

Energy Extension Request Form for Medical Marijuana Treatment Centers

Instructions

This form is intended for use by standalone Medical Marijuana Treatment Centers (“MTC”) that are required to satisfy minimum energy efficiency and equipment standards pursuant to 935 CMR 501.120(12) effective January 1, 2021.

On November 1, 2019, the Cannabis Control Commission (“Commission”) published amended regulations allowing an MTC with a final Certificate of Licensure before November 1, 2019 to extend the deadline for compliance until January 1, 2021. The amended regulations also provided additional pathways for compliance and established the documentation requirements to demonstrate compliance.

MTCs possessing a final license issued prior to November 1, 2019 may choose to request an additional, one-time-only extension of six (6) months, until July 1, 2021, if the licensee agrees to file two Energy Extension Surveys. **If the MTC previously received an extension for a colocated cultivation/MTC facility, they are unable to apply and be granted an additional extension.**

By requesting this Energy Extension, MTCs agree to provide reports on energy and water usage, waste production, and other data using the Commission Energy Extension Survey, and further, to install meters as necessary in order to monitor energy usage, water usage, and other data sought by the survey. MTCs agree to complete and submit the Energy Extension Survey twice within the six-month period. The first survey will be due on or before April 1, 2021 (reporting on January 1-March 31, 2021) and an updated survey reflecting any changes will be due on or before July 9, 2021 (reporting on April 1, 2021-June 30, 2021). 935 CMR 501.120(12)(g).

MTCs interested in seeking an extension must submit this form on or before December 15, 2020 for consideration. No requests will be considered after December 15, 2020. This form must be

filled out electronically and signed by an individual who has the authority to act on behalf of the Requesting MTC. MTCs should submit this form, electronically via email, to Licensing@CCCMass.com.

Upon request approval, MTCs will receive further instructions and a link to complete the survey.

Requestor Information

1. **Requesting MTC name (provide marijuana entity name and the name of the individual submitting this request on the entity's behalf):**

2. **Requesting MTC license number(s) that will be subject to this request and the date of final licensure (formerly known as "Final Certificate of Registration" or "FCR"):**

3. **Requesting MTC address(es), phone number, and email address:**

4. Please describe how the Requesting MTC currently tracks and monitors the water and energy usage necessitated by facility operations:

By signing this document, I am requesting, on behalf of the Requesting MTC, an extension of six (6) months of additional time to achieve operational compliance under 935 CMR 501.120(12). I affirm that the Requesting MTC will satisfy minimum energy efficiency and equipment standards as of July 1, 2021. I further affirm that I will complete and submit the Commission Energy Extension Survey on behalf of the Requesting MTC twice within the six-month period: first, on or before April 1, 2021, followed by an updated survey on or before July 9, 2021. Further, I agree that meters are or will be installed at the Requesting MTC as necessary in order to provide the Commission with energy and water usage and other data information sought by the Energy Extension Survey.
