The subject property is compliant with said requirements of Article 8, Section 8-7, Use Item No. 39B

The city's Dept. of Emerging Industries has also concluded that BRI's proposed use is compliant with the Boston city code. BRI has complied with the Boston city code and MA state law and on BRI has been issued a Conditional Use Permit to operate a Marijuana Establishment at 253 Meridian Street in Boston.

BRI has met with the police chief, fire chief, building inspector and other appropriate department heads to ensure continued compliance. Mr. Hospot and professionals designated by him will interact with the city, and will be responsible for assuring the BRI's ongoing compliance.

RE: Plan to remain compliant with Local Zoning - Pittsfield

PLAN:

Berkshire Roots, Inc. ("BRI") operates a cultivation, processing, and dispensing facility at 501 Dalton Avenue in Pittsfield. BRI is in compliance with all applicable city codes, ordinances, and bylaws. The property is located in a BC zone. As set forth in Ch. 23, Art. 23-4, Sec. 4.201, the Pittsfield city code allows marijuana establishment use by special permit in a BC zone. BRI has secured site plan approval and a special permit for the premises. Additionally, the Pittsfield city code provides at Art. 23-7, Sec. 7.850 that marijuana establishment use shall not be allowed within 1,000 feet of a school, and that cultivation and dispensary use shall "occur only on the same property." The property is compliant with said Sec. 7.850.

While the city and its various departments have the right to inspect and review BRI's use from time to time, BRI's permits are not subject to any expiration or renewal. BRI's executive team and its designees will continue to interface with the city and will be responsible for ensuring BRI's ongoing compliance.

Beginning in March 2020, Berkshire Roots proactively instituted policies and procedures to address the COVID-19 pandemic within its dispensary, cultivation, and production facilities. The original policies were created based on State and Federal guidelines and were enhanced with our own policies, guided by local directives and designed to protect our employees and the Berkshire community. BRI is committed to ongoing assessment and adjustment of its policies and procedures as new information becomes available, all in manner consistent with guidance from the city of Pittsfield.

Berkshire Roots will ask community support for delivery, other changes at upcoming meeting

By John Lynch

Owners of the recreational marijuana dispensary, Berkshire Roots, on Meridian Street are hosting a virtual community meeting on Thursday, September 30 at 6:00 pm as a Webex meeting form. The meeting's link can be found at <https://bit.ly/3mkFL> and the pass-

word is meridian. Residents can join the meeting by phone at 617-315-0704 using the access code 23463171345.

At the meeting Berkshire Roots representatives will discuss partnering with a cannabis delivery service, expanding hours of operation as well as asking a medicinal marijuana option to the

dispensary.

The recreational cannabis delivery service, Zip Run, recently partnered with Berkshire Roots on Meridian Street. Zip Run, the state's first-ever recreational cannabis "delivery-only" retailer, already hosted one meeting on the proposal back in August 2020.

Zip Run was recently

granted a Social Equity Membership from the Cannabis Control Commission (CCC) and the company's pre-certification application to legally deliver cannabis in Massachusetts has been approved.

Madaro out of Senate race

By Times Staff

East Boston Rep. Adrian Madaro has decided not to run for the state senate seat recently vacated by Sen. Joe Boncore (D-Winthrop).

Madaro, who has served as state rep since 2015 after winning a special election that year and is the youngest committee chair at the State House, was strongly considering a run for the state senate seat that includes Eastie, Winthrop, Revere, the North End, Beacon Hill, Chinatown and Bay Village.

"I greatly appreciate those who have supported me and encouraged me to run, and the confidence you all have in me," said Madaro Monday. "I want you to understand my thought process and what brought me to this important decision. It ultimately came down to striking a balance between work and family. Anyone who knows me knows that when I commit to something, I am all in. I believe that is part of my success as East Boston's state representative. I cannot do

Twenty years ago on Sept. 10, 2001, 2,996 people went to sleep not knowing the horrors the next day would bring.

Among them, 246 people went to sleep in preparation for their morning flights, 2,606 people went to sleep in preparation for work in the morning, 343 firefighters went to sleep in preparation for their morning shift, 60 police officers went to sleep in preparation for morning

patrol and eight paramedics went to sleep in preparation for the morning shift of saving lives.

None of these saw past 10 a.m. Sept. 11, 2001.

It has been twenty years since the worst terrorist attack on US soil that changed the world forever and forced many of us to enjoy the breaths we take today before we go to sleep in preparation for tomorrow. Since the fateful day we've made an effort to kiss the ones we love, smuggle a little

fighter, and never take one second of life for granted.

Among the nearly 3,000 souls that lost their lives 20 years ago in New York, Washington DC and Pennsylvania, were 206 Massachusetts residents of all ages, backgrounds and cultures that were cut down far too soon by a senseless act of violence that continues to shock the world.

Over the weekend the historic news footage of the day is just as real, just as horrifying and just as

sorrowful as they were 20 years ago.

The images of the planes hitting the World Trade Center, people jumping in desperation from the buildings, the collapse of the towers, smoke rising from the Pentagon and the stories of heroism aboard United Flight 93 will forever be burnt into our collective memory as a nation.

On Saturday, we honored the local residents that lost their lives on Sept. 11 like Jesus San-

chez, 45 and Antonio Jesus Morroja Valdes, 46, of East Boston, James, 67, and Mary Tremini, 65, of Everett, Marianne MacFarlane, 34, Revere, Kathleen Ann Nicotia, 54, Winthrop and Myra Joy Aronson, 50 and Christopher M. Morrison, 34, Charlestown.

They all left behind either children or grandchildren, husbands or wives, parents or grandparents, or friends.

By all accounts the local victims we honor were

gentle souls, good people, family men and women and all did not have a punishment coming and were not deserving of their fate.

So today, like every 9-11 anniversary for the past 20 years, we again mourn Jesus, Antonio, James and Mary, Marianne, Kathleen, Myra and Christopher.

We haven't forgotten and we shall never forget.

something halfway. As an elected official, that means being present and engaged in the community, and being truly accessible to the people I represent."

Madaro said over Labor Day weekend while on a family trip with limited cell phone reception, he "unplugged" for the first time in over two months.

"I was hoking my son Matteo when it hit me—I hadn't spent any real time with him in the weeks I was considering the run for state senate," he said. "I was all in for this race, and that meant not being present for my son in the way that I wanted to be. I overestimated my ability to carve out family time and began missing out on too much with Matteo, who is changing so quickly. Being a first time dad with a four-month-old baby, I now see that I cannot be "all in" for a state senate campaign, my full-time position representing you in the House, and my family, all at the same time. I want to be a reliable partner to my wife, Ariel, and be present for Matteo, as each week brings new and exciting milestones in his development."

Madaro said he remains deeply committed to the community that raised him.

"I love serving as the state representative for East Boston, and there's still much more to accomplish in this role," said Madaro. "I can do this job well, while also being the father and husband my family deserves. Public service is about helping others and making a positive difference, and those are goals I can continue to work towards as your state representative."

He added, "I love my family and I love my community. While this was a difficult decision, I know it is the right thing to do. I am excited to continue working with

East Boston Rep. Adrian Madaro with his wife, Ariel, and son, Matteo.

neighbors and colleagues on issues ranging from environmental justice and transportation, to universal childcare and housing affordability. I am also honored to be the House Chair of the Mental Health, Substance Use and Recovery Committee, where there is a lot of impactful work to be done."

Madaro, who became chair of the Joint Committee on Mental Health, Substance Use and Recovery earlier this year has had a busy legislative season.

Madaro's committee helped push a state investment of \$40 million to address the spike in opioid-related deaths among people of color. Overdose deaths increased 30% during the first year of the pandemic—something Madaro called a devastating step back from the progress made in reducing overdose mortality since the 2016 peak. Though the first six months of 2021 saw a 5% decrease in overdose deaths, the opioid overdose crisis is still very much raging in Massachusetts, with a disproportionate impact on Black individuals and other individuals of color.

Madaro's push for more funding will address the disproportionate impact the crisis has had on people of color.

Madaro's amendment was included in the state's landmark climate legisla-

tioning climate legislation, known as the Next Generation Climate Roadmap bill, which overhauls the state's climate laws, reduces greenhouse gas emissions, advances the clean energy industry, and prioritizes and protects environmental justice communities. Madaro's amendment once and for all set criteria of what defines an environmental justice community based on race, income, and language-proficiency criteria.

In the spring Madaro filed a House Bill H1352: An Act to Ensure Tuition Equity for Massachusetts Residents to make in-state tuition available to undocumented students.

Madaro also pushed a bill through the House to establish a low-income fare program for low-income workers that use the MBTA and Regional Transit Authorities (RTAs) across the state.

Finally, his bill to end housing discrimination in the Commonwealth would increase penalties for discrimination in fair housing violations.

"Again, I want to thank the countless people who have been there for me, encouraged me, and thought I'd be a great state senator," said Madaro. "I promise you that I will continue to be an effective state representative, being a strong voice for East Boston and the Commonwealth of Massachusetts."

East Boston's Donald McKay School will resume learning on Thompson Island this fall

Students from East Boston's Donald McKay School will return to Thompson Island Outward Bound Education Center this school year, the non-profit announced today. Donald McKay School is part of Thompson Island Outward Bound's multi-year Connections programs, which combines hands-on science with Outward Bound's outdoor challenge curriculum.

Thompson Island Outward Bound served Connections students online in school year 2020-21. This school year, seventh grade Connections students will visit the Island in the fall, with other grades to follow, marking the first time the Connections program will run on Thompson Island since the pandemic began.

Thompson Island Outward Bound's Connections model provides programming for Boston Public Schools' middle schoolers that combines academic and hands-on learning with social and

emotional learning on Thompson Island off the coast of Boston. Middle school students in the program attend Connections programs during the school year throughout middle school.

"By the end of eighth grade, Connections students consider themselves scientific thinkers in their approach to solving problems and have both the drive and ability to lead constructive change in their communities," said Arthur Pearson, Executive Director of Thompson Island Outward Bound. "All children deserve to experience natural classrooms that help them learn, grow and develop, but there is inequity in opportunity. Taking children outside the classroom to learn and experience challenge in a natural environment is more than just a field trip. It makes learning fun and exciting, giving kids newfound insights into themselves while inspiring them to become leaders, lifelong learners and critical thinkers. We are excited

to welcome Donald McKay School back to the island this fall."

Research shows that by age 12, students growing up in underserved communities have had 6000 fewer hours to learn outside the classroom than peers from well-resourced communities. Learning outside the classroom allows students to discover and develop problem solving skills, confidence and compassion. Experiential learning complements traditional classroom teaching and reshapes learning, serving as a gateway that inspires Boston's middle school students to pursue new challenges and opportunities in high school.

Students who attended Connections programming in 2019 with a self-identified low interest in science showed a 37% increase in critical thinking and a 32% increase in perseverance as a result of their experiential education on the island.

Students will begin Connections programming on September 21.

"We have created an on-demand delivery service via mobile application and website for recreational cannabis products. Zip Run has secured investments to help up-start our business. The Chief Executive Officer, Gabriel Vieira, and I grew up in communities of Boston that have been disproportionately affected by marijuana prohibition and enforcement. With help from the CCC, Gabriel

has become a member of the social equity program, which grants individuals like us an opportunity to gain ownership within the cannabis industry. One of our goals is to further the CCC efforts by employing and empowering people that are from disproportionate areas to prevent the continuation of an inequitable status quo."

Berkshire Roots became Eastie's first retail adult-use marijuana shop after receiving its final license from the CCC to open a shop at 253 Meridian St.

The 1,400 sq. ft. retail space on the first floor of

a three story building is a sleek and stylish cannabis dispensary with façade improvement and subtle and understated signage.

Berkshire Roots received community support from the Eagle Hill Civic Association and was later granted a Conditional Use Permit by the Boston Zoning Board of Appeal.

The company is the largest grower of cannabis in Western Massachusetts and was the first medical marijuana dispensary to open in Pittsfield, Massachusetts.

From: Berkshire Roots Inc.

Date: December 1, 2022 (revised)

**RE: 935 CMR 501.101(a)(11)
Plan to Positively Impact Areas of Disproportionate Impact, as defined by the commission, for the purposes established in M.G.L. c.94G, § 4(a^{1/2})(iv) – East Boston**

Introduction

Berkshire Roots Inc. ("BRI") is dedicated to positively impacting the community in and around its establishment at 253 Meridian Street in East Boston.

CCC has designated specific towns and cities that have been disproportionately impacted by the war on drugs, and has further designated specific census tracts within the city of Boston. The establishment at 253 Meridian Street does not fall within a census tract defined by the Cannabis Control Commission as an area of disproportionate impact in the "Guidance for Identifying Area's of Disproportionate Impact" dated April 2018. Therefore, BRI will prioritize its programming to those ADI census tracts (identified by the CCC) that are close in proximity to East Boston (see Exhibit A). Each such area shall be referred to herein as a "DPI community" or "ADI". Furthermore, in accordance with the "Guidance on Required Positive Impact Plans" (revised 1/16/2020), BRI will seek to serve Massachusetts residents that have past drug convictions, or those with parents or spouses with past drug convictions.

Roles & Responsibilities

BRI has designated certain members of its staff to advance the objectives of this plan. These staff members include the manager of community outreach, diversity, equity and inclusion ("CODEIM"), the director of human resources and a revolving roundtable of employees. Tasks include the following:

- Community Outreach, Diversity, Equity & Inclusion Manager (CODEIM)
 - o Oversees Diversity Plans and Positive Impact Plans
 - o Responsible for implementation of plan initiatives and programs
 - o Working with Human Resources to remove barriers for individuals from ADI's to the entry into the cannabis industry
 - o Communicating plan goals to all BRI staff members
 - o Preparing and submitting reports on plans to BRI and the CCC
 - o Chair of Roots Roundtable Committee
 - o Responding to inquiries about the plans
- Director of Human Resources

- Implementing strategies to increase recruitment, hiring, and retention of applicants from ADI's
- Providing advice and assistance to management on best practices
- Maintaining structure and strategies to support a diverse, equitable, and inclusive work environment
- Roots Roundtable Committee
 - Assisting in the implementation of programming from BRI's Diversity Plan and Positive Impact Plan
 - Recommending and implementing the strategies and programs identified within the plan
 - Acting as a liaison to report to CODEIM regarding barriers, challenges, and program success

Goals

1. To reduce barriers for entry into the cannabis industry.
2. To provide mentoring, professional, and technical programs for individuals facing systemic barriers.
3. To offer business assets, talent, and capital to individuals and small businesses seeking entry to cannabis sector in DPI communities.
4. To support non-profit and community-based organizations aligned with the goals stated in this plan.

Programs

BRI will adopt no less than four programs designed to meet the goals articulated above. The company will evaluate the programs at least bi-annually, to measure the degree to which the programs achieve BRI's stated goals.

Program 1: Hiring

BRI will have a hiring preference in favor of residents of East Boston, Chelsea and nearby DPI communities. BRI will identify activities and programs within East Boston and nearby DPI communities that attract Massachusetts residents with past drug convictions, or those with spouses or parents with past drug convictions. As part of this hiring preference and subject to the CCC's suitability guidelines set forth at 935 CMR 501.030, BRI will endeavor that at least 10% of its staff shall have a past drug conviction. BRI shall run an advertisement, at least quarterly, in the East Boston Times stating that BRI is specifically looking to hire Massachusetts residents who have past drug convictions. BRI shall endeavor to achieve a workforce where at least 50% of its employees come from or live in a DPI community or East Boston. (See attachment A)

Program 2: Education & Training

BRI will conduct industry-specific job training programs in East Boston for individuals expressing interest in the commercial cannabis industry. The programs will feature managers and staff with operational expertise, financial and technological expertise, and accounting expertise within the cannabis industry. The program will be designed to provide cannabis industry and retail expertise to program participants. Not less than 20 participants shall be eligible for these programs. BRI will conduct such educational programming at least bi-annually either in person or virtual and will assess thereafter the nature and frequency of such programs.

Program 3: Debt & Equity Funding

BRI will offer bi-annual seminars to individuals and start-up companies within DPI communities designed to promote financial literacy in the cannabis sector. Among other topics, each seminar will be designed to: (i) inform participants in understanding and accessing sources of capital; (ii) educate participants in accounting, finance, and technology relating to the cannabis sector; and (iii) provide mentorship opportunities and on-site technical training.

Further, for individuals and start-up companies that meet reasonable viability thresholds, BRI will offer debt and/or equity funding. Funding will range from \$1,000 to \$10,000. BRI will support businesses founded by individuals or start-up companies with limited net worth and limited access to traditional sources of capital and shall consider the following criteria: (i) the commercial viability of the business; (ii) the amount of capital available from secondary sources; (iii) the strength of the management team; (iv) ADI considerations; and (v) the diversity of ownership and employment within the business.

Program 4: Support for Non-Profit And Community-Based Organizations

BRI will provide financial assistance to non-profit and community-based organizations within East Boston. BRI has established relationships with a variety of non-profit organizations and committed to annual financial contributions to those nonprofit organizations. BRI will aim to raise \$2,000 each month to give to a non profit organization. Additionally, BRI will aim to assist both Social Equity Applications and Economic Empowerment Application by partnering with Elevate Northeast. Elevate Northeast is a Massachusetts not for profit organization that was created to support and empower underrepresented populations within the cannabis industry. BRI has committed to an annual \$10,000 contribution towards Elevate Northeast's mission. See Attachment B for a list of organizations and letters of acceptance of contribution. BRI intends to add additional nonprofit organizations to this list in the coming year.

Measurement & Accountability

Timeline: BRI will include a timeline to demonstrate the progress or success of the plan. The timeline will identify the plan goals, and the dates associated with each plan goal and achievement. BRI will include the timeline in the report referenced below.

Report: BRI will prepare a mid-year and a year-end report, which shall evaluate the degree to which the plan has achieved its goals. The timeline shall adhere to 935 CMR 501.101(1)(a)(11) and Mass. Gen. Law. Ch. 94G § 4(a^{1/2}) (iv). The timeline will detail the following: (i) number of employees hired and retained that come from DPI communities; (ii) number and nature of education and training programs conducted; (iii) number of individuals and businesses that participated in such events; (iv) number and nature of mentorship relationships; (v) aggregated data demonstrating financial impacts of the plan, including payroll, health care, tax, non-profit and community organizations contributions, equity and debt performance; (vi) demographic data reflecting the positive impacts in East Boston and nearby DPI communities.

Assessment: BRI shall assess the hiring program by determining whether it has established a workforce where at least 50% of its employees come from or live in a DPI community or East Boston. BRI will strive to achieve at least that level of DPI and community participation over time. BRI will assess the education and training program by the degree to which it attracts participants and causes participants to later seek employment in the cannabis sector. BRI will

assess the debt and equity program by measuring whether BRI's financial and/or expertise has enabled one or more individuals or startup companies from a DPI to successfully launch in the cannabis sector.

Renewal: BRI acknowledges that the success or progress of the plan must be documented upon renewal.

COVID Compliance Statement: BRI will comply with public health directives from the Cannabis Control Commission, City of Boston, Massachusetts Department of Public Health, and the Center for Disease Control and Prevention in conducting activities described in this plan. In particular, the company will regularly review COVID-19 directives and related data to protect BRI staff and the public.

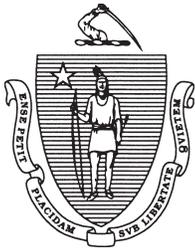

Affirmative Statement: In accordance with the “Guidance on Required Positive Impact Plans” (revised 1/24/2020) and “Guidance of Diversity Plans” (revised 8/19/2021), BRI affirmative states as follows: (1) The applicant acknowledges and is aware of, and will adhere to, the requirements set forth in 935 CMR 501.105(4) regarding permitted and prohibited branding, marketing, and sponsorship practices; and (2) Any actions taken, or programs instituted, will not violate the Cannabis Control Commission’s regulations with respect to limitations on ownership or control or other applicable laws.

Section 6. Insurance. The Corporation may purchase and maintain insurance (including but not limited to insurance for legal expenses and costs incurred in connection with defending any claim, proceeding or lawsuit) on behalf of any person who is or was a director, officer, employee, fiduciary or agent of the Corporation or who, while serving in this role, is or was serving at the request of the Corporation as a director, officer, partner, trustee, employee, fiduciary or agent of any other foreign or domestic Corporation, partnership, joint venture, trust, employee benefit plan, or other enterprise, against any liability asserted against him or incurred by him in any such capacity, or arising out of his status as such. The company shall focus on patient and customer safety and experience, and will adhere strictly to CCC regulations, as amended from time to time.

Operations

BRI has adopted standard operating procedures (“SOPs”). The SOPs conform to Massachusetts law and regulation, and control the performance of all BRI management, visitors, contractors and staff. At least annually, BRI will review and assess the SOPs, and will revise such SOPs in

order to conform company performance to the applicable regulations and industry best practices.

BRI will use generally accepted accounting principles in maintaining such statements. Among other things, the statements shall track revenue, expenditures, cost of goods sold, assets and liabilities. All financial records will be maintained in house, with the assistance of a CPA and tax preparer retained by BRI.

Separately, BRI will track earned revenues through Leaf Logix. BRI management shall export, analyze and verify all revenue figures at least daily. BRI will export data from Leaf Logix and import it into financial tracking software. Subject to confidentiality considerations and applicable regulations, and in accordance with BRI's full absorption accounting methodology, BRI will share data with its CPA and tax professional for purposes of the timely payment of taxes, HCA fees, payroll and other company obligations.

All sales will be recorded and tracked by category: (i) medical marijuana/medical marijuana products; and (ii) non-marijuana items in addition to adult use marijuana and adult use marijuana products. BRI understands that non-marijuana items have different and separate tax requirements.

All financial records and all data shall be maintained electronically and shall be available to the Commission upon request at any time.

Injurious Occurrence

BRI shall not under any circumstance utilize software or any other method(s) of manipulation to alter or otherwise change any element of sales, inventory, or security data. Any violation of this policy shall be handled in accordance with BRI's personnel policies. With the assistance of a contracted IT team, BRI will conduct a monthly analysis of our equipment and sales data in order to assure compliance with 935 CMR 501.140(8). In particular, BRI shall ensure that no software has been installed that could be utilized to manipulate or alter sales data, and that no other methodology has been employed to manipulate or alter sales data.

BRI will maintain records that it has performed the above-mentioned monthly audits and such record will be provided to the Commission upon request. In accordance with 935 CMR 501.140(5)(b), if BRI determines that software has been installed for the purpose of manipulation or alteration of sales data or other methods have been utilized to manipulate or alter sales data BRI will take the following steps:

RE: Energy Compliance Plan

PLAN:

In an effort to mitigate its environmental impact, BRI will utilize best management practices to reduce energy and water consumption at its dispensary located at 253 Meridian Street in East Boston. While BRI does not own the premises, BRI made improvements to the premises in accordance with a commercial lease. Prior to renovation of the premises, BRI chose to utilize tools and materials that would reduce the day to day energy use. BRI has since implemented several energy reduction strategies as defined below:

1. Installation of LED lighting controlled by movement sensor. On average, LED lights use 75% less energy than traditional incandescent lighting. BRI has installed LED lights throughout the entire retail, inventory and vestibule spaces, all of which are controlled by movement sensor to ensure that lights are not on when a space is not in use.
2. Efficient Electric Water Heater. BRI has installed a state-of-the-art electric water heater for domestic hot water to promote energy efficiency.
3. Improved Insulation. BRI has utilized spray foam insulation on the underside of the ceilings to increase air sealing within the retail space, and to increase R-values throughout the premises.
4. Split-System HVAC. BRI has installed split system HVAC units with modern electronic thermostat control. These HVAC systems are adjusted according to the season. The electronic thermostat control is programmed to adjust to the temperature to energy saving levels outside of regular business hours. BRI ensures regular and routine maintenance of all HVAC units to ensure the units are operating at top efficiency.
5. Auto-Door Closers. All exterior doors have been outfitted with automatic closers to reduce air infiltration into the space. Additionally, BRI has outfitted the retail space with a vestibule entrance to further reduce air infiltration into the space.

On an ongoing basis, and subject to its obligations to its landlord and permitting officials within the city of Boston, BRI will consider opportunities for renewable energy generation including, where applicable, submission of building plans showing where energy generators could be placed on the site, and an explanation of why the identified opportunities were not pursued, if applicable. 935 CMR 501.105(15). BRI will engage with energy efficiency programs offered pursuant to M.G.L. c. 25, § 21, or through municipal lighting plants, if available. 935 CMR 501.105(15)

RE: Quality Control and Testing Procedure

BRI aims to provide patients and caregivers with medical cannabis of the highest quality. BRI shall implement strict operational controls, maintain a sanitary and secure environment, conduct rigorous quality testing and ensure all products offered for sale have been properly tested by a CNB-approved independent laboratory testing facility. Products shall be cultivated, processed, tested and packaged at BRI's vertically integrated facility at 501 Dalton Avenue in Pittsfield. BRI will ensure that no marijuana product shall be sold or otherwise marketed for medical sale that has not first been tested by an Independent Testing Laboratory and deemed to comply with the standards required under 935 CMR 501.160.

BRI has developed internal quality testing protocols to ensure high-quality product free from any contaminants. These protocols include, but are not limited to, limiting direct or indirect contact with product or product-facing surfaces, use of gloves and gowns where appropriate and strict hand hygiene practices. Retail and storage areas will be cleaned and monitored daily for signs of contaminants such as mold, fungus and pests. If contamination occurs, BRI staff will remedy the contamination, relying on individual staff expertise, industry best practice and peer support.

BRI will meet or exceed sanitary guidelines required by 935 CMR 501.160. BRI intends to provide the Massachusetts cannabis industry with medical use cannabis of the highest quality. BRI will do so by implementing strict operational controls, maintaining a sanitary and secure environment, and utilizing a commission approved independent testing laboratory.

All areas of the establishment at 253 Meridian Street and perimeter are monitored daily for signs of contaminants such as mold, fungus and pests. All areas will be cleaned and maintained to varying degrees on a daily, weekly and monthly basis. If contamination occurs, BRI staff will remedy the contamination, relying on their individual expertise, peer support, and executive direction.

The establishment at 253 Meridian Street is equipped with adequate hand washing areas to include: hot water, sanitizing soap and paper towel dispensers. All edible products will be handled and stored in compliance with the sanitation requirements in 105 CMR 590.000: *Minimum Sanitation Standards for Food Establishments*.

In compliance with 935 CMR 501.101(3)(b)(9), BRI will ensure that all contact surfaces will be maintained in a clean and sanitary condition. All surfaces will be cleaned and sanitized as frequently as necessary to protect against contamination, using a sanitizing agent registered by

the US Environmental Protection Agency (EPA).

In compliance with 935 CMR 501.105(3)(b)(4), BRI has adopted policies to instruct agents on how to move and where to store items during times of maintenance or sanitation.

All of BRI's storage containers will be light shielding, air tight and secure to protect the finished products and the agents handling them. Storage and transportation of products will always occur under conditions that protect products against physical, chemical, and microbial contamination, as well as against deterioration of finished products or containers. Containers will be monitored for cleanliness and serviced as necessary.

BRI will ensure that all storage of marijuana at a laboratory providing marijuana testing services shall comply with 935 CMR 501.105(11). All marijuana not passing laboratory testing standards will be reported to the commission and returned to the company of origin or disposed of in compliance with 935 CMR 501.105(12).

With the assistance of its building and engineering team, BRI will select interior materials such as floors, walls and ceilings that promote ease of cleaning and repair. In accordance with 935 CMR 501.105(3)(b)(6), BRI will keep each area of the establishment clean and in good repair.

BRI's water source will be capable of providing a safe, potable, and adequate supply of water to meet or exceed the needs of the establishment.

With the aid of third-party contractors, BRI will ensure there will be no cross-connections between the potable and waste water lines. BRI will strive to provide its agents and employees with areas to accommodate day to day needs. These areas will include, break room, locker area and readily accessible toilet facilities.

BRI will ensure that all procedures related to toxic item identification and disposal are designed to maintain full compliance with 935 CMR 501.105(3)(b)(10).

In accordance with standard record keeping procedures, BRI will maintain the results of all testing for no less than one year.

Consistent with its current practice, and as approved on multiple occasions by the Commission at times of licensure, renewal and inspection, BRI will assure that all marijuana and marijuana products meet the quality and testing standards established in 935 CMR 501.000 et seq., and as expressed from time to time in guidances published by the Commission.

Among other quality and testing standards, BRI shall ensure that only the leaves and flowers of the female marijuana plant are processed, in a safe and sanitary manner, as prescribed below:

- Well cured and generally free of seeds and stems;
- Free of dirt, sand, debris, and other foreign matter; and
- Free of contamination by mold, rot, other fungus, and bacterial diseases, satisfying the sanitation requirements in 105 CMR 500.000: Good Manufacturing Practices for Food, and if applicable, 105 CMR 590.000: State Sanitary Code Chapter.

BRI will require that all agents whose job includes contact with marijuana or non-Edible MIPs are subject to the requirements for food handlers specified in 105 CMR 300.000. 935 CMR 501.105(3).

BRI will require that any agent working in direct contact with marijuana shall conform to sanitary practices while on duty, including maintaining adequate personal cleanliness and washing hands appropriately. 935 CMR 501.105(3).

BRI shall provide sufficient space for placement of equipment and storage of materials as is necessary for the maintenance of sanitary operations. 935 CMR 501.105(4).

RE: Summary of Verified Financial Hardship Program and Financial Assistance Programs

BRI Inc. ("BRI") has developed the following Plan to provide reduced cost cannabis and cannabis products to our registered Medical Cannabis Patients with documented Verified Financial Hardship. This Plan outlines the goals, programs, and measurements BRI will pursue in an effort to ensure the continued success.

Objective

BRI recognizes that there may be significant expenses associated with maintaining a consistent and regular medical cannabis regimen and for some vulnerable populations those expenses can be difficult to manage. The goal of our discount program is to create standing discounts, weekly discounts, and patient-specific discounts that make medical products more affordable for all patients and particularly those patients who may be more vulnerable. On an annual basis, BRI will assess, evaluate and modify the plan to ensure, to the best of our ability, that no patient is denied access to medical cannabis or medical cannabis products due to financial restrictions and that all medical patients have equitable access to a variety of BRI products.

Verified Financial Hardship Program

BRI's Verified Financial Hardship Program ("VFHP") is constructed to offer qualifying medical patients a minimum discount of 10% off all applicable medical cannabis products. A patient must meet at least one of the following criteria to qualify for BRI's VFHP. An individual must be; (i) a recipient of MassHealth, (ii) recipient of Supplemental Security Income, or (iii) the individual's income may not exceed 300% of the federal poverty level (adjusted for family size).

If a patient meets the above described criteria, verification of such must be provided by presenting one the following to a BRI medical agent:

1. Official MassHealth acceptance letter for the current year; OR official MassHealth redetermination letter for the current year; OR MassHealth Card
2. Supplemental Security Income (SSI) for the current year.
3. Supplemental Nutritional Assistance Program (SNAP) for the current year.
4. Complete State or Federal tax return form the current year. Or the previous year, including all four attachments; All schedules + forms such as W-2, 1099, etc.

Once verification of financial hardship has been presented, a patient will be asked to complete and sign a verification form (attached hereto) which will be submitted and recorded by the manager on duty. If all the above criteria have been met, the patient will be immediately approved and enrolled in the VFHP

and therefore able to access the program benefits at time of purchase. All completed financial hardship verification forms will be stored alphabetically by last name in a locking file cabinet located within a secured limited access area. Periodically, these forms will be scanned and stored digitally.

Additionally, the VFHP discount will be applied to the POS profile of each qualifying patient to ensure that when a patient selects products for purchase, the discount is applied to all applicable items.

Since the development of BRI's VFHP in 2018, BRI has evaluated the impact of the program and introduced new programs based on our assessments and the needs of the communities we serve. BRI recognizes that there are specific groups of people who could benefit from further reduced cost medical cannabis and so we expanded our range of discounts and financial assistance programs.

Additional Programs and Discounts

In addition to our VFHP and in effort to provide financial assistance to patients who may be of a more vulnerable population, BRI offers the following programs and discounts. All BRI programs and discounts are unrestricted, meaning programs and discounts may be combined to offer the maximum discount available.

Loyalty Program

The Loyalty Program is available to all patients at BRI, this program is linked to the profile and cart of each patient and allows patients to accrue 1 point per dollar spent. Points may be redeemed for Cannabis product(s), within different tiers that cover all categories of consumption. Patients may redeem points for reward at their leisure. All available rewards are posted on our website and at each Medical Register, and each patient has a secure patient profile that they can access via our website login, the profile will show previous redemptions and available points and rewards.

Wisdom Discount

The Wisdom Discount provides 10% off applicable cannabis products for patients who are over 65 years of age.

All Veterans Discount

The Veterans Discount provides 20% off applicable cannabis products for patients who have served in any branch of the United States military, patients must present military ID or Veterans ID card for receive discount.

Veterans Care Program

The Disabled Veteran Care Program provides 40% off applicable cannabis products to any Veterans who has a 100% service-connected disability rating from the Veterans Association. Verification of such must be provided in the form of a letter from the Veterans Association. This program was developed in conjunction with our local Veterans Associations after a need for such program was brought to our attention.

Hospice

The Hospice Discount provides 40% off applicable cannabis products to any patient receiving Hospice care.

On an annual basis BRI will assess the impact of our financial assistance programs and discounts and make adaptations to ensure we are accomplishing our objectives and serving the needs our community. Additionally, we will examine the current national poverty level and adapt the criteria to enroll in our VFHP to ensure it aligns with the current economic climate.

Measurements and Evaluation

At least annually, BRI will create a written report that will evaluate the financial assistance programs and the degree to which those programs have succeeded. The report will detail the following: (i) number of individuals enrolled in discount programs; (ii) number of discounts redeemed; and (iii) aggregate data demonstrating the financial impacts of the financial assistance programs. BRI will continue to work non profit organizations within our community to ensure that we continue to serve those populations that are most disadvantaged.

BRI will assure that the plan is tailored to only provide reduced cost or free Marijuana to patients with documented Verified Financial Hardship. The plan will contain measurable goals, and will contain programs design and implemented to accomplish the particular goals set forth in the plan. The plan and the written report evaluating the plan shall include specific information as to the frequency and subject matter of any action/event. BRI's plan shall contains metrics that will be used to assess the progress or success of the plan's goals.
