Dear Sir or Madam,

Notice is hereby given that a Community Outreach Meeting for a proposed Marijuana Establishment is scheduled for Monday, February 11th, 2019, at 6:00 pm at 71 Linden Street, Lynn, MA 01905. The proposed Marijuana Cultivation Facility is anticipated to be located at 71 Linden Street, Lynn, MA 01905. There will be an opportunity for the public to ask questions.

Plan to Remain Compliant with Local Zoning

The purpose of this plan is to outline how Bostica, LLC (“Bostica”) is and will remain in compliance with local codes, ordinances and bylaws for the physical address of the marijuana establishment at 71 Linden Street, Lynn, MA 01905 which shall include, but not be limited to, the identification of any local licensing requirements for the adult use of marijuana.

71 Linden Street is located in Light Industrial (LI) Zoning District and properly zoned pursuant to the City of Lynn Zoning Ordinance Section 22 Recreational Cannabis. In accordance with Section 22(a) the marijuana establishment is not located within 200 feet of any pre-existing public or private school providing education in kindergarten or any grades 1 through 12 licensed by the Department of Education. Also, pursuant to Section 22(b) the marijuana establishment is not located within 500 feet of another licensed cannabis establishment. There are no other codes, ordinances, or bylaws relative to the marijuana establishment.

Upon an initial review Google Maps of 71 Linden Street, an icon for Breed School appears. However, Breed School is located at 90 O'Callaghan Way, Lynn, MA 01905. The icon on Google Maps is located at Barry Park. The City does not have any setback distance requirements for parks.

Bostica filed a petition with the Lynn City Council on March 27, 2019 for permission to operate a marijuana cultivation and product manufacturing facility. Bostica appeared for a public hearing with the City Council on April 23, 2019. On April 23, 2019 the City Council having received all pertinent data and special permit application documents moved to grant the Bostica a special permit to operate the marijuana cultivation and product manufacturing facility. Under Section 12 Special Permits §12.3 Commencement all special permits issued terminate if substantial use or construction has not commenced within two years from ordination. Termination of a special permit will only result if substantial use or construction has not commenced within the two-year period.

In addition to Bostica remaining compliant with existing Zoning Ordinances; Bostica will continuously engage with City of Lynn officials to remain up to date with local zoning ordinances to remain fully compliant.

Dear Bostica, LLC.,

This letter hereby serves as written confirmation of Bostica, LLC.'s ("Bostica") commitment to the My Brother's Table in Lynn, MA ("MBT") as a corporate sponsor. As you know, MBT and Bostica have not yet finalized the details of the monetary contribution and volunteer hours but we will memorialize the specifics as soon as they are agreed upon by both parties. MBT recognizes that Bostica is a marijuana company seeking a license for a Cultivation and Product Manufacturing Marijuana Establishment in the City of Lynn. To that end, MBT is happy to accept the contribution by Bostica.

MBT greatly appreciates your company's willingness to dedicate funds and volunteer hours to MBT in support of our mission to nourish our community every day through hospitality, free meals and unconditional love. We understand and acknowledge that the annual donation will be forthcoming upon the Cannabis Control Commissions' issuance of a Lynn Cultivation and Product Manufacturing Marijuana Establishment license to Bostica and confirmation via license approval that our partnership meets Bostica's Plan for Positive Impact requirements.

We look forward to our organizations having a long-term relationship that helps implement the mission and vision of the My Brother's Table in Lynn.

Regards,

Dianne Kuzia Hills, Executive Director
My Brother's Table

Plan for Positive Impact

INTENT

Cannabis prohibition has disproportionately impacted certain communities in Massachusetts. As the Commonwealth begins to embrace the adult-use cannabis industry in earnest, Bostica, LLC. (“Bostica”) recognizes that it has a responsibility to contribute to areas of disproportionate impact and help disproportionately harmed by marijuana prohibition. Bostica will focus its time and resources on its host community of Lynn which has been identified by the Commission as an area of disproportionate impact. Bostica is fully committed to ensuring that it is making positive and lasting contributions to the communities where Bostica resides.

PURPOSE

The purpose of this document is to summarize Bostica’s plan to ensure its business creates positive and lasting impacts on the communities in which it will be involved.

Bostica is committed to fostering positive relationships within the community and endeavoring to identify ways in which to give back. Bostica seeks to utilize our resources, including time, talent and monies, to provide assistance to those who may be underserved and/or in need. We plan to achieve these goals through charitable giving, volunteer time and community engagement.

INITIATIVES AND METRICS

Bostica aims to implement the following initiatives to assist those communities that have been disproportionately impacted and will adhere to the requirements set forth in 935 CMR 500.105(4) which provides the permitted and prohibited advertising, branding, marketing, and sponsorship practices of Marijuana Establishments.

Proposed Initiative: Bostica has identified a charitable organization within Lynn to assist those living in areas of disproportionate impact.. Bostica has identified and reached out to My Brother’s Table (“MBT”), which is the largest soup kitchen on the North Shore. MBT has provided over 3 million hot, free meals and outreach to men, women and children in need. Last year alone MBT served over 186,000 meals. In addition to serving meals 7 days a week MBT provides meals to homebound individuals, participates in a family dinner program, provides meals to at risk-seniors, and hosts a free weekly medical clinic.

Bostica will ensure that any charitable contributions that are made have been discussed with the identified organization and a written agreement is entered into acknowledging the acceptance of money donated by a cannabis company. This documentation will be provided to the Commission upon execution by both parties. In the event that MBT cannot accept funding, Bostica will make a contribution to the Commission’s Social Equity Loan Trust Fund.

Bostica, LLC.
Application of Intent

Goal: Bostica will endeavor to provide annual financial assistance to MBT, a charity that serves groups that have been identified in disproportionately impacted areas as fitting in with Bostica's goals and need the most help. Bostica will donate \$5,000 to MBT annually.

Metrics: Bostica will maintain a record of the donated funds. Bostica will keep records of feedback that we receive relative to the impact of our contributions. This will in turn help us make decisions about adjustments that need to be made in the future, either amounts given or whether alternative charities should be considered.

Proposed Initiative: Bostica will commit to provide employees with paid time to volunteer at MBT, which serves identified areas of disproportionate impact. MBT stated on their website, "The contribution of volunteer time is essential to the Table's 365-day-per-year operation."

Goal: Bostica is committed to serving communities that have been disproportionately impacted by serving individuals and organization through the contribution of employee volunteer time courtesy of the company. Bostica will commit to provide employees with 6 hours per employee of annual paid time to participate and volunteer at MBT.

Metrics: Bostica will maintain records of each employee who participates in the volunteer program and the number of hours contributed by each employee. Bostica will host two company-wide volunteer days annually, one in the spring and one in the fall. Bostica will then solicit feedback from each employee to learn about their experiences and determine whether adjustments should be made in the future with regards to this program.

CONCLUSION

Bostica will conduct continuous and regular evaluations of the implementation of its goals and at any point will retool its policies and procedures in order to better accomplish the goals set out in this Plan for Positive Impact. Any actions taken, or programs instituted by Bostica will not violate the Commission's regulations with respect to limitations on ownership or control or other applicable state laws. Progress and/or success of this plan will be documented one year from provisional licensure and each year thereafter.

Executive Summary

Bostica LLC aims to be the leading provider of recreational cannabis products through wholesale cultivation and manufacturing in the Commonwealth of Massachusetts. Bostica LLC has been awarded a special permit in Lynn, MA to cultivate and manufacture Marijuana at its 45,000 sq. /ft. facility at 71 Linden St, Lynn MA. Bostica LLC has executed a Host Community Agreement with the city of Lynn.

Bostica LLC has secured a 20-year lease with a 20 year option, of approximately 45,000 sq/ft, to operate a marijuana cultivation and manufacturing business, from Linden Industrial LLC who holds title to said real estate. Bostica LLC has first right of refusal in the event Landlord attempts to sell property. Bostica LLC has first right to lease additional space in building once existing leases expire.

Location

Bostica, LLC intends on operating at 71 Linden Street, Lynn, MA 01905. The initial operation will occupy approximately 45,000 sq/ft of the total 128,000 sq/ft existing building.

Purpose of Business

Bostica LLC will own and operate an indoor marijuana cultivation and product manufacturing facility in Lynn, MA. Bostica will pursue licensing from the Cannabis Control Commission.

Market Analysis

According to a recent study led by state Department of Public Health, 21% of adults in MA admitted to using marijuana. With an adult population of 4,849,033 of adults over the age of 21, there is approximately 1,018,296 marijuana users in the Commonwealth, although, experts say the number is likely higher as the stigma associated with marijuana use fades and safer methods of ingestion become available, people will be more likely to admit use or begin use. It's also worth noting that these estimates do not include tourists.

Due to federal regulations it is illegal to sell or transport cannabis products across state lines, therefore, each state that legalizes marijuana is resigned to their own individual state market. We do not have a situation where we have to compete with national or out of state competitors. As seen in other states that have legalized marijuana for recreational sales and consumption, lack of supply has always been an issue at least for the first few years, with high wholesale prices.

Although, we can look at other markets and make assumptions about what will happen with Massachusetts, nobody really knows as Massachusetts is one of the first of a few states on the east coast to begin recreational sales. The east coast market has not been tested even though we are some of the most densely populated states in the country with some of the most expensive real estate and highest income. The only data from cannabis markets so far comes from mostly western states whose land size and inexpensive real estate are the norm, as well as the ability to grow large amounts of marijuana outdoors.

Massachusetts is one of the highest priced real estate markets in the country. A big hurdle for cultivators is finding a place big enough and suitable enough to operate. Cultivation also requires the largest amount of startup capital compared to any other type of marijuana business (i.e. manufacturing, retail). Massachusetts high real estate prices and the cost to get into a cultivation business in MA compared to Colorado or Nevada is exponentially higher. Because of these factors we believe that the marijuana supply will take longer to catch up with demand than some of the aforementioned States, which took approximately 3 years to satisfy demand. Though MA has not limited the amount of licenses to a specific number they have written a few regulations to help stifle the problem of oversupply.

Massachusetts has set certain limits on licenses to allow for a slower healthier growth of the industry. Cultivators are limited to 100,000 square feet of canopy (actual growing area) which prevents large, out-of-state companies from coming in with a large amount of resources and cornering the market. More operators will get a piece of the pie and there is plenty to go around with an estimated 2 billion dollar annual market, just in the Commonwealth. Also, as mentioned before there is the issue of land to operate a cultivation business; Operators are forced to find industrial zoned land to operate their cultivation businesses.

Challenges

Although Massachusetts is in the early stages of awarding cultivation licenses, the wholesale price of Marijuana flower will inevitably drop. With a current retail price of an ounce at \$400 or \$6,400/lbs, we can expect the wholesale price to be around 50% of that. We should see a wholesale price between \$3,000-\$4,000/lb with in the first few years with a decline in price as the distribution outlets and supply meets the demand.

We plan to focus on maximizing our canopy in the first 3 years to reach a goal of 100,000 sq/ft or the state maximum allowance. By this time even if pricing drops to the mid to low 2000s we will still have increased our company's value and continue to do so. We will also begin to process product into oil for vape pens and concentrates. Market research shows that concentrates and edibles are quickly becoming more popular than the traditional method of inhaling combusted raw cannabis flower. Oil production is a large part of the business and integral in establishing our brand and maximizing profits.

We have included, in addition to the cultivation proforma, a manufacturing proforma to show, how we can shift from wholesale flower to processing as pricing declines. This will allow us to maintain our current cultivation capacity while increasing revenue. Note: Trim yield is approximately 15% of usable flower production, which will be used for manufacturing already (ex. 5000 lbs. of marijuana flower, 750lbs of trim). The Cannabis market will become very competitive, driving the price lower.

Strengths

Bostica, LLC will make an effort to incorporate the newest energy efficiency technologies and vertical farming techniques to maximize efficiency and to drive our cost per pound down thus insulating us from price fluctuations. This requires approximately 20% additional start-up capital, however, we will be able to double our canopy and revenue. The additional investment will pay for itself in one quarter.

Bostica, LLC plans for a year 2 expansion to increase our production. We plan on staying competitive in the market through not only energy efficiency and multi-tier farming but also through economies of scale.

Expansion

Bostica LLC, intends on expanding into other parts of the building. Year two, the company will reinvest profits to build out an additional 28,000 sq/ft. of the existing building. With multi-tier growing methods, we will increase our canopy square footage by approximately 35,000 sq/ft. See Projections Y2 Q4 for expansion revenue.

Marketing Plan

All marketing efforts will be in compliance with regulations set forth in 935 CMR 500. All marketing efforts will be applied through Company social media pages, Google SEO, and Promotional events.

We will hire a social media manager well versed in content creation and with an understanding of the goals of the company and brand.

Due to many companies' restrictions on selling advertising to Marijuana companies, the social media manager will seek out and establish connections with social media influencers who will promote the Bostica brand on their page via "pay per post".

We also intend on marketing through nightlife channels i.e. Night Clubs, Bars, Local Breweries, Local events, etc.

We will hire an event/promotions coordinator/planner to hire a team for promotions as well as to establish relationships with businesses hosting these events. We will have a team that will organize, schedule, and hold these promotional events on a weekly basis.

Our team will promote the brand Bostica. Team will distribute merchandise bearing Bostica logos and designs, as well as other promotional items, in compliance with regulations. Developing our relationships with customers face to face will help build strong relationships with our brand.

All promotional event locations will be 21+ establishments or events where the majority of patrons are expected to be 21+ or over and in accordance with 935 CMR 500.

It is the goal of Bostica to establish itself as a luxury lifestyle brand through these channels.

Target Demographic: Adults age 21-35.
