

Protocol for Sampling and Analysis of Environmental Media for Massachusetts Marijuana Establishments, Medical Marijuana Treatment Centers, and Colocated Marijuana Operations

Exhibit 3. Water Sampling Frequency and Analyses

Revised March 11, 2021

This document is issued by the Cannabis Control Commission. The applicable Marijuana laws, which include M.G.L. c. 94I, 94G, 935 CMR 500.000 and 935 CMR 501.000, should be reviewed as they may provide or clarify the legal requirements related to this document. This protocol document should be checked periodically for revisions. Questions with regards to this document may be directed to Commission@CCCMass.com.

Matrix	Sampling Frequency	Number of Samples	Analyses
Solid cultivation – non-PWS water source	Prior to use for cultivation of medical marijuana and quarterly thereafter	At location closest to cultivation area prior to any water treatment and immediately following any treatment systems	<ul style="list-style-type: none"> • Metals • Pesticides • Bacteriological
Hydroponic – PWS and non-PWS water source	Prior to use for cultivation of medical marijuana and quarterly thereafter	Each independent system	<ul style="list-style-type: none"> • Metals • Pesticides • Bacteriological

Please note that these Protocols are continually evaluated and revised based upon new scientific and industry information.
