Plan to Remain Compliant with Local Zoning Codes & Ordinances

The proposed location of 601-603 Fitchburg State Road, Ashby, MA is a compliant location in the Industrial Zone by way of The Town of Ashby By-Laws. However, permitting for marijuana establishments does require approval via the “special permit” process defined below.

The special permit process begins with a Zoning Board of Appeals Hearing Application and a Special Permit Application that is submitted to the Zoning Board of Appeals for review.

Upon approval of Special Permit, United Cultivation would then be subject to all applicable local and state law compliance as it relates to the completion of our establishment via departmental permitting guidelines included, but not limited to, building permit, electrical permit, plumbing and gas permit, fire permit, health department inspection and certificate of occupancy permitting.

Once approved and exercised, Special Permits in the Town of Ashby to not expire or need to be renewed.

9.06. Separability Of Provisions. Each provision of this Agreement shall be considered separable. If for any reason any provision or provisions herein are determined to be invalid and contrary to any existing or future law, such invalidity shall not impair the operation of or affect those portions of this Agreement which are valid, and if for any reason any provision or provisions herein would cause the Members to be liable for or bound by the obligations of the LLC, such provision or provisions shall be deemed void and of no effect.

ARTICLE IV

Distributions; Profits And Losses

4.01. Distribution Of LLC Funds.

(a) Except as provided in Section 4.02, Section 4.09, and Section 4.10, all moneys received by the LLC, which are determined by Approval of the Managers to be available for distribution, shall be distributed to the Members in the proportions set forth in 'Distribution Interest' in Schedule A; provided, however, that said distribution shall be reduced by the amount of any prior distributions made to any Member. The Managers and Members recognize and agree that the Distribution Interest may be different from and greater or less than the Capital Contribution and/or Percentage Interest, and that such differences in the amounts are intended to provide for compensation to the Managers and Members for goods and services provided by them to the LLC.

(b) In the event there is no 'Distribution Interest' set forth in Schedule A, then distribution to Members shall be as follows:

- (i) First, to the Members in proportion to their Adjusted Capital Contributions until their Adjusted Capital Contributions are reduced to zero; and
- (ii) Second, the balance to the Members in proportion to their respective Percentage Interests.

4.02. Distribution Upon Dissolution. Proceeds from a Terminating Capital Transaction and amounts available upon dissolution, and after payment of, or adequate provision for, the debts and obligations of the LLC, and liquidation of any remaining assets of the LLC, shall be distributed and applied in the following priority:

- (i) First, to fund reserves for liabilities not then due and owing and for contingent liabilities to the extent deemed reasonable by Approval of the Managers,

provided that, upon the expiration of such period of time as the Managers by Approval of the Members shall deem advisable, the balance of such reserves remaining after payment of such contingencies shall be distributed in the manner hereinafter set forth in this Section 4.02; and

- (ii) Second, to the Members, an amount sufficient to reduce the Members' Capital Accounts to zero, in proportion to the positive balances in such Capital Accounts (after reflecting in such Capital Accounts all adjustments thereto necessitated by (A) all other LLC transactions (distributions and allocations of Profits and Losses and items of income, gain, deduction, and loss) and (B) such Terminating Capital Transaction).

4.03. Distribution Of Assets In Kind. No Member shall have the right to require any distribution of any assets of the LLC in kind. If any assets of the LLC are distributed in kind, such assets shall be distributed on the basis of their fair market value as determined by Approval of the Managers. Any Member entitled to any interest in such assets shall, unless otherwise determined by Approval of the Managers, receive separate assets of the LLC and not an interest as tenant-in-common, with other Members so entitled, in each asset being distributed.

4.04. Required Regulatory Allocations.

(a) Limitation On And Reallocation Of Losses. At no time shall any allocations of Losses, or any item of loss or deduction, be made to a Member if and to the extent such allocation would cause such Member to have, or would increase the deficit in, any Adjusted Capital Account Deficit of such Member at the end of any fiscal year. To the extent any Losses or items are not allocated to one or more Members pursuant to the preceding sentence, such Losses shall be allocated to the Members to which such losses or items may be allocated without violation of this Section 4.04(a).

(b) Minimum Gain Chargeback. If there is a net decrease in the Minimum Gain of the LLC during any fiscal year, then items of income or gain of the LLC for such fiscal year (and, if necessary, subsequent fiscal years) shall be allocated to each Member in an amount equal to such Member's share of the net decrease in the Minimum Gain, determined in accordance with Regulations Section 1.704-2(d)(1). A Member's share of the net decrease in the Minimum Gain of the LLC shall be determined in accordance with Regulations Section 1.704-2(g). The items of income and gain to be so allocated shall be determined in accordance with Regulations Section 1.704-2(j)(2)(i).

(c) Nonrecourse Deductions. Nonrecourse Deductions for any fiscal year or other period (not including any Partner Nonrecourse Deductions allocated pursuant to Section 4.04(d)) shall be allocated among the Members in proportion to their respective Percentage Interests. Solely for purposes of determining each Member's proportionate share of the "excess nonrecourse liabilities" of the LLC, within the meaning of Regulations Section 1.752-3(a)(3), each Member's interest in LLC profits shall be equal to his, her or its 'Distribution Interest' as set forth in Schedule A; provided, however, that

in the event there is no Distribution Interest set forth in Schedule A, then each Member's interest in LLC profits shall be equal to his, her or its Percentage Interest. The items of losses, deductions and Code Section 705(a)(2)(B) expenditures to be so allocated shall be determined in accordance with Regulations Section 1.704-2(j)(1)(ii).

(d) Partner Nonrecourse Deductions. Any Partner Nonrecourse Deductions for any fiscal year or other period shall be allocated to the Member who bears the economic risk of loss with respect to the nonrecourse liability, as determined and defined under Regulations Section 1.704-2(b)(4) to which such Partner Nonrecourse Deductions are attributable in accordance with Regulations Section 1.704-2(i)(1). The items of losses, deductions and Code Section 705(a)(2)(B) expenditures to be so allocated shall be determined in accordance with Regulations Section 1.704-2(j)(1)(ii).

(e) Partner Minimum Gain Chargeback. Notwithstanding any contrary provisions of this Article IV, other than Section 4.04(b) above, if there is a net decrease in Partner Minimum Gain attributable to Partner Nonrecourse Debt during any fiscal year, then each Member who has a share of such Partner Minimum Gain, determined in accordance with Regulations Section 1.704-2(i), shall be allocated items of income and gain of the LLC, determined in accordance with Regulations Section 1.704-2(j)(2)(ii), for such fiscal year (and, if necessary, subsequent fiscal years) in an amount equal to each such Member's share of the net decrease in such Partner Minimum Gain, determined in accordance with Regulations Section 1.704-2(i)(3) and 2(i)(5).

(f) Qualified Income Offset. If any Member unexpectedly receives an item described in Regulations Section 1.704-1(b)(2)(ii)(d)(4), (5) or (6), items of income and gain shall be allocated to each such Member in an amount and manner sufficient to eliminate, as quickly as possible and to the extent required by Regulations Section 1.704-1(b)(2)(ii)(d), the Adjusted Capital Account Deficit of such Member, provided that an allocation pursuant to this Section 4.04(f) shall be made if and only to the extent that such Member would have an Adjusted Capital Account Deficit after all other allocations provided for in this Article V have been tentatively made as if this Section 4.04(f) were not in the Agreement.

(g) Basis Adjustment. To the extent an adjustment to the adjusted tax basis of any LLC asset pursuant to either of Code Sections 734(b) or 743(b) is required pursuant to Regulations Section 1.704-1(b)(2)(iv)(m) to be taken into account in determining Capital Accounts, the amount of such adjustment to the Capital Accounts shall be treated as an item of gain (if the adjustment increases the basis of the asset) or loss (if the adjustment decreases such basis) and such gain or loss shall be allocated to the Members in a manner consistent with the manner in which their Capital Accounts are required to be adjusted pursuant to such Section of the Regulations.

(h) Gross Income Allocation. In the event any Member has a Capital Account deficit at the end of any LLC fiscal year, which is in excess of the sum of the items to be credited to a Member's Capital Account under clause (a) of the definition of Adjusted Capital Account Deficit, then each such Member shall be allocated items of income and

gain in the amount of such excess as quickly as possible provided that an allocation pursuant to this Section 4.05(h) shall be made if and only to the extent that such Member would have a Capital Account deficit in excess of such sum after all other allocations provided for in this Article IV have been tentatively made as if this Section 4.04(h) were not in this Agreement. As among Members having such excess if there are not sufficient items of income and gain to eliminate all such excesses, such allocations shall be made in proportion to the amount of any such excess.

(i) Managers Share. Any other provision of this Agreement notwithstanding, the Managers in the Managers' capacity as a Member shall at all times have allocated and distributed to them not less than an aggregate of one percent (1%) of each item of income, gain, loss, deduction and credit allocated or distributed hereunder.

4.05. Curative Allocations. The allocations set forth in Section 4.04 are intended to comply with certain requirements of Regulations Sections 1.704(b) and 1.704-2 and shall be interpreted consistently therewith. Such allocations may not be consistent with the manner in which the Members intend to divide LLC distributions and to make Profit and Loss allocations. Accordingly, by Approval of the Managers other allocations of Profits, Losses and items thereof shall be divided among the Members so as to prevent the allocations in Section 4.04 from distorting the manner in which LLC distributions will be divided among the Members pursuant to Section 4.01 and 4.02 hereof. In general, the Members anticipate that this will be accomplished by specially allocating other Profits, Losses and items of income, gain, loss and deduction among the Members so that the net amount of allocations under Section 4.04 and allocations under this Section 4.05 to each such Member is zero. However, the Managers shall have discretion to accomplish this result in any reasonable manner.

4.06. Allocation Of Profits And Losses.

(a) After given effect to the allocations set forth in Sections 4.04 and 4.05, Profits shall be allocated in the following order and priority:

(i) First, to the extent Losses have previously been allocated pursuant to clauses (ii) or (iii) of Section 4.06(b) for any prior period, Profits shall be allocated to the members first to offset any Losses allocated pursuant to said clause (iii) of Section 4.06(b), and then to offset any Losses allocated pursuant to said clause (ii) of Section 4.06(b), (in each case pro rata among the Members in proportion to their shares of the Losses to be offset under such clause), and to the extent any allocations of Losses are offset pursuant to this clause First, such allocations of Losses shall be disregarded for purposes of computing subsequent allocations pursuant to this clause First; and

(ii) Second, any remaining Profits shall be allocated among the Members in proportion to their respective Distribution Interests as set forth in Schedule A; provided, however, that in the event there is no Distribution Interest set forth

in Schedule A, then any remaining Profits shall be allocated among the Members in proportion to their respective Percentage Interests.

(b) After giving effect to the allocations set forth in Section 4.04 and 4.05, Losses shall be allocated in the following order and priority:

- (i) First, to the extent Profits have previously been allocated pursuant to clause (ii) of Section 4.06(a) for any prior period, Losses shall be allocated to the Members first to offset any Profits allocated pursuant to said clause (ii) of Section 4.06(a), (in each case pro rata among the Members in proportion to their shares of the Profits to be offset under such clause), and to the extent any allocations of Profits are offset pursuant to this clause First, such allocations of Profits shall be disregarded for purposes of computing subsequent allocations pursuant to this clause First;
- (ii) Second, Losses shall be allocated among the Members in proportion to the respective amounts of their capital contributions until the cumulative Losses allocated pursuant to this clause (ii) of Section 4.06(b) are equal to the aggregate amount of all such capital contributions; and
- (iii) Third, any remaining Losses shall be allocated among the Members in proportion to their respective Percentage Interests.

4.07. Tax Allocations And Book Allocations. Except as otherwise provided in this Section 4.07, for federal income tax purposes, each item of income, gain, loss and deduction shall, to the extent appropriate, be allocated among the Members in the same manner as its correlative item of "book" income, gain, loss or deduction has been allocated pursuant to the other provisions of this Article IV.

In accordance with Code Section 704(c) and the Regulations thereunder, depreciation, amortization, gain and loss, as determined for tax purposes, with respect to any property whose Book Value differs from its adjusted basis for federal income tax purposes shall, for tax purposes, be allocated among the Members so as to take account of any variation between the adjusted basis of such property to the LLC for federal income tax purposes and its Book Value, such allocation to be made by Approval of the Managers in any manner which is permissible under said Code Section 704(c) and the Regulations thereunder and the Regulations under Code Section 704(b).

In the event the Book Value of any property of the LLC is subsequently adjusted, subsequent allocations of income, gain, loss and deduction with respect to any such property shall take into account any variation between the adjusted basis of such assets for federal income tax purposes and its Book Value in the manner provided under Section 704(c) of the Code and the Regulations thereunder.

Allocations pursuant to this Section 4.07 are solely for purposes of federal, state, and local taxes and shall not affect, or in any way be taken into account in computing,

any Member's Capital Account or share of Profits, Losses, other items, or distributions pursuant to any provision of this Agreement.

4.08. General Allocation And Distribution Rules.

(a) For purposes of determining the Profits, Losses, or any other items allocable to any period, Profits, Losses, and any such other items shall be determined on a daily, monthly, or other basis, as determined by Approval of the Managers using any permissible method under Code Section 706 and the Regulations thereunder. Except as otherwise provided in this Agreement, all items of income, gain, loss, and deduction shall be allocable among the Members in the same proportions as the profits or Losses for the fiscal year in which such item is included is allocated.

(b) Upon the admission of a new Member or the Transfer of an interest, the new and old Members or the transferor and transferee shall be allocated shares of Profits and Losses and other allocations and shall receive distributions, if any, based on the portion of the fiscal year that the new or transferred LLC interest was held by the new and old Members, or the transferor, and transferee, respectively. For the purpose of allocating Profits and Losses and other allocations and distributions, (i) such admission or Transfer shall be deemed to have occurred on the first day of the month in which it occurs, or if such date shall not be permitted for allocation purposes under the Code or the Regulations, on the nearest date otherwise permitted under the Code or the Regulations, and (ii) if required by the Code or the Regulations, the LLC shall close its books on an interim basis on the last day of the previous calendar month.

4.09. Tax Withholding. If the LLC incurs a withholding tax obligation with respect to the share of income allocated to any Member, (a) any amount which is (i) actually withheld from a distribution that would otherwise have been made to such Member and (ii) paid over in satisfaction of such withholding tax obligation shall be treated for all purposes under this Agreement as if such amount had been distributed to such Member, and (b) any amount which is so paid over by the LLC, but which exceeds the amount, if any, actually withheld from a distribution which would otherwise have been made to such Member, shall be treated as an interest-free advance to such Member. Amounts treated as advanced to any Member pursuant to this Section 4.09 shall be repaid by such Member to the LLC within thirty (30) days after the Managers, acting by Approval, give notice to such Member making demand therefor. Any amounts so advanced and not timely repaid shall bear interest, commencing on the expiration of said thirty (30) day period, compounded monthly on unpaid balances, at an annual rate equal to the Applicable Federal Rate as of such expiration date. The LLC shall collect any unpaid amounts from any LLC distributions that would otherwise be made to such Member.

4.10. Distributions To Cover Members' Tax Liability. The Managers shall, at a minimum, distribute to Members amounts intended to cover the potential federal, state or local tax obligations of such Members on account of the cumulative allocation to them of taxable income in excess of tax losses pursuant to this Agreement. For purposes of the

foregoing, such federal, state and local tax obligations of each Member shall be assumed to equal the highest effective combined federal and state income tax rate applicable to any Member multiplied by each Member's Distribution Interest (or, if no Distribution Interest, then Percentage Interest) multiplied by the cumulative allocation to all Members of taxable income in excess of tax losses determined as described in the definition of 'Profits and Losses' without the adjustments listed therein, with the result reduced by the cumulative amount previously distributed pursuant to this Section 4.10. Partial distributions made to the Members pursuant to this Section 4.10 shall be made in proportion to their respective amounts calculated under the previous sentence. For purposes of applying Section 4.10 to subsequent distributions to the Members, distributions made pursuant to this Section 4.10 shall be disregarded and shall not be deemed to have been made pursuant to Section 4.01.

ARTICLE V *Management*

5.01. Management Of The LLC. The overall management and control of the business and affairs of the LLC shall be vested in the Manager or, if there shall be more than one, in the Managers, acting by Approval of the Members. All management and other responsibilities not specifically reserved to the Members in this Agreement shall be vested in the Managers, and the Members shall have no voting rights except as specifically provided in this Agreement. Each Manager shall devote, and shall cause its officers and directors, if any, to devote, such time to the affairs of the LLC as is reasonably necessary for performance by the Managers of his, her or its duties, provided such Persons shall not be required to devote full time to such affairs. 5.03. Compensation Of A Managers And A Member. No payment shall be made by the LLC to any Managers or Member for such Managers or Member's services as a Managers or Member except as provided in this Agreement. Each Manager shall be entitled to reimbursement from the LLC for all expenses incurred by such Managers in managing and conducting the business and affairs of the LLC. The Managers, acting by Approval, shall determine which expenses, if any, are allocable to the LLC in a manner which is fair and reasonable to the Managers and the LLC, and if such allocation is made in good faith it shall be conclusive in the absence of manifest error.

ARTICLE VII
Transfers of Interests

7.01. General Restrictions On Transfer.

(a) No Member may Transfer all or any part of such Member's interest as a Member of the LLC or otherwise withdraw from the LLC except as provided in Section 7.02 or with the Approval of the Managers, which may be withheld for any reason or for no reason.

(b) Every Transfer of an interest as a Member of the LLC permitted by this Article VII, including without limitation Transfers permitted by Sections 7.01(a), 7.02, 7.03, 7.04, shall nevertheless be subject to the following:

- (i) No Transfer of any interest in the LLC may be made if such Transfer would cause or result in a breach of any agreement binding upon the LLC or of then applicable rules and regulations of any governmental authority having jurisdiction over such Transfer. The Managers, acting by Approval, may require as a condition of any Transfer that the transferor assume all costs incurred by the LLC in connection therewith and furnish an opinion of counsel, satisfactory to the LLC both as to counsel and opinion, that the proposed Transfer complies with applicable law, including federal and state securities laws, and does not cause the LLC to be an investment company as such term is defined in the Investment Company Act of 1940, as amended.
- (ii) The Managers shall require, as a condition to the admission to the LLC as a Member of any transferee who is not otherwise a Member, that such transferee demonstrate to the reasonable satisfaction of the Managers that such transferee is not then under indictment and has not at any time been convicted of a felony and either is a financially responsible Person or has one or more financially responsible Persons who have affirmatively assumed the financial obligations of the transferee under this Agreement, if any, on such transferee's behalf. In addition, a transferee of an interest pursuant to Section 7.02 or Section 7.03, who is not otherwise a Member, shall not be admitted to the LLC as a Member without the Approval of the Managers, which may be withheld for any reason or for no reason, and such a transferee who is not so admitted need not be recognized by the LLC for any purpose and shall be entitled only to the rights which are required under the Act to be afforded to a transferee who does not become a Member.
- (iii) Notwithstanding anything contained herein to the contrary, no interest as a Member of the LLC shall be transferred if, by reason of such Transfer, the classification of the LLC as an LLC for federal income tax purposes would be

adversely affected or jeopardized, or if such transfer would have any other substantial adverse effect for federal income tax purposes.

(iv) In the event of any Transfer, there shall be filed with the LLC a duly executed and acknowledged counterpart of the instrument effecting such Transfer. The transferee, if any, shall execute such additional instruments as shall be reasonably required by the Managers. If and for so long as such instruments are not so executed and filed, the LLC need not recognize any such Transfer for any purpose, and the transferee shall be entitled only to the rights which are required under the Act to be afforded to a transferee who does not become a Member.

(v) Upon the admission or withdrawal of a Member, this Agreement (including without limitation Schedule A hereto) and/or the Certificate shall be amended appropriately to reflect the then existing names and addresses of the Members and Managers and their respective Percentage Interests and/or Distribution Interests.

(c) A transferor of an interest as a Member of the LLC shall, if the transferee is a Member hereunder or if the transferee becomes a Member pursuant to the provisions of this Agreement, be relieved of liability under this Agreement with respect to the transferred interest arising or accruing on or after the effective date of the Transfer (unless such transferor affirmatively assumes liability as provided in Section 7.01(b)(ii)).

(d) Any Person who acquires in any manner whatsoever an interest (or any part thereof) in the LLC, whether or not such Person has accepted and assumed in writing the terms and provisions of this Agreement or been admitted into the LLC as a Member as provided in Section 7.01(b), shall be deemed, by acceptance of the acquisition thereof, to have agreed to be subject to and bound by all of the obligations of this Agreement with respect to such interest and shall be subject to the provisions of this Agreement with respect to any subsequent Transfer of such interest.

(e) Any Transfer in contravention of any of the provisions of this Agreement shall be null and void and ineffective to transfer any interest in the LLC, and shall not bind, or be recognized by, or on the books of, the LLC, and any transferee or assignee in such transaction shall not be, or be treated as, or deemed to be a Member for any purpose. In the event any Member shall at any time Transfer an interest in the LLC in contravention of any of the provisions of this Agreement, then each other Member shall, in addition to all rights and remedies at law and equity, be entitled to a decree or order restraining and enjoining such transaction, and the offending Member shall not plead in defense thereto that there would be an adequate remedy at law; it being expressly hereby acknowledged and agreed that damages at law would be an inadequate remedy for a breach or threatened breach of the violation of the provisions concerning such transaction set forth in this Agreement.

7.02. Permitted Transfers. The following Transfers shall be permitted without the Approval of the Managers otherwise required under Section 7.01(a) above, but such permitted Transfers shall in any event be subject to Sections 7.01(b)-(e) hereof:

(a) An interest as a Member of the LLC may be Transferred from time to time as a part of any proceeding under the present or any future federal bankruptcy act or any other present or future applicable federal, state, or other statute or law relating to bankruptcy, insolvency, or other relief for debtors, and subject to the requirements and provisions thereof.

(b) An interest as a Member of the LLC may be Transferred from time to time to any Legal Representative(s) and/or Affiliate(s) and/or Member(s) of the Immediate Family of the transferring Member.

7.03. Right Of First Refusal.

(a) A Member may Transfer the whole or any portion of such Member's interest as a Member of the LLC without the Approval of the Managers otherwise required under Section 7.01(a) above (and such Transfer shall be a permitted Transfer in addition to those permitted under Section 7.02 and shall in any event be subject to Sections 7.01(b)-(e) hereof) if such Member (the "Offering Member") first obtains a Bona Fide Offer for the purchase of the entire interest to be Transferred and makes the interest which is the subject of the Bona Fide Offer available to the other Members on a first refusal basis upon the same terms and provisions as set forth in such Bona Fide Offer, in the manner hereinafter set forth.

(b) The Offering Member shall furnish a true and complete copy of the Bona Fide Offer to each other Member, together with full and fair disclosure of any material information available as to the proposed transaction and the parties thereto, and the other Members shall have a period of sixty (60) days thereafter within which to elect, by written notice to the Offering Member (the "Exercise Notice"), to purchase the entire interest to be Transferred at the price (the "Purchase Price") and upon the terms set forth in the Bona Fide Offer. Each Exercise Notice shall contain a statement of the maximum percentage of the Offering Member's interest which the Member giving such notice wishes to purchase, and if such amounts do not total at least one hundred percent (100%) of the Offering Member's interest which is the subject of the Bona Fide Offer, then no Member shall have the right to purchase any interest of the Offering Member.

(c) If there shall be a dispute as to the amount of the Offering Member's interest which any Member(s) may purchase pursuant to Section 7.03(b), each Member participating in any such purchase (a "Purchasing Member") shall be entitled to purchase a pro rata amount of the Offering Member's interest based upon the Percentage Interest of such Purchasing Member in relation to the aggregate Percentage Interests held by all Members participating in such purchase, unless the Purchasing Members agree to purchase such interest based upon an allocation other than such pro rata allocation.

(d) If the interest of the Offering Member is being purchased by one or more Purchasing Members, the closing shall take place at the principal office of the LLC on the date specified for such closing, and as otherwise specified, in the Exercise Notice of the Purchasing Member who is purchasing the largest portion of such interest (which date shall not be earlier than ten (10) nor more than thirty (30) days after the delivery of such Exercise Notice to the Offering Member). At the closing, the Purchase Price shall be paid by the Purchasing Members upon the terms set forth in the Bona Fide Offer and the Offering Member shall execute and deliver such instruments as may be required to vest in the Purchasing Members (or the designee or designees thereof) the interest to be sold free and clear of all liens, claims and encumbrances. The Purchasing Members shall have the right to continue the business of the LLC after the closing and shall have the right to use any names used by the LLC in connection with its business. All information, trade secrets or confidential financial or other data of the LLC shall be the property of the LLC, and the Offering Member shall not disclose or use to the detriment of the Purchasing Members any confidential information, trade secrets or confidential financial or other data of the LLC; provided, however, that the Offering Member may make such disclosures as such Offering Member reasonably believes may be required by law, regulation, or rule of any governmental authority or any court order or other legal process.

(e) If the interest of the Offering Member shall not be purchased by Purchasing Member(s) as aforesaid, the Offering Member may sell such interest to the maker of the Bona Fide Offer, but only upon the terms and provisions originally set forth in the Bona Fide Offer, provided such sale satisfies the following requirements:

- (i) Such sale is concluded within one hundred twenty (120) days after the delivery to the offer of the Bona Fide Offer; and
- (ii) The maker of the Bona Fide Offer shall enter into a valid and binding agreement the effect of which will be that any interest in the LLC which is so Transferred shall continue to remain subject to the provisions of this Agreement with the same force and effect as if such Person had originally been a party hereto.

7.04. Special Rules For Managers.

(a) Sections 7.01, 7.02(a), 7.03, 7.05 and this Section 7.04, but not Section 7.02(b), shall apply to a Manager's interest as a Member in the LLC.

(b) No Manager who is also a Member may resign from, retire from, abandon or otherwise terminate such Manager's status as a Manager unless there is then at least one other Manager who is also a Member.

7.05. Continuation Of The LLC. Notwithstanding a Transfer or other withdrawal from the LLC of a Member who is also a Manager, as to all of such Member's interest as a Member, the LLC shall not be dissolved and its affairs shall not

be wound up, and it shall remain in existence as a limited liability company under the laws of the Commonwealth of Massachusetts, if the remaining Members, acting by Consent within ninety (90) days thereafter, elect to continue the LLC and the business of the LLC and appoint, as of the date of such Transfer or withdrawal, one or more new such Manager.

We expect to participate in three to four job fairs per year and we will advertise all job fairs / job postings on a monthly basis or as needed.
2. **Mentorship Program:** United Cultivation will offer a managerial mentorship program for new hires with specific participation encouragement targeted towards women, veterans and people with disabilities. This program will provide participants with exposure to additional job functions and operational business units for the development of skills and awareness of upcoming career advancement opportunities of interest. The program will be "session" based with each running continually for 6 months. United Cultivation will seek to identify up to five individuals currently employed in a "non-manager" position per six-month session and will review program capacity on an ongoing basis.
3. **Support Organization Relationship Building:** Within the first year of operations, United Cultivation will research, contact, and attempt to establish a working relationship with at least one local support organization for each of the demographics detailed above in an attempt to create a candidate sourcing stream for new hiring opportunities as they become available.

Human Resources Procedures Overview

Revised
2-24-2019

Human Resources & Personnel Policies

In order to establish United Cultivation as a preferred employer in the emerging cannabis industry within Massachusetts, we recognize that we will need to garnish a strong employee engagement mindset while also providing advancement opportunities for those that share in our company vision. Our business is unique in the fact that our desire for vertical integration will lead to varied resource needs across our three distinctly different operational departments of cultivation, product manufacturing and retail. We also anticipate a gradual ramp in our employee head count as we bring the different aspects of our business plan to fruition.

New Employee Screening

It is critical for the security of United Cultivation that only the most qualified, credible and talented people are hired to help avoid workplace theft, fraud or violence. It's equally important for United Cultivation to conduct background screening on any contingent workers, including cleaning crews, facilities maintenance workers, auditors and other contractors who have access to United Cultivation's property or represent United Cultivation. Knowing the background of these workers is required to protect the integrity of United Cultivation, as well as the safety of our customers. Therefore, this work force needs will be screened with the same due diligence as any other agent.

Applicant Screening and Monitoring

To help attract, hire, land and retain the best agents, United Cultivation will develop an employment screening and monitoring processes to create a candidate experience that benefits potential agents and reduces United Cultivation's risk by utilizing a fast, scalable and compliant background screening solution. An efficient, thorough employment screening process can, above all else, help reduce United Cultivation's overall workplace risk. Identifying risk early, before hiring an agent, protects the organization from risk related to physical safety, financial security, organizational image or reputation, and legal compliance issues.

Pre-screening Potential Candidates

Our Human Resource Department will pre-screen candidates by stating clearly to potential applicants what items and prerequisites will be needed to properly qualify the employment application (still being developed).

Any applicant who has submitted a complete application for employment will have a professional background check conducted. This investigation will be in addition to verification that the potential agent will soon be licensed as a cannabis agent and thus allowed to work in the facility. The investigation will be conducted to ensure the potential agent does not have any felony convictions which would bar them from employment. The investigation will also check for any crimes of moral turpitude, whether misdemeanor or felony. Any indication of past crimes of moral turpitude will be a bar to employment.

The following searches may be performed depending upon the type of position the candidate is seeking:

- **National Crime File Search:** Some vendors can offer access to nationwide database of criminal records gathered from across all 50 states. A variety of sources are utilized including Sex Offender Registries, state and county criminal courts and state-level departments of corrections. This search can provide instant results depending on the provider.
- **Felony and Misdemeanor Search:** This county courthouse search includes a search of all felonies and misdemeanors on all indexes available at the main county seat court location.
- **Motor Vehicle Report:** A Motor Vehicle Report (MVR) reveals the status of an applicant's driver's license and any violation history. This search should be conducted on all candidates who will have driving responsibilities, including those who will not only drive a company vehicle but may also drive a personal vehicle on company time or for business purposes.

Verification and Qualification Solutions

The Human Resources Department will utilize the following available solutions depending on the level of security required for the position:

- **Social Security Number Verification (SSNV):** This search matches the input information against millions of consumer header credit files contained in the databases of nationwide credit reporting agencies. The SSNV returns other names and addresses associated with the identifying information used to request the report.
- **Credit Check:** This search matches the candidate's information to information held by the Credit Bureau us and returns the candidate's credit report.
- **Employment and Education Verification:** United Cultivation will integrate instant and automated employment screening products into the hiring process. Instant searches will be used to efficiently move forward in the hiring process by quickly confirming or validating basic information such as a Social Security number or name and address history. Automated searches will provide electronic delivery of process updates and results, eliminating time delays often associated with manual follow-up on important screening components such as employment or education verifications.

Personnel Planning Overview

Revised
11-10-2019

Staffing Plan

As with any new startup, we have included an organizational chart that depicts our desired team to support the many job functions necessary to run a successful business in the marijuana industry. We anticipate our organizational chart to evolve into its entirety and that our employees will “wear multiple hats” until a time that our business can sustain and support the needed positions.

Although there are many transferable skills available from potential employees coming from traditional industries, many of our roles will require a specialized skill set not otherwise found within the existing candidate pool of Massachusetts. To account for this, we plan to augment our hiring strategies by using marijuana focused staffing firms like Vangst Talent to help us source for our key "plant touching" roles. These hires will then play an integral part in defining and developing the internal training programs necessary to train the balance of the employee base interested in advanced learning and skill development.

The hiring of agents must follow established procedure. The Director of Human Resources will ensure compliance with local, state and federal laws regarding the hiring and employment screening processes. United Cultivation retains legal counsel to ensure our employment policies comply with local state and federal employment laws.

Staff Acquisition Process

1. Identification of need;
2. Job classification and job description preparation;
3. Solicitation of the vacant position utilizing the methods that best fit the position;
4. Reviewing resumes on qualified candidate;
5. Performing and recording reference checks on qualified candidates;
6. Scheduling first interviews with the Human Resources Manager;
7. Scheduling second interviews with strong candidate with the Human Resources Manager and department manager;
8. Delivery of an offer letter to the first-choice candidate;
9. Delivery of an offer letter to the first-choice candidate;
10. Performing criminal background check on selected candidate;
11. Send application to the state for registration; and
12. Completion of the probationary period.

The staffing plan is based on business plan assumptions and best practices and may be adjusted by in accordance with actual operating needs. United Cultivation’s Director of Human Resource will coordinate with the Vice President of Operations and the Vice President of Sales & Marketing to acquire all staff. The acquisition process may vary depending on the vacant position and special circumstances. The acquisition process will be managed by the Human Resource department and will always include performing a criminal background check on the selected candidate to determine eligibility for hire, new hire orientation and training only upon successful registration and completion of the probationary period.

Positions will only be filled according to the established protocols.

Responsible Vendor Training Program

United Cultivation will ensure all current owners, managers, and employees that are involved in the handling and sale of marijuana for “adult use” at the time of licensure or renewal of licensure, as applicable, will have attended and successfully completed a Responsible Vendor Training Program to be designated a “Responsible Vendor”.

United Cultivation will ensure that all new employees involved in the handling and sale of marijuana for adult use shall successfully complete a Responsible Vendor Training Program within 90 days of hire.

After initial successful completion of a Responsible Vendor Training Program, each Owner, manager, and employee involved in the handling and sale of Marijuana for adult use will successfully complete the program once every year thereafter to maintain designation as a "Responsible Vendor".

United Cultivation will maintain records of Responsible Vendor Training Program compliance for four years and make them available to inspection by the Cannabis Control Commission and any other applicable licensing authority on request during normal business hours.

Training Plan

At United Cultivation, all new hires will be required to go through a training period that will consist of presentations given by applicable department managers. These presentations will be supplemented with hands-on training to demonstrate the material included in the presentations. All employees will go through additional training with their manager based on their role within the organization. In addition, each employee will receive a minimum of eight hours of ongoing training annually or as deemed necessary by the executive leadership.

Being in an industry that is constantly changing requires companies to be aware of recent market developments and trends throughout the industry. Reporting

All quality control reports are stored in the seed to sale tracking software, where they are categorized by department. The software has the ability to generate custom reports to determine if there is an issue with product shelf life, production techniques, or other quality control issues.

Tests of Formulated Product

Purpose

The purpose of this SOP is to provide guidance on testing finished product before releasing it for public consumption.

Scope

The scope of this SOP is for all employees involved in quality control and creating formulated (infused) products.

Prerequisites

All product that is finished in our facility is tested at an Independent Testing Laboratory, who provide a detailed analysis of the product, its ingredients, and its strength. All employee who work in quality control must be capable of reading a laboratory report and understanding the specific tolerances allowed by the state.

Responsibilities

It is the responsibility of the quality control director to insure all employees under their direct supervision understand how the facility provides samples to the independent lab for testing, as well how infused products is tested internally. Additionally, the quality control director must insure that cannabis infused products are quarantined separately from other inventory during testing.

Procedure

All formulated product is entered into a testing log before it is provided to the laboratory. After curing and before any processing or packaging, the processing manager will make samples from each batch available to an independent laboratory for testing. The sample will be weighed, RFID scanned, and all data will be recorded on the seed to sale tracking software prior to be removed from the secured curing area. The laboratory employee will select and prepare several random samples from every batch sample in order to ensure the quality, purity, and consistency of dose through a statistical approach. The laboratory staff will then test each random sample for harmful microbiological contaminants, mycotoxins, heavy metals and pesticide chemical residue. In addition, each sample will also be tested for active ingredients including but not limited to cannabinoid profiling for the following: THC, THCa, CBD, CBDa, and CBN. Under no circumstances shall cannabis batches awaiting contamination results and active ingredient analysis be included in a cannabis product or sold to a retail dispensary facility prior to the time that the laboratory has provided those results, in writing, to the dispensary. If samples from a batch are tested and do not fall within state accepted health and safety levels for any of the above-mentioned contaminants or any additional contaminants the state does not deem for distribution, it is the facility's policy to destroy and remove any contaminated product in a manner consistent with state compliance for the policy for disposal of green waste. As soon as a batch sample passes the microbiological, mycotoxin, heavy metal and pesticide chemical residue test, the entire batch will be

released for immediate manufacturing, packaging and labeling for transport and sale to a dispensary facility. An electronic copy of all test results will be filed by laboratory staff for any batch that does not meet the standards set for microbiological, mycotoxin, heavy metal or pesticide chemical residue tests. The laboratory staff will also maintain a comprehensive record of test results and make them available to state and local officials, and or the public, as needed. The compliance manager will provide test results for each batch of cannabis used in any product purchased by a dispensary to that dispensary to be made available upon request.

The independent testing lab we work with provides us guidelines for sample preparation that conforms to the state's regulations. The quality control manager maintains their source documents for preparing samples, along with the requisite forms that must accompany all samples. In the event of a question, the resource documents provided by the lab are helpful, and they also provide a toll-free number for questions.

Reporting

Scope

The scope of this SOP is for all employees involved in quality control and preparing samples for testing.

Stability Testing

Purpose

The purpose of this SOP is to provide guidance on stability testing products that have been released to the public.

Scope

The intended audience for this SOP is all employees involved in inventory processing, quality control, and retail sales.

Prerequisites

In order to perform stability testing at both pre-determined and random times, the batch from which the edibles or infused foods are created will be sampled, and stored in an air-tight, temperature-controlled vault. Employees must know how to remove a portion of the batch in process to create a reserve for stability testing and must understand how we prepare samples for lab testing, and how to interpret the results.

Responsibilities

The director of quality control is primarily responsible for stability testing, the preparation of samples, and interpreting the lab results. If there is an issue, the director of quality control must immediately provide the results and recommendations to the facility director in order to insure customer safety.

Procedure

The director of quality control will separate a part of each batch of infused or edible product sufficient to perform stability testing at 6-month intervals. This is done for two reasons:

1. To ensure product potency and purity
2. Provide support for expiration dating

The director will insure that a sufficient amount of product is kept and properly stored, which will usually require an adequate amount (~7-14 grams) of each released batch of marijuana in order to achieve this frequency of testing. See preparation of samples instructions noted in previous content.

Sample Storage - The facility will retain a sample from each batch released. The sample will be sufficient enough to provide for follow-up testing if necessary and the sample will need to be properly stored for a minimum of one (1) year past the date of expiration of the batch.

Samples from each batch released to be retained for a long period of time will be vacuum-sealed to limit oxygen exposure to the marijuana as oxygen will degrade the sample quicker. Possible contamination

will be tracked through the use of a Hazard Analysis Critical Control Point (HACCP) Plan. Critical control points will be identified, monitored and preventative procedures recorded throughout the production of marijuana products.

Certain shelf stability testing will be conducted on site. Shelf stability is the time that a product will retain throughout its period of storage and use, the same properties and characteristics that is possessed at the time of its packaging. Products and recipes will be tested and approved before production begins.

Shelf stability testing will cover the four areas of concern:

1. Chemical: The product retains its chemical integrity and potency, within specified limits.
2. Physical: The original physical properties, including appearance, palatability, odor, and wholesomeness are retained.
3. Microbiological: Resistance to microbial growth and product safety is retained according to specified requirements overall bacterial growth is maintained within acceptable levels.
4. Toxicological: No significant increase in toxicity occurs.

References

The director of quality control keeps a detailed sampling plan in her office, along with the proper reporting forms, labeling materials, and RFID tags.

Reporting

All stability reporting is uploaded to our seed to sale tracking software database where reporting about batches and infused products are maintained.

Testing

Purpose

After curing and before any processing or packaging, the processing manager shall provide samples from each batch available to an independent laboratory for testing. The purpose of this SOP is to provide guidance in preparing the sample and an overview of the lab procedures itself.

Scope

The scope of this SOP is for any employee working in the cultivation facility who provides testing samples to our outside vendor.

Prerequisites

After curing and before any processing or packaging, the processing manager shall make samples from each batch available to an independent laboratory for testing. The sample shall be weighed, RFID scanned, and all data shall be recorded on the seed to sale software prior to being removed from the secured curing area. The laboratory employee will select and prepare several random samples from every batch sample in order to ensure the quality, purity, and consistency of dose through a statistical approach.

Responsibilities

It is the responsibility of the employee preparing batches for testing to insure there are sufficient remains for future testing, and the employee will work with the intendent lab to insure random samples from each grown batch are tested without interference from the facility.

Procedure

The sample shall be weighed, RFID scanned, and all data shall be recorded on the seed to sale software prior to being removed from the secured curing area. The laboratory employee will select and prepare several random samples from every batch sample in order to ensure the quality, purity, and consistency of dose through a statistical approach. The laboratory staff will then test each random sample for harmful microbiological contaminants, mycotoxins, heavy metals and pesticide chemical residue. In addition, each sample will also be tested for active ingredients including but not limited to cannabinoid profiling for the following: THC, THCa, CBD, CBDa, and CBN. If samples from a batch are tested and do not fall within state accepted health and safety levels for any of the above-mentioned contaminants or any additional contaminants the state does not deem for distribution, it is the facility's policy to destroy and remove any contaminated product in a manner consistent with state compliance for the policy for disposal of green waste.

As soon as a batch sample passes the microbiological, mycotoxin, heavy metal and pesticide chemical residue test, the entire batch will be released for immediate manufacturing, packaging and labeling for transport and sale to a dispensary facility. An electronic copy of all test results will be filed by laboratory staff for any batch that does not meet the standards set for microbiological, mycotoxin, heavy metal or pesticide chemical residue tests. The laboratory staff will also maintain a comprehensive record of test results and make them available to state and local officials, and or the public, as needed. The compliance manager will provide test results for each batch of cannabis used in any product purchased by a dispensary facility to that dispensary facility to be made available upon request.

References

Please review the independent lab's testing guide for providing samples which is found in the cultivation director's office.

Reporting

All lab reports are provided to the cultivation director and are uploaded to the cloud server. They are also placed in a testing log, and the information is also entered into the seed to sale software system.

Water Supply & Testing Protocols

Purpose

The purpose of this SOP is to provide testing guidelines and other methods of insuring a safe water supply for the facility.

Scope

The scope of this SOP is for any employee working in the cultivation facility responsible for performing water quality tests.

Prerequisites

All water quality tests will require two samples – one for our internal testing, and another to be sent to the quality control lab. All water test results will be added to the water test log book.

Responsibilities

It is the responsibility of the facility director to insure water is tested at proper intervals both through our own internal control and our outside lab as well.

Procedure

Water Quality Test(s)—The facility will perform water quality tests on facility water every six (6) months at a minimum. A water sample from the cultivation facility will be sent to a water testing laboratory where an analysis of the water will be performed to determine what, if any, substances are in the water. A record of all water quality tests will be maintained on-site at the licensed premise within a file labeled “Water Quality Tests”.

Reverse Osmosis of Water (RO System)—all water utilized for cultivation operations will be run through a state-of-the-art Reverse Osmosis (RO) water filtration system to ensure all contaminants have been removed from the water. The RO system will be designed according to the water quality test that will be performed at the facility as well as the RO system being designed to be able to adequately purify and supply the proper amounts of water for daily operations.

As growers of cannabis, the facility carefully monitors total dissolved solids (TDS) which is the amount of solids dissolved in the water or any other solution that can't be removed with a standard filter. Electrical Conductivity (EC) is the measure of a solution's ability to conduct an electrical current. TDS/EC meters have two electrodes that, when placed in the water or nutrient solution, pass AC voltage between them. The amount of current that passes through the solution indicates the conductivity of the solution. The meter reads this current and converts it to a display that will allow you to either read the EC or TDS (parts per million, ppm) of the water or solution.

By determining the baseline TDS of our fresh water, we can later determine the strength of the nutrient solution we are going to mix. For example, if the tap water starts with a TDS of 600 ppm, and the fertilizer of choice suggests a dosage strength of 1200 ppm, we will know that the total TDS should come out to 1800 ppm. If we didn't know the baseline, we might stop at a TDS of 1200 ppm and, by doing so, give our marijuana plants only half of the required nutrients.

The pH (potential of Hydrogen) of our water or any other solution is the measure of its acid or alkali levels. When a solution has equal levels of acid and alkali molecules, then the solution is pH neutral. The pH scale runs from 0.0 to 14.0 where 7.0 is neutral, less than 7.0 is acidic, and levels above 7.0 are alkaline or base/basic solutions. Depending on the growing medium used, we want to stay in the slightly acidic range of 5.5 to 6.5. To keep our growing medium and root zone at the correct pH, you need to keep the water or nutrient solution you are using at the correct pH. Contaminants in the water — whether naturally occurring, added by your municipal water supplier, or added when you mix in nutrients and fertilizers — will all affect the pH and may need to be corrected.

References

Please refer to the filter changing SOP for removing, cleaning and inserting a new filter into the RO system.

Reporting

All filter changes, cleaning, and lab reports must be inserted into the Water Quality Testing Notebook, with copies provided to the facility director and upper management.

United Cultivation, LLC

Record Keeping Procedures Overview

Revised
11-10-2019

Introduction

United Cultivation has adopted procedures for maintaining records that conform to marijuana regulations and best practice for the marijuana industry. United Cultivation maintains a detailed description of plans, procedures, and systems adopted and maintained for tracking, record keeping, record retention, and surveillance systems. These detailed descriptions relate to marijuana at every stage of the cultivation to sale process including cultivating, possession of medical marijuana, delivery, transporting, distributing, sale, and retailed by United Cultivation.

United Cultivation will maintain records required for a period of five years and make these records available to the Cannabis Control Commission upon request. United Cultivation will ensure compliance with all laws and regulations pertaining to its operation as a licensed organization. However, the operational needs of the company require records in excess of the mandated requirements. United Cultivation's recordkeeping policies and procedures as detailed in this section and throughout the SOPs demonstrate compliance with legal and regulatory requirements as well as a commitment to full documentation and transparency in all of United Cultivation's operations.

United Cultivation maintains strict control over records to provide operating data to management, information to advisors and financial backers, document operations for third-party certifiers or auditors, and to keep a record of operations in case of any insurance claims, legal, or administrative investigation.

The Vice President of Operations shall oversee all record retention protocols of United Cultivation. The CEO is responsible for oversight of the Vice President of Operations and all record maintenance activities. The Director of Retail Operations must supervise the recordkeeping activities in their operating unit to ensure compliance with company policies and procedures.

Compliance with Regulations

United Cultivation is committed to compliance with all laws and regulations about its operation as a registered organization. Management will make all records available to the Cannabis Control Commission or its authorized representatives upon request for monitoring, on-site inspection, and audit purposes. Several regulations apply to recordkeeping functions. Our recordkeeping policies and procedures demonstrate not only compliance with the Commonwealth's requirements but also a commitment to full documentation of our operations.

- United Cultivation will keep waste records for at least three years.
- United Cultivation will maintain their records in accordance with generally accepted accounting principles.

Electronic Inventory System

United Cultivation will implement seed-to-sale tracking records for all marijuana as required by 935 CMR 500.105.

We will likely use the METRC electronic inventory system approved by the Cannabis Control Commission. This is a full suite "seed to sale" inventory tracking platform. There are also internal requirements for recordkeeping. Our internal reporting requirements provide that the system must maintain the following records or the Vice President of Operations will implement additional systems as needed:

- A "total inventory in storage" by location and batch report that records user, date, time, item, quantity, and storage access in chronological order.
- An "all events" report that provides detail on all user activity and transaction types within a time frame and tailored to specific data requirements such as individual items or users.
- A "controlled substances vault compare" report that allows administrators to cross-reference the inventory that leaves the storage area and arrives at the shelf, dispensary, or any other location to the inventory at that location. Transactions that do not match show up on this report by location, item, quantity, date, time, and user.
- There will also be a "review send" report that provides detailed information regarding the removal of marijuana from the storage area. This report specifies the user, time, date, item, quantity, and intended destination.
- Additionally, a "dispensing" report will be kept to provide detailed information regarding the transaction of marijuana at the dispensary. Information will include the user, time, date, item, quantity, and inventory movement at the dispensary. A "purchase history" report will also be maintained to help trend the receipt of medical marijuana into inventory and monitor purchase patterns.

Requirements

The Vice President of Operations is responsible for recordkeeping, data retention, and back-ups to ensure United Cultivation maintains true, complete, and accurate records. The Vice President of Operations is also responsible for the proper integration of those requirements into policies and procedures. Back-ups of all records must be maintained for no less than five years. All dispensary agents must adhere to recordkeeping policies and procedures as a condition of employment. The Vice President of Operations will authorize the release of any records to a third-party and must report the disclosure of records to the CEO to determine if legal counsel should be consulted.

Equipment & Backup Systems

United Cultivation will maintain multiple reporting systems requiring hardware and software. Whenever possible, United Cultivation will elect to use a cloud-based software system that allows the use of standard hardware and provides sufficient back-up capabilities. United Cultivation will utilize the METRC electronic inventory system selected by the Cannabis Control Commission and their recommended hardware, data storage, and software for all operating functions so long as they retain the contract to provide services to the Cannabis Control Commission.

All software acquired or developed by United Cultivation is and at all times shall remain company property and must be serviced by a real-time offsite backup system. All such software must be used in compliance with applicable licenses, notices, contracts, and agreements. All purchasing of company software shall be centralized by the Vice President of Operations, with services utilized from a third-party technology group as needed, to ensure that all applications conform to regulatory and company software standards and are purchased at the best possible price.

United Cultivation maintains written logs for all critical transactions to provide an audit trail if an improper or incorrect entry into the system is discovered. Our standard operating procedures provide instructions for manual recordkeeping in the event electronic systems fail.

10. The name and title of trainers; and
11. Documentation of periodic performance evaluations and a record of any disciplinary action taken.

The Vice President of Operations will also maintain records documenting the salary and wages paid to each agent, the stipend paid to each executive manager and any executive compensation, bonus, benefit, or item of value paid to any individual affiliated with United Cultivation, including executive managers. These confidential records must be maintained for a recommended period of at least seven years or longer if required by law.

Independent Testing Laboratory Reports

Each agent must ensure that no laboratory record held by United Cultivation is falsified in any manner. Any agent who knowingly falsifies a laboratory report or knowingly presents a falsified report to a patient will be terminated immediately. Any agent who suspects that a laboratory record may have been falsified must report to the Vice President of Operations immediately as a condition of employment. United Cultivation will record all laboratory received from a grower/processor in the inventory system when the batch is received.

Product Disposal Records

All waste composed of or containing medical marijuana at the dispensary, will be stored, secured, and prepared for incineration in accordance with applicable state and local laws and regulations. All waste disposed of will be recorded in a Product Disposal Log, including the date of disposal; the type and quantity disposed of; the manner of disposal; the reason for disposal; and the origination of the waste, if applicable.

United Cultivation will keep waste records for at least three years.

Records Loss

Any loss or unauthorized alteration of company records discovered or suspected by any dispensary agent must be reported to the Vice President of Operations immediately, who will report such incidents to the Cannabis Control Commission and law enforcement as necessary. Upon discovery of a records security breach, the Vice President of Operations is required to review all recordkeeping and security policies to identify deficiencies and implement necessary corrective measures. The Vice President of Operations will engage the services of a third-party data security expert as needed.

Incident Records

Incident reporting is documented by the General Manager and reported immediately to the Vice President of Operations in accordance with our reporting and notifications policies and procedures.

Anyone with knowledge or a reasonable suspicion of an incident (an event occurring outside normal operating parameters) is instructed to make an immediate report to a manager and record the event in the Incident Log. All incident activities, from receipt of the initial report through post-incident review, are to be documented by the reporting manager. The Vice President of Operations is responsible for ensuring all events are recorded, assembling these records in preparation and performance of the post-incident review and ensuring all records are preserved for review.

Restricting Access Plan

Revised
2-24-2019

Restricting Access to Age 21 Or Older

Purpose

The purpose of this SOP is to provide guidance to employees on the overall restriction of access to persons age 21 and older protocols at the facility and the responsibility of employees working there.

Scope

The scope of this SOP is for anyone working in the facility or for the company. Proper access to the facility is a paramount concern for our employees, our staff, and the public.

Prerequisites

All employees working in the facility are required to have gone through initial training and mentoring that specifically includes all aspects of the restriction of access to persons age 21 and older at the facility.

Responsibilities

Proper access to the facility is the direct responsibility of the Director of Security, who has a staff of security agents, but every employee is trained in specific aspects of the facility's access.

Procedure

Under the Massachusetts 935 CMR 500.000: Adult Use of Marijuana law:

- "Consumer" is defined as a person who is at least 21 years of age.
- "Visitor" means an individual, other than a Marijuana Establishment Agent authorized by the Marijuana Establishment, to be on the premises of a Marijuana Establishment for a purpose related to Marijuana Establishment operations and consistent with the objectives of the Act and 935 CMR 500.000, provided, however, that no such individual shall be under 21 years of age.

On-Premises Verification of Identification

Plan to Positively Impact Areas of Disproportionate Impact

Although our business will not directly reside in an area of disproportionate impact, it is the desire of United Cultivation to develop a plan that will provide positive impact with a focus on past or present residents of the City of Fitchburg, MA, as they are the closest city identified by the Cannabis Control Commission.

Goals

1. Reduce the barriers to entry in the commercial adult-use cannabis industry for the residents of Fitchburg, MA by having at least 15% of our employees residing in this or other area of disproportionate impact.
2. Provide business assets towards endeavors in Fitchburg, MA that will have a positive impact on the members of its community.

Programs

1. Host **at least 50%** of our job fairs in the City of Fitchburg, MA, per year, to complement our hiring initiatives. Job fairs will be advertised locally in the Fitchburg, MA-based Sentinel & Enterprise newspaper. We expect to participate in three to four job fairs per year.
2. Host a **minimum of two (2)** support drives (clothing, food, etc) and fundraisers at the United Cultivation, LLC facility to benefit Ginny's Helping Hand, Inc, a 501c3 charitable organization located at 52 Mechanic Street in Leominster, MA (<http://www.ginnyshelpinghand.org>). In addition to supporting a framework of area food pantries, Ginny's Helping Hand also provides services to many residents of Fitchburg, MA through its distribution of clothing, fuel assistance, shelter assistance and home items to those in need.

Ginny's Helping Hand is a key contributor to Our Father's Table soup kitchen located at 40 Boutelle Street in Fitchburg, MA and Fitchburg residents make up their second largest demographic of contributed resources.

(United Cultivation has met and discussed our Positive Impact Plan with Executive Director Susan Chalifoux Zephir and Assistant Manager Brandon Robbins and they have confirmed their ability and desire to accept support from United Cultivation LLC's program efforts. See attached email for confirmation of willingness to work with United Cultivation, LLC)

Plan Review Timeline

United Cultivation, LLC acknowledges that the progress toward, or success of, this plan must be, at a minimum, formally documented to the Cannabis Control Commission on an annual basis and will be a required condition of the annual license renewal process. United Cultivation, LLC will provide its first documented review of our plan just prior to the one-year anniversary of our provisional licensure, even if we have not yet attained final license.

Plan Measurement Criteria

Disproportionate Impact Review: Calculated by dividing the numbers of employees residing in the Cities of Fitchburg, MA, Lowell, MA and Worcester, MA by the total number of employees of United Cultivation, LLC.

Job Fair Metric Review: Calculated by dividing Fitchburg, MA-based job fairs by total number of conducted job fairs hosted in calendar year.

Support Drive Metric Review: Documented by charitable donation receipts from Ginny's Helping Hand, Inc.
