1 Fees: Adult-use

Staff Recommendation for Commission Discussion

Cultivation Licenses

- First three tiers remain at the same fee (up to 20,000 sq. ft.) to ensure a reduced barrier to entry
- All tiers following will increase to cover operational costs
- Application fees: \$1500 for indoor tiers 4 and up (originally \$600) and \$1000 for outdoor tiers 4 and up (originally \$300)
 - Increased fees will adequately account for staffing time required for the application, inspectional, and overall licensing process.

Change in Building Structure Fee	\$1000
Change in Ownership or Control Fee	\$1000
Architectural Review Request Fee	\$1000

1 Fees: Adult Use—Other License Types

Decision Point:

Adopt staff recommendation for application and license fees.

1 Fees: Medical Current Fees

RMD Agent Registration, Annual	\$500
Medical-use Application of Intent (Phase 1)	\$1,500
Medical-use Management and Operations Profile Application (Phase 2)	\$30,000
RMD Registration, Annual (and Renewal of Registration)	\$50,000
Location change	\$10,000
Name change	\$100
Architectural review	\$8.25 per \$100 cost of construction costs, with a minimum of \$1,500

1 Fees: Medical Staff Consideration for Commission Discussion

Leave Medical Marijuana Treatment Center fees unchanged, but change the payment and application structure

- Application process would be restructured to combine the two currently phased fees of \$1,500 and \$30,000
- Application fee would become \$31,500, requiring one payment on submission application
- License fee after approval of Provisional License (and on renewal) \$50,000

1 Fees: Medical Proposed Fees

MTC Agent Registration, Annual	\$500
MTC Application	\$31,500
MTC Initial and Annual License	\$50,000
Name Change	\$1,000
Location Change	50% of applicable license fee
Change in Building Structure	\$1,000
Change in Ownership or Control	\$1,000
Architectural Review Request	\$1,000

1 Fees: Medical

Decision Point:

Adopt staff recommendation for application and license fees associated with the medical program

1 Fees: Patients

Notes for consideration:

Elimination of patient fees in entirety would:

- result in projected revenue loss of over \$2M
- provide administrative efficiencies for approval of patient applications
- remove the fee waiver process, which has been noted as a barrier for some patients
- be directly responsive to a longtime patient and patient advocate request

Decision point options:

1. Maintain \$50 patient fee and waiver process, as currently established; **or**

2. Eliminate \$50 patient fees across the board; **or**

3. Eliminate \$50 patient fee for some categories of patients (e.g., veterans)

2 Application Process: Staff Recommendations for Commission Discussion

- Elimination of the multi-tiered approach for the medical program as well as the 4 packet approach in the adult-use program.
- Move to one application process for medical- and adult-use applications in order to streamline the review processes and gain efficiencies across both programs
- Application requirements would be the same across both medical- and adult-use programs
 - Exceptions:
 1. MTC applicants would be required to provide information pertaining to home delivery for patients.
 2. “Compassion program plans” be submitted with similar requirements as positive impact and diversity plans.
- Removal of the “packet” approach would
 - Allow technological advances within the portal including:
 - Workflow tracking
 - Enhanced reporting

2 Application Process:

Decision Points:

1. Adopt staff recommendation to unify application requirements and process across programs, including bringing the medical application process into the existing online portal used for adult-use applications
2. Adopt staff recommendation to eliminate 4 individual packets in favor of one.

2 Application Process: Ownership and Control Staff Recommendations for Commission Discussion

- Rather than the Commission requesting contracts or agreements relative to control (e.g. management contracts), require the submission of these materials upon submission of application.
- Requirements will be the same across both programs and would:
 - Provide definition of Persons or Entities Having Direct or Indirect Control:
 - Any person or entity having direct or indirect control over operations of a Marijuana Establishment. It specifically includes any director, manager, assistant manager, and supervisor who oversees, at any point, any part of a cultivation, product manufacturing, retail, transportation, or laboratory operation of a proposed or licensed Marijuana Establishment. It specifically includes any an entity that is a direct or indirect holding or parent company of the applicant and the chief executive officer and executive director of those companies.
 - Purpose of proposed change: to explicitly inform applicants and licensees that certain positions inherently have control and to ensure that all related entities having control are fully disclosed.

2 Application Process:

Decision Points:

1. Adopt staff recommendation to require submission of applicable contracts and/or agreements within the initial application.
2. Adopt staff recommendation defining Persons or Entities Having Direct or Indirect Control.

2 Application Process: Ownership, Control, and Suitability Considerations for Commission Discussion

- Add ownership and control enforcement mechanism: Failure to comply with limitations may be basis for initial licensure denial, revocation of license, or denial of renewal.
- Add mandatory disqualification of 5 years for Marijuana Establishment licensees identified on an application that have licenses revoked or similarly terminated in other jurisdictions
- Add presumptive negative determination after 5 years for Marijuana Establishment licensees identified on an application that have licenses revoked or similarly terminated in other jurisdictions

Decision Point:

Adopt recommendations as proposed.

3 Social Consumption Working Group Update

The Social Consumption Working Group was created to advise Commission staff on regulatory parameters for the topic of Social Consumption.

The Working Group will finalize recommendations in advance of the next Commission meeting on May 16.

Working Group Members

- Thomas Bernard, Mayor, North Adams
- Alisa Brewer, Councilor, Amherst
- Helen Caulton-Harris, Commissioner of the Division of Health and Human Services, Springfield
- Michael Fenton, Councilor, Springfield
- David Gardner, Assistant Town Manager, Provincetown
- Steven Hoffman, Chairman, Massachusetts Cannabis Control Commission
- Doug Kress, Director of Health & Human Services, Somerville
- Alex Mello, Planner, Somerville
- Shaleen Title, Commissioner, Massachusetts Cannabis Control Commission

③ Social Consumption Working Group Key Issues

Preventing Underage
Access

Preventing Impaired
Driving

Employee Protection
from 2nd hand smoke

Adequate consumer education to minimize overconsumption

Staff training to detect impairment and minimize overserving

Pilot program:

- Promote and encourage certain groups in accordance with Commission's February 2018 vote
- Start small with limited number of municipalities
- Robust collection and analysis of data

5 Hardship Cultivation: Medical Staff Considerations for Commission Discussion

- Staff recommendations and considerations for moving forward with implementation:
 - Make explicit in regulations that the hardship cultivation registration process is available to those under 21 years old who qualify and are looking to cultivate plants to meet their medical needs.
 - In addition to demonstrating hardship require:
 1. that a person applying for a hardship cultivation registration demonstrate, with documentation from a Certifying Healthcare Provider, the need to grow more than the 6 plants already permitted by law.
 - Plants allowed over 6 will be limited by a cap, but Commission decision needed on appropriate cap and whether to allow for application of waiver from that cap
 2. Demonstration that the issuance of a hardship cultivation registration would not pose a risk of diversion

5 Hardship Cultivation:

Decision Points:

1. Adopt staff recommendations for implementation of hardship cultivation.
2. Adopt a cap of ____ plants for implementation of hardship cultivation.

If a cap is adopted:

3. Allow/Do not allow for application of waiver from the cap.
