of this Agreement.

Section 4.05 Injunctive Relief. Each Party acknowledges that one Party's breach or threatened breach of this Article IV will result in immediate and irreparable damage to the other Party for which money damages alone would be inadequate to compensate the other Party. Therefore, in the event of a breach or threatened breach of this Article IV by one Party, the other Party may, in addition to other remedies, immediately obtain and enforce injunctive relief prohibiting the breach, continued breach or threatened breach of this Article IV or compel specific performance of this Agreement. In the event of any breach or threatened breach of this Article IV by one Party or infringement of any rights of one Party, the other Party shall reimburse the breaching Party for its reasonable attorney's fees and other related expenses if it is determined that the breaching Party has in fact breached this Agreement pursuant to the dispute resolution procedures in Section 6.11 or by a court of competent jurisdiction.

Section 4.06 Limitation of Remedies. Notwithstanding any provision of this Agreement to the contrary, Consultant agrees that Consultant's rights and remedies following ToroVerde's default, breach, surrender or any other failure to perform under this Agreement shall not include seizure of assets protected by St. 2016, ch. 334, St. 2017, ch. 55, G.L. c. 94G, all as amended or replaced, and all regulations and applicable local laws promulgated pursuant thereto (i.e. any product containing any amount of cannabis). Consultant shall not be entitled to a repayment or remedy that provides Consultant inventory of ToroVerde that contains any amount of cannabis, in any form, whether flower or infused product. Consultant hereby forfeits any such remedy. In addition, Consultant hereby understands and agrees that a License, whether provisional or final, is nontransferable, and may not be assigned or transferred without prior approval from the Commission. Consultant agrees that ToroVerde's License is not an asset that may be seized by Consultant or available as a remedy for ToroVerde's default, breach or other failure to perform under this Agreement.

Section 6.05 Subcontractors. Consultant may hire or employ subcontractors to perform certain tasks associated with Consultant's obligations under this Agreement; *provided, however*, that all subcontractors must pass all required background checks and comply with the Regulations and applicable laws. Any subcontractors hired or employed by Consultant must agree to be bound by Consultant's confidentiality and other obligations hereunder and Consultant shall be responsible for any damage, harm or violations caused by such subcontractors.

Section 6.06 Regulatory Approval. The validity and enforceability of this Agreement may be contingent upon approval by the Commission. In the event that the Commission provides notice at any time that this Agreement must be reformed to be valid, the Parties will negotiate in good faith to conform this Agreement based on any guidance provided and to conform to the original intent to the Parties as closely as possible.

Section 6.07 Severability. Should any one or more of the provisions contained in this Agreement be held invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect the other provisions of this Agreement, and this Agreement shall be construed and enforced as if such invalid, illegal or unenforceable provision had never been contained herein; *provided, however*, that this Agreement is subject to revisions and approval by the Commission pursuant to the above Section 6.06.

Section 6.08 Waiver of Breach. A waiver by either Party of a breach of any provision of this Agreement by the other Party shall not operate or be construed as a waiver of any subsequent or different breach by the other Party.

Section 6.09 Force Majeure. Any prevention, delay or stoppage due to strikes, lockouts, acts of God, enemy or hostile government action, civil commotion, fire or other casualty beyond the control of the Party obligated to perform shall excuse the performance by such Party for a period equal to any such prevention, delay or stoppage.

Section 6.10 Governing Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the Commonwealth of Massachusetts without regard to any principles of conflicts of law that would cause the application of laws of any jurisdiction other than the Commonwealth of Massachusetts. The Parties expressly waive any defense to enforcement of the terms or conditions of this Agreement based upon federal law.

Section 6.11 Dispute Resolution. Except for any immediate action for injunctive relief by Consultant pursuant to Section 4.05, if there is any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this Section 6.11, the Party claiming a dispute will serve notice on the other Party in accordance with the above Section 6.03. If the dispute cannot be settled amicably within fourteen (14) days from the date on which either Party has served written notice on the other of the dispute, then the remaining provisions of this Section 6.11 shall apply. Following such fourteen (14) day period attempt to resolve the dispute, the Parties agree to promptly participate in at least four (4) hours of mediation. The Parties agree to share equally in the costs of the mediation. Mediation involves each side of a dispute meeting with an impartial person, the mediator, to attempt to reach a voluntary settlement. Mediation involves no formal court procedures or rules of evidence, and the mediator does not have the power to render a binding decision or force an agreement on the Parties. In the event that good faith attempts of resolution and mediation fail to provide a reasonably agreeable resolution to the dispute, resolution of the dispute shall be determined by arbitration in Boston, Massachusetts before a single arbitrator. The arbitration shall be administered by the American Arbitration Association or by an arbitrator (or arbitration company) that provides services to the cannabis industry, as jointly determined by the Parties. The costs associated with the arbitration shall be evenly split between the Parties. The arbitrator has the power to grant legal and equitable remedies, including the fees for the arbitration, but shall not grant punitive damages. The arbitrator shall apply the laws of the Commonwealth of Massachusetts only. Judgment on the award may be entered in any court in and for the Commonwealth of Massachusetts. The arbitration proceedings and results are to be confidential except the Parties may disclose the outcome of the arbitration when required under applicable law. **THE PARTIES ACKNOWLEDGE THAT THEY ARE IRREVOCABLY WAIVING THE RIGHT TO A TRIAL IN COURT, INCLUDING A TRIAL BY JURY AND THAT ALL RIGHTS AND REMEDIES WILL BE DETERMINED BY AN ARBITRATOR AND NOT BY A JUDGE OR JURY.**

Section 6.12 Entire Agreement. This Agreement, including the Exhibits hereto and the Statements of Work, is intended by the Parties as a final expression of their agreement and is intended to be a complete and exclusive statement of the agreement and understanding of the Parties in respect of the subject matter contained herein. This Agreement has been negotiated and reviewed by the Parties and their respective counsels and any uncertainty or ambiguity herein shall not be construed or resolved using any presumption against any Party, whether under any rule of construction or otherwise.

6. How many women and or veterans have chosen to engage in shadow training?

None of the above shall prevent the company from hiring the most qualified candidates and complying with all employment laws and other legal requirements. In addition to direct hiring, the company will work in good faith, in a legal and non-discriminatory manner to consider the status of vendors, suppliers, contractors, and tradesmen when planning to employ such individuals from within the local municipality

Any Independent Testing Laboratory relied upon by ToroVerde for testing will be licensed or registered by the Commission and (i) currently and validly licensed under 935 CMR 500.101: *Application Requirements*, or formerly and validly registered by the Commission; (ii) accredited

to ISO 17025:2017 or the most current International Organization for Standardization 17025 by a third-party accrediting body that is a signatory to the International Laboratory Accreditation Accrediting Cooperation mutual recognition arrangement or that is otherwise approved by the Commission; (iii) independent financially from any Medical Marijuana Treatment Center, Marijuana Establishment or Licensee; and (iv) qualified to test marijuana and marijuana products, including marijuana-infused products, in compliance with M.G.L. c. 94C, § 34; M.G.L. c. 94G, § 15; 935 CMR 500.000: *Adult Use of Marijuana*; 935 CMR 501.000: *Medical Use of Marijuana*; and Commission protocol(s).

Testing of ToroVerde's marijuana products will be performed by an Independent Testing Laboratory in compliance with a protocol(s) established in accordance with M.G.L. c. 94G, § 15 and in a form and manner determined by the Commission, including but not limited to, the *Protocol for Sampling and Analysis of Finished Medical Marijuana Products and Marijuana-infused Products*. Testing of ToroVerde's environmental media will be performed in compliance with the *Protocol for Sampling and Analysis of Environmental Media for Massachusetts Registered Medical Marijuana Dispensaries* published by the Commission.

ToroVerde's marijuana will be tested for the cannabinoid profile and for contaminants as specified by the Commission including, but not limited to, mold, mildew, heavy metals, plant-growth regulators, and the presence of pesticides. In addition to these contaminant tests, final ready-to-sell Marijuana Vaporizer Products shall be screened for heavy metals and Vitamin E Acetate (VEA) in accordance with the relevant provisions of the *Protocol for Sampling and Analysis of Finished Marijuana and Marijuana Products for Marijuana Establishments, Medical Marijuana Treatment Centers and Colocated Marijuana Operations*. ToroVerde acknowledges and understands that the Commission may require additional testing.

ToroVerde's policy of responding to laboratory results that indicate contaminant levels are above acceptable limits established in the protocols identified in 935 CMR 500.160(1) will include notifying the Commission (i) within 72 hours of any laboratory testing results indicating that the contamination cannot be remediated and disposing of the production batch and (ii) of any information regarding contamination as specified by the Commission immediately upon request by the Commission. Such notification will be from both ToroVerde and the Independent Testing Laboratory, separately and directly, and will describe a proposed plan of action for both the destruction of the contaminated product and the assessment of the source of contamination.

ToroVerde will maintain testing results in compliance with 935 CMR 500.000 *et seq* and the record keeping policies described herein and will maintain the results of all testing for no less than one year. Any marijuana or marijuana products that fail any test for contaminants must either be reanalyzed without remediation, remediated or disposed of. In the event marijuana or marijuana products are reanalyzed, a sample from the same batch shall be submitted for reanalysis at the ITL that provided the original failed result. If the sample passes all previously failed tests at the initial ITL, an additional sample from the same batch previously tested shall be submitted to a second ITL other than the initial ITL for a Second Confirmatory Test. Renewable Energy Generation Opportunities

ToroVerde is in the process of considering opportunities for renewable energy generation (including wind and solar options). ToroVerde’s preliminary examination of renewable energy generation has determined that the upfront costs of such options are too expensive at this time, although ToroVerde may reconsider at a future date. ToroVerde will also consult with its architects and engineers when designing the facility to determine the building’s capacity for renewable energy options (e.g. whether or not the roof can support the weight of solar panels). Nevertheless, our team is dedicated to consistently strive for sustainability and emissions reduction.

Strategies to Reduce Electric Demand

ToroVerde is considering the following strategies to reduce electric demand:

1. Exterior and interior glazing on windows such that maximum natural daylight can enter the building without compromising security, reducing the reliance on artificial light during daytime hours;
2. Lighting fixtures that are energy efficient and used with Energy Star rated bulbs; and
3. Room lighting and switching will have occupancy sensors to reduce electrical consumption when rooms are unoccupied.

As the need and opportunity for facility upgrades and maintenance arise in the future and the company becomes cash flow positive, ToroVerde will continue to evaluate strategies to reduce electric demand.

Opportunities for Engagement with Energy Efficiency Programs

ToroVerde also plans on engaging with energy efficiency programs offered by Mass Save and the Massachusetts Clean Energy Center and will coordinate with municipal officials to identify

other potential energy saving programs and initiatives. ToroVerde will also coordinate with its utility companies to explore any energy efficiency options available to ToroVerde.
